

0:0:0.0 --> 0:0:1.570

Bradley-Lewis, Thaddeus (SMD 3A01)
Tabs have well.

0:0:3.370 --> 0:0:8.850

Bradley-Lewis, Thaddeus (SMD 3A01)
I guess that's fine. That's recording and transcribing. I can always edit it out before I post it to YouTube.

0:0:12.410 --> 0:0:24.30

Bradley-Lewis, Thaddeus (SMD 3A01)
So do you actually put a recording up on the? I haven't. Yeah. Yeah. So it goes up on the well, I upload it to YouTube and then I put it on like a link.

0:0:24.830 --> 0:0:27.80

Bradley-Lewis, Thaddeus (SMD 3A01)
No. So they can actually watch it.

0:0:29.540 --> 0:0:50.650

Bradley-Lewis, Thaddeus (SMD 3A01)
So I didn't see anything on us on the agenda like that might relate to the church. And unless, yeah, yeah, we're not gonna do it. We're not gonna deliver it on that until the May meeting. Because last time we approved to do April and May. Yeah. Yeah. So I do have the offer for McClain Gardens.

0:0:51.830 --> 0:0:52.590

Bradley-Lewis, Thaddeus (SMD 3A01)
And.

0:0:52.670 --> 0:0:56.190

Bradley-Lewis, Thaddeus (SMD 3A01)
Uh, so it's free.

0:0:57.260 --> 0:0:58.30

Bradley-Lewis, Thaddeus (SMD 3A01)
But.

0:0:58.650 --> 0:1:6.120

Bradley-Lewis, Thaddeus (SMD 3A01)
We have to wait everything. So I mean, you know, I would say whatever amount you think is reasonable.

0:1:7.480 --> 0:1:32.20

Bradley-Lewis, Thaddeus (SMD 3A01)
If you can just like draft something up, because then we're gonna, you know, we're gonna assess all the benefits and drawbacks of of the two options, we might have a fair. I don't think we will though. I think we're just gonna be too. Yeah, too. So, you know, I'm not gonna say, hey, you got to come in at this number and then it will happen, right? It's just gonna be about weighing.

0:1:32.850 --> 0:1:34.380

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah. Running things, yeah.

0:1:35.230 --> 0:1:57.260

Bradley-Lewis, Thaddeus (SMD 3A01)

Including is is Mclean's, the is that that they're ballroom or something. Yeah. Ballroom. Which is would, I mean, just thinking out loud. When every vantage, if you needed a really big meeting, you wouldn't have to move because it's large enough, right? Yeah. But it also. Yeah. I mean there there are outside. So two, but.

0:1:58.110 --> 0:2:10.740

Bradley-Lewis, Thaddeus (SMD 3A01)

Or where did they have to? A sport that they they have? Yeah, they have Wi-Fi and they have a a TV in there. I wanted to test it before the name meeting.

0:2:12.410 --> 0:2:14.980

Bradley-Lewis, Thaddeus (SMD 3A01)

So that ohh cool. And it is.

0:2:19.770 --> 0:2:22.530

Bradley-Lewis, Thaddeus (SMD 3A01)

That's actually the name tags.

0:2:24.370 --> 0:2:25.700

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, there, there.

0:2:26.720 --> 0:2:30.320

Bradley-Lewis, Thaddeus (SMD 3A01)

That was really funny. No way we're going to.

0:2:31.360 --> 0:2:40.280

Bradley-Lewis, Thaddeus (SMD 3A01)

Pattern visible on screen. So what I think I did I tell you what I was planning to do and OK, OK, which I don't know if it's the same thing as you're planning to, she said.

0:2:41.500 --> 0:2:43.320

Bradley-Lewis, Thaddeus (SMD 3A01)

Chat and put like a list of.

0:2:44.240 --> 0:2:52.330

Bradley-Lewis, Thaddeus (SMD 3A01)

Sorry, I'm sure. Yeah. Hey, can I bring something to? Yeah. Ohh. Nice. Hey, Eric. I live in district.

0:2:54.400 --> 0:3:2.420

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't know if you guys know about this, but right, it's cold in Wisconsin. They're trying to put in like a scooter stand. And I just happened to walk by it on Friday.

0:3:3.250 --> 0:3:7.490

Bradley-Lewis, Thaddeus (SMD 3A01)

And the key thing, I mean I'll go over it however much over what you want, OK.

0:3:7.730 --> 0:3:17.400

Bradley-Lewis, Thaddeus (SMD 3A01)

Third time. What? What time would I do? My 2 minutes? Is that like so we can do. Yeah. Yeah, so I think.

0:3:18.810 --> 0:3:23.340

Bradley-Lewis, Thaddeus (SMD 3A01)

I would say you don't worry. You have two options, OK.

0:3:24.670 --> 0:3:34.360

Bradley-Lewis, Thaddeus (SMD 3A01)

How you doing? If you like? Like if you wanted to kind of like do something like really comprehensive offline outside of the meeting.

0:3:35.680 --> 0:4:2.620

Bradley-Lewis, Thaddeus (SMD 3A01)

Then you can take the community announcement. Those two minutes. OK. Say, here's a situation that we have that I really want you guys to look into and, you know, examine the impacts, you know, whatever is going on there, right. You could take that two minutes and give us that sort of prompt and then we can address that. Maybe we wouldn't deliberate and vote on something. No, I get that. But you could do that or we could go into it and open forum.

0:4:3.900 --> 0:4:4.620

Bradley-Lewis, Thaddeus (SMD 3A01)

How does that work?

0:4:5.340 --> 0:4:11.710

Bradley-Lewis, Thaddeus (SMD 3A01)

Open form. I also try to kind of keep to two minutes per speaker.

0:4:13.60 --> 0:4:26.420

Bradley-Lewis, Thaddeus (SMD 3A01)

By that's what whatever you prefer. I mean, basically, I didn't know this was coming. OK. I don't know what yet. Did you guys know this was coming? I didn't know. No. Well, I mean, and would be the one who might know, right? Since it's our SMB. But.

0:4:27.680 --> 0:4:37.150

Bradley-Lewis, Thaddeus (SMD 3A01)

But basically, I'm just gonna. I'm not even. I'm just gonna hit for 30 seconds. OK. The stuff that's on there because you already see it. Yeah, and my hope is that.

0:4:38.570 --> 0:5:8.320

Bradley-Lewis, Thaddeus (SMD 3A01)

I have no power to really make did not do anything right. The T dot guy was there installing that and I asked him something simple like, hey, what's the project over that? And like, he was a nice guy, but he didn't even have that. So I feel like my hope is I just kind of tell you what's up and then kind of hit two or three points that aren't on that paper that I think are relevant. And then hopefully you guys can tell them, I mean, my point is the same block. There's a dead end spot where they can put that up there.

0:5:8.660 --> 0:5:15.800

Bradley-Lewis, Thaddeus (SMD 3A01)

Right. Or there's the tree boxes or whatever, and it's just. I've already seen it in the four or five days people are turning.

0:5:16.520 --> 0:5:48.980

Bradley-Lewis, Thaddeus (SMD 3A01)

From Wisconsin, onto that street at 5:00 o'clock today, we had to wait the whole life cycle cause one guy was like too far over the line because of the that pylons or whatever those are called and then the whole thing is a disaster. Is just gonna get worse when they put the scooter stand in there. Have you? How does the pylons affect the driver going over the line is because it kicks out enough that if you're anything bigger than the car, you can't fit there. Where they're going left, right or straight.

0:5:49.350 --> 0:6:15.280

Bradley-Lewis, Thaddeus (SMD 3A01)

You're on the line. If you are a car and you just don't wanna be like riding right next to those pylons, you're still leaking. And like I live here, so like, I'm used to it in the haven't done it five times since Friday, but you guys know a lot of people cut through on Fulton. It's just gonna lead to, like, cluster. You know, what's have you have you had any communication with Krishnan? Panera.

0:6:17.190 --> 0:6:25.530

Bradley-Lewis, Thaddeus (SMD 3A01)

He's uh, he's the Ward 3 liaison for Dida. OK. And I mean, we would go. We're gonna, you know, we'll go to him.

0:6:26.960 --> 0:6:45.860

Bradley-Lewis, Thaddeus (SMD 3A01)

To give more information about what they're doing. Yeah, so that we can get that in writing. Yeah, I figured you guys would get more answers as five of you and having, like, an actual what's elected position to address? It's at the at the intersection of 1 and Wisconsin, right. Yep. Yeah. On the South side of the.

0:6:49.290 --> 0:6:59.190

Bradley-Lewis, Thaddeus (SMD 3A01)

So one of just I'm not. I'm not trying to like blind side you my thing, but like one of my points that I'm gonna make is everyone's like ohh just call 311 which is a big deal, right. I've called 311 twice in my life.

0:7:0.30 --> 0:7:0.960

Bradley-Lewis, Thaddeus (SMD 3A01)

Once to get.

0:7:2.420 --> 0:7:18.110

Bradley-Lewis, Thaddeus (SMD 3A01)

One of those temporary storage units off the street took three months, the other because they like utilities, drug dug a trench on Garfield. It took weeks like so 311 and it sounds nice. In theory it doesn't leave that much.

0:7:21.590 --> 0:7:21.940

Bradley-Lewis, Thaddeus (SMD 3A01)

So.

0:7:23.470 --> 0:7:34.520

Bradley-Lewis, Thaddeus (SMD 3A01)

How do you send me the head of the contractor here? Ohh. You know how to reach me if you guys have this problem? Absolutely. So just let me know. Thank you. So how about this one?

0:7:35.270 --> 0:7:36.520

Bradley-Lewis, Thaddeus (SMD 3A01)

So fast.

0:7:38.650 --> 0:7:43.860

Bradley-Lewis, Thaddeus (SMD 3A01)

We could maybe get Christian that I need to get Christian to come out and look at some things on Massachusetts Ave. at that.

0:7:45.280 --> 0:8:4.190

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you again. So the ward circle, I want Christian to look at Ward Circle and traffic light on Massachusetts, no crossing the trail here from Massachusetts. So we could just make it another like force stop trip and add.

0:8:5.210 --> 0:8:6.210

Bradley-Lewis, Thaddeus (SMD 3A01)

Type in judge.

0:8:6.290 --> 0:8:8.320

Bradley-Lewis, Thaddeus (SMD 3A01)

That's right. You see, maybe Friday.

0:8:9.680 --> 0:8:10.450

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, I can do that.

0:8:10.520 --> 0:8:14.830

Bradley-Lewis, Thaddeus (SMD 3A01)

Got it. Got person. But yeah. Did you see that the word?

0:8:16.950 --> 0:8:18.820

Bradley-Lewis, Thaddeus (SMD 3A01)

Let's hear about how they were.

0:8:20.140 --> 0:8:30.540

Bradley-Lewis, Thaddeus (SMD 3A01)

22 are you like Department of Environment, Sir? I'm the mayor's office community relations and services. So I have the between you. It's for government agencies.

0:8:31.280 --> 0:8:33.370

Bradley-Lewis, Thaddeus (SMD 3A01)
Wake that Matthew Berkeley.

0:8:33.470 --> 0:8:34.890

Bradley-Lewis, Thaddeus (SMD 3A01)
OK, Connecticut.

0:8:35.880 --> 0:8:36.280

Bradley-Lewis, Thaddeus (SMD 3A01)
Hello.

0:8:36.420 --> 0:8:36.680

Bradley-Lewis, Thaddeus (SMD 3A01)
It's.

0:8:40.790 --> 0:8:41.460

Bradley-Lewis, Thaddeus (SMD 3A01)
Understand.

0:8:46.160 --> 0:8:48.450

Bradley-Lewis, Thaddeus (SMD 3A01)
No. Yeah. I feel like nobody knew that was coming.

0:8:48.530 --> 0:8:48.900

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah.

0:8:50.700 --> 0:8:53.990

Bradley-Lewis, Thaddeus (SMD 3A01)
That's that's my 2 minutes today, so I think I heard Christians.

0:8:54.110 --> 0:8:56.340

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah, yeah, yeah.

0:8:56.420 --> 0:8:59.370

Bradley-Lewis, Thaddeus (SMD 3A01)
But that's been done with the error. Would be receptive to.

0:8:59.500 --> 0:9:16.350

Bradley-Lewis, Thaddeus (SMD 3A01)
Like you didn't know things really good there. I think it's great. You know, you're the answer he might give you might not be the answer that you like, but he'll give. He will give it and he'll be responsive to it. Sure. That's good. I it seems like such a no brainer throwing up.

0:9:16.440 --> 0:9:22.410

Bradley-Lewis, Thaddeus (SMD 3A01)
And then start practicing. That's on the same block, but I I couldn't even like.

0:9:22.490 --> 0:9:25.530

Bradley-Lewis, Thaddeus (SMD 3A01)
He does. Since I didn't digital scooter.

0:9:26.420 --> 0:9:56.110

Bradley-Lewis, Thaddeus (SMD 3A01)

Like what do they look like, scooter? I don't think it's a scooter. I think it's just traffic calming. Is it? Just the bump up? No, no. I literally asked. He said it was her scooter. I said to the dot guy, he's this. It's called daylighting. Right. As like, as if the day lighting, which is like where they take a parking space away. So you can see around the turn, the D dot guy who isn't just a guy that installs. He said specifically, he's a guy that works in the authors. He said no, this is going to be a scooter stand. It's one of those like.

0:9:56.710 --> 0:10:26.360

Bradley-Lewis, Thaddeus (SMD 3A01)

Black metal bars. There's usually one, but they're, but they're putting it on the card, correct that they're putting it in between those four white cones and the yeah, yeah. Between the cones and the curve. Right. So it'll be on the street when all they have to do is not put it on the street or split it on the dead. And one other place in the city that's in the palace. It's. Yeah. I think they took around parking spaces there probably because. Right. Right. Yeah. Yeah. Yeah. No. They they used to have something like that in the Palisades.

0:10:26.440 --> 0:10:27.340

Bradley-Lewis, Thaddeus (SMD 3A01)
And it was very.

0:10:28.550 --> 0:10:44.520

Bradley-Lewis, Thaddeus (SMD 3A01)

And then, but something like that. Yeah. I thought that was the best situation. I I have seen more of them over. Let's that neighborhood down 16 from that. It's Morgan. I've seen him over in that neck of the woods. Whatever that neighborhood spelled.

0:10:45.700 --> 0:10:48.790

Bradley-Lewis, Thaddeus (SMD 3A01)
Www.16theyredonesolike.

0:10:49.740 --> 0:10:52.960

Bradley-Lewis, Thaddeus (SMD 3A01)
But there's there's residential below.

0:10:53.460 --> 0:10:55.940

Bradley-Lewis, Thaddeus (SMD 3A01)
I use not hello.

0:10:56.120 --> 0:11:6.160

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh DuPont, Florida. What cuts to ground floor? The top part is like the McDonald's is on what you know. Well, it's Columbia and then it becomes a 18.

0:11:7.400 --> 0:11:23.320

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, but just SE W that's Florida. That's four again. So if you go down to Florida between 18th and 16th, there's a neighborhood. I don't remember the name of it. Maybe it's just that was Morgan. Yeah. And I've seen one or two at least.

0:11:23.400 --> 0:11:24.570

Bradley-Lewis, Thaddeus (SMD 3A01)

There's something in there.

0:11:25.770 --> 0:11:32.290

Bradley-Lewis, Thaddeus (SMD 3A01)

So I'm gonna send over here and I'll just go through the slides, OK? He talks. That's not really.

0:11:34.350 --> 0:11:37.390

Bradley-Lewis, Thaddeus (SMD 3A01)

You know what I didn't realize there's until today?

0:11:38.770 --> 0:11:39.740

Bradley-Lewis, Thaddeus (SMD 3A01)

It's spring break.

0:11:40.930 --> 0:11:47.890

Bradley-Lewis, Thaddeus (SMD 3A01)

See the four wasn't pylon for DCPS. Yeah, the four way pylons is the scooter. Metal is gonna be beginning.

0:11:48.250 --> 0:11:48.870

Bradley-Lewis, Thaddeus (SMD 3A01)

Inside.

0:11:48.970 --> 0:11:50.560

Bradley-Lewis, Thaddeus (SMD 3A01)

So OK, we're like 5 days.

0:11:51.460 --> 0:11:55.100

Bradley-Lewis, Thaddeus (SMD 3A01)

That would be so down South side.

0:11:55.840 --> 0:11:57.730

Bradley-Lewis, Thaddeus (SMD 3A01)

1410 S.

0:11:59.40 --> 0:11:59.360

Bradley-Lewis, Thaddeus (SMD 3A01)

OK.

0:12:0.890 --> 0:12:1.200

Bradley-Lewis, Thaddeus (SMD 3A01)
Got it.

0:12:2.110 --> 0:12:7.910

Bradley-Lewis, Thaddeus (SMD 3A01)
Young was kind of important resources wedding over one people wanted to see if therapy, but maybe we don't.

0:12:9.820 --> 0:12:32.820

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah, we're going down there be time. It's backed up. I think they'll be around. I think there'll be a lot. They just won't be here. And that's the only change that we started. Person. Yeah. It was just such a shot. I literally went to go to Trader Joe's. I was walking down the hill and then he must have come on my way back because on my way back. I mean, it's only a few minutes to install those. Yeah. And I just. It's like, wait, what?

0:12:36.850 --> 0:12:37.290

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes.

0:12:38.820 --> 0:12:39.50

Bradley-Lewis, Thaddeus (SMD 3A01)
Here.

0:12:41.290 --> 0:12:48.720

Bradley-Lewis, Thaddeus (SMD 3A01)
And the key was sorry, whenever you want me to show up. So the key is that if you're coming from Georgetown over park.

0:12:49.820 --> 0:13:11.780

Bradley-Lewis, Thaddeus (SMD 3A01)
This is this is I might sound selfish about what happens on folds and farm, right, but really it's the whole neighborhood because you're coming from the South. So the angle left on Garfield can't make a left mess. So you're forcing everybody in that one spot to fit in a squeeze 7 seconds. Whatever. It's just. It's gonna be madness.

0:13:12.50 --> 0:13:12.450

Bradley-Lewis, Thaddeus (SMD 3A01)
Family.

0:13:13.930 --> 0:13:14.680

Bradley-Lewis, Thaddeus (SMD 3A01)
Questing.

0:13:19.880 --> 0:13:20.260

Bradley-Lewis, Thaddeus (SMD 3A01)
Decide.

0:13:20.820 --> 0:13:27.670

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't have that works. I don't know if that's a situation where. I mean, I don't. It doesn't.

0:13:32.530 --> 0:13:33.720

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, thank you.

0:13:35.370 --> 0:13:35.670

Bradley-Lewis, Thaddeus (SMD 3A01)

Hey.

0:13:37.870 --> 0:13:43.770

Bradley-Lewis, Thaddeus (SMD 3A01)

So I'm gonna be back here and I think the slides will be. That's why unless you wanna do.

0:13:50.850 --> 0:13:52.510

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, yeah.

0:13:57.360 --> 0:14:0.420

Bradley-Lewis, Thaddeus (SMD 3A01)

This is quite a few online how many are online right now?

0:14:1.270 --> 0:14:1.680

Bradley-Lewis, Thaddeus (SMD 3A01)

Intel.

0:14:2.510 --> 0:14:3.840

Bradley-Lewis, Thaddeus (SMD 3A01)

And so they not many.

0:14:5.520 --> 0:14:5.850

Bradley-Lewis, Thaddeus (SMD 3A01)

Well.

0:14:7.700 --> 0:14:10.40

Bradley-Lewis, Thaddeus (SMD 3A01)

Because it is spring break, right? Yes.

0:14:11.370 --> 0:14:11.600

David White

Right.

0:14:11.690 --> 0:14:18.590

Bradley-Lewis, Thaddeus (SMD 3A01)

People are very much very much breaking right. Yeah. I wonder how many people who would normally want to see Fairview.

