

① This motion ~~issue~~ issue
hasnt been correctly filed more
has it been litigated on the re-
cords, i can't appeal this if i am
convicted. This motion has a ①
on it AS A Exhibit. The counsel in
this case is IN VIOLATION of the ABA
Guidelines for appointed ~~counsel~~ counsel in
Death Penalty cases 11.4.1(C) this
is why i am HAVING SO MANY ISSUES.

What i mean is they never did
rule on the motion even though my
counsel SAID ~~that was~~ there was
a ruling. I said it couldnt be a
ruling if the motion wasnt liti-
gated: in front of the judge for
a year from Nov. 15 2018 to Nov.
2019 when asking the DA. was
this the reason Exhibit ① why
i was re-indicted An the DA
said no so now I dont know
why I've been re-indicted and
or why my cause number changed.

② Exhibit 2 Are motions Duces Tecum
no one appeared and counsel didnt
make a record about this. see
Exhibits in-side of this note. 1, 2,
3, 4, 5, 6 / all the the things
stated Above is important

My counsel has ~~ref~~ ^{use} ~~used~~ me a defense under ABA Rule 1.02 /

My counsel refuse to communicate issue with me ABA Rule 1.03 it been 5 yrs.

I am of the concern my counsel don't meet guidelines for Appointed counsel in Death Penalty cases 11.4.1 (c)

The biggest problems are timely pre-trial motions, some of the motions have been ruled on on the record and other in the judge's chamber's off the ~~record~~ record.

What makes the issue silent on the record and I can't complain about the issue if there's a appealable cause.

I can see there is a ^{FAR} fear that counsel has and his or her statement: of bias to me that he has given up on this case.

My case is very complex and I am innocent of the charges against me, but there's what they call a "power that be" that says this case isn't about justice; it's about revenge.

What concern me as to Due Process the primary disadvantage here OR INEXPERIENCE of counsel, lack of standards for certification of expertise.

Most counsel don't take cases that they're unable to litigate that's unreasonable under prevailing professional norms.

Counsel in this case was appointed by a judge who I believe had a bias in this case, my position he wanted an attorney that would do his will.

These lawyer are not "Public Defender" ~~these~~ ^{HE} "Pro Hac Vice" that a lawyer that lack as I've said before standard of certification as well.

There only reason ~~coun-~~ counsel took this Death Penalty case was for the pay-

This is why ~~they~~ ^{HE} won't abide by the ABA Rule 1.02 and/or ABA Rule 1.03 or do they under what the Sixth Amendment grants.

The Sixth Amendment grants the accused, and not counsel: the right to make a defense, to be informed of the accusation: against him —

and to be confronted by the witnesses against him, counsel is intended only to supplement the right.

I've ask ~~the~~ counsel to attack the affidavit on it being constitutional invalid, and also the issuing judge who issued it on constitutional grounds.

Counsel refuse to do that and put in a motion saying the evidence should be suppressed because the judge didn't have "probable cause".

Texas has no statute requiring that an affidavit for search warrants show probable cause.

It's clear that if your lawyer isn't a "Public Defender" ~~but~~ a "private attorney" your ~~innocence~~ innocence mean nothing to them

~~There~~ not going ~~try~~ to establish your innocence by attacking the legal sufficiency of the proof;

① In my case ~~there~~ conceal or knowingly fail to disclose that which he is required by law to reveal.

② Knowingly make false statements of law or fact.

③ Participate in the creation or preservation of evidence when he know or it is obvious that the evidence is false.
