PROPERTY SUBJECT TO DECLARATION

Section 1. Initial Property. The real property which shall initially be held, transferred, sold, conveyed, given, donated, and/or occupied subject to this Declaration is described in Exhibit "A" attached hereto and made a part hereof by reference. Because it is customary for developers to change the Development Plans during the course of development, and although the Declarant intends to develop Bexley Park in accordance with the Development Plan, the Declarant hereby reserves the right to review, modify, or amend the Development Plan from time to time in its sole discretion and at its option, including but not limited to adding or deleting real property, increasing or decreasing density, relocating, and reducing or increasing lakes and open or green areas; provided, however, that any such changes may only involve property then owned by the Declarant unless the Owner thereof consents to such change. The Declarant shall not be required to follow any predetermined order of improvement and development within Bexley Park, and it may bring within this Declaration lands and develop them before completing the development of Bexley Park. The Declarant shall have the full power to add to, subtract from or make changes in the Development Plan regardless of the fact that such actions may alter the relative voting strength of the various types of memberships of the Master Association.

Section 2. Additional Property. Additional property may become subject to this Declaration in the following manner:

- A. **Future Phases.** The Declarant shall have the right, so long as there is a Class B Membership, without any consent of the Master Association being required, to subject to this Declaration, additional properties as future phases of Bexley Park. The additional property shall automatically become subject to this Declaration by filing in the Public Records of Palm Beach County, Florida, a Supplemental Declaration of Covenants, Conditions, and Restrictions with respect to the additional property (the "Supplemental Declaration"). The Supplemental Declaration may contain such complementary additions and modifications of the covenants, conditions, and restrictions contained in this Declaration as may be necessary or convenient, in the judgment of the Declarant, to reflect the different character, if any, of the additional property. Any such modification shall have no effect on the real property described in Exhibit "A" except as may be consistent with this Declaration.
- B. **Other Additions.** Upon approval in writing of the Declarant while there is a Class B Membership, or the Master Association thereafter, and subject to all applicable zoning codes, the owner of any other real property who desires to subject it to this Declaration, may file or record a Supplemental Declaration of Covenants, Conditions, and Restrictions with respect to such additional property, which Supplemental Declaration, if duly executed by both said owner and the Declarant, or the Master Association if the Declarant's approval is not required by this paragraph, shall extend the operation and effect of this Declaration to such additional property. The Supplemental Declaration may contain any such complementary additions and modifications of the covenants, conditions, and restrictions contained in this Declaration as may be necessary or convenient, in the judgment of the Declarant, or

the Master Association, if the Declarant's consent is not required by this paragraph, to reflect the different character, if any, of the added properties, but such modifications shall have no effect on the real property described on Exhibit "A" except as may be consistent with this Declaration.

C. Mergers. Upon a merger or consolidation of the Master Association with another association (which merger may only take place as permitted by the articles of incorporation and by-laws of both associations), the Master Association's properties, rights and obligations may, by operation of law, be transferred to the surviving or consolidated association, or, in the alternative, the properties, rights and obligations of the other association may, by operation of law, be added to the properties of the Master Association as a surviving corporation pursuant to a merger. Except as hereinafter provided, no such merger or consolidation shall revoke, change or add to the covenants, conditions and restrictions established by this Declaration.

D. Additional Property. No additional property shall be added to Bexley Park pursuant to the provisions of this Section 2 unless the property to be added is included in a plat or amended plat recorded in the Public Records in connection with the addition of such additional property.

Section 3. Deletion of Property. Property may be deleted from the operation of this Declaration by amendment hereof pursuant to the provisions of Article XIV, Section 15 subject to the provisions hereof.

Section 4. Lakes. It is customary for developers to modify land use plans for planned unit developments during the course of development, and the Declarant reserves the right to amend or modify its Development Plan. Pending final development of Bexley Park, the Declarant reserves the right to expand and contract the shorelines of any lakes owned by the Declarant and thereby to modify the boundaries of same; provided that no such modification shall take place with respect to any shoreline of property owned by a person other than the Declarant without the consent of such owner. Accordingly, the exact location of any boundary between lakes and any contiguous properties shall not become fixed until final development of all properties contiguous to and surrounding any lakes. Unless specifically provided in the deed from the Declarant or in any declaration of covenants, conditions, and restrictions or similar instrument recorded by the Declarant or approved by the Declarant, no conveyance of the property abutting any lake or canal shall include any rights with regard to said lake or canal, and without limiting the generality of the foregoing, no such conveyance shall include title to land outside the legal description contained on the deed.