0:14:20.690 --> 0:14:22.0

Bradley-Lewis, Thaddeus (SMD 3A01)
Maybe not be around.

0:14:23.410 --> 0:14:25.290

Bradley-Lewis, Thaddeus (SMD 3A01)
There is there.

0:14:25.970 --> 0:14:27.240

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah, I'll just plan.

0:14:30.90 --> 0:14:31.110

David White
Tonight, finding your.

0:14:38.820 --> 0:14:43.850

Bradley-Lewis, Thaddeus (SMD 3A01)
That was afraid that I would have to be flagging people away from asking questions, but now it's not.

0:14:45.550 --> 0:14:46.270

Bradley-Lewis, Thaddeus (SMD 3A01)
There was this one.

0:14:59.820 --> 0:15:1.310

Bradley-Lewis, Thaddeus (SMD 3A01)
That just need to have the budget.

0:15:3.950 --> 0:15:4.380

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah.

0:15:5.590 --> 0:15:7.320

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah, yeah. I don't think he's gonna.

0:15:7.420 --> 0:15:8.30

Bradley-Lewis, Thaddeus (SMD 3A01)
That's all.

0:15:14.150 --> 0:15:15.120

Bradley-Lewis, Thaddeus (SMD 3A01)
So that's something that.

0:15:17.580 --> 0:15:20.210

Bradley-Lewis, Thaddeus (SMD 3A01)
Not tonight. Yeah, we'll be doing that at the next meeting.

0:15:22.380 --> 0:15:23.320

Bradley-Lewis, Thaddeus (SMD 3A01)
This meeting here.

0:15:28.580 --> 0:15:29.230

Bradley-Lewis, Thaddeus (SMD 3A01)
I know, right?

0:15:29.310 --> 0:15:30.150

Bradley-Lewis, Thaddeus (SMD 3A01)
So it's very well.

0:15:35.450 --> 0:15:39.990

Bradley-Lewis, Thaddeus (SMD 3A01)
7:00 o'clock. I don't know about Jerry now that's just reading.

0:15:41.660 --> 0:15:42.10

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah.

0:15:46.300 --> 0:15:46.880

Bradley-Lewis, Thaddeus (SMD 3A01)
Hello.

0:15:49.510 --> 0:15:54.150

Bradley-Lewis, Thaddeus (SMD 3A01)
We wanna get started, Sir. We do do it. That's an honest question.

0:15:54.300 --> 0:15:55.760

Bradley-Lewis, Thaddeus (SMD 3A01)
But not in the place.

0:15:57.540 --> 0:15:58.570

Bradley-Lewis, Thaddeus (SMD 3A01)
He has a place to go.

0:16:0.940 --> 0:16:12.470

Bradley-Lewis, Thaddeus (SMD 3A01)
OK, we do have quorum. So yeah, like, yeah, that's right. The template subject following. Wow. Yeah.
That's why that wasn't reported question because Jeremy is not here right now. I haven't heard.

0:16:18.970 --> 0:16:19.300

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes.

0:16:20.390 --> 0:16:21.60

Bradley-Lewis, Thaddeus (SMD 3A01)
How do I get in?

0:16:22.310 --> 0:16:24.100

Bradley-Lewis, Thaddeus (SMD 3A01)
Hello, this is dad speaking. Do you have?

0:16:28.170 --> 0:16:30.320

Bradley-Lewis, Thaddeus (SMD 3A01)
How are you doing? Good evening.

0:16:33.740 --> 0:16:34.80

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes.

0:16:42.610 --> 0:16:43.250

Bradley-Lewis, Thaddeus (SMD 3A01)
For protection.

0:16:44.820 --> 0:16:46.810

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes, yes.

0:16:51.910 --> 0:16:56.980

Bradley-Lewis, Thaddeus (SMD 3A01)
OK. Is there any particular reason I should say I you're welcome to sit right there, OK.

0:16:58.620 --> 0:17:1.330

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah. And then he's gonna go first and then.

0:17:2.740 --> 0:17:10.500

Bradley-Lewis, Thaddeus (SMD 3A01)
But you don't think it's a beautiful church? Yes. Make sure. Let me take the there we go. Just. No, that can't.

0:17:11.450 --> 0:17:11.980

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah. OK.

0:17:14.810 --> 0:17:15.700

Bradley-Lewis, Thaddeus (SMD 3A01)
All right.

0:17:17.900 --> 0:17:22.480

Bradley-Lewis, Thaddeus (SMD 3A01)
The time is 702. I'm gonna call this meeting of the NC3A to order.

0:17:23.980 --> 0:17:30.150

Bradley-Lewis, Thaddeus (SMD 3A01)
Uh, we are recording on Microsoft Teams and we'll start with the roll call.

0:17:30.940 --> 0:17:33.920

Bradley-Lewis, Thaddeus (SMD 3A01)

From what to write and I will also put this in chat.

0:17:40.380 --> 0:17:40.990

Bradley-Lewis, Thaddeus (SMD 3A01)

Can you send me the?

0:17:41.90 --> 0:17:42.290

Bradley-Lewis, Thaddeus (SMD 3A01)

Now why on the left?

0:17:42.460 --> 0:17:43.370

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't understand why.

0:17:47.770 --> 0:17:48.140

Bradley-Lewis, Thaddeus (SMD 3A01)

I just.

0:17:48.480 --> 0:17:50.530

Bradley-Lewis, Thaddeus (SMD 3A01)

It's just that the profile.

0:17:52.630 --> 0:18:3.350

Bradley-Lewis, Thaddeus (SMD 3A01)

Free A05 Huntsville 3A fruit that is Bradley Lewis 301-3802.

0:18:5.130 --> 0:18:10.820

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright. And I'll confirm with Secretary Mellanox that we do have a quorum, yes.

0:18:12.350 --> 0:18:13.470

Bradley-Lewis, Thaddeus (SMD 3A01)

All parts of the world.

0:18:15.330 --> 0:18:15.820

Bradley-Lewis, Thaddeus (SMD 3A01)

Great.

0:18:17.90 --> 0:18:21.440

Bradley-Lewis, Thaddeus (SMD 3A01)

1st on the Agenda, well, first we'll approve tonight's agenda.

0:18:22.750 --> 0:18:27.800

Bradley-Lewis, Thaddeus (SMD 3A01)

That was disseminated 7 days ago for the open meetings law.

0:18:28.680 --> 0:18:31.310

Bradley-Lewis, Thaddeus (SMD 3A01)
I'll confirm motion.

0:18:32.830 --> 0:18:33.400

Bradley-Lewis, Thaddeus (SMD 3A01)
Accepted.

0:18:34.950 --> 0:18:35.350

Bradley-Lewis, Thaddeus (SMD 3A01)
Of course.

0:18:36.740 --> 0:18:41.550

Bradley-Lewis, Thaddeus (SMD 3A01)
Be gentle. Do I have a second second? Second, are there any amendments proposed?

0:18:43.150 --> 0:18:47.160

Bradley-Lewis, Thaddeus (SMD 3A01)
Hearing none, uh, all in favor of approving tonight's agenda.

0:18:47.930 --> 0:18:50.60

Bradley-Lewis, Thaddeus (SMD 3A01)
Aye uh by voice vote.

0:18:50.860 --> 0:18:52.250

Bradley-Lewis, Thaddeus (SMD 3A01)
It's unanimous approval.

0:18:53.350 --> 0:18:59.870

Bradley-Lewis, Thaddeus (SMD 3A01)
I've next we're gonna start on tonight's agenda with Captain Tatiana Savoy from the 2nd district.

0:19:0.930 --> 0:19:7.960

Bradley-Lewis, Thaddeus (SMD 3A01)
Captain devoid. I believe you should be able to enable your camera now and come off mute.

0:19:11.780 --> 0:19:12.720

Savoy, Tatjana (MPD)
Hi, good evening.

0:19:15.40 --> 0:19:29.530

Bradley-Lewis, Thaddeus (SMD 3A01)
Good evening, Captain Savoy in. In the interest of time, I I sent you some some issues that the Commissioner said brought forward. Did you wanna just address those or if there was anything more general that you would like to speak to? You're welcome to go ahead.

0:19:30.260 --> 0:19:49.660

Savoy, Tatjana (MPD)
Right. Yes, Sir. So, so the last time we met last month on the 21st, some of the concerns was certain

areas of track for traffic enforcement. So I just kind of wanted to give you all what my traffic enforcement officers were able to.

0:20:7.840 --> 0:20:8.240

Bradley-Lewis, Thaddeus (SMD 3A01)

That's it.

0:20:8.290 --> 0:20:9.660

Savoy, Tatjana (MPD)

238 and Macomb.

0:20:10.300 --> 0:20:23.90

Savoy, Tatjana (MPD)

Umm so on Garfield a total of 14 stop sign violations 2 no U-turn violations in one failure to exhibit a A permit.

0:20:23.930 --> 0:20:29.500

Savoy, Tatjana (MPD)

For the 38 to the 3900 block of McComb, seven stop sign violations.

0:20:30.260 --> 0:20:51.230

Savoy, Tatjana (MPD)

No parking anytime violations. That was five of those one. No, you turn 820 and over speeding 315 and over. Speeding 1 unreasonable speeding 1 distracted driver in a total of four insurance violations.

0:20:51.940 --> 0:20:57.170

Savoy, Tatjana (MPD)

Umm I was not able to find anything for could for Cathedral.

0:21:3.390 --> 0:21:3.870

Bradley-Lewis, Thaddeus (SMD 3A01)

That this.

0:20:58.340 --> 0:21:4.990

Savoy, Tatjana (MPD)

So I'm gonna actually put that on the the I guess the the top part 40 moving forward.

0:21:6.210 --> 0:21:6.400

Bradley-Lewis, Thaddeus (SMD 3A01)

This.

0:21:5.690 --> 0:21:6.520

Savoy, Tatjana (MPD)

This next month.

0:21:9.580 --> 0:21:17.610

Bradley-Lewis, Thaddeus (SMD 3A01)

Great. Thank you so much. Captain Savoie, do we have any other questions from Commissioners for Captain Savoie this evening? What is it? An insurance violation?

0:21:27.230 --> 0:21:27.570

Bradley-Lewis, Thaddeus (SMD 3A01)

This.

0:21:19.70 --> 0:21:38.70

Savoy, Tatjana (MPD)

It could just be maybe someone did not have insurance that fail to show proof of insurance. It just says when I was when I pulled it up, it said four, no insurance and then well two, no insurance and two, no proof of insurance. So total of four insurance violations.

0:21:39.830 --> 0:21:41.780

Bradley-Lewis, Thaddeus (SMD 3A01)

These were people who were stopped for other things.

0:21:43.530 --> 0:21:44.200

Savoy, Tatjana (MPD)

I'm sorry.

0:21:44.700 --> 0:21:48.990

Bradley-Lewis, Thaddeus (SMD 3A01)

These were people who were stopped for other things, other violations, violations.

0:21:49.570 --> 0:21:49.920

Bradley-Lewis, Thaddeus (SMD 3A01)

But.

0:21:48.470 --> 0:21:55.680

Savoy, Tatjana (MPD)

Yes, ma'am. So like if they were, if they, if they were stopped for passing through a stop sign, it was discovered that they had no insurance.

0:21:57.20 --> 0:21:57.480

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you.

0:21:59.20 --> 0:22:0.880

Bradley-Lewis, Thaddeus (SMD 3A01)

All right, very much.

0:22:1.510 --> 0:22:16.570

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, thank you so much, Captain Savoy duet. But if we have any questions either in the room or if you're in the meeting via teams, if you could raise your hand, I'll give everybody a few seconds. First of all, in the room. Any questions?

0:22:17.870 --> 0:22:19.300

Bradley-Lewis, Thaddeus (SMD 3A01)

Seeing none.

0:22:21.120 --> 0:22:22.10

Bradley-Lewis, Thaddeus (SMD 3A01)
In the room.

0:22:23.50 --> 0:22:25.70

Bradley-Lewis, Thaddeus (SMD 3A01)
Seeing no raised hands.

0:22:32.960 --> 0:22:33.300

Savoy, Tatjana (MPD)
OK.

0:22:26.570 --> 0:22:36.590

Bradley-Lewis, Thaddeus (SMD 3A01)
On teams, I thank you so much, Captain Savoie. We really appreciate you presenting tonight and I guess we'll. We'll look forward to hearing about cathedral at our next meeting.

0:22:38.960 --> 0:22:39.310

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes.

0:22:36.980 --> 0:22:42.500

Savoy, Tatjana (MPD)
OK. So we'll really quickly the 39 to the 4100 block of cathedral, correct?

0:22:43.210 --> 0:22:43.700

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes.

0:22:44.200 --> 0:22:44.610

Savoy, Tatjana (MPD)
OK.

0:22:44.930 --> 0:22:45.920

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes, that would be great.

0:22:46.470 --> 0:22:47.610

Savoy, Tatjana (MPD)
OK. Thank you.

0:22:48.140 --> 0:22:48.980

Bradley-Lewis, Thaddeus (SMD 3A01)
Thank you.

0:22:49.340 --> 0:22:49.770

Savoy, Tatjana (MPD)
Bye.

0:22:50.320 --> 0:22:51.60

Bradley-Lewis, Thaddeus (SMD 3A01)
Bye.

0:22:52.910 --> 0:22:53.670

Bradley-Lewis, Thaddeus (SMD 3A01)
Alright.

0:22:58.30 --> 0:23:17.440

Bradley-Lewis, Thaddeus (SMD 3A01)

So I now owe Matthew meeting invite. Unless you've found your way in in the intervening time. OK. Alright. In order to facilitate Chancellor fairies presentation this evening, I'm going to try to quickly get that to Mr. Barclay. In the meantime, if you just like to.

0:23:18.310 --> 0:23:48.40

Bradley-Lewis, Thaddeus (SMD 3A01)

Introduce yourself. OK, sure. So. Good evening, everyone. I am Louis fairy chance to put the District of Columbia public schools. It's great to be with you this evening. I'm going to recognize council member Friedman who joined us, and also Sharon Robinson, who has the camera, sees our manager for community fairs and engagement. And so my pleasure this evening to share a little bit about the mayor's budget, but more specifically about DCPS and education budget.

0:23:48.510 --> 0:24:18.130

Bradley-Lewis, Thaddeus (SMD 3A01)

When we're in this phase in the process, I always like to frame which step in the process we're currently in. And so as you may know, the mayor has already submitted her proposed budget in the budget at this point, really is what the Council and I share that because as we were developing the budget, obviously we used the best resources and thinking we had at the time to make decisions about how do we fund schools. And sometimes when we do that.

0:24:18.520 --> 0:24:49.410

Bradley-Lewis, Thaddeus (SMD 3A01)

People appreciate that work and there's lots of affirmation, and then there's always some concerns as well. And so we're at the phase in the process where if you hear something or there's something in the budget that you feel like we're in the right direction, feel free to affirm that with Council. And also if there are opportunities where you think we need to get something right, we always welcome that feedback in advocacy on behalf of our students.

0:24:49.740 --> 0:25:19.970

Bradley-Lewis, Thaddeus (SMD 3A01)

Ohh as well I am biased. There's never enough resources for our young people as it's critical that they're prepared for success in college and career. And So what we tried to do is build a budget that reflects that. We are proud that of all the government agencies that you look at what's being funding in the fiscal year 24 proposal for the mayor's education is one of the areas where we see still dramatic increases and in very tight budget.

0:25:20.60 --> 0:25:35.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Here and in fact, it's important to note that schools are funded on a formula, and we call that the uniform per student funding formula. That's important to note that because oftentimes when we get advocacy, it's about a specific school.

0:25:36.470 --> 0:26:6.780

Bradley-Lewis, Thaddeus (SMD 3A01)

And to be clear, the mayor doesn't allocate dollars based on amount for a school. It is a formula. And that formula takes into consideration the needs of students in the school, the type of population that being served, and then the number of students that are in the building, specifically in DCPS, our formula is built on a based amount of dollars that goes with every student. And then on top of that, there are additional dollars based on student needs. So there's additional weights for.

0:26:6.880 --> 0:26:26.610

Bradley-Lewis, Thaddeus (SMD 3A01)

Students receive this person to case and services language learning services where we know students need additional resources to see academically. Now, with the type budget year, what we were challenged with this year is how do we ensure that we have all the resources in place to recover strong?

0:26:27.550 --> 0:26:36.180

Bradley-Lewis, Thaddeus (SMD 3A01)

But at the same time, knowing that we have federal resources that were one time resources that we won't have access to beyond fiscal year 24.

0:26:36.940 --> 0:26:56.360

Bradley-Lewis, Thaddeus (SMD 3A01)

And so we had to make some tough decisions. And one of those tough decisions was what we can find as everybody's to one time resources. And so we made a decision that we would fund up to 95% of what a school had your before, including the one time federal resources.

0:26:57.120 --> 0:27:8.510

Bradley-Lewis, Thaddeus (SMD 3A01)

We wanted to get to 100%, but it was not feasible if we want to continue our path of funding the additional dollars towards students who we believe needed more resources.

0:27:9.410 --> 0:27:39.600

Bradley-Lewis, Thaddeus (SMD 3A01)

That's going to be an ongoing challenge because we are still facing out those dollars. So next year may not be 95%, it may be 90%. We are able to do that through the mayor's recovery funds. So on top of the \$2 billion that is in the uniform per student funding formula, the mayor added additional \$18 million in recovery dollars on the capital side, there's also \$2.71 billion in capital improvements.

0:27:39.930 --> 0:28:10.730

Bradley-Lewis, Thaddeus (SMD 3A01)

Over the next five years, part of that is designed to continue our path with our modernizations, which is based on the pay SAG, which determines which schools receive modernization and which point in time.

And then there are a number of small capital projects as well that we're focusing on, particularly around our HVAC systems to ensure that we continue to provide comfortable settings for students and staff. It's been the area that focused for us for a while, especially getting ahead and preventing maintenance.

0:28:10.810 --> 0:28:21.780

Bradley-Lewis, Thaddeus (SMD 3A01)

So we care. The other area is around safety. So you can imagine schools you want to ensure continue to be a safe place. So door locking systems.

0:28:21.860 --> 0:28:52.450

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh cameras monitoring systems. Entry systems want to ensure that all of those are up to date and fully functional, and then on the technology side, we continue to ensure that our students have devices that are in life cycle. In addition, we're updating schools and a phased approach of having smart boards and every classroom which allows our teachers to utilize very intuitive whiteboards to convey topics to videos.

0:28:52.570 --> 0:29:12.390

Bradley-Lewis, Thaddeus (SMD 3A01)

The number of different features that they have and that we're excited that we're able to continue that. So that's also built into our budget. But I think the main tension point, especially in communities where the main source of decline in dollars is because of one time funding, which is the case for most of our schools and Ward 3.

0:29:13.690 --> 0:29:43.180

Bradley-Lewis, Thaddeus (SMD 3A01)

You know, we again just wanted you to know that there is, there's a tough decision that we have to make and it's not just the CPS, you know, it is a national challenge. It is impacting, you know, child care facilities, other places where federal resources were used to fill in some gaps stores to pay differently. So our stopped there. I could give you lots of other numbers about the budget, but I'm quite sure you have some some questions for me. So unless there's anything that I've referenced that you have questions about.

0:29:43.260 --> 0:29:46.460

Bradley-Lewis, Thaddeus (SMD 3A01)

Happy to just dive into the general questions at this time.

0:29:47.540 --> 0:29:52.510

Bradley-Lewis, Thaddeus (SMD 3A01)

That's great. Thank you, Chancellor Harvey, do we wanna start with questions from Commissioners?

