

Friday

23, OCT 20

I'm very thankful for your letter and generous support. Thank you for seeing this through with me. It's been a rough road, but I'm determined. Determination is key in this case. Failure is not a valid option. The scales of justice are in no way leaning towards facts nor truth.

I currently have a gag order issued on this case - so the process of attacking it needs to be a gentle one. Over the past 6 years I have done my best to overcome my situation - constantly learning all that I can regarding state laws. The truth is being withheld and strongly suppressed. This will in no way change if the facts are left in the prosecution's hands. I demand justice. The public deserves the truth.

Please do hold off on meeting with the DA. I'm going to send you all of the facts I've gathered from there we can march forward.

If you're wanting to add money to my acct, you can go to [Securus Technologies.com](https://www.securustechnologies.com). If you encounter any problems please contact my brother. You can also set up a video visitation @ Securus Technologies.

I do look forward to our conversation - I thank you again for standing with me.

Respectfully,
Maurice L. Guy