Section 6. Surface Water Management. It is acknowledged the surface water management, drainage and storage system for the Property is one integrated system, and accordingly shall be deemed a Common Area, and an easement is hereby created over the entire Property for the surface water drainage and storage, and for the installation and maintenance of the surface water management, drainage and storage system for the Property, provided however that such easement shall be subject to improvements constructed within the Property as permitted by controlling governmental authorities from time to time. The surface water management system may also include additional property which will become part of the Property pursuant to the provision of Article II, Section 2. If pursuant to the permitting requirements of any governmental authority the surface water management system for the Property is required to provide

drainage for any other property, such other property shall have an easement for drainage purposes into the surface water management system for the Property. The surface water management, drainage, and storage system of the Property shall be developed, operated, and maintained in conformance with the requirements of, and any permits or approvals issued by the South Florida Water Management District and any other controlling governmental authority. Except as hereafter provided, the Master Association shall maintain as a regular expense the entire surface water management, drainage, and storage system for the Property, including but not limited to all lakes and canals, swate areas, retention areas, culverts, pipes, pumps, catch basins, and related appurtenances, and any littoral zones in any lakes or other waterway, regardless of whether or not same are natural or man-made within the Property or are owned by the Master Association. Such maintenance shall be performed in conformance with the requirements of any governmental authority, and an easement for such maintenance is hereby created. The Master Association will have the right, but not the obligation, to maintain any portion of the surface water management, drainage, and storage system for the Property which is owned and/or maintained by any controlling governmental authority, or which is outside of the Property. The Master Association will have the right to enter into agreements with any controlling governmental authority or any other property owner or association for the common maintenance of the surface water management, drainage, and storage system serving the Property and any other property. The Property shall be required to accept surface water drainage from any other property pursuant to the requirements of any controlling governmental authority and an easement for such drainage is hereby created, and in connection therewith the Master Association will have the right, but not the obligation, to maintain any portion of the surface water management system for such other property reasonably required in connection with the maintenance or operation of the surface water management system for the Property.

The Owner of a non Garage Unit Lot to whom the Garage Easement has been granted shall be responsible for the maintenance and repair of that portion of the Garage Element of the Garage Unit Lot over which the Garage Easement serving the non Garage Unit Lot has been granted. Additionally, as it is the intent of this Declaration in creating the Garage Easement for the Owner of a non Garage Unit Lot to have use of a garage, the Owner of the non Garage Unit Lot shall also be responsible for the real estate taxes and Master Association assessments for that portion of the Garage Element of the Garage Unit Lot over which the Garage Easement serving the non Garage Unit Lot has been granted.

Each Owner of a Garage Unit Lot shall have an easement over the walls and ceiling of the Family Dwelling Unit which borders such Garage Unit Lot for the purpose of attaching fixtures, shelves, cabinets and garage door openers to the walls and ceilings thereof and for the purpose of maintaining the electrical and utility lines servicing such fixtures or other items.

THE OWNER OF THE GARAGE UNIT LOT AND THE DECLARANT SHALL NOT BE RESPONSIBLE OR LIABLE FOR ANY DAMAGE TO PERSON OR PROPERTY OVER THE GARAGE EASEMENT ON THE GARAGE UNIT LOT AND ANYONE USING THE GARAGE EASEMENT WILL HAVE NO CLAIM AGAINST THE GARAGE UNIT LOT OWNER AND/OR DECLARANT FOR ANY DAMAGE TO PERSON OR PROPERTY SUFFERED IN AND ON THE GARAGE EASEMENT

PROPERTY.

Section 8. Easements for Repair. To the extent necessary, each Owner shall have an easement over the adjacent Family Dwelling Unit and over the Common Area to maintain such Owner's Family Dwelling Unit and to make necessary repairs to the Owner's Family Dwelling Unit. Such easement shall not exceed an area extending five (5) feet over the other Family Dwelling Unit or Common Area. Any such right of access shall be exercised in a reasonable manner only and, except for emergency repairs, any Owner shall give at least twenty-four (24) hours prior notice to the other party over whose Family Dwelling Unit the easement is being exercised and shall, to the extent practicable, not interfere with, restrict, disturb or hinder the full enjoyment by such Owner of his or her Family Dwelling Unit. Any Owner exercising the easement rights herein granted shall repair, at such Owner's sole cost and expense, any damage caused by such Owner as a result of such entry.