0:29:56.90 --> 0:30:22.350

Bradley-Lewis, Thaddeus (SMD 3A01)

Do you wanna hear that? I did have a brief question, Chancellor therapy. Thank you so much. We did comment on the initial DCPS proposal. As you probably know, because all of the elementary schools in our area were slated for a 5.26% reduction in the coming year. And in the mayor's budget, that was

abandoned. And it looked like you adopted a different formula. Our schools have all been proved together and serve.

0:30:22.410 --> 0:30:28.240

Bradley-Lewis, Thaddeus (SMD 3A01)

Crack at it didn't lose too many games, too many and now speech percentage is different.

0:30:29.180 --> 0:30:47.870

Bradley-Lewis, Thaddeus (SMD 3A01)

Still have several schools declining, but it looks like at risks. Do percentage was a part of that formula, so it was the change expected and the enrollment and at risk. Can you tell us a little bit about how that looks like some of them were down 5%, some of them are 1.7?

0:30:48.710 --> 0:31:15.490

Bradley-Lewis, Thaddeus (SMD 3A01)

Straight up from school, so the formal for this coming school year fiscal year 24 is pretty consistent with what we had last year, but with a couple of changes. So the major change that I wanna point out is in fiscal year 23 for this current school year, we funded every school at 100% of what they received the year before inclusive of one time federal funding.

0:31:16.150 --> 0:31:46.140

Bradley-Lewis, Thaddeus (SMD 3A01)

That we wanted to do that this year, however, because the budget was much tighter this year, we were not able to transfer over all of the funding that was associated with the federal funding. And so we're now at 95% as the minimum threshold. So every school will receive inclusive of one time funding at least 95% of what they got the year before. Now what that means though is that if you got large amount.

0:31:46.230 --> 0:32:9.650

Bradley-Lewis, Thaddeus (SMD 3A01)

Of federal funding in the previous year that made me that 5% will result in a reduction in what you have this year, even if you're involvement was consistent or you saw modest increases in a little bit, which is pretty consistent on most of the schools and ward three with Jackson Lee High School and the Newbery Charter High School being outliers.

0:32:11.520 --> 0:32:11.980

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you.

0:32:13.470 --> 0:32:35.920

Bradley-Lewis, Thaddeus (SMD 3A01)

In what ways Jackson reading outlier. Ohh so many of our high school we see have a higher number of students because of size and population that have greater needs in those categories that I mentioned earlier. So that results of them having more funding. So for example Jackson Reed is our largest school in the CPS.

0:32:36.610 --> 0:32:49.980

Bradley-Lewis, Thaddeus (SMD 3A01)

Now we MacArthur opening, which is designed to relieve some of the population of ground, Jackson

Reed, some of the students will transition over, but still Jackson reads, though, continues to be on larger school.

0:32:52.140 --> 0:33:10.250

Bradley-Lewis, Thaddeus (SMD 3A01)

A comparison specially to some of our, you know, elementary schools and the needs and the diversity of Jackson, we is also very unique as well because it does serve a lot of students within the boundary. But there are also many students who travel to Jackson Reed as well.

0:33:12.650 --> 0:33:19.280

Bradley-Lewis, Thaddeus (SMD 3A01)

Thanks so much for coming. We appreciate you being here tonight and talking with us. Had a question specifically about first elementary?

0:33:20.700 --> 0:33:30.880

Bradley-Lewis, Thaddeus (SMD 3A01)

I think it was last week. It might have been a little further back. The principal sent a letter to the community that she was not going to be continuing his principal next year. And I'm sure you.

0:33:31.890 --> 0:33:32.320

Eric y Daniela

I.

0:33:32.780 --> 0:33:33.160

Eric y Daniela

OK.

0:33:36.140 --> 0:33:40.960

Bradley-Lewis, Thaddeus (SMD 3A01)

It's not asking me to comment on what that was about or how that came to be.

0:33:42.500 --> 0:34:14.770

Bradley-Lewis, Thaddeus (SMD 3A01)

I am curious and a lot of the residents are curious as to what the process is going to be to find a replacement for her and how that selection is made. Yeah, we we're very grateful for the service of our school leaders and we do have transition from time to time and we use what we call a panel approach with the school community, the opportunity to help us in the interview and selection process. There is a interim that is typically identified to leave the school.

0:34:15.350 --> 0:34:19.940

Bradley-Lewis, Thaddeus (SMD 3A01)

As we go through that process, sometimes we're able to complete that process.

0:34:20.550 --> 0:34:29.860

Bradley-Lewis, Thaddeus (SMD 3A01)

Before uh interim is assigned and then the person goes directly into that position. But because of where we are and this time of year, I don't know that that will be feasible.

0:34:30.420 --> 0:34:46.620

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, in many cases, I interim may serve for a couple months or sometimes I interim server for an entire year just based on the school situation at that time. And we were doing a search gotcha and traditionally the.

0:34:47.340 --> 0:34:51.890

Bradley-Lewis, Thaddeus (SMD 3A01)

Replacement would be someone who's a current administrator in DC public schools.

0:34:53.30 --> 0:35:3.520

Bradley-Lewis, Thaddeus (SMD 3A01)

Ohh so I would say the majority of the time when we have an interim it is an internal candidate. When we have the selection process for the permanent principle.

0:35:4.260 --> 0:35:16.510

Bradley-Lewis, Thaddeus (SMD 3A01)

It varies. Majority of our our Canadians are people who were assistant principals or other leadership positions at DCPS, but we do have success with external hires as well.

0:35:17.610 --> 0:35:30.270

Bradley-Lewis, Thaddeus (SMD 3A01)

Also wanted to say appreciate that the school reached out and let the ANC know the day that it happened because it was a tremendous amount of interest in the community about what's going on. Yeah, we we try to get the information as soon as.

0:35:31.490 --> 0:35:42.100

Bradley-Lewis, Thaddeus (SMD 3A01)

We have all the official paperwork in we can communicate, show the transition, we try to ensure that they can, unity is informed and they know what the next steps in the process are. Great. Thank you. Thank you.

0:35:44.550 --> 0:35:52.520

Bradley-Lewis, Thaddeus (SMD 3A01)

We recently learned about enrollment right for the it's for the upcoming school year. Could you speak a little to that and?

0:35:53.230 --> 0:36:5.680

Bradley-Lewis, Thaddeus (SMD 3A01)

How you feel about that in light of what's going on with the bus? Still. Me. What's what's good for us is we should all be proud that we were the only public school system.

0:36:6.400 --> 0:36:36.890

Bradley-Lewis, Thaddeus (SMD 3A01)

To come back from the pandemic with the increase in our enrollment and so we have the largest enrollment, we have this school year and we have a long time which says a lot about I think what families think about DCPS and what we offer. And thus far in this enrollment season, the number of

lottery applications is also in. So that's up for both DCPS and public charter schools. So I think it says a lot again about what they think about this.

0:36:36.980 --> 0:36:42.920

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, but that's just the beginning of the process. So I think it's important to remind families that.

0:36:43.610 --> 0:36:49.370

Bradley-Lewis, Thaddeus (SMD 3A01)

Even if you're a current CPS family, there's a re enrollment process.

0:36:50.120 --> 0:37:21.530

Bradley-Lewis, Thaddeus (SMD 3A01)

That you must complete with verification the residency and the like, and so we would encourage all families to think about doing that as early as possible. Know that this week is spring break. But you know, if families have time because that really helps us with planning and preparing for the school year. And so sometimes schools may say, hey, I think I'm gonna have more students than what I'm projected to have. One way that we can validate that is through the enrollment in this brain. So this is a real critical time for us.

0:37:21.770 --> 0:37:53.940

Bradley-Lewis, Thaddeus (SMD 3A01)

If you were backed in a lottery process, May 1st is the deadline to accept that. See. So we are in the thick of enrollment season and at the end of the month, the last Saturday in April will be what we call a Roman Saturday and all throughout DCPS at our schools that we activities for families to come on to canvas see the schools that they're interested in complete enrollment package there as well to ensure that they're ready for next school year. But this is important to season for families to.

0:37:54.240 --> 0:37:57.550

Bradley-Lewis, Thaddeus (SMD 3A01)

Everyone has as a as a DCPS paying myself, I know.

0:37:58.250 --> 0:38:7.720

Bradley-Lewis, Thaddeus (SMD 3A01)

You know when you get that, see you say. Ohh, I'd get to when I get to it. But if families do it earlier, it really helps us out. Right. Thank you. Thank you. Any questions from Commissioner? I haven't.

0:38:9.170 --> 0:38:13.300

Bradley-Lewis, Thaddeus (SMD 3A01)

All right. I'll open it up to the.

0:38:14.380 --> 0:38:20.410

Bradley-Lewis, Thaddeus (SMD 3A01)

Guests in our in person audience as well as in teams.

0:38:21.190 --> 0:38:37.560

Bradley-Lewis, Thaddeus (SMD 3A01)

If you have a question, if you're here in person, just give me a heads up. And if you're on teams, please

raise your hand. I'm going to alternate if appropriate, between people attending via teams and in person.

0:38:38.300 --> 0:38:49.730

Bradley-Lewis, Thaddeus (SMD 3A01)

And when you do before you ask your question, please identify who you are and if you're in free A which SMD. If you're aware of which SMD you're in so.

0:38:50.500 --> 0:38:52.460

Bradley-Lewis, Thaddeus (SMD 3A01)

And get to know you better. I'll.

0:38:53.550 --> 0:39:22.500

Bradley-Lewis, Thaddeus (SMD 3A01)

I do not currently see any hands in teams, so do we have any questions for Chancellor therapy in the room? Well, I was as well. Yeah. If I add to the enrollment is also families to check calendars because we we did take feedback we got from families about calendar. And so one example would be families asked that we not start in the middle of the week and so one adjustments for the the upcoming school year is we start school on the Monday.

0:39:24.0 --> 0:39:38.20

Bradley-Lewis, Thaddeus (SMD 3A01)

And make sure there's one of those. You mean years, but we don't have February recess, so I don't. Families are planning now and get ready for next school year. So I also reminded to be good time now to check out the calendar for the 2324 school year. Correct.

0:39:39.580 --> 0:39:41.90

Bradley-Lewis, Thaddeus (SMD 3A01)

Any questions here in the room?

0:39:43.160 --> 0:40:11.590

Bradley-Lewis, Thaddeus (SMD 3A01)

You know, I was here from everybody else and I've had too much council member Furman, and thank you very much. So one of the things that came up is Jackson read and and I do think, you know, it was talk about different numbers. But Jackson Reed had \$3.2 million added to its budget. So that is not a little thing. And and we'll make a really big difference in a crowded school. And so you you asked for affirmation of things that are good in the budget.

0:40:12.600 --> 0:40:19.770

Bradley-Lewis, Thaddeus (SMD 3A01)

That that's a bigger increase than I think anybody imagined might be coming down the pipeline would be used well, I'm sure.

0:40:21.210 --> 0:40:39.30

Bradley-Lewis, Thaddeus (SMD 3A01)

The two places that I hear the most from, and I'm going around to all of the schools in the ward to try to make sure that I understand exactly what they think they need and and you'll. I hope you'll take comfort that I say like I'm not looking for your pie in the sky list. I'm looking for. What do you really mean?

0:40:40.160 --> 0:40:45.500

Bradley-Lewis, Thaddeus (SMD 3A01)

One place that you hear the loudest and you probably have are hearing a lot about his birth.

0:40:46.280 --> 0:41:3.830

Bradley-Lewis, Thaddeus (SMD 3A01)

Where is there asking for two more teachers and you know it's not in your court right now that they have in the pre-K and kindergarten that have average class sizes of 28, which is significantly higher than what the contract would call for.

0:41:4.720 --> 0:41:8.660

Bradley-Lewis, Thaddeus (SMD 3A01)

Merchants actually has special place in that.

0:41:9.580 --> 0:41:20.770

Bradley-Lewis, Thaddeus (SMD 3A01)

Many of many schools around the city, particularly at home neighborhoods, see mid year arrivals in large numbers and you don't see that in Ward three in the same way except it.

0:41:22.460 --> 0:41:32.830

Bradley-Lewis, Thaddeus (SMD 3A01)

And merge probably has the highest percentage of at risk students of any elementary school in the morning, and so the challenge that they face with very large.

0:41:33.610 --> 0:41:35.780

Bradley-Lewis, Thaddeus (SMD 3A01)

Kindergarten and 1st grade classes.

0:41:36.960 --> 0:41:41.0

Bradley-Lewis, Thaddeus (SMD 3A01)

Is the kind of challenge that I think that you're trying to get at and.

0:41:42.80 --> 0:41:57.410

Bradley-Lewis, Thaddeus (SMD 3A01)

That every formula breaks down and I think in this case the formula broke down and I wonder if there's anything that TCPS can do still for merge to try to address.

0:41:58.80 --> 0:41:58.400

Bradley-Lewis, Thaddeus (SMD 3A01)

The.

0:41:59.690 --> 0:42:14.840

Bradley-Lewis, Thaddeus (SMD 3A01)

The the The, the kindergarten first grade issue to add to teachers to have reserves that you could draw and that you have flexibility of virtual demonstrate something can we do to make sure that they don't have 28 student.

0:42:15.620 --> 0:42:35.910

Bradley-Lewis, Thaddeus (SMD 3A01)

In regards and 1st grades, next, we do have an enrollment reserve that we set aside for funding positions where enrollment exceeds projections throughout the year and it's something we're mining, which is why again we ask everybody to or early. I would also wanna go back to see what enrollment.

0:42:37.390 --> 0:42:44.830

Bradley-Lewis, Thaddeus (SMD 3A01)

You know projects and they have right now and if they were making any type of budget assistance request because we did.

0:42:45.570 --> 0:42:52.0

Bradley-Lewis, Thaddeus (SMD 3A01)

Issue is significant amount of budget assistance so I'm not sure if they may wanna go. Happy to look at that. The other thing about Birches.

0:42:53.0 --> 0:43:9.160

Bradley-Lewis, Thaddeus (SMD 3A01)

There are some capacity constraints, so I would want to also understand that that's driving it because we're actually gonna have to reconfigure how they utilize their space, which will actually result in one less pre-K class there.

0:43:10.10 --> 0:43:40.640

Bradley-Lewis, Thaddeus (SMD 3A01)

Because of growing enrollment at her, so I wonder if it's a function of the facility constraints as well, but I'm happy to take a look at it. Yeah, take keep. Keep an eye on it. And and also bear in mind as we're thinking about what I was saying about video entries and some of this relates to the voucher program and large numbers of residents arriving after they have been talking the buildings, which is an important thing. And like part of the idea.

0:43:42.940 --> 0:43:45.590

Bradley-Lewis, Thaddeus (SMD 3A01)

In that position to enjoy the amenities of.

0:43:46.250 --> 0:43:46.900

Bradley-Lewis, Thaddeus (SMD 3A01)

Of the school.

0:43:48.350 --> 0:43:48.650

Bradley-Lewis, Thaddeus (SMD 3A01)

But.

0:43:50.270 --> 0:44:2.500

Bradley-Lewis, Thaddeus (SMD 3A01)

They need to be graceful. I'll just tell you that's very high priority for me is to get to where that can be addressed and that and maybe there's a way for you to help her help. I don't think it's a big industry issue.

0:44:5.70 --> 0:44:7.30

Bradley-Lewis, Thaddeus (SMD 3A01)
The other thing that can't be here.

0:44:8.670 --> 0:44:16.640

Bradley-Lewis, Thaddeus (SMD 3A01)
And I'm broken. Reconciled. None of what I'm saying is due to the chancellor. I do think we need to make sure that the.

0:44:17.940 --> 0:44:18.550

Bradley-Lewis, Thaddeus (SMD 3A01)
Start.

0:44:23.740 --> 0:44:24.260

Bradley-Lewis, Thaddeus (SMD 3A01)
Thank you.

0:44:25.340 --> 0:44:25.710

Bradley-Lewis, Thaddeus (SMD 3A01)
Back.

0:44:27.210 --> 0:44:28.280

Bradley-Lewis, Thaddeus (SMD 3A01)
Started edition.

0:44:29.300 --> 0:44:33.360

Bradley-Lewis, Thaddeus (SMD 3A01)
On scene in the context of the fox, the fox cells too.

0:44:34.250 --> 0:44:34.920

Bradley-Lewis, Thaddeus (SMD 3A01)
Now there is.

0:44:35.960 --> 0:44:37.730

Bradley-Lewis, Thaddeus (SMD 3A01)
Fox all school for awhile.

0:44:38.700 --> 0:44:41.810

Bradley-Lewis, Thaddeus (SMD 3A01)
So I really hope you guys worry that.

0:44:41.880 --> 0:44:43.30

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah, yeah.

0:44:44.790 --> 0:44:45.820

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes, so.

0:44:47.170 --> 0:45:3.20

Bradley-Lewis, Thaddeus (SMD 3A01)

We we won't go into the planning phase now to start until 29. So you're right, it's not the Foxhall to 29. So you write, there's some some more time there. And I think as we look at the capital budget each year.

0:45:3.890 --> 0:45:21.490

Bradley-Lewis, Thaddeus (SMD 3A01)

Once we have again more information from the primary education on their boundary study and and understand like what, what that means for the school communities and I think we could see a decision made that may be different than where we are today.

0:45:22.600 --> 0:45:27.660

Bradley-Lewis, Thaddeus (SMD 3A01)

But you know, obviously you can't make any commitments at this point and I think you're right about.

0:45:28.550 --> 0:45:37.940

Bradley-Lewis, Thaddeus (SMD 3A01)

Merge. I think it Bancroft Bancroft is where capacity means driving. So you might be right by merge. Yeah your chance to do anything.

0:45:41.250 --> 0:45:45.410

Bradley-Lewis, Thaddeus (SMD 3A01)

I think it's. I think it's no for me. Actually when I don't know whether or not people.

0:45:46.440 --> 0:46:0.480

Bradley-Lewis, Thaddeus (SMD 3A01)

No, but here we are. The chancellors here. They if there were passionate unhappiness in lots of places, I would have expected to be part of the reason I came out to hear. What are people saying?

0:46:2.30 --> 0:46:10.190

Bradley-Lewis, Thaddeus (SMD 3A01)

And so it would. It has been about the process and I think it's still going to be a bumpy process with with the Council.

0:46:11.480 --> 0:46:18.340

Bradley-Lewis, Thaddeus (SMD 3A01)

Then the moves that you made from the moves they made at high schools in the initial budgets.

0:46:19.680 --> 0:46:20.690

Bradley-Lewis, Thaddeus (SMD 3A01)

Deserve to be affirmed.

0:46:21.410 --> 0:46:25.520

Bradley-Lewis, Thaddeus (SMD 3A01)

And the moves that you made between the initial budgets and the submitted budgets?

0:46:26.610 --> 0:46:34.90

Bradley-Lewis, Thaddeus (SMD 3A01)

Answered a lot of questions. I think there's no questions on the table, but they those answered a lot of questions, but thank you for. Thank you.

0:46:36.30 --> 0:46:39.460

Bradley-Lewis, Thaddeus (SMD 3A01)

I do we have any more questions in the room?

0:46:41.120 --> 0:46:42.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Random question I thought of.

0:46:42.580 --> 0:46:45.650

Bradley-Lewis, Thaddeus (SMD 3A01)

So I've been told in the past that like.

0:46:46.720 --> 0:46:59.0

Bradley-Lewis, Thaddeus (SMD 3A01)

If there's another device, can't think of what department. I don't wanna throw anyone under the bus, but if there was a department that wasn't education in DC, that was kind of just blowing through money. That was unnecessary to help me. Very few people.

0:47:0.490 --> 0:47:11.840

Bradley-Lewis, Thaddeus (SMD 3A01)

Do you have good citizens amount an effort to get you more money for the kids or is it really as divided as I've been told by kind of middle level paragraph?

