

Cats On The Blacktop

Technical Rider

Contacts:

Band Manager: Chris Howard

Email: catsontheblacktopbooking@gmail.com

Load In/Out:

We require a maximum time of 2 hours and a minimum time of 1.5 hours for load in, set up, and sound check prior to the agreed-upon start time. Breakdown can take up to 1 hour. Parking up close temporarily is helpful for loading in and out.

Show Call:

The band members collectively are as follows: Chris Howard, Joe Clayton, Thomas Hoff and Kevin Payne. If in-house sound and lighting are not provided, we will have an additional person with us with sound and lighting equipment. We often travel with our social media representative as well. Compensation for our social media representative is not required.

Running Times:

Each set is anywhere from 75-90 minutes with a set break requirement of 15-20 minutes. Adjustments are made based on our required and agreed-upon show time per venue.

Set:

Each set consists of up to 4 guitars, guitar stands, bass, bass stand, full drum set, 2 microphones and stands, drum mics, various amplifiers, monitors, PA system, and cords. Depending on whether sound and lighting is provided determines how much equipment we travel with. We are a band of 4 and can fit into most spaces but do require a space large enough to play effectively.