Section 9. Association Easement. The Master Association shall have an easement over the exterior of the Family Dwelling Unit to the extent necessary for the Master Association to perform its maintenance obligations under this Declaration, including, without limitation an easement over the Residential Lot to the extent necessary to perform its maintenance and repair obligations provided for in this Declaration.

Section 10. Extent of Easements. The rights and enjoyment of the easements created hereby shall be subject to the following:

A. The right of the Declarant or the Master Association, in accordance with its By-Laws, to borrow money from the Declarant or any other lender for the purpose of improving and/or maintaining the Common Area, and providing services authorized herein and, in aid thereof, to mortgage said properties.

B. The right of the Master Association, subject to the notice provisions of its By-Laws, to suspend the rights and enjoyment of said easements of any Member or any tenant, guest, licensee or invitee of any Member for any period during which any assessment remains unpaid, and for any period, not to exceed sixty (60) days, for an infraction of its published Rules and Regulations, it being understood that any suspension for either non-payment of any assessment or breach of any Rules and Regulations of the Master Association shall not constitute a waiver or discharge of the Member's obligation to pay the assessment; provided, however, that the Master Association shall not suspend the right to use any roads belonging to the Master Association, subject, however, to the Rules and Regulations of the Master Association for such use, and provided further that the Master Association may not suspend any rights and easements reserved herein to the Declarant. All suspensions of rights hereunder shall be performed by the Master Association in accordance with its By-Laws;

C. The rights of the Master Association to charge reasonable membership, admission, and other fees for the use of the Recreational Facilities, if any are constructed.

D. The Board of Directors of the Master Association shall have the power to place any reasonable restrictions upon the use of any roadways owned by the Master Association including, but not limited to, the maximum and minimum speeds of vehicles using said roads, maximum weight restrictions, all other necessary traffic and parking regulations, and the maximum noise levels of vehicles on the use of such roads shall be more restrictive than the laws of the state or any local government having jurisdiction over the Property shall not make such restrictions unreasonable. The right of ingress and egress through such roadways shall not be impaired.

E. The right of the Master Association to give, dedicate or sell all or any part of the Common Area, roadways, or other rights of way to any public agency, authority, or utility for such purposes and subject to such conditions as may be determined by the Master Association, provided that no such gift or sale or determination of such purposes or conditions shall be effective unless the same shall be authorized by the affirmative vote of three-fourths (3/4) of the votes cast by the Voting Members and the Declarant at a duly called meeting of the Members of the Master Association, and unless written notice of the meeting and of the proposed action thereunder is sent at least thirty (30) days prior to such meeting to every Member entitled hereunder to vote. A true copy of such resolution together with a certificate of the results of the vote taken thereon shall be made and acknowledged by the President or Vice-President and Secretary or Assistant Secretary of the Master Association and such certificate shall be annexed to any instrument of dedication or transfer affecting the said property, prior to the recording thereof. Such certificate shall be conclusive evidence of authorization by the Members.

F. Such reasonable Rules and Regulations for the use and enjoyment of the rights granted by the easements as may be promulgated by the Master Association from time to time.

Section 11. Further Restrictions. Nothing other than storm water may be discharged into any lake, canal, or other body of water located within or adjacent to the Property. The Master Association shall be allowed to drain water out of the lakes and over drainage easements. Any permanent device through which water is drawn from any lake, canal, or other body of water onto or within any of the Property shall be subject to the prior written approval of the Architectural Review Committee as hereinafter established.

The Declarant reserves to the Master Association, its successors and/or assigns and the South Florida Water Management District a perpetual maintenance easement for maintenance of the lakes as shown on the plat(s) of the Property. The lake maintenance easement are for the sole purpose of maintaining the lakes and are not to be used for any other purpose.