0:47:13.620 --> 0:47:43.510

Bradley-Lewis, Thaddeus (SMD 3A01)

Well, I think we all have the opportunity to, you know, propose, you know, our budget needs each year. And I think my argument is always one that's very compelling and strong. I don't think we are in the city where at leadership doesn't recognize that whether it's the mayor and the Council, I think for us to have historic amount of investments in schools each year, I think says a lot about what people value. I think our facilities.

0:47:43.610 --> 0:48:2.480

Bradley-Lewis, Thaddeus (SMD 3A01)

Also, our strong example of what people think about education, I put our facilities especially in those have been modernized and you know the majority of our portfolio. If there are phenomenal places for people to learn. So I think you know it's it's you know a tough balance but.

0:48:3.180 --> 0:48:11.650

Bradley-Lewis, Thaddeus (SMD 3A01)

And I think the people in Parks and Recreation and or the public libraries or, you know, NPD would would tell you that, you know.

0:48:12.690 --> 0:48:18.600

Bradley-Lewis, Thaddeus (SMD 3A01)

They're not happy about losing resources, and the tight budget, and as we're getting more money in school so.

0:48:19.800 --> 0:48:25.760

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, I can't speak on, you know, the specific sort of budget, but I think this this budget represents.

0:48:26.380 --> 0:48:34.720

Bradley-Lewis, Thaddeus (SMD 3A01)

From my Venus point, you know a clear plan on you know how we recover and come back with the education, you know, at the forefront of that.

0:48:37.660 --> 0:48:47.850

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah. Yeah, I can't, you know. Yeah, it's. Yeah, it's it's tough because, you know, a lot of our services are connected to other services, right? And so.

0:48:49.170 --> 0:48:59.720

Bradley-Lewis, Thaddeus (SMD 3A01)

We need them to be, you know, our students leave us for aftercare. Oftentimes, they're going to other government agencies, so we need them to be strong.

0:49:3.520 --> 0:49:7.470

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't see any raised hands in teams. Are there any more questions in the room?

0:49:7.880 --> 0:49:29.440

Bradley-Lewis, Thaddeus (SMD 3A01)

What? Uh, this might be a little bit of an uncomfortable question, but with everything going on in our country right now with school safety, how is DC public schools? How is that conversation been with everything going on in the world? Like, hey, everybody who's in schools and you wake up every day thinking about it. I know I do.

0:49:30.200 --> 0:49:45.570

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, and what we have spent more time on is just ensure that they're strong safety assessments and threats. The exercises we have a daily briefing with MPD.

0:49:46.220 --> 0:50:12.380

Bradley-Lewis, Thaddeus (SMD 3A01)

Or Moda, everybody that's involved in public safety. We talk daily about what we're seeing in hearing. The good news is that every student that I talk with says they feel safe at school. And so for the most part, when students walk through our doors, they know that they're gonna be safe. That doesn't mean we still don't have work to do. Right. And so most recently this year, we've done called, like, tabletop exercises of just like.

0:50:13.130 --> 0:50:25.80

Bradley-Lewis, Thaddeus (SMD 3A01)

This scenario happens like what do you do? What does this person could do? We want to identify every gap that we could potentially identify and the other side of that I mentioned earlier is the infrastructure, right?

0:50:25.820 --> 0:50:58.210

Bradley-Lewis, Thaddeus (SMD 3A01)

Umm the access controls? Do they work properly when someone's trying to enter the building? It's all the scanners operating properly for weapons abatement. If like all of that, we want to ensure is continue to be refined in every aspect possible. But you know, I think outside of that there isn't much. I think we aren't thinking about. I think the symbiotic relationship between school and communities obviously show up and I think that's why the communication that we have with other agencies.

0:50:58.270 --> 0:51:0.120

Bradley-Lewis, Thaddeus (SMD 3A01)

The partners are so important.

0:51:1.250 --> 0:51:3.850

Bradley-Lewis, Thaddeus (SMD 3A01)

For me, I think a greater role that schools can play.

0:51:4.850 --> 0:51:5.430

Bradley-Lewis, Thaddeus (SMD 3A01)

Is.

0:51:6.850 --> 0:51:7.670

Bradley-Lewis, Thaddeus (SMD 3A01)

Values.

0:51:8.880 --> 0:51:14.270

Bradley-Lewis, Thaddeus (SMD 3A01)

Because I think unfortunately more and more I think young people are.

0:51:15.290 --> 0:51:18.820

Bradley-Lewis, Thaddeus (SMD 3A01)

Getting the message that the only way that you can resolve a dispute.

0:51:19.740 --> 0:51:24.30

Bradley-Lewis, Thaddeus (SMD 3A01)

Testing balance correct and I think we can.

0:51:25.160 --> 0:51:35.270

Bradley-Lewis, Thaddeus (SMD 3A01)

Kind of navigate our way through this with helping reiterate others other values that are contradictory to that in a small hope that you know that's.

0:51:35.900 --> 0:51:45.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Because we we can continue to harden schools and do the safety work, but it's how people interact with each other from a human being to human being. Perspective is an address.

0:51:46.600 --> 0:51:52.390

Bradley-Lewis, Thaddeus (SMD 3A01)

I the long term strategy is is not there and I think we have the couple that with that strategy.

0:51:54.330 --> 0:52:1.230

Bradley-Lewis, Thaddeus (SMD 3A01)

That makes sense. Ohh. Perfect. Yeah, that. Yeah, I appreciate your answer. I just had a question paper actually.

0:52:2.640 --> 0:52:8.90

Bradley-Lewis, Thaddeus (SMD 3A01)

And my apologies if this reveals the lack of having done my homework on this one issue. It only occurred to me.

0:52:10.240 --> 0:52:16.900

Bradley-Lewis, Thaddeus (SMD 3A01)

With transportation with Ramada, just omada receive any type of compensation.

0:52:17.710 --> 0:52:18.430

Bradley-Lewis, Thaddeus (SMD 3A01)

From.

0:52:19.550 --> 0:52:20.400

Bradley-Lewis, Thaddeus (SMD 3A01)

The district.

0:52:21.50 --> 0:52:52.130

Bradley-Lewis, Thaddeus (SMD 3A01)

For students utilizing bus and metro service? Or is it? Yeah. So kids ride free is not free. OK. Yeah. So, yeah. So we provide that service and it is a cost to the district and we provide every student with an access card. The kids are free card and that's what they utilized to utilize public training. But there is a significant cost of that that we cover. So students and families don't have to worry about that.

0:52:52.670 --> 0:52:53.460

Bradley-Lewis, Thaddeus (SMD 3A01)

So.

0:52:54.750 --> 0:53:0.720

Bradley-Lewis, Thaddeus (SMD 3A01)

Hearing that and maybe this is equally for the Council Member, does that mean that if.

0:53:1.460 --> 0:53:7.590

Bradley-Lewis, Thaddeus (SMD 3A01)

Buses were made free for all district residents. Would that reduce the cost?

0:53:8.210 --> 0:53:9.580

Bradley-Lewis, Thaddeus (SMD 3A01)

For kids ride free.

0:53:10.610 --> 0:53:11.300

Bradley-Lewis, Thaddeus (SMD 3A01)

In theory.

0:53:12.270 --> 0:53:17.370

Bradley-Lewis, Thaddeus (SMD 3A01)

Or is that already baked into the so kids kids were have freeze already baked into the budget?

0:53:18.370 --> 0:53:36.300

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes. So there's a there's a line item for both DCPS and public charter schools students to issue the cards for every student right based on the role it is, it is that putting on budget or is that part of it's not, that's not the education, it's not a part of the education. So it doesn't come off.

0:53:36.980 --> 0:53:46.10

Bradley-Lewis, Thaddeus (SMD 3A01)

Spare for schools, but it's a part of the DC government, right? So when we look at the cost of the and I, I understand it's it's it hasn't been.

0:53:46.780 --> 0:54:7.830

Bradley-Lewis, Thaddeus (SMD 3A01)

You know, put into place and it's implementation, you know maybe delayed further, but when we look at the cost of that program or that law and in fact is it baked in that there would be a lessening of this cost whether it's being assessed or paid through the general fund or would you? It sounds like it is.

0:54:8.510 --> 0:54:11.720

Bradley-Lewis, Thaddeus (SMD 3A01)

My impression of the way that it's calculated is that.

0:54:12.570 --> 0:54:27.840

Bradley-Lewis, Thaddeus (SMD 3A01)

The cost of the fire free bus right would be how much do we have to pay with Marta to add people to travel for free, in addition to students talking in addition to suits, not you know, Monday, so it could move around.

0:54:29.30 --> 0:54:47.570

Bradley-Lewis, Thaddeus (SMD 3A01)

But we're not paying twice for the kids, right? And for the everybody but the kids. Right. So that cost when you hear whatever and I know that figure has changed over time, but yeah, because I was raised changed. I think they're working on a rate change, right. Our cost offer that service also.

0:54:48.660 --> 0:55:2.340

Bradley-Lewis, Thaddeus (SMD 3A01)

Changes and the good. The good thing about thing, things about free program is to help students work, help students get to, you know, summer activities. So it's something that they have access to for school and other activities as well.

0:55:5.310 --> 0:55:11.520

Bradley-Lewis, Thaddeus (SMD 3A01)

I still did not see any questions in teams. Do I have any more questions in the room for Chancellor fairies?

0:55:13.330 --> 0:55:15.570

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright, thanks so much. Thank you so much, Chancellor.

0:55:23.420 --> 0:55:33.50

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright, we will move to the next item in the agenda, which is a smart street lighting presentation. Take care sounds member Blumen.

0:55:34.720 --> 0:55:38.130

Bradley-Lewis, Thaddeus (SMD 3A01)

So I'm looking for.

0:55:39.60 --> 0:55:41.150

Bradley-Lewis, Thaddeus (SMD 3A01)

The attendee, I think I see him.

0:55:41.790 --> 0:55:46.600

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh. Patrice Brooks. I'm going to make you a presenter now.

0:55:48.60 --> 0:55:50.930

Bradley-Lewis, Thaddeus (SMD 3A01)

You're also welcome to.

0:55:52.40 --> 0:55:55.970

Bradley-Lewis, Thaddeus (SMD 3A01)

Bear with me for a second while I make sure they you are.

0:55:58.470 --> 0:56:7.670

Bradley-Lewis, Thaddeus (SMD 3A01)

You should be able to unmute yourself and turn on your video and you should be able to present where screen at this point in time.

0:56:13.770 --> 0:56:22.470

Patrice Brooks

Good evening. Thank you so much. Commissioners also have my colleague Anna, who's on Orange. Can you also make her a presenter? While I put a presentation up?

0:56:23.270 --> 0:56:26.60

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, I who am I looking for?

0:56:29.700 --> 0:56:31.280

Patrice Brooks
Anna and a.

0:56:35.780 --> 0:56:37.140

Bradley-Lewis, Thaddeus (SMD 3A01)
And then A and.

0:56:38.130 --> 0:56:41.540

Bradley-Lewis, Thaddeus (SMD 3A01)
Don't see Anna on the it's the attendees list.

0:56:43.240 --> 0:56:46.430

Bradley-Lewis, Thaddeus (SMD 3A01)
Is it possible that she's here under some other name?

0:56:50.270 --> 0:56:52.630

Patrice Brooks
I don't think so.

0:56:53.500 --> 0:56:54.690

Patrice Brooks
But umm.

0:56:56.250 --> 0:56:56.900

Patrice Brooks
We can use.

0:56:58.100 --> 0:57:0.180

Patrice Brooks
Go ahead and get started one second.

0:57:2.370 --> 0:57:11.250

Bradley-Lewis, Thaddeus (SMD 3A01)
Yeah, if if if. If anybody is on the attendees list and you are, Anna, go ahead and unmute yourself. You should be able to and and speak up.

0:57:11.880 --> 0:57:20.360

Bradley-Lewis, Thaddeus (SMD 3A01)
Uh, and we can we can get that situated or Miss Brooks. I I do. I do see the presentation on on your screen now. So I'll I'll go ahead and.

0:57:21.350 --> 0:57:26.830

Bradley-Lewis, Thaddeus (SMD 3A01)
We'll focus on on your contents and your. You're welcome to begin whenever you're ready.

0:57:43.690 --> 0:57:43.870

Bradley-Lewis, Thaddeus (SMD 3A01)
And.

0:57:55.450 --> 0:57:55.780

Bradley-Lewis, Thaddeus (SMD 3A01)
It.

0:57:27.630 --> 0:57:56.50

Patrice Brooks

OK. Thank you so much. So again, I wanna first of all say thank you so much for allowing our team to come before you today this evening to present before the ASC and provide an update and regards to the DC Smart Street lighting project. My name is Patrice Brooks and I'm a part of the outreach and engagement team project team working to help make a brighter, better connected DC.

0:58:1.120 --> 0:58:7.240

Patrice Brooks

So just to share with you some of the community benefits that are.

0:58:8.180 --> 0:58:9.940

Patrice Brooks

This project will contribute an ad.

0:58:10.960 --> 0:58:13.20

Patrice Brooks

Which are listed here on this screen.

0:58:14.420 --> 0:58:17.800

Patrice Brooks

Includes modernizing over 72,000 St. lights.

0:58:18.490 --> 0:58:26.320

Patrice Brooks

Converting St. lights to LED technology, as well as reducing street light energy consumption by more than 50%.

0:58:28.400 --> 0:58:32.440

Patrice Brooks

This present these benefits. You can also see here are listed below.

0:58:36.420 --> 0:58:47.870

Patrice Brooks

The project timeline is here presented on the screen and it gives the overview of the work that has already taken place and the upcoming work that will take place as far as the project's life cycle.

0:58:48.550 --> 0:58:50.680

Patrice Brooks

That some preliminary work has already taken place.

0:58:54.640 --> 0:58:54.830

Bradley-Lewis, Thaddeus (SMD 3A01)
Yes.

0:58:51.280 --> 0:59:2.340

Patrice Brooks

And as I in May of 2022 and the community were really start to see boots on the ground, that actual physical work taking place within Q4 of 2023.

0:59:5.790 --> 0:59:6.20

Bradley-Lewis, Thaddeus (SMD 3A01)

It's.

0:59:3.230 --> 0:59:9.50

Patrice Brooks

The conversion work which has started and is underway it will.

0:59:16.470 --> 0:59:16.890

Bradley-Lewis, Thaddeus (SMD 3A01)

Because.

0:59:18.40 --> 0:59:18.330

Bradley-Lewis, Thaddeus (SMD 3A01)

It's.

0:59:9.690 --> 0:59:21.870

Patrice Brooks

Continue on until May of 2024 and as that management has also began in September of 2022 and will go on to May of 2037.

0:59:26.730 --> 0:59:39.640

Patrice Brooks

Throughout this project, there are several phases of work that will take place, which are kind of touched on in the project timeline. That work consists of. Those phases consists of preparatory tags which include detailed design and procurement.

0:59:40.530 --> 0:59:55.90

Patrice Brooks

And also some rehabilitation work, the conversion work which I discussed earlier, which would you always see actual work taking place cause such as light installation will occur in groups of awards split by each ANC.

1:0:0.360 --> 1:0:0.590

Bradley-Lewis, Thaddeus (SMD 3A01)

The.

0:59:56.240 --> 1:0:0.980

Patrice Brooks

As you can see, what 3 is gonna be a part of Group 2.

1:0:2.570 --> 1:0:12.940

Patrice Brooks

And each AC split into bundles with less than five bundles per and C all the work that will be completed within the bundle will not last more than 14 days.

1:0:22.290 --> 1:0:22.560

Bradley-Lewis, Thaddeus (SMD 3A01)

And.

1:0:25.640 --> 1:0:26.80

Bradley-Lewis, Thaddeus (SMD 3A01)

It's.

1:0:16.730 --> 1:0:35.480

Patrice Brooks

That ***** earlier in this slide, there's also asset management that will take place in asset management simply as street light maintenance. This maintenance, as I've noted, will take place and start in May of 2022 and you can see on the screen it kind of goes over the timeline, which I already dish reviewed.

1:0:36.780 --> 1:0:44.420

Patrice Brooks

By May 2024, all new LED's are set to be installed. Asset management will continue again until May 2037.

1:0:47.590 --> 1:0:54.180

Patrice Brooks

So as a part of this process, we are very invested in making sure that the team.

1:1:10.210 --> 1:1:10.980

Bradley-Lewis, Thaddeus (SMD 3A01)

With different.

1:1:11.390 --> 1:1:14.690

Patrice Brooks

To you all about the work that will be taking place.

1:1:15.630 --> 1:1:25.810

Patrice Brooks

Our team also will do comprehensive outreach at least seven days prior to the start of work, leaving a door hangers and information sheets with residents and impacted stakeholders.

1:1:27.130 --> 1:1:37.590

Patrice Brooks

If there's any impacts to parking within the selected area of where the work will be taking place 72 hours prior to the start of work emergency, no parking signs will be.

1:1:41.250 --> 1:1:50.520

Patrice Brooks

And again, my name is Patrice Brooks and I'm a part of the outreach and engagement team, and our team is very committed to making sure that everyone is aware of the process and how this.

1:1:52.490 --> 1:1:56.40

Patrice Brooks

Project will make this year brighter and better connected DC.

1:1:56.750 --> 1:2:16.610

Patrice Brooks

You can take your phone and screen this screen to go directly to our project website stlights.dc.gov to learn more about the project and see any more information that you you know about the project and the process. We also have several ways for you to reach out to us which are via e-mail.

1:2:17.920 --> 1:2:33.790

Patrice Brooks

And you could reach out to us at info@dcsmartstreetlights.com and if you have any questions that related to meeting, you can also utilize press at DC, Smart Street life.com and follow us on social media using the hashtag DC Smart Street light.

1:2:34.610 --> 1:2:37.320

Patrice Brooks

I'm not sure if my colleague Anna was able to join the call.

1:2:37.650 --> 1:2:39.260

Bradley-Lewis, Thaddeus (SMD 3A01)

So I.

1:2:38.660 --> 1:2:42.540

Patrice Brooks

She is able to answer questions if the team has any questions.

1:2:42.850 --> 1:2:47.620

Bradley-Lewis, Thaddeus (SMD 3A01)

OK, great. I think I did. Yeah, I do. I do see is it, is it? Anna hasegawa.

1:2:48.980 --> 1:2:49.990

HASEGAWA Ana (ENGIE North America)

Yes, something here.

1:2:50.580 --> 1:2:51.260

Bradley-Lewis, Thaddeus (SMD 3A01)

OK, great.

1:2:52.250 --> 1:3:2.0

Bradley-Lewis, Thaddeus (SMD 3A01)

I'm going to uh, spotlight you if you. If you'd like to turn your camera on or walk them to. Otherwise we can. We can start with the questions.

1:3:9.360 --> 1:3:9.680

HASEGAWA Ana (ENGIE North America)

Mm-hmm.

1:3:4.150 --> 1:3:10.260

Bradley-Lewis, Thaddeus (SMD 3A01)

I I have a good well, I have two questions. Miss Asakawa, the the first one.

1:3:11.600 --> 1:3:12.320

Bradley-Lewis, Thaddeus (SMD 3A01)

When?

1:3:13.390 --> 1:3:40.770

Bradley-Lewis, Thaddeus (SMD 3A01)

Looking at either, you know replacing existing St. lights or installing new ones is, is there any consideration made for giving special attention to crosswalks or areas in the vicinity of a crosswalk? In my SMD we have a lot of unpainted crosswalks or unmarked crosswalks, so I think the Community would appreciate that, you know.

1:3:42.410 --> 1:3:51.460

Bradley-Lewis, Thaddeus (SMD 3A01)

Give it its already kind of challenging to to safely cross the street that that at the very least there's adequate lighting. Can you speak to that at all?

1:4:2.80 --> 1:4:2.440

Bradley-Lewis, Thaddeus (SMD 3A01)

But.

1:3:52.580 --> 1:4:3.300

HASSEGAWA Ana (ENGIE North America)

Yeah, I am not a light lighting designer, but just overseeing the process. What I can tell you is we followed the ash to guidelines.

