*As mentioned in the course flyers, the respective operator courses are prerequisites to the instructor courses. This requirement ensures the best chance for student success to take what they learn back to their agency. The one-day prerequisite class is available for students who have no other choice; however, I strongly encourage students to have the full two-day course under their belt.

**Rick will be available for instructors wishing to have assistance in teaching their officers over two days at their agency for a flat rate.