ARTICLE VII

ASSESSMENTS

Section 1. Creation of the Lien and Personal Obligations of Assessments. The Declarant covenants, and each Owner of any Family Dwelling Unit shall by acceptance of a deed therefore, regardless of whether or not it shall be so expressed in any such deed or other conveyance, be deemed to covenant and agree to all the terms and provisions of this Declaration and to pay to the Master Association: (1) annual assessments, (2) special assessments, and (3) individual assessments, all fixed, established and collected from time to time as hereinafter provided. The assessments will not be the same for all of the Property and will be different depending on whether the Unit is located in Bexley Park Estates, Bexley Park Manor or Bexley Park Townhomes. Said assessments will only be required of an Owner including Declarant of a Family Dwelling Unit after a Certificate of Occupancy or its equivalent has been issued by the applicable governmental authority having jurisdiction thereof. No assessments will be due until such time as the Certificate of Occupancy has been issued. The annual, special and individual assessments, together with such interest thereon and costs of collection (including Reasonable Attorneys' Fees) therefore shall be a charge and continuing lien as provided herein on the real property and improvements thereon of the Owner against whom each such assessment is made. Each such assessment, together with such interest thereon and cost of collection

(including reasonably Attorneys' Fees), shall also be the personal obligation of the person who was the Owner of such real property at the time when the assessments first became due and payable. The liability for assessments may not be avoided by waiver of the use or enjoyment of any Common Area or any Recreational Facility, or by the abandonment of the property against which the assessment was made. In the case of co-ownership of any Property subject to assessment, all of such co-Owners shall be jointly and severally liable for the entire amount of the assessment.

Section 2. Purpose of Annual Assessments. The annual assessments levied by the Master Association shall be used exclusively for the improvement, maintenance, enhancement, and operation of the property described in Article IV, Section 1 and to provide services which the Master Association is authorized or required to provide. The Master Association may establish reserve funds to be held in reserve in an interest bearing account or investments as a reserve for (a) major rehabilitation or major repairs, and (b) for emergency and other repairs required as a result of storm, fire, natural disaster, or other casualty loss. The amount of annual assessment will vary as to the type of Family Dwelling Unit on a Residential Lot as determined by the Board of Directors of the Master Association.

Section 3. Initial Period. There shall be no annual or special assessments prior to August 31, 2004, or until a date determined by the Board of Directors, whichever is later. The Board of Directors shall give notice of the initial budget and commencement of assessments at least 30 days before the first monthly installment becomes due.

After the date established in the immediately preceding sentence, annual assessments shall be levied and determined in accordance with Sections 4 and 5 of this Article VII.

Section 4. Annual Budget of General Expenses. The Master Association shall prepare an annual budget not less than thirty (30) days in advance of the commencement of each fiscal year which shall project the estimated total expenditures for the services set forth in Section 2 above for the forthcoming year. Recreational Expenses may only be included in the budget to the extent they relate to Recreational Facilities owned and/or leased by the Master Association and open to all Owners. No Recreational Expenses relating to any Recreational Facility operated on a Membership Basis shall be contained in the budget; provided, however, that nothing contained herein shall prohibit the Master Association from charging a reasonable fee for the use of any Recreational Facility or from permitting the general public to use same upon payment of such a fee if it is deemed in the best interest of Bexley Park. The Master Association shall, at the same time as it prepares the annual budget, prepare a schedule which sets forth the amount of the annual assessment for each Owner. In the event the Master Association fails to prepare an annual budget, the annual budget for the preceding year shall be the budget for the Master Association until a new annual budget is prepared by the Master Association. Additionally, if the Master Association determines that the then existing annual budget does not correctly incorporate the expenditures for services set forth in Section 2, then the Master Association shall have the right to prepare a new annual budget together with a schedule setting forth the amount of annual assessments for each Owner.

Section 5. Date of Commencement of Annual Assessments. Due Dates. The annual assessments provided for herein shall commence as to a Residential Lot on the first day of the month following the earliest of the following events to occur: a) a Certificate of Occupancy being issued for a Family Dwelling Unit constructed on a Residential Lot; or b) the occupancy by an Owner of a Family Dwelling Unit on a Residential Lot; or c) the conveyance by the Declarant of a Residential Lot; provided, however, that notwithstanding anything to the contrary contained above, the Owner of a Residential Lot shall pay 1/50th of the annual assessment as to a Residential Lot until a Certificate of Occupancy is issued for the Family Dwelling Unit constructed on the Residential Lot or until the Family Dwelling Unit is occupied by an Owner, whichever first occurs. The first annual assessment shall be adjusted according to the number of months remaining in the calendar year.

Section 6. Purpose of Special Assessments. To the extent that annual

assessments are insufficient to fund the services which the Master Association is authorized or required to provide or to repair or reconstruct Common Area or as is otherwise permitted in this Declaration, the Master Association may levy a special assessment to cover the cost thereof.