1:4:4.60 --> 1:4:10.340

HASSEGAWA Ana (ENGIE North America)

And the ashtone provide uniformity throughout the entire Rd.

1:4:11.290 --> 1:4:14.200

HASSEGAWA Ana (ENGIE North America)

Air, but there's not specifically.

1:4:23.140 --> 1:4:23.490

Bradley-Lewis, Thaddeus (SMD 3A01)

It.

1:4:15.340 --> 1:4:25.910

HASSEGAWA Ana (ENGIE North America)

There's no specific areas or design focus on crosswalks, so the focus is just eliminating the entire Rd.

1:4:26.920 --> 1:4:29.460

HASSEGAWA Ana (ENGIE North America)

If there is a specific uh.

1:4:30.490 --> 1:4:31.140

HASSEGAWA Ana (ENGIE North America)
Whole.

1:4:36.490 --> 1:4:37.140

Bradley-Lewis, Thaddeus (SMD 3A01)
That's the problem.

1:4:31.980 --> 1:4:40.300

HASSEGAWA Ana (ENGIE North America)
That is dedicated to that crosswalk. Then it will be addressed, but otherwise it's just follows the design for the roads.

1:4:41.830 --> 1:4:44.680

Bradley-Lewis, Thaddeus (SMD 3A01)
Thank you. My other question was about.

1:4:59.960 --> 1:5:0.380

HASSEGAWA Ana (ENGIE North America)
Mm-hmm.

1:4:46.340 --> 1:5:3.140

Bradley-Lewis, Thaddeus (SMD 3A01)
The the street lights that you anticipated installing it can can you say whether or not those are the kinds that will not have an adverse effect on light pollution? You know, are they are they are, they shouted in any way. What what do those look like?

1:5:4.90 --> 1:5:18.90

HASSEGAWA Ana (ENGIE North America)
Yes, a part of the D dot requirements was not. You have more than 10% applied, so the entities who are.

1:5:18.770 --> 1:5:29.80

HASSEGAWA Ana (ENGIE North America)
Are concerned with the birds and you know, light pollution in general were involved and my understanding is the dot took their input.

1:5:29.860 --> 1:5:30.720

HASSEGAWA Ana (ENGIE North America)
And.

1:5:31.350 --> 1:6:0.930

HASSEGAWA Ana (ENGIE North America)
Flow down towards us, so meaning the Didot imposed very rigid standards for the lighting design in what concerns the upright, so it's definitely addressed. It was a huge challenge for us to come up with a design that obeyed those standards, because obviously you wanna eliminate the sidewalks and the roads properly.

1:6:2.480 --> 1:6:7.90

HASSEGAWA Ana (ENGIE North America)

But then you have the inverse requirement, which is not.

1:6:7.870 --> 1:6:18.920

HASSEGAWA Ana (ENGIE North America)

Spilling upwards, right? And that will contribute to energy savings as well. Since we're not gonna be wasting lighting upwards.

1:6:19.610 --> 1:6:20.810

HASSEGAWA Ana (ENGIE North America)

So all good news here.

1:6:21.700 --> 1:6:24.840

Bradley-Lewis, Thaddeus (SMD 3A01)

Great. Do I have any other questions from Commissioners?

1:6:25.420 --> 1:6:36.400

Bradley-Lewis, Thaddeus (SMD 3A01)

But OK, but I wonder, are there gonna be new polls in our? Are there gonna be more lights? And what are they just gonna switch the bulbs or are they gonna do something else?

1:6:38.990 --> 1:6:55.480

HASSEGAWA Ana (ENGIE North America)

So as it was explained, there are basically two different teams in this project. There is the first phase, so design and conversion which we will only be replacing.

1:6:56.730 --> 1:7:23.50

HASSEGAWA Ana (ENGIE North America)

Lights on poles that are already existing and then throughout the maintenance there is a team that will be increasing the the number of polls within the the district. I cannot tell you the numbers because I'm not involved in that part of the the design, but I know they have a a budget for, you know, expansion of the the polls.

1:7:24.130 --> 1:7:29.410

Bradley-Lewis, Thaddeus (SMD 3A01)

And do you and they, do they have a way of automatically knowing which bugs are burned out or shot out?

1:7:30.640 --> 1:7:52.140

HASSEGAWA Ana (ENGIE North America)

Yes. So we have a, our nodes are smart nodes. So whenever a light is out, it sends an alert to the office of the maintenance team and they are automatically notified when the lights are out and they have I believe.

1:7:53.130 --> 1:8:0.430

HASSEGAWA Ana (ENGIE North America)

4048 to 72 hours to replace those lights. Otherwise they get punished with fines.

1:8:1.720 --> 1:8:6.590

HASSEGAWA Ana (ENGIE North America)

So a light should not be out for longer than 72 hours.

1:8:10.830 --> 1:8:11.220

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you.

1:8:12.930 --> 1:8:41.870

Bradley-Lewis, Thaddeus (SMD 3A01)

Just very quickly and a couple of questions, how similar from A and C3A03, we've had two blights that appeared in response to broken lights in my single Member District in the last couple of months, and they're only a few blocks apart, but they're incredibly bright compared to the existing one of the neighborhoods, loved it, and the other neighborhood didn't like it. Is there a process and which the neighborhood can talk about or let?

1:8:45.720 --> 1:8:46.60

HASSEGAWA Ana (ENGIE North America)

Mm-hmm.

1:8:42.320 --> 1:8:46.120

Bradley-Lewis, Thaddeus (SMD 3A01)

But the setting know that they don't need like movie night like.

1:8:47.350 --> 1:8:52.930

Bradley-Lewis, Thaddeus (SMD 3A01)

What's how is that set up in and is there a decision process and that the city is gonna undertake?

1:8:55.80 --> 1:8:55.980

HASSEGAWA Ana (ENGIE North America)

So.

1:9:8.10 --> 1:9:8.330

Bradley-Lewis, Thaddeus (SMD 3A01)

It's.

1:8:56.700 --> 1:9:26.570

HASSEGAWA Ana (ENGIE North America)

My understanding is residents will still be able to call the 311 number and let's say complain about the light being too bright and our technology, the technology we're installing has the capability of dimming down and wherever necessary we will still be installing Shields as well. So if the resident is not pleased, it's it's the light is too bright, they'll have to call us and.

1:9:26.850 --> 1:9:29.80

HASSEGAWA Ana (ENGIE North America)

Obviously provide the location and then.

1:9:30.320 --> 1:9:43.430

HASSEGAWA Ana (ENGIE North America)

The maintenance team will go out there and access the situation doesn't mean a shield. Should we be dimming down a little bit, we'll be able to tailor the the lighting levels.

1:9:44.770 --> 1:9:50.120

Bradley-Lewis, Thaddeus (SMD 3A01)

OK. And the dimming can be done remotely, but the installation of Shields has to actually have a site visit, correct?

1:9:51.20 --> 1:9:51.980

HASSEGAWA Ana (ENGIE North America)

Yes, correct.

1:9:52.750 --> 1:9:53.430

Bradley-Lewis, Thaddeus (SMD 3A01)

Thanks so much.

1:9:55.950 --> 1:10:4.460

Bradley-Lewis, Thaddeus (SMD 3A01)

Mr. White, I saw that you had your hand up. Do you still want to ask your question or did you get an answer?

1:10:6.360 --> 1:10:9.710

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, you can unmute yourself if you'd like to respond.

1:10:12.640 --> 1:10:14.610

David White

I got my answer. Thank you very much.

1:10:15.100 --> 1:10:33.230

Bradley-Lewis, Thaddeus (SMD 3A01)

Wonderful. I do. We have any questions for Miss Hasegawa? And then room. Yes, please. What's the color temperature of the new lights gonna be? Is it gonna be like the warm orange? Like the existing ones? Or is it gonna be like a cold? Like hospital, like harsh, like.

1:10:33.980 --> 1:10:37.650

Bradley-Lewis, Thaddeus (SMD 3A01)

Conditionally, it's called for the 5000 and they crank miserable.

1:10:38.390 --> 1:10:39.20

Bradley-Lewis, Thaddeus (SMD 3A01)

Did you marry?

1:10:39.80 --> 1:10:48.390

HASSEGAWA Ana (ENGIE North America)

So we have, yes, we have some, there are 2700, we have 3000 kelvins as well.

1:10:53.30 --> 1:10:53.620

Bradley-Lewis, Thaddeus (SMD 3A01)

It is.

1:10:49.450 --> 1:10:59.710

HASSEGAWA Ana (ENGIE North America)

My suggestion, if my colleague can take this question and put in the frequently asked questions, we can post the table.

1:11:1.10 --> 1:11:13.230

HASSEGAWA Ana (ENGIE North America)

This was all the caller temperatures were all defined by the Department of Transportation, so we just follow their guidelines. But my understanding is they are definitely not white.

1:11:13.930 --> 1:11:14.850

HASSEGAWA Ana (ENGIE North America)

Ah.

1:11:15.590 --> 1:11:23.40

HASSEGAWA Ana (ENGIE North America)

Surgery room, type of collar. They're more towards the softer colors and in the.

1:11:26.600 --> 1:11:26.890

Bradley-Lewis, Thaddeus (SMD 3A01)

To them.

1:11:32.60 --> 1:11:32.600

Bradley-Lewis, Thaddeus (SMD 3A01)

Ohh.

1:11:23.790 --> 1:11:40.100

HASSEGAWA Ana (ENGIE North America)

Historic areas they definitely took into consideration, you know, maintaining a more historical look as well. So having the, the warmth, even a little bit more emphasized than what the called COBRA heads.

1:11:42.480 --> 1:11:51.860

Bradley-Lewis, Thaddeus (SMD 3A01)

OK. Thank you. And I'm sorry, you may have already covered this, but we're not just talking about the street lighting, but we're also talking about alley lighting, which was potentially in people's backyards, is that correct?

1:11:52.950 --> 1:11:54.410

HASSEGAWA Ana (ENGIE North America)

Yes, that is correct.

1:12:8.950 --> 1:12:9.240

Bradley-Lewis, Thaddeus (SMD 3A01)

8.

1:11:55.130 --> 1:12:25.600

HASSEGAWA Ana (ENGIE North America)

Umm. If again, if you know the lights end up being too bright, we will have to to access each situation independently. Obviously the Department of Transportation try to streamline the design as much as possible. They provided US guidelines, but you know we we we don't know if there's somebody's room right there and we'll certainly be.

1:12:25.690 --> 1:12:31.280

HASSEGAWA Ana (ENGIE North America)

Opens your dress. You know certain circumstances as they arise.

1:12:32.200 --> 1:12:43.980

Bradley-Lewis, Thaddeus (SMD 3A01)

Great. Thank you. Thank you so much. Miss Ozawa and Miss Brooks is put links in the chat for anybody on teams or you know if you go back and.

1:12:44.850 --> 1:12:51.420

Bradley-Lewis, Thaddeus (SMD 3A01)

To the transcript, you'll be able to find those as well, but thank you both for taking time to.

1:12:56.920 --> 1:12:57.230

HASSEGAWA Ana (ENGIE North America)

Thanks.

1:12:52.810 --> 1:13:0.320

Bradley-Lewis, Thaddeus (SMD 3A01)

To tell us about this project, greatly appreciate it. We're gonna move on to. Yes, thank you. We're gonna move on to.

1:12:59.590 --> 1:13:0.370

HASSEGAWA Ana (ENGIE North America)

Thank you so much.

1:13:1.130 --> 1:13:21.780

Bradley-Lewis, Thaddeus (SMD 3A01)

Next item on the agenda I, which is a presentation on the zoning special exception for 3617 N St. NW. I'm looking at the attendees list. If you are a Terran, yes.

1:13:22.560 --> 1:13:29.490

Bradley-Lewis, Thaddeus (SMD 3A01)

See, I'm Mr. Tran. Are you are you presenting? Do I need to allow for sharing?

1:13:30.260 --> 1:13:33.950

Eric y Daniela

Yes, I think it says open share trace though I think I may.

1:13:33.940 --> 1:13:37.850

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, let me let me, let me go through real quick. I have to go through.

1:13:39.970 --> 1:13:47.300

Bradley-Lewis, Thaddeus (SMD 3A01)

The thing to make you a presenter. OK, if you could, you just unmute yourself again and then you should be able to screen share.

1:13:47.950 --> 1:13:48.540

Eric y Daniela

OK.

1:13:49.330 --> 1:13:50.140

Eric y Daniela

Let's see.

1:13:50.750 --> 1:14:1.740

Bradley-Lewis, Thaddeus (SMD 3A01)

They're doing that. If we could just give a little bit of a background. This is for 3617 Newark St. and it is for, as I understand from Mr. Duran, the only thing that they need.

1:14:5.430 --> 1:14:5.660

Eric y Daniela

Yeah.

1:14:3.180 --> 1:14:7.750

Bradley-Lewis, Thaddeus (SMD 3A01)

Easy approval on at this point is second story.

1:14:8.230 --> 1:14:20.390

Bradley-Lewis, Thaddeus (SMD 3A01)

UH-2A Auxiliary dwelling unit. Some of the neighbors have recently suggested that there's a lot more that they need approval for. The addition to the second story.

1:14:21.30 --> 1:14:23.240

Bradley-Lewis, Thaddeus (SMD 3A01)

And that there's no matter of right for a non.

1:14:30.670 --> 1:14:30.990

Eric y Daniela

Yeah.

1:14:25.800 --> 1:14:33.590

Bradley-Lewis, Thaddeus (SMD 3A01)

I think that the procedure we're going to do tonight is just that. We're gonna hear from the applicants attorney or part of the applicants architect.

1:14:34.230 --> 1:14:36.200

Bradley-Lewis, Thaddeus (SMD 3A01)

Then you wanna see there on the.

1:14:38.150 --> 1:14:42.60

Bradley-Lewis, Thaddeus (SMD 3A01)

The teams were here. Let's talk briefly about it.

1:14:42.610 --> 1:14:43.430

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, good.

1:14:44.400 --> 1:14:56.310

Bradley-Lewis, Thaddeus (SMD 3A01)

The agenda for tonight indicated that we would be not deciding in until our next meeting on May 16th, which is before the BCA is scheduled for May 27th.

1:14:57.150 --> 1:15:26.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, I think that that's the main. Ohh, just from a procedural background, this has already been through historic preservation. However at the time that that occurred, which I believe was November, it was the property was part of 3C3C has a different procedure in which they have an architectural review committee that meets outside of the regular ANC. They recommended it for a consent calendar.

1:15:27.60 --> 1:15:52.980

Bradley-Lewis, Thaddeus (SMD 3A01)

And three C approved the changes by by consent. In other words, they didn't do a specific vote. They all agreed, and it went through at that point. Historic preservation, which I believe also passed on it. And now we're back here because we've changed that we've changed. But the property as a result of the rezoning not responding, sorry as a result of the redistricting. Thank you.

1:15:54.650 --> 1:16:13.600

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you, Bradley goes. There's resolved. The redistricting is now in 3A, so that's where we are right now. And just to be clear, so it it did get approved by three already and then this is like a this is kind of a double jeopardy. There's a chance to reopen. Well. So some way to the right.

1:16:13.950 --> 1:16:43.740

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't know. I'm just. I want to understand the situation. It says who two separate steps. One is historic preservation. Which three seat did, but whether whether we had changed the districts or not, they would still have to go back for the approval for the PCA. OK. Which as to your question and double jeopardy is there any particular way we have to get to the fact that 3C's already approved it. I don't think particularly there is.

1:16:44.380 --> 1:16:52.460

Bradley-Lewis, Thaddeus (SMD 3A01)

We'll talk more about that and figure out the process on that. OK. Thanks. Alright, Mr. Terran, if you could begin, please do so.

1:16:53.570 --> 1:17:22.790

Eric y Daniela

Good evening. Yes, we do. So HPRB approved it. The previous NC approved it or it was on consent calendar. We're back here because the zoning is required us to go the bza and that's because this is an accessory structure and it's nonconforming because it's too big. It's this right here and it's about 600. And I think it's 32 square feet. The knee zoning rules only allow 450 square feet. So we're proposing to have it second story.

1:17:23.800 --> 1:17:52.860

Eric y Daniela

Which is the same outline as the first. If we were only adding 450 square feet, we wouldn't have to go to the Bezier. But we're proposing to match the 1st floor and have that be 632 square feet. So This is why we're back and why we have to go to the bza. And this is also an accessory structure. I'm not a dwelling unit. There's no kitchen in here. There's actually a basement accessory dwelling unit, and you can only have one on the property. So this is just an accessory structure.

1:17:53.810 --> 1:17:58.0

Eric y Daniela

We'll go through the photos. I'll try to do this quickly as I know you have a lot to see.

1:17:59.90 --> 1:18:9.840

Eric y Daniela

So this is an existing accessory structure. What we're proposing is we're at the ride height. We're basically going to lift it up by about 5 feet, but we're following the basic outline.

1:18:11.190 --> 1:18:13.210

Eric y Daniela

And we'll just go through some of the photos.

1:18:15.350 --> 1:18:17.420

Eric y Daniela

And there's an alley here, to the left.

1:18:18.910 --> 1:18:21.860

Eric y Daniela

And we're not proposing to add anything to the structure.

1:18:23.850 --> 1:18:25.560

Eric y Daniela

And here's the alley to the left.

1:18:28.10 --> 1:18:31.510

Eric y Daniela

And there's currently two places that they could park on their property.

1:18:33.410 --> 1:18:37.770

Eric y Daniela

And then looking from the alley back to the house on the right and the existing structure on the left.

1:18:38.830 --> 1:18:40.500

Eric y Daniela

Looking back towards the house.

1:18:42.720 --> 1:18:44.520

Eric y Daniela

And then just more backyard photos.

1:18:45.790 --> 1:18:47.560

Eric y Daniela

And then we get into the plans.

1:18:48.970 --> 1:18:53.150

Eric y Daniela

So you have an idea where it is? It's this house here in New York, and then the.

1:18:54.610 --> 1:19:1.10

Eric y Daniela

Structures here and the it's connected by the alley by the street going through lot 804 right here.

1:19:4.70 --> 1:19:5.380

Eric y Daniela

So this is what we're proposing.

1:19:7.800 --> 1:19:15.950

Eric y Daniela

This is the front where the alley is, and it's basically just a living the small eating area with a bar sink and the 2nd floor is 2 bedrooms.

1:19:18.260 --> 1:19:34.330

Eric y Daniela

And the roof here is the same roof and the owner actually wants to preserve the roof and he's going to raise the same roof 5 feet 3 inches. Now there is. Right now there's none. Also nonconforming part where this corner here is actually going into, sorry.

1:19:35.130 --> 1:19:45.230

Eric y Daniela

Into the neighbors yard. So by lifting the roof, we're actually going to chop off the corner here. So no, it's no longer going to be protruding into the JSON yard.

1:19:46.340 --> 1:19:48.290

Eric y Daniela

So that's one thing we're fixing.

1:19:49.860 --> 1:19:56.0

Eric y Daniela

Umm, some elevations. So this would be where if we're we're stand at the house facing the accessory structure.

1:19:57.140 --> 1:20:9.450

Eric y Daniela

We're underneath the height limit by about an inch, which is 22 feet for the Ridge, so that's all by matter of right, and we're just raising this five feet as you can see, we're keeping the same roof structure.

1:20:11.360 --> 1:20:19.530

Eric y Daniela

And it's just a section. Just say again, idea the floors, it's actually it's floor and 1/2 we're above the existing garage. There's a small loft space.

1:20:20.700 --> 1:20:25.910

Eric y Daniela

Umm, so we're kind of we're trying to keep that floor. It's not the best condition, but he does want try to preserve that.

1:20:26.970 --> 1:20:28.890

Eric y Daniela

And in this is just the existing plans.