Section 7. Proportion and Amount of Special Assessments. The total amount of special assessments, in any one year, may not exceed a sum equal to the amount of annual assessment for such year, except in the case of emergency and other repairs required as a result of storm, fire, natural disaster, or other casualty loss. This provision shall be interpreted to mean that the Master Association may make in any one year an annual assessment as set forth in Section 5 of this Article plus an additional special assessment, which additional assessment being considered alone, may not exceed the annual assessment.

Section 8. Individual Assessments. Each Owner of a Family Dwelling Unit is required to maintain his property, whether improved or unimproved, in a state of good repair at all times, which shall include, but shall not be limited to, periodic painting (or other appropriate refinishing) of all structures requiring same and the maintenance of the lawns, shrubbery and trees in a well-groomed and trim condition, and if unimproved, in an orderly and uncluttered condition. Such Owners are further required to maintain their property in accordance with any other covenants, conditions and restrictions and Supplement Declarations to which their deeds or other instruments of conveyance make reference. In the event of the failure of such Owner(s) to maintain their property as required herein, the Master Association, after first given thirty (30) days notice to such Owners and an opportunity to appear before the Board of Directors of the Master Association, may take such steps as are necessary to remedy any defective and/or unsightly conditions or comply with requirements imposed herein, and such Owner(s) of said property shall be assessed for the expense of same. Entry upon such Owner's Property for such purpose shall not constitute trespass. Assessments may also be levied against such Owners for any damage to Common Area, or Recreational Facilities which may be caused by such Owners, their families, lessees, guests or invitees.

Section 9. Monthly Payment of Annual Assessments. Annual assessments shall be paid in advance in monthly installments, due on the first day of each calendar month or as otherwise established by the Master Association commencing with the date stated in Section 3 of this Article, and shall be deemed delinquent if not received by the Master Association on or before the tenth date after they become due. The due date and grace period of any special assessment under Section 6 hereof shall be fixed in the resolution authorizing such assessment.

Section 10. Duties of the Board of Directors. The Board of Directors of the Master Association shall prepare an annual budget and fix the amount of the assessment against each of the properties as provided hereinabove for each assessment period and shall, at that time, prepare a roster of the properties, and assessments applicable thereto which shall be kept in the office of the Master Association and shall be open to inspection by any Owner. Written notice of the assessment shall thereupon be sent every Owner. The Master Association shall upon demand at any time furnish to any or Owner who pays assessments directly a certificate in writing signed by an officer of the Master Association, setting forth whether said assessment has been paid. Such certificate shall be conclusive evidence of payment of any assessment therein stated to have been paid. The Master Association may charge a reasonable fee for this certificate.

Section 11. Establishment of Liens to Secure Payment. All assessments and charges levied by the Master Association in accordance with the provisions in accordance with the provisions of this Declaration, together with interest at the highest rate allowed by law, and costs of collection (including, but not limited to costs and reasonable attorney's fees) are hereby declared to be a charge and continuing lien upon the Residential Lot and Unit against which each such assessment or charge is made, and shall also be the personal obligation of the Owner of each Residential Lot and Unit assessed. This lien is superior to any Homestead rights the Owner may acquire. No Owner may be exempt from personal liability for assessments and

charges, or release any Residential Lot from the liens and charges hereof, by a waiver of use rights, or by abandoning the Residential Lot. The Master Association's lien is activated by recording a Claim of Lien by the Master Association in the public records of Palm Beach County, setting forth the amount and due date of each unpaid assessment or charge as of the date the Claim of Lien is recorded. The Claim of Lien secures payment of all assessments and charges due at the time of recording (including interest, costs and attorney's fees as provided above), as well as all assessments and charges coming due subsequently, until the lien is satisfied or a final judgment of foreclosure obtained. Upon full payment of all sums secured by a Claim of Lien, the party making payment is entitled to a satisfaction in recordable form.

Section 12. Priority of Liens. Except as otherwise provided by law, the Master Association's lien for unpaid assessments and charges shall be subordinate and inferior to that of any recorded mortgage held by a Institutional Mortgagee, unless the Master Association's Claim of Lien was recorded before the mortgage. The Master Association's lien is superior to, and takes priority over, any other mortgage regardless of when recorded. A lease of a Living Unit is also subordinate and inferior to any Claim of Lien of the Master Association, regardless of when the lease was executed. A mortgagee in possession, a receiver, a purchaser at a foreclosure sale, or a mortgagee that has acquired title by deed in lieu of foreclosure, and all persons claiming by, through or under any of them, shall hold title subject to the liability and lien of any assessment or charge coming due after taking title. Any unpaid assessment or charge which cannot be collected by reason of this Section, shall be treated as a common expense, collectible from all Residential Lots, including the Residential Lot as to which the foreclosure (or conveyance in lieu of foreclosure) took place.