1:20:30.80 --> 1:20:40.170

Eric y Daniela

Where you can see there's already a bathroom in there. There's a shed in the backyard that we're going demo and then here on the top right, you see where that roof is currently extending over the property line.

1:20:41.380 --> 1:20:43.120

Eric y Daniela

And we'll look at some 3D images.

1:20:44.730 --> 1:20:46.350

Eric y Daniela

So this is what the.

1:20:47.50 --> 1:20:54.160

Eric y Daniela

That we're proposing, as you can see, it's basically the same as before or as it is now, and we're just lifting the house that those five feet.

1:20:55.780 --> 1:21:0.670

Eric y Daniela

Wrapping around. So we're that shed is is here, which is proposing a small outdoor space.

1:21:2.990 --> 1:21:4.320

Eric y Daniela

I've been looking at the front.

1:21:5.420 --> 1:21:13.700

Eric y Daniela

Where the alley would be connecting right here, and we're also proposing that a shed. But that has nothing to do with the Bezier, because this is it's by a matter of right.

1:21:15.790 --> 1:21:22.440

Eric y Daniela

Well, I have the trails as well, but once again that's a matter of right. But then you can see here we have the what we're proposing.

1:21:23.450 --> 1:21:28.0

Eric y Daniela

Let's go through the last one and then just a quick shadow study.

1:21:29.910 --> 1:21:59.220

Eric y Daniela

So, you know, left is proposed, right? Is matter of right and really you know the matter of right you could add 450 square feet on top of this you know first floor however you wanted. So in theory you know we could have 450 square feet the whole back half of the building in which case the shadows would be exactly the same as what we're proposing. We decided to put it here so that we could give what the worst case scenario could be of the shadows but it could be the exact same thing.

1:21:59.640 --> 1:22:6.430

Eric y Daniela

But you can see here the additional shadow on during the summer at 9:00 AM. Is this red area very minimal?

1:22:8.640 --> 1:22:14.100

Eric y Daniela

Then going to noon, there's really no additional shadow here. As you can see.

1:22:15.800 --> 1:22:20.530

Eric y Daniela

And then let's see the three PM 3:00 PM, there's no shot additional.

1:22:21.770 --> 1:22:31.900

Eric y Daniela

Because you know the addition that we're that would be mattered, right? Is that the back is basically the same actually it's a little bit less because we're doing a Gable roof where you could do a flat roof and it could be more.

1:22:32.940 --> 1:22:42.650

Eric y Daniela

In the winter at 9:00 AM, you do see a little bit more shadow. The right is matter of right and the left is having a little bit more shadow on the shed of the JSON building.

1:22:43.540 --> 1:22:46.600

Eric y Daniela

But really, nothing extra in the backyard itself.

1:22:48.270 --> 1:22:55.90

Eric y Daniela

And here at noon we do have affected a little bit here in the top left corner you can see the difference there.

1:22:56.610 --> 1:23:2.80

Eric y Daniela

And lastly, here at 3:00 PM in the winter, there's really no difference.

1:23:3.170 --> 1:23:9.940

Eric y Daniela

From the matter of right or proposed, I'm happy to answer any questions, and if not, I'm happy to come back next month.

1:23:10.780 --> 1:23:22.160

Bradley-Lewis, Thaddeus (SMD 3A01)

Great. Thanks. I have just a couple of questions. I guess first is the fact that the garage is actually on the neighbors property that didn't come up anytime prior to the last couple of days seeing this whole process or?

1:23:22.820 --> 1:23:39.440

Eric y Daniela

Well, yeah, I came up the first time we came through HPRB today in C and you know, at first we didn't propose the roof to be cut here. We just said it's the same roof. We're lifting it, but then we decided to cut it back. But the building itself is not across the property line. It was just the roof overhang.

1:23:39.740 --> 1:23:48.110

Bradley-Lewis, Thaddeus (SMD 3A01)

Steve, OK. And you mentioned that the alley access for this property is across a lot 804, which is the Abbey apartment building, is that correct?

1:23:48.650 --> 1:23:54.680

Eric y Daniela

Uh. Correct. So it's let's see if this so this right here is what 804?

1:23:56.90 --> 1:24:6.680

Bradley-Lewis, Thaddeus (SMD 3A01)

OK, so the car, the rent or the burgundy maroon car that's shown in that picture is that in the alley or is that on the 804 property or is that on your clients property?

1:24:6.380 --> 1:24:12.710

Eric y Daniela

So that I believe it's a little bit on the clients, my clients property and a little bit on 804, but it's not in the alley.

1:24:15.230 --> 1:24:24.480

Bradley-Lewis, Thaddeus (SMD 3A01)

And there's been some interest from the neighbors in the last few days on a number of issues, and I think some are here tonight, both in person and remotely.

1:24:26.440 --> 1:24:28.590

Bradley-Lewis, Thaddeus (SMD 3A01)

Question about the.

1:24:29.340 --> 1:24:36.20

Bradley-Lewis, Thaddeus (SMD 3A01)

The potential use for this property, so it's not going to be a kid. There's not gonna be a kitchen, so it's not an auxiliary dwelling unit. It's going to be what?

1:24:37.130 --> 1:24:47.330

Eric y Daniela

It's gonna be used as accessory structure for additional bedrooms for the house, for their mother-in-law or family. I think they want the lower floor more to be for their kids as a studio.

1:24:48.510 --> 1:24:52.140

Eric y Daniela

So it's going to be used more in that aspect and not a rental.

1:24:52.870 --> 1:25:8.920

Bradley-Lewis, Thaddeus (SMD 3A01)

OK. And one of the neighbors told me a couple hours ago that they had talked to the property owner and her plan or his or her plan was to use it as an Airbnb. If that's true, does that have any effect on the zoning, the visa process?

1:25:9.640 --> 1:25:16.890

Eric y Daniela

As far as I know, I mean, you could rent out the bedrooms as an Airbnb, just like if you were renting it out a bedroom within the main house.

1:25:18.290 --> 1:25:35.470

Eric y Daniela

More than that, I'm not sure I'm if zoning sometimes will request to provide a covenant letter saying that you won't rent it out as an accessory dwelling unit, but as far as renting on the bedroom, I don't think there's any issue, but I I don't know that part.

1:25:36.310 --> 1:25:38.590

Bradley-Lewis, Thaddeus (SMD 3A01)

Right. And then finally the.

1:25:39.380 --> 1:25:57.750

Bradley-Lewis, Thaddeus (SMD 3A01)

The schematic shows up patio or a a an outdoor area right along the fence of the adjoining property. Yeah. Is there any required setbacks there or any flexibility from your planning standpoint to put that closer to the main house and not on the neighbors fence line?

1:25:58.620 --> 1:26:4.330

Eric y Daniela

So this would just be a patio on grade, so just be like a hardscape. I think you can see it here.

1:26:6.720 --> 1:26:17.480

Eric y Daniela

I we could talk to the owner if he wants to. If he doesn't mind putting it somewhere else but some more. Yeah. There's not gonna be a trellis or pergola or anything like that that you'd see over the fence line.

1:26:18.80 --> 1:26:21.150

Bradley-Lewis, Thaddeus (SMD 3A01)

Right, and it doesn't require any zoning approval as you understand it, correct?

1:26:21.970 --> 1:26:28.580

Eric y Daniela

No, because it's on grade. I mean it's part of the package that we've submitted to DOB. So they know that they'll be hardscape back there.

1:26:30.250 --> 1:26:33.770

Bradley-Lewis, Thaddeus (SMD 3A01)

Why would the patio be on the backside and not related to the rest of the house?

1:26:34.940 --> 1:26:36.560

Bradley-Lewis, Thaddeus (SMD 3A01)

If it's gonna, if they're saying.

1:26:37.470 --> 1:26:38.60

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah.

1:26:35.60 --> 1:26:53.260

Eric y Daniela

And I think it's more if it's, I think if it's the mother-in-law or father-in-law or, you know, in laws they have a private space from the main house and they could hang out there good and get some breaks from the kids. I'm not sure why he decided he wanted it that way. I think it was just an owner preference.

1:26:54.100 --> 1:27:2.250

Eric y Daniela

Owners always decide to use stuff sometimes which blows my mind. Everybody's different, right? So it's just the way they decide to live.

1:27:4.680 --> 1:27:6.770

Bradley-Lewis, Thaddeus (SMD 3A01)

Other questions questions from the room.

1:27:8.230 --> 1:27:28.70

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, my name is Mark Horton. I live behind the the structure. I was surprised to hear it suddenly going

up by 5 feet because some of the exhibits that we've seen refer to it going up by 8 feet. So it's really quite significant elevation right at the back of the property, cross the property and 3606.

1:27:29.170 --> 1:27:39.140

Bradley-Lewis, Thaddeus (SMD 3A01)

22 foot dwelling right across the backyard and and for me at 3606 it's a very tall and dense dwelling.

1:27:39.520 --> 1:27:48.930

Bradley-Lewis, Thaddeus (SMD 3A01)

UH-25 feet or so from my back door. So I was surprised to hear it 5 feet and not 8 feet and it will be over the maximum by about half.

1:27:50.290 --> 1:27:53.590

Bradley-Lewis, Thaddeus (SMD 3A01)

Is that something that changed, Mr. Taryn French?

1:28:23.10 --> 1:28:23.360

Bradley-Lewis, Thaddeus (SMD 3A01)

Is.

1:27:53.80 --> 1:28:23.860

Eric y Daniela

Yeah, yeah. From the very first time we submitted before the HPRB hearing, the first ANC, it was, I believe it was eight feet, 8 1/2 feet higher and that's before we realize that the rich. So in the main house you take the height from the midpoint of the roof and that's what we thought the alley or this accessory structure was as well. But then we found out that the height limit at 22 feet is not from the midpoint, but from the Ridge. And that's why we lowered it so that this was now a matter of right.

1:28:23.950 --> 1:28:30.260

Eric y Daniela

As far as the the the original line goes and that's why it reduced from over 8 feet to now 5 foot 3.

1:28:31.530 --> 1:28:35.570

Eric y Daniela

So the written existing Ridge is 5 foot 3 lower right there.

1:28:36.870 --> 1:28:38.870

Bradley-Lewis, Thaddeus (SMD 3A01)

Total height would still be in 22 feet.

1:28:39.790 --> 1:28:45.260

Eric y Daniela

Yes, the Ridge, but the sizes are much lower. So we look at let me go the section.

1:28:45.920 --> 1:28:48.490

Bradley-Lewis, Thaddeus (SMD 3A01)

And by the way, you're talking about this the top of the A-frame there.

1:28:48.890 --> 1:28:52.220

Eric y Daniela

Yes. So this right here is at 2111 1/2.

1:28:53.110 --> 1:28:56.830

Eric y Daniela

And then the edge of the roof is at the 16 and six.

1:29:0.510 --> 1:29:8.530

Bradley-Lewis, Thaddeus (SMD 3A01)

I do. I've been in more questions. I just have another question. Yeah, like in in 3D generally, we would see any of these PC applications.

1:29:9.520 --> 1:29:15.750

Bradley-Lewis, Thaddeus (SMD 3A01)

You will get either understanding from the neighbors have. Have you spoken to the neighbors and what? What are they saying?

1:29:16.480 --> 1:29:27.100

Eric y Daniela

I haven't personally the owner has. I think he has spoken to, you know, they have spoken the neighbor behind. Like, there's just a disagreement. He also spoke.

1:29:28.280 --> 1:29:39.990

Eric y Daniela

He's trying to reach this neighbor a lot, 57 but he told me he hasn't had any luck success yet and really the only neighbor he has reached was this. The Abbey here where he got a letter of support.

1:29:44.330 --> 1:29:54.290

Bradley-Lewis, Thaddeus (SMD 3A01)

Like, does anybody in the teams on teams have a question? If you do, please raise your hand or at this point you can you can just come off mute.

1:29:57.820 --> 1:30:1.810

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright, miss adina. You're welcome to unmute yourself.

1:30:31.990 --> 1:30:32.160

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah.

1:30:3.650 --> 1:30:33.820

Barbara Zadina

Yes, thank you. So I am in lot 48 and Mr. Marcus did reach out to me last October and he wanted me to sign a letter saying that I had no objections and gave me plans and at that time I told him that I was very concerned and I refused to sign a letter of no objection. So he did and and I know that he did reach out to other neighbors, but I won't speak for them.

1:30:34.160 --> 1:30:48.70

Barbara Zadina

Who asked you refused to sign a letter of no objection. But I do want to point out that at that time and the person he did tell me that he would use it as an Airbnb. He told me that he was building a kitchen.

1:30:49.0 --> 1:31:20.130

Barbara Zadina

An outdoor kitchen in the backyard which explains why he's doing that. Because you're trying to get around the rules for not having a kitchen in that unit and so early plans that I was given by Mr. Marcus show an outdoor kitchen against the fence in the yard and that to me, raises a lot of concern. Yes, in that in that kind of space there that that has the the pergola and that raises a lot of concerns.

1:31:21.930 --> 1:31:22.160

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah.

1:31:22.970 --> 1:31:23.740

Bradley-Lewis, Thaddeus (SMD 3A01)

It's it's.

1:31:23.800 --> 1:31:54.370

Barbara Zadina

He already has a very large house with a basement that he rents out to another family. So if he wanted to have his in laws, I would imagine he could stop renting his basement and offer his in-laws to live there. And so I'm very concerned about having parties and in that backyard and we have rats for ready that come out of his garbage cans. And so I'm very concerned about the, the, the true use of the building, the outdoor kitchen that gets around.

1:31:54.450 --> 1:32:7.90

Barbara Zadina

The laws for not having a kitchen in that building and and all the the trash and the rats and the lack of parking that would go along with this building.

1:32:8.270 --> 1:32:9.440

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you, Mr. Adina.

1:32:10.570 --> 1:32:18.60

Bradley-Lewis, Thaddeus (SMD 3A01)

Just to reiterate, we're going to be deliberating on this and taking a vote at our next meeting in May.

1:32:18.680 --> 1:32:19.970

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, so?

1:32:22.310 --> 1:32:24.930

Bradley-Lewis, Thaddeus (SMD 3A01)

You know we we, I.

1:32:35.210 --> 1:32:35.440

Bradley-Lewis, Thaddeus (SMD 3A01)

This.

1:32:22.740 --> 1:32:39.30

Barbara Zadina

I understand. I just I I guess my I guess my question is, is that true? Are you really building a kitchen outside to get around the the rules for no kitchen inside and what is it true use of the building because I was told by the owner that it would be an Airbnb.

1:32:40.620 --> 1:33:1.670

Eric y Daniela

So as far as this kitchen, and this is a BBQ and I think you might end up putting a sync for my understanding is is this is 100% for his use, not for you know if he does rent the bedrooms and Airbnb, but it's never. He's never mentioned this list to get around not having the kitchen in here.

1:33:3.120 --> 1:33:15.470

Eric y Daniela

So I that would surprise me the second one using this as an Airbnb if he rents out the bedrooms like I said before, my understanding is you can rent out the bedrooms like you're renting out the bedrooms in your house.

1:33:16.160 --> 1:33:28.530

Eric y Daniela

Umm. As far as why wouldn't he use the basement for to rent or, you know, let his in law stay there? You know, Airbnb is a nice source of income if you have an accessory dwelling unit. I have that in my house.

1:33:30.330 --> 1:33:35.400

Eric y Daniela

It helps pay the mortgage so I can understand that if his in-laws come, he doesn't want to lose that source of income.

1:33:36.60 --> 1:33:41.20

Eric y Daniela

Umm so I I don't see any issue with that. If he's going to rent this out.

1:33:42.580 --> 1:33:47.640

Eric y Daniela

You know, short term or long term on Airbnb I mean that's I don't know what his long term plans are.

1:33:48.940 --> 1:33:49.590

Bradley-Lewis, Thaddeus (SMD 3A01)

That was.

1:33:48.640 --> 1:33:50.930

Eric y Daniela

Guys know we can't have a kitchen in here.

1:33:52.70 --> 1:33:53.900

Eric y Daniela

Or else that would become an accessory dwelling unit.

1:33:53.980 --> 1:33:57.110

Barbara Zadina

Right. And it's very convenient that there will be a kitchen outside.

1:33:58.340 --> 1:33:59.10

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you.

1:34:0.710 --> 1:34:1.570

Bradley-Lewis, Thaddeus (SMD 3A01)

Mr. Tran.

1:33:57.990 --> 1:34:3.260

Eric y Daniela

I don't. I don't think that's the same. I mean, if it's raining and you're not going to go outside, if you cook every day.

1:34:6.500 --> 1:34:6.890

Eric y Daniela

Thank you.

1:34:6.400 --> 1:34:7.840

Barbara Zadina

Thank you. Thank you.

1:34:3.430 --> 1:34:33.380

Bradley-Lewis, Thaddeus (SMD 3A01)

Mr. Transmission, Dina, thank you very much. Like we will be deliberating on this at our next meeting. We'll also be reaching out to all interested parties in the intervening time. So we'll we'll do our utmost to address concerns that come our way and anticipation of of deliberating and the next meeting. So we will now move on to the next item of our agenda, which is Mr. Christopher Lucas will be presenting on behalf of the DC Office of the tenant advocacy.

1:34:33.670 --> 1:34:36.150

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you, Mr. train. Thank you guys for coming into my mind.

1:34:40.930 --> 1:34:42.100

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright, Mr.

1:34:43.510 --> 1:34:54.940

Bradley-Lewis, Thaddeus (SMD 3A01)

Mr. Lucas, I'm. I'm gonna. I'm gonna make you a presenter now so that you can share your screen. You should be able to unmute now and.

1:34:55.630 --> 1:34:56.440

Bradley-Lewis, Thaddeus (SMD 3A01)

Do so.

1:35:1.220 --> 1:35:2.240

Puig-Monsen, Cristobal (OTA)

Uh, can you guys hear me now?

1:35:2.630 --> 1:35:3.880

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, yes we can.

1:35:8.930 --> 1:35:9.650

Bradley-Lewis, Thaddeus (SMD 3A01)

Ohh.

1:35:4.20 --> 1:35:18.130

Puig-Monsen, Cristobal (OTA)

Excellent. Alright. Let me go ahead and share the screen here. So I'm not Christopher Lucas. My name is Chris, but Christopher Lucas is at another agency meeting this evening. So this was my turn. Let me just share the screen super quick, let's say. How do we do this?

1:35:19.800 --> 1:35:20.260

Puig-Monsen, Cristobal (OTA)

There we go.

1:35:22.240 --> 1:35:23.180

Puig-Monsen, Cristobal (OTA)

OK. Can you see this?

1:35:23.670 --> 1:35:24.300

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes, we can.

1:35:24.610 --> 1:35:54.300

Puig-Monsen, Cristobal (OTA)

Excellent. So basically, I'm from the uh, I'm from the office of the Tenant advocate and I have a little presentation on what our office does. So the office of the Tenant Advocate was established in 2006 is a division of DCRA. We're now an independent DC government and agency within the executive branch of government and we're charged with providing legal policy, advocacy, emergency housing, education and community outreach services to district tenants. So the way that our agency works is that we have our legal branch that provides brief legal services for thousands of tenants and DC.

1:35:54.640 --> 1:36:24.900

Puig-Monsen, Cristobal (OTA)

And in some instances provides a limited or full legal representation. OT attorneys also assist tenants and their self representation efforts and in navigating mediation and alternative dispute resolution forums. So basically we have this works is that we have one phone number and if there's one thing that

you all take from today would be the phone number would be fantastic. So it was 2027196560 tenants call our office for issues such as eviction assistance, rent to determine whether a rent increase with lawful lease related questions.

1:36:24.990 --> 1:36:33.390

Puig-Monsen, Cristobal (OTA)

Housing code violations. The return of a security deposit, how to exercise tenant opportunity to purchase act rights, and also just enforcing tenant rights in general.

1:36:34.730 --> 1:37:5.260

Puig-Monsen, Cristobal (OTA)

Like I said earlier, tenants call our phone number and what's gonna happen is that they're gonna explain the legal issue or they're request to the intake specialist. And then if it's a legal question that they're being asked of, the tenant is going to be assigned to your case management specialist or an attorney advisor, depending on the legal issue. If it's something that requires legal drafting, legal research, it's going to go to an attorney. If not, it goes to a case management specialist. The OTA staffer then is going to call the tenant back to further discuss the issue, provided bias and develop actions to address the particular issue. In some cases will represent the tenant in court.

1:37:5.360 --> 1:37:16.420

Puig-Monsen, Cristobal (OTA)

I know refer them to an outside legal aid service provider. Our policy branch work with governmental and community partners and entities including DC Council, Mayor's office, executive agencies, the cords, tenant stakeholders.

1:37:17.250 --> 1:37:29.500

Puig-Monsen, Cristobal (OTA)

To promote better tenant protections and laws in DC. And we saw this a lot during the well public health emergency recently, right. So evictions were prohibited for a bit. Then there was a carve out exception for security considerations excetera.

1:37:30.850 --> 1:37:39.590

Puig-Monsen, Cristobal (OTA)

Education now reached branch, develops educational materials classes as well as virtual tutorial videos on issues important to tenants and participates in community events.

1:37:40.250 --> 1:38:10.680

Puig-Monsen, Cristobal (OTA)

The way that people can have the education outreach team go out is again calling 719-6560 for us for us to go out and help you form or sustain a tenant association in your building. Customized classes on tenant rights requests that we attend a community event now that the weather is getting nice or for any sort of classes and or listening session. Lastly, our temporary emergency housing program, if the office of the Tenant Advocate is pretty unique for large metropolitan cities in the United States.

1:38:10.820 --> 1:38:41.950

Puig-Monsen, Cristobal (OTA)

This program is one-of-a-kind. It assists tending to have been displaced by fires, floods, or other

government closures. The way that this works is that our program is activated when we receive an alert from the Department of Buildings, Homeland Security, and Emergency Management. The fire department, the Red Cross, and then what happens is that we provide those displaced tenants with a temporary emergency housing storage for personal belongings, and we coordinate other district services. This is a temporary program that is meant to be a stopgap. And if any of you remember the Arthur.

1:38:42.20 --> 1:38:46.840

Puig-Monsen, Cristobal (OTA)

Sniper fire a couple of years ago that was a good example of how this program operates.

1:38:47.550 --> 1:38:53.970

Puig-Monsen, Cristobal (OTA)

So that is the conclusion of the presentation. I do want to share one more thing with you guys. Uh, so please, you know.

1:38:54.900 --> 1:39:1.920

Puig-Monsen, Cristobal (OTA)

Take the phone number with you. If nothing else, right? One last thing, if I may, commissioners, let me see how I do this.

1:39:2.930 --> 1:39:6.230

Puig-Monsen, Cristobal (OTA)

Not super great with teams here, but I will.

1:39:14.880 --> 1:39:15.110

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah.

1:39:15.870 --> 1:39:16.290

Bradley-Lewis, Thaddeus (SMD 3A01)

Yep.

1:39:8.230 --> 1:39:33.760

Puig-Monsen, Cristobal (OTA)

Just want two things I want to show you guys. So this is one of the things that our education and outreach branch does. Can you see the shared screen there? Great. So these are tenant tutorial videos that address issues that are important for all tenants, right? So the housing conditions calendar is a specialized tribunal to enforce the housing code. What is joint and several liability. What does rent control mean and the district? What to do if you find mold in your apartment housing, code violations in Spanish and English.

1:39:34.650 --> 1:39:46.850

Puig-Monsen, Cristobal (OTA)

Of the point is that this is a resource available for all of your constituents to answer some of the most frequently asked questions that we get concerning tenant rights. And then the last thing that I want to share with you all.

1:39:47.740 --> 1:39:48.430

Puig-Monsen, Cristobal (OTA)
Is.

1:39:48.510 --> 1:39:50.490

Puig-Monsen, Cristobal (OTA)
Ohh this.

1:39:51.960 --> 1:40:2.940

Puig-Monsen, Cristobal (OTA)

Like other well, like all government agencies these days, we also have a social media thing. So this is our social media web page or Twitter page.

1:40:3.620 --> 1:40:5.180

Puig-Monsen, Cristobal (OTA)

And we basically.

1:40:7.100 --> 1:40:35.470

Puig-Monsen, Cristobal (OTA)

Do this sort of to do public service announcements, right? So this is basically if somebody's at risk of eviction, please have them call our office. The sooner the better activities that we do in the Community are renters rights class that we have every month for free. This is some of our outreach specialists helping tenants form a tenant association because they're building was going over same. So please know that we are resource available for all District of Columbia tenants and that's that concludes the presentation.

1:40:36.870 --> 1:40:37.240

Puig-Monsen, Cristobal (OTA)

Thank you.

1:40:44.580 --> 1:40:45.440

Puig-Monsen, Cristobal (OTA)

That's OK.

1:40:38.160 --> 1:41:3.290

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you so much, Mr. Puig. Monson. You don't have time for questions, but if anybody's yes, if anybody has questions about OTA, please either reach out directly to OTA or the pertinent to create. Please reach out to us and we can work with you and and with OTA to address. Thank you so much, Mr. Puig Monson.

1:41:4.570 --> 1:41:4.910

Bradley-Lewis, Thaddeus (SMD 3A01)

That.

1:41:4.250 --> 1:41:6.450

Puig-Monsen, Cristobal (OTA)

Absolutely. Thank you, Commissioner. Everyone have a good evening.

1:41:6.890 --> 1:41:7.930

Bradley-Lewis, Thaddeus (SMD 3A01)

You too. Thanks.

1:41:10.460 --> 1:41:17.590

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright, the next item on our agenda is Commissioner updates. Does anyone have any Commissioner updates they would like to share?

1:41:19.400 --> 1:41:28.150

Bradley-Lewis, Thaddeus (SMD 3A01)

Don't don't say very briefly there, so new better bus initiative and there will be events related to that in our area including it on the Tenley town.

1:41:29.250 --> 1:41:33.950

Bradley-Lewis, Thaddeus (SMD 3A01)

On Thursday, May 18, to talk about the new network.

1:41:34.850 --> 1:41:39.100

Bradley-Lewis, Thaddeus (SMD 3A01)

We're talking about a slash better bus, and we'll be talking about that more.

1:41:40.40 --> 1:41:41.250

Bradley-Lewis, Thaddeus (SMD 3A01)

Thank you, Commissioner Milano.

1:41:43.400 --> 1:41:44.360

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, I met with.

1:41:45.540 --> 1:41:50.670

Bradley-Lewis, Thaddeus (SMD 3A01)

The mayor's moker, which Matthew we met.

1:41:51.530 --> 1:41:57.330

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, early last month and we walked mass, Ave. up towards circle and we were covering some issues related to that.

1:41:58.360 --> 1:42:20.920

Bradley-Lewis, Thaddeus (SMD 3A01)

We're supposed to meet again with Christian Panaro dot to go over some concerns at Ward Circle as well as just the the traffic speeds on Mass Ave. because we're getting calls from the Foxhall about the speed of like where the speed of traffic there. So that's that's what I have right now very much.

1:42:21.270 --> 1:42:31.160

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't know. I do not have any updates at this time. So we will now move into Community announcements. Did you wanna just, sure, we'll start with you.

1:42:31.880 --> 1:42:33.650

Bradley-Lewis, Thaddeus (SMD 3A01)

OK, you guys.

1:42:34.910 --> 1:42:38.40

Bradley-Lewis, Thaddeus (SMD 3A01)

Commissioners know kind of what the deal is going to smoke, except from you.

1:42:40.120 --> 1:42:51.470

Bradley-Lewis, Thaddeus (SMD 3A01)

But basically, as I discussed before the meeting, they're putting a scooter stand and that they're kind of halfway through the process at the intersection of Wisconsin and Fulton.

1:42:52.190 --> 1:42:52.600

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh.

1:42:53.520 --> 1:42:59.450

Bradley-Lewis, Thaddeus (SMD 3A01)

It sounds like they didn't tell you guys that this was coming, which means or it begs the question.

1:43:0.210 --> 1:43:1.440

Bradley-Lewis, Thaddeus (SMD 3A01)

Why didn't they tell you?

1:43:1.890 --> 1:43:31.840

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, but in essence that neighborhood, which is Fulton Garfield Cathedral, all of those blocks, the only way you can get into that neighborhood coming from Clover Park or Georgetown. Coming up, Wisconsin from the South is 1 left turn onto Fulton. And because of this new Cumbre once, basically for people coming up Wisconsin, it's gonna be a traffic jam. Like basically every other traffic signal.

1:43:32.230 --> 1:43:59.680

Bradley-Lewis, Thaddeus (SMD 3A01)

And then for people that are on Fulton, which also shoots off from New Mexico and tunnel and all that as a cut through to Wisconsin, everybody going from the West to the east is now gonna be further burden because this thing is perfectly by perfectly, I mean, imperfectly aligned to make it impossible for the half the cars that turn right down the hill to do that. If even one car is waiting to turn left or go straight.

1:44:0.520 --> 1:44:21.770

Bradley-Lewis, Thaddeus (SMD 3A01)

So couple of thoughts, that's the basic gist of it. Number one, we we talked about why did dot bring that up with the community with you guys, Benny when they're just out there doing it, why do I know about it? Because on Friday I was there when the guy was installing the pylons. Very nice guy. But when I asked him what the project number was, he didn't have it. So.

1:44:22.540 --> 1:44:36.700

Bradley-Lewis, Thaddeus (SMD 3A01)

I'm not saying everyone needs to remember every project number, but that's not really a great response as far as like a citizen is concerned about something that's happening. He also I'm paraphrasing here, but he said when I said what is this? This is kind of like.

1:44:37.920 --> 1:45:4.930

Bradley-Lewis, Thaddeus (SMD 3A01)

Crazy that they're putting it right here, right. And say I didn't do the word crazy. She then said that. Yeah, his parents think some of the things that do not these two inches crazy. And this is not a pure install guy. This is the guy who said that he kind of works in both worlds in the office and out in the field. So this isn't just like some discount guy. That's how annoyed that he has to go do a job that he thinks is crazy, like he's part of the process. So that's weird.

1:45:7.180 --> 1:45:37.710

Bradley-Lewis, Thaddeus (SMD 3A01)

His response to me was call 311 and I'm I was afraid you guys are gonna tell me to do that as well. You did not thank you. Because the two times in my life I've called 311 was some guy put temporary storage unit on Fulton Street. I called. It took three months for that thing to leave. Why? There was no enforcement on that when he didn't have a permit for it. Wanna clarify that weird. And then Garfield St. electricians or some sort of utility dug a trench in Garfield around Bellevue and it was just left.

1:45:37.780 --> 1:45:49.240

Bradley-Lewis, Thaddeus (SMD 3A01)

Open for days on days I was like, I guess I'll be the one to call 311. Did they fix it immediately? No. But then, like a few, I don't know. What week later? Finally. It's sort of got fixed.

1:45:50.430 --> 1:45:52.920

Bradley-Lewis, Thaddeus (SMD 3A01)

So last thought. Uh.

1:45:53.620 --> 1:45:59.160

Bradley-Lewis, Thaddeus (SMD 3A01)

Why are we doing this for a scooter rack? But more importantly, let's be honest, even if.

1:46:0.170 --> 1:46:27.590

Bradley-Lewis, Thaddeus (SMD 3A01)

The vision was like only from the best place in the world like this is optional and we all know that scooter riders slash. Whoever else is gonna put their thing there will literally probably just leave their bike or scooter or whatever 5 feet away from it and not put it in that spot. So I beg of you guys as our advocates to edot and PS that locker is that what it was?

1:46:27.670 --> 1:46:31.80

Bradley-Lewis, Thaddeus (SMD 3A01)

Nothing. He literally and you guys heard him, he said.

1:46:31.160 --> 1:46:49.420

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, when I talk to the dot Rep, I might not like the answer. That's kind of a weird knee jerk response for from a mayor's office person almost like. Yeah, well, deal with it. It's gonna be there. Maybe I'm taking them out of context, but last thought, why not put it on the same block?

1:46:50.140 --> 1:46:58.670

Bradley-Lewis, Thaddeus (SMD 3A01)

On the other side, which is a dead end St. you can take the same space. You're not gonna make everybody's life a living nightmare and everybody wins.

1:46:59.550 --> 1:47:29.120

Bradley-Lewis, Thaddeus (SMD 3A01)

Are we sure that it's? I'm sorry. Not that I haven't. Are we sure it's not a a bike rack? That's surprising. I mean, I've seen Scooter rack just end up on Earth like and they just show up, right? We have. We had one show up on mass Ave. and it's like someone just came and dumped a scooter rack. No ones using it. But it's still just there. It gets used every morning when fresh Twitters get dropped off there. But by the end of the night, they're not being returned there, right. We all know that. But I'm just. I'm surprised if they're going to do this. Why they did it.

1:47:29.510 --> 1:47:54.270

Bradley-Lewis, Thaddeus (SMD 3A01)

From the street seems like a large. It seems like the car length that they put here based on your image. I. Yeah. No, you're right. Like they could have. I mean, they're gonna just dump something. Why didn't they dump it on that grass there? I don't know how wide that grass is, but that's my question to you. Is Are you sure that's what it is? And it's not a literally step because I asked him, is this a day lighting project or something like that? He's like now going to put a scooter bike rack here.

1:47:55.430 --> 1:48:24.680

Bradley-Lewis, Thaddeus (SMD 3A01)

Well, no. But he said scooter bike rack. Are you? That's what I'm saying. It's not like a deep the DC bike racks, which those difference? It's not those ones where you drive the bike into it. Yeah, like that. Almost like saddle or, you know, the yeah. Upside down. You shaped. That was my impression. Yeah. It's not gonna be one of those bigger things where like the, what's it called? Capital bike share. Yeah. Yeah, that's what. It's not that. It's not that it's that silly you've seen on more downtown than up by us but I think.

1:48:24.770 --> 1:48:33.880

Bradley-Lewis, Thaddeus (SMD 3A01)

They might have a couple two, just that you don't have it, but they got out that I'm aware of it. I'm buying you like every day. I mean, I I was just. Yeah, it seems like they put him in.

1:48:35.10 --> 1:48:41.630

Bradley-Lewis, Thaddeus (SMD 3A01)

Intentionally in the street, which is I keep using the word weird but like, why does it need to be in the street?

1:48:42.850 --> 1:49:0.600

Bradley-Lewis, Thaddeus (SMD 3A01)

When to your point, it can go in the tree box, right? That doesn't belong to no one on this street. Very few people are writing scooters on the street to begin with. So, like, why, like all sudden, you're gonna get off the sidewalk to park this industry? It doesn't seem to make sense. I'm just gonna interject. So.

1:49:1.440 --> 1:49:1.740

Bradley-Lewis, Thaddeus (SMD 3A01)

Are.

1:49:3.20 --> 1:49:12.920

Bradley-Lewis, Thaddeus (SMD 3A01)

My perception of our plan at this point and so as I explained to you, yeah, there's a ward 3D dot liaison and and I.

1:49:13.910 --> 1:49:44.320

Bradley-Lewis, Thaddeus (SMD 3A01)

Commissioner will speak up. Yeah, speak up if you know. If I'm off base here. But I think the best approach is first of all, to get into contact with him and get him out here so that we can, you know, or Commission Milanov and yourself and anybody else who's interested in this issue, maybe do a walk through to understand exactly what they're planning to do or if it's just a matter of him sending an e-mail saying this is the project, this is what we intend to do with the space, so that we.

1:49:44.420 --> 1:50:15.260

Bradley-Lewis, Thaddeus (SMD 3A01)

Are all on the same page as today. What that is that they are doing and then if it you know if it continues to be an issue or a concern once we're on the same page, you know if it requires us weighing in or getting dot on the record as to what's going on, you know querying the community, we can do that at the next meeting or you know, however, this situation plays out all what makes sense. I also think we need to look to see whatever Inc.

1:50:15.350 --> 1:50:30.230

Bradley-Lewis, Thaddeus (SMD 3A01)

This was in maybe it would already came to that and see. Yeah, yeah, I mean it it is plausible. So. Sorry. Just because. Yeah, because I had like comment and a question my question is like about my comment is.

1:50:31.500 --> 1:50:38.140

Bradley-Lewis, Thaddeus (SMD 3A01)

Again, I don't wanna speak for like intentions, but sure, that's why it's on Fulton.

1:50:39.80 --> 1:50:56.810

Bradley-Lewis, Thaddeus (SMD 3A01)

Which is and zone, but that side of Fulton is in. That was a 3D is the next one. So it was part of 50. Be aware that whoever the Commissioner for that freebie section might be fighting against what you guys are trying to do. And then my question is please ask them not.

1:50:58.380 --> 1:51:25.690

Bradley-Lewis, Thaddeus (SMD 3A01)

I would ask them to take it away, but I'm probably not being realistic. Asked them not to put those metal

bars there until we sort this out. Well, yeah, my question more is this. Might have actually came to an ANC prior to us here. I think it was still it was my district. So that's why you don't hear anything about the only thing that we asked was that if so narrow there, could they please remove some parking?

1:51:26.380 --> 1:51:29.40

Bradley-Lewis, Thaddeus (SMD 3A01)

That side of the street, and they've had that TSI.

1:51:30.220 --> 1:51:58.490

Bradley-Lewis, Thaddeus (SMD 3A01)

We worked with the dot on that one, and I'm sure they're aware of it, so they should have known to let me know. So they're they're doing the opposite, which again, but if it's not there yet and hopefully Anne can reach out to Christian and we can at least get the conversation. Yeah, that's I chose you guys to. Yeah, thank you. But thank you. I'll give you my e-mail. I'll just e-mail you again and we'll be in touch. Thanks for if we don't have any other community announcements, we'll move to open forum.

1:52:1.660 --> 1:52:31.170

Bradley-Lewis, Thaddeus (SMD 3A01)

Hi everyone. My name is Jeanette yell. I just moved to this district for MU Street in the 2nd order. This is my boyfriend Charles and Commissioner Judy's section. We're glad to be here. Thank you. I just wanted to bring something to your attention. We live right on Wisconsin Ave. in between Woodley and Lowell. Yeah, well, and well, yeah. So we live in Wisconsin and Lowell.

1:52:31.270 --> 1:53:1.830

Bradley-Lewis, Thaddeus (SMD 3A01)

And that intersection has a crosswalk that is unprotected. There's no button you can push to across the street. There are seniors that live in our building. There are seniors that live next door to us and then there are also children that live fagles around Idaho that are crossing to go to the cathedral school. And then there's like an elementary school, a couple walks down. I'm very concerned because even when I crossed the street there, I feel like I'm playing Frogger. You have cars that are speeding and not stretch.

1:53:1.930 --> 1:53:33.970

Bradley-Lewis, Thaddeus (SMD 3A01)

And then there's also a cars that are parked alongside, which can block the the view of the drivers. If somebody is standing there waiting to cross. And there have been a couple of near misses just for me doing a walk. And I've even seen, you know, some some drivers not paying attention and almost running kids over that are crossing the street to go to school in the morning. And so I wanted to come to you all to ask, you know, what can we do if there, if it's possible, if we can advocate and put up a button to cross? When I lived on 14th and you, we did this successfully with.

1:53:34.90 --> 1:54:6.650

Bradley-Lewis, Thaddeus (SMD 3A01)

The 14th and wallet because when I first moved there there was, you know, there was same thing was happening before getting hit by cars on 14th St. we eventually put up a a sign where cars had to stop if people were crossing and we put up a crosswalk sign or people. Yeah, across signal with like a timer and everything. And then once people were not in the intersection, cars could proceed. So I just didn't know what that process was and how we could get that ball rolling. Just the thing that makes that intersection

even worse is that Lowell doesn't continue on the far side. The West side of Wisconsin. So it actually looks like a mid block.