Section 13. Collection of Assessments. If any owner fails to pay any assessment, charge, or installment thereof, within ten (10) days after the due date, the Master Association shall have any or all of the following remedies, to the extent permitted by law, which remedies are cumulative and are not in lieu of, but are in addition to, all other remedies available to the Association.

A. To accelerate the balance of the annual assessment due and charge interest on such assessment or charge, from the due date until paid, at the highest rate allowed by law; and, in addition, to impose a late payment penalty which may not exceed any maximum amount as may be provided for by law.

B. To suspend the voting rights of the owner in the Master Association during the period of delinquency.

C. To file an action in equity to foreclose its lien. Unless another procedure is required by law, the lien may be foreclosed by an action brought by the Master Association in the same manner as provided in Section 718.116 of the Florida Condominium Act, as amended from time to time, for the foreclosure of liens on condominium parcels for unpaid condominium assessments.

D. To bring an action at law for a money judgment against the owner without waiving any foreclosure rights of the Master Association.

E. To assign the right to assessment to a person or entity for collection. In any civil action brought hereunder, the Master Association shall be entitled to judgment for interests, costs and reasonable attorneys fees if it is the prevailing party.

Section 14. Exempt Property. The following property and persons shall be exempted from assessments under this Declaration and liens therefore:

A. Any portion of the Property used exclusively for the purpose of utility easements or dedicated public roadways; and

B. All Common Area.

Section 15. Capital Contributions. At the time of the closing of a Family Dwelling Unit pursuant to an original sale by the Declarant, each purchaser shall pay to the Declarant on behalf of the Master Association a sum equal to the aggregate of Two Hundred Fifty and No/100 (\$250.00) Dollars as the amount of working capital contribution. These monies (hereinafter called "**Capital Contribution**") shall be the Master Association's property, and shall be held by the Master Association through its Board of Directors, pursuant to the powers described in the Articles and By-Laws. The Capital Contribution shall be deemed ordinary association income and need not be separated from or held or applied differently than assessments.

Section 16. Surface Water Management System. The Master Association is responsible for assessing and collecting fees for the operation, maintenance, and, if necessary, replacement of the surface water management system. Fees shall be assessed and collected through annual assessments or other assessment, if necessary.

Section 17. Declarant's Guarantee of Deficit. Notwithstanding any provision that may be contained to the contrary in this Declaration, for as long as Declarant is the owner of any Lot and there is a Class B Membership, the Declarant shall not be liable for assessment against such Residential Lot, provided that the Declarant funds any deficit in operating expenses, exclusive of reserves, cost of capital improvements and non-budgeted repairs or replacement and management fees (if the Declarant is entitled to same). For the purposes hereof, a deficit shall be computed by subtraction from said expenses (exclusive of the items described in the foregoing sentence) all assessments, contributions and other sums received or receivable by the Master Association. The Declarant may commence such assessments to Residential Lot(s) that it owns and thereby automatically terminate its obligations to fund a deficit in the operating expenses of the Master Association, or any time or from time to time elect again to fund deficits as aforesaid. When all Residential Lots within the Property are sold and conveyed to purchasers, the Declarant shall have no further liability of any kind to the Master Association for the payment of assessments or deficits other than those that arose prior to such time.

ARTICLE VIII

ARCHITECTURAL AND DEVELOPMENT CONTROL

Section 1. Architectural Review Committee. There is hereby established an Architectural Review Committee ("ARC") whose duties, powers and responsibilities shall be as hereinafter set forth:

A. Initially, the ARC shall consist of three (3) persons designated by the Declarant, who shall hold office at the pleasure of the Declarant. The Declarant shall determine which member of the ARC shall serve as its chairman. At such time as the Class B Membership ends or earlier as Declarant may decide, the Declarant shall assign to the Master Association the rights, powers and duties and obligations of the ARC, whereupon the Board of Directors of the Master Association shall appoint the members of the ARC which shall consist of three (3) members, and shall provide for the terms of the members of the ARC, and determine which member of the ARC shall serve as its chairman.