1:54:6.720 --> 1:54:17.720

Bradley-Lewis, Thaddeus (SMD 3A01)

Plus walk that's completely unexplained and people don't see like if it was an intersection with a with a regular light, or even that it came out way across. So there's no current walk signal at all. No, no.

1:54:20.660 --> 1:54:28.540

Bradley-Lewis, Thaddeus (SMD 3A01)

And then there's like a little sign that the small like narrowed sign that says by law you have to stop it. Drivers aren't even. Then it's on their phone.

1:54:28.610 --> 1:54:42.610

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah. You know, I think the only hawk signal that's and that's stretch is on with. No, there's one in Wisconsin near near the chicken spot, right search side. And what does the chicken but what's the.

1:54:42.710 --> 1:55:3.640

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, that's how many farther up. No, I'm just saying that's not right. And I don't. I almost got hit with it flashing. So I just at this point, not not that I've disregarding. It's just like I have to use the lights, but that means you guys have to walk in there, block up or a block down to get there, which is it's the only Safeway for now. But I think it's got too.

1:55:4.490 --> 1:55:24.620

Bradley-Lewis, Thaddeus (SMD 3A01)

All the little closer, but yeah, I think we need to like so one thing I'll tell you that I've been because this is a concern for us up for where I'm at on mask cuz I'm at mass in and more circle which is right by American University. So there's a lot of concern on on those cross signals and those are actually the actual light cross signals.

1:55:25.220 --> 1:55:45.810

Bradley-Lewis, Thaddeus (SMD 3A01)

Umm I have a TSIL, but then when you so when you go and look at the TSG's which are traffic study whatever, I forget what it stands for TI. There's a map you can go to the TC and look up the TSI maps and I would. I'd be surprised if there isn't a type for this intersection as of now. But.

1:55:46.500 --> 1:55:54.350

Bradley-Lewis, Thaddeus (SMD 3A01)

My understanding is they changed the rules on the TI's and so they they pull up the net on all TS's every quarter.

1:55:55.390 --> 1:56:26.760

Bradley-Lewis, Thaddeus (SMD 3A01)

And what they do is there is a right now the way the district is set up, there is a favor to handle more tsis in Ward 7-8 and six and then Ward three, which has more tsi's than any other ward gets. I think roughly

maybe 30% of the TSI I've done in the quarter. And so then there is the question of what rises to the highest level. And in speaking with Matthew about this.

1:56:27.770 --> 1:56:42.940

Bradley-Lewis, Thaddeus (SMD 3A01)

What's happening? Because war three has so many TS's, they take actual incidents. So if something actually happened, they'll fix it right away. Otherwise, that's their priority. Right? And so.

1:56:43.990 --> 1:56:50.540

Bradley-Lewis, Thaddeus (SMD 3A01)

Again, I'm. I'm actually gonna be meeting with Christian and hopefully Friday, but I don't. I'm not positive and.

1:56:51.230 --> 1:57:21.100

Bradley-Lewis, Thaddeus (SMD 3A01)

You know, maybe you can get on his gender or get his book. I don't know what you're gonna schedule like, but what I like to do is I like to do walks with these people because they need to see it for themselves and see the problems that exist. You know what? And and I, I you know, I whenever I Uber back from work, I always try to, you know, between the hours of when I get back from work from 6 to 8, that road is is very, very dangerous. And that would be a good time to actually have eyes on it. Yeah. Yeah. And so.

1:57:21.490 --> 1:57:51.420

Bradley-Lewis, Thaddeus (SMD 3A01)

That would be like, I mean, that's the thing. I'd advise you to like, get like washing so many they put they put the light where the where the cathedral gets the enter the entrance to the parking lot. Then there's a light at Woodley. Then there's the light. Then there's the light at Macomb. Then there's a light at Newark. I mean, there's a light every block, every and even in the even in the middle of the block where, yeah, where you make? I don't. I don't see them putting an actual light, but a crosswalk where at least like, you know, the blinking sign that they're like, I was talking to.

1:57:52.0 --> 1:58:8.730

Bradley-Lewis, Thaddeus (SMD 3A01)

Matthew about that putting the blinking sign on Mass Ave. because there's a there's a portion of mass Ave. that's a trail run. And right now, there's nothing, no Safeway to cross, but they're not gonna put a actual street light there. But if they, if they can get something that is gonna increase safety.

1:58:8.800 --> 1:58:12.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Be more like this. Yeah. Yeah, yeah, yeah. So to.

1:58:13.230 --> 1:58:22.130

Bradley-Lewis, Thaddeus (SMD 3A01)

I I'd say having the communication with Christian panero the board again, the Ward 3 dot liaison is a big piece of it.

1:58:22.820 --> 1:58:41.480

Bradley-Lewis, Thaddeus (SMD 3A01)

Making sure you do submit requests through 311 for a TS I if you don't already see one there check that's online. Yeah, you don't want to. That's online that we can we can help you if you're having difficulties with that process. The other thing to do that I would advise is.

1:58:42.220 --> 1:59:10.370

Bradley-Lewis, Thaddeus (SMD 3A01)

Your misses incidents. Make sure they're reporting they're documented because I I think that's, you know, there's often a disconnect in these kinds of cases and others where you have a need. The community knows about the need. But if for whatever reason and sometimes it feels arbitrary, if the data that the district utilizes isn't there.

1:59:11.900 --> 1:59:41.620

Bradley-Lewis, Thaddeus (SMD 3A01)

It's not going to happen. Are you slow for DC government? So I know all. Yeah. Data. So I have follow up questions. So when you say document is it like a testimony for somebody who so I would what I would recommend. So if it's if it's an incident where somebody gets then you wanna make sure that at the very least you know when it happened, who it happened to. They're aware of that. If the police are involved that the police are submitting a report.

1:59:41.710 --> 2:0:5.440

Bradley-Lewis, Thaddeus (SMD 3A01)

That they're actually documenting it, that that there's no situation where, you know, maybe a cop stops and he talks to you or he talks to the individual, but then did he follow her or did they file a report? We don't know. And then months later, we look back and MPD says we don't have any information on that. So making sure that whoever is involved.

2:0:6.420 --> 2:0:36.610

Bradley-Lewis, Thaddeus (SMD 3A01)

Have that information have as much information as you could possibly have about that incident and to the best of your ability, and you know people who live in your building. I only live a block away, right? Always call me. I've been very concerned about the many, many elderly people who live in this apartment. Yeah, yeah, who rely on being able to walk along the street. And there are people who are on bikes. There are people who are on, you know, who's are these guys, both Matthew and Christian. They do their sweeps.

2:0:36.930 --> 2:0:54.880

Bradley-Lewis, Thaddeus (SMD 3A01)

Generally weekly and so I I like I said I I kind of nag them, you know their schedule because I'm I'm concerned about saying I'm on foot a lot. I'm on the the one wheel and walk my dog with that thing and and because of that I'm very aware of the dangers of crossing any St. here. It's so dangerous so.

2:0:55.850 --> 2:1:26.570

Bradley-Lewis, Thaddeus (SMD 3A01)

I like said I'm I'm going to be meeting with him. You can. You can e-mail me at 3804. What are what's your name? 3823802. So she gets 3A 0.twoorthree04@anc.dc.gov zero and also actually the other side of the street is my SMD. So I'm happy to get. Yeah. If you guys put me into. Yeah. Because they leave

Judies comes to mind. Hopefully they actually make it. Yeah. If person is coming out. And we thought now two other items.

2:1:27.40 --> 2:1:39.750

Bradley-Lewis, Thaddeus (SMD 3A01)

It possibly coordinate. Sure I should have done as Matthews leaving promises phone call to. So I think that's gonna be I I haven't. I guess it's gonna be this Friday. But we'll see. Yeah. Make sure it follows or who buy up 3.

2:1:39.850 --> 2:1:43.180

Bradley-Lewis, Thaddeus (SMD 3A01)

And we have to have and usually I mean usually I meet him around.

2:1:44.310 --> 2:1:49.460

Bradley-Lewis, Thaddeus (SMD 3A01)

I don't know if that works for any. It's gonna be kind of a dead time though for that particular part I.

2:1:49.560 --> 2:1:52.280

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, yeah, yeah, yeah.

2:1:54.140 --> 2:2:1.480

Bradley-Lewis, Thaddeus (SMD 3A01)

Random thought. You know how? I'm Connecticut by the Chevy Chase circle. They've had that flag walk across from hers.

2:2:2.410 --> 2:2:7.610

Bradley-Lewis, Thaddeus (SMD 3A01)

What stations you, Commissioner? Did that all on her own, you know, marched across there with their flag.

2:2:9.190 --> 2:2:9.470

Bradley-Lewis, Thaddeus (SMD 3A01)

The.

2:2:11.250 --> 2:2:40.390

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, where it should work would work, and then and then they got a hawked. Yeah. Any other? I I got one question. I was curious about the ancs relationship with Second District and Metropolitan Second District District as well as other resources in the city, like the behavioral Health Response Team and what type of how that relationship spend and and how they've been able to the systems.

2:2:40.790 --> 2:2:48.60

Bradley-Lewis, Thaddeus (SMD 3A01)

So. So we take, we have presentations for math and D at every public meeting. So tapped into the boy.

2:2:49.600 --> 2:3:4.770

Bradley-Lewis, Thaddeus (SMD 3A01)

Either presenter of somebody else is, you know, might present in her stead. We do have a new

commander in the second district. I've I've gotten to speak with him briefly. Is it a commander branch?
OK, Jonathan branch. He came from the 7th district.

2:3:6.660 --> 2:3:6.980

Bradley-Lewis, Thaddeus (SMD 3A01)

Awesome.

2:3:7.890 --> 2:3:8.390

Bradley-Lewis, Thaddeus (SMD 3A01)

Council members.

2:3:9.870 --> 2:3:14.990

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah. Established he literally only became commander and in the 2nd district.

2:3:15.880 --> 2:3:21.760

Bradley-Lewis, Thaddeus (SMD 3A01)

Less than a month away. Ohh wow. He's very he's very new to the district. Right? But.

2:3:22.460 --> 2:3:35.530

Bradley-Lewis, Thaddeus (SMD 3A01)

And and you know, between our meetings, when we have issues, we we go to the second district. I've I've done that for my single Member District when we've had incidents occur there. I think it's the same for every.

2:3:35.930 --> 2:4:5.440

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, you know, single district and and that also that that speaks to you know behavioral crisis response and really every other agency you know if you came to us if if you emailed us about you know this issue with the crosswalk between meetings, there's nothing to keep us from communicating with Kirsten error or anybody else who's pertinent to the conversation. In the meantime. You know, we're working for you. But I do think it's good to have a suggestion.

2:4:5.780 --> 2:4:14.120

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, what we think would work because my experience was Pinero is what we don't. We don't have a sign for that or we don't know how to do that. We don't have that, don't worry.

2:4:14.260 --> 2:4:42.910

Bradley-Lewis, Thaddeus (SMD 3A01)

I know it's like he doesn't say this is a problem. There's, you know, I'll try to figure out an answer. It's like, well, whatever you're proposing, it won't work. OK. I mean, when we with that one, it's I mean options archive. Right. So then find out where the the other Hawkeyes are on Wisconsin. Right. We said there's one at the near the grocery store right here. Yeah. Like, whatever. That that's private driveway into tote. And like, that's a regular crosswalk. It's not a Hawkeye. And it's where you can.

2:4:44.350 --> 2:5:3.460

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah, OK. No. Then I don't think the I think the only one is Perry, Perry Nandos and that's the only one that I'm aware of on Wisconsin right now. So yeah, and I don't think there's any down Glover Park either because they actually have lights at every stop and Glover, so, OK, I'm going to work on. Yeah, you all. Thank you for coming too.

2:5:4.80 --> 2:5:12.390

Bradley-Lewis, Thaddeus (SMD 3A01)

Ohm, we we went to the capital exotic fish store. It was really nice in our neighborhoods. Just putting myself there every single day, every single day.

2:5:12.470 --> 2:5:13.360

Bradley-Lewis, Thaddeus (SMD 3A01)

I want to buy a new.

2:5:14.310 --> 2:5:22.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Yeah. Alright. Well thank you very much. That was really great. Yeah. We look forward to coming for meetings.

2:5:22.600 --> 2:5:23.500

Bradley-Lewis, Thaddeus (SMD 3A01)

Absolutely. OK.

2:5:23.580 --> 2:5:23.880

Bradley-Lewis, Thaddeus (SMD 3A01)

Yes.

2:5:32.880 --> 2:5:52.590

Bradley-Lewis, Thaddeus (SMD 3A01)

The 1st I'm going to move to approve the March 21st meeting minutes. I have a second. It's moved and seconded to approve the March 21 meeting minutes. We've shared those electronically and they're available review. They will be posted to the website pending remote. Do we have any additional corrections?

2:5:53.610 --> 2:5:58.940

Bradley-Lewis, Thaddeus (SMD 3A01)

During none, the motion is to approve the Minutes for March 21st.

2:5:59.800 --> 2:6:29.930

Bradley-Lewis, Thaddeus (SMD 3A01)

All those in favor say aye. Aye. We have a unanimous voice vote. The next item for administrative matters is the March financial report. It unless you'd like to add anything. I believe it is blank. We did not receive our allotments for the ANC until April 1st, so we will not have anything to show financially speaking. But we actually have money now. But we do have money now. We do have money. You have the way.

2:6:30.60 --> 2:6:33.0

Bradley-Lewis, Thaddeus (SMD 3A01)

Get the waiting for the next one for that story, yeah.

2:6:35.260 --> 2:7:4.130

Bradley-Lewis, Thaddeus (SMD 3A01)

Alright, that just leaves the last administrative matter, which is to discuss provisions for us to form committees or task forces. I'm not sure how much we can really speak to this in 10 minutes. I know previously we've discussed establishing either a task force or a committee dedicated to transportation because we do have a lot of issues, you know, like yours and other single Member districts.

2:7:5.670 --> 2:7:7.40

Bradley-Lewis, Thaddeus (SMD 3A01)

In the ANC.

2:7:8.750 --> 2:7:24.860

Bradley-Lewis, Thaddeus (SMD 3A01)

Is there specific need or we're just we need to set up all well, so I mean, since since we do have a few minutes, I'll say, you know, to kind of opine a little bit more on the situation with DDOT and Traffic Safety investigations Commissioner Don Morel kind of spoke Gordon.

2:7:25.490 --> 2:7:33.40

Bradley-Lewis, Thaddeus (SMD 3A01)

You know, uh touched it a little bit the the new way in which D dot analyzes requests.

2:7:33.730 --> 2:7:39.490

Bradley-Lewis, Thaddeus (SMD 3A01)

Takes a lot into account, including. Like I said, you know, incidents that have occurred, that kind of data.

2:7:40.810 --> 2:8:10.280

Bradley-Lewis, Thaddeus (SMD 3A01)

It it leaves a lot to be desired. Uh. I say that personally, I think I I think a lot of other Commissioners and members of the Community in Ward three feel similarly that you know, while we understand the need for equity to factor into it and you know the reality which is that previously a lot of requests come from people who are plugged in, whereas other parts of the city were not, as many people are sort of plugged in.

2:8:10.500 --> 2:8:17.260

Bradley-Lewis, Thaddeus (SMD 3A01)

To advocating for themselves have had to live with substandard safety in terms of.

2:8:18.870 --> 2:8:22.830

Bradley-Lewis, Thaddeus (SMD 3A01)

You know what happened at the same time, I think.

2:8:23.590 --> 2:8:24.990

Bradley-Lewis, Thaddeus (SMD 3A01)

There's there.

2:8:25.690 --> 2:8:48.350

Bradley-Lewis, Thaddeus (SMD 3A01)

There's an in between that you'd like to find. That doesn't leave us waiting weeks, months, years for safety improvements that are really needed. You know, we we don't want a situation where we have to wait for somebody to die for D dot to say yes, this is a problem that deserves our recognition.

2:8:48.810 --> 2:9:0.590

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, and I know Council member Fruman feels similarly, so you know he's advocating for that in the Committee of Transportation on which she sits.

2:9:1.850 --> 2:9:10.50

Bradley-Lewis, Thaddeus (SMD 3A01)

And we're going to continue to advocate for attention consideration to be given regardless of.

2:9:11.490 --> 2:9:22.160

Bradley-Lewis, Thaddeus (SMD 3A01)

What system did has in place? You know, we're we're still gonna utilize. Uh, what law calls are great way as a Commission to advocate for safety improvements.

2:9:23.750 --> 2:9:35.100

Bradley-Lewis, Thaddeus (SMD 3A01)

I does that put a a pin on our discussion for committees and task forces. Again, you know, as we see issues arise, we will.

2:9:35.910 --> 2:10:5.740

Bradley-Lewis, Thaddeus (SMD 3A01)

You know, we'll we'll give consideration to establishing separate committees and task forces to take that on and as I understand from the bowels of that's covered, the ability to start those correct, correct. In there, the bylaws allow it. We talked about establishing a standard operating procedure that would be next to but not part of the bylaws. And we really should do that so that we have a process that's public about membership and chairmanship meetings and things like that. So that should really be the first step.

2:10:7.610 --> 2:10:8.840

Bradley-Lewis, Thaddeus (SMD 3A01)

Well, when are we going to do that?

2:10:10.660 --> 2:10:38.750

Bradley-Lewis, Thaddeus (SMD 3A01)

We can do that offline and then approve an SOP and the ensuing meeting. So I mean the question really stands the reason if we feel like there is something, I mean we could, we could come up with that. So regardless of that, but it's it's also about engagement with community too, because when you establish a task force or committee, you can have residents for other members of the community.

2:10:38.990 --> 2:10:40.460

Bradley-Lewis, Thaddeus (SMD 3A01)

Set on said task force.

2:10:40.960 --> 2:10:47.20

Bradley-Lewis, Thaddeus (SMD 3A01)

Uh, but yet that is, that is something that we will take into account and.

2:10:48.420 --> 2:10:49.420

Bradley-Lewis, Thaddeus (SMD 3A01)

As needed, would you?

2:10:50.620 --> 2:10:51.0

Bradley-Lewis, Thaddeus (SMD 3A01)

Rich.

2:10:52.210 --> 2:10:55.580

Bradley-Lewis, Thaddeus (SMD 3A01)

That is the final item on the agenda.

2:10:56.450 --> 2:10:57.380

Bradley-Lewis, Thaddeus (SMD 3A01)

So.

2:10:58.150 --> 2:11:7.740

Bradley-Lewis, Thaddeus (SMD 3A01)

Our next meeting is scheduled to occur on Tuesday, May 16th at 7:00 PM is it will be here in person and online.

2:11:9.20 --> 2:11:23.260

Bradley-Lewis, Thaddeus (SMD 3A01)

Maybe on zoom this time that remains to be seen, but additional details will be announced as they become available. I'm going to motion to adjourn the meeting. I have a second. All those in favor say aye.

2:11:24.120 --> 2:11:48.640

Bradley-Lewis, Thaddeus (SMD 3A01)

The motion is approved. Wait, wait. You can turn. You're saying it's here again next month, man. Yep. OK, because you have. I was over in your neighborhood, and that's why I was late. I was. I was trying to get my last two-month extension here. OK. Thank you for explaining. Because I was sitting over there. Even was speaking at dog people. I said, where is this place at? Because nobody here.

2:11:48.730 --> 2:11:50.250

Bradley-Lewis, Thaddeus (SMD 3A01)

So where is this?

2:11:51.610 --> 2:12:1.560

Bradley-Lewis, Thaddeus (SMD 3A01)

A well and I'm I'm I'm gonna. I'm gonna join the meeting and at least offline. Thank you. Here's a quick question. You guys gonna hold on to your own nameplate? Server is.