B. The ARC shall have the right of specific approval or veto of all architectural and landscaping aspects of any improvements or development of individual units or buildings as well as the general plan for development of any individual lot subdivision, tract or parcel of land within Bexley Park provided, further, that the ARC may, in its sole discretion, impose standards on said architectural and landscaping aspects and said general plan for development, which standards are greater or more stringent than standards prescribed in applicable building, zoning or other local governmental codes.

C. No building, sign, outside lighting, fence, hedge, wall, walk, dock, or other structure or planting shall be constructed, erected, removed, planted or maintained, nor shall any addition to or any change or alteration therein be made until the plans and specifications showing the nature, kind, shape, height, materials, floor plans, color scheme, and the location of same shall have been submitted to and approved in writing by the ARC. As part of the application process, three (3) complete sets of plans and specifications prepared by an architect, landscape architect, engineer, or other person found to be qualified by the ARC shall be submitted for approval by written application on such form as may be provided or required by the ARC.

D. In the event the information submitted to the ARC is, in its opinion, incomplete or insufficient in any manner, it may request and require the submission of additional or supplemental information.

E. The ARC shall have the right to refuse to approve any plans and specifications which are not suitable or desirable, in its sole discretion, for aesthetic or any other reasons, provided such approval is not unreasonably withheld. In approving or disapproving such plans and applications, the ARC shall consider the suitability of the proposed building, improvements, structure or landscaping and materials of which the same are to be built, the site upon which it is proposed to be erected, the harmony thereof with the surrounding area and the effect thereof on adjacent or neighboring property.

F. Unless specifically exempted by the ARC, all improvements for which approval of the ARC is required under this Declaration shall be completed within a reasonable time from the date of commencement of said improvements or within the time set by the ARC in the event that the approval is so conditioned.

G. In the event the ARC shall fail to approve or disapprove any plans and specifications submitted in final and complete form, within forty-five (45) days after written request for approval or disapproval is delivered to the ARC by the Owner or the Owner's agent or attorney, then such approval of the ARC shall not be required, and the Owner or the Owner's agent or attorney may record an affidavit in the Public Records stating that the required notice was given and no objection was made by the ARC, which affidavit shall constitute prima facie evidence of the facts stated therein; provided, however, that no building or other structure shall be erected or shall be allowed to remain if built in violation of this Declaration of which violates any of the covenants, conditions or restrictions contained in this Declaration, or which violates any zoning or building ordinance or regulation.

H. There is specifically reserved unto the ARC, the right of entry and inspection upon any of the Property for the purpose of determination by the ARC whether there exists any construction of any improvements which violates the terms of any approval by the ARC or the terms of this Declaration, of any Supplemental Declaration, or of any other covenants, conditions, and restrictions to which its deed or other instrument of conveyance makes reference. Such inspection shall be preceded by reasonable notice to the Owner of the property to be inspected, except for inspections of exterior of improvements and of unenclosed land. The ARC is specifically empowered, acting in the name of the Master Association, to enforce the provisions of this Declaration and all Supplement Declarations by any legal or equitable remedy, and in the event it becomes necessary to resort to litigation to determine the propriety of any constructed improvement, or to remove any unapproved improvements, the Master Association shall be entitled to recovery of all court costs, expenses and reasonable attorneys' fees in connection therewith. The Master

Association shall indemnify and hold harmless the ARC and each of its members from all costs, expenses and liabilities including attorneys' fees incurred by virtue of any member of the ARC's service as a member of the ARC. All costs, expenses, and attorneys' fees of the ARC, including those incurred in connection with its enforcement or powers as provided herein, shall be borne by the Master Association; provided, however, that nothing provided herein shall be deemed to negate the Master Association's right to an award of its and the ARC's reasonable attorneys' fees and costs if it is the prevailing party in any administration or judicial proceeding.

The ARC is empowered to publish or modify from time to time, design and development standards for Bexley Park.

Wherever the written consent of the ARC shall be required, the chairman of the ARC shall be authorized to execute and acknowledge instruments manifesting said consent, after approval by the ARC.

K. A specific improvement, once approved by the Declarant or the ARC, may remain in place notwithstanding the adoption of contrary standards later.

Section 2. Approval of Supplemental Declarations. No Supplement Declaration may be recorded in the Public Records of Palm Beach County by any person, nor shall same have any legal or equitable affect or validity, unless it has been approved as provided in this section. Such approval shall be evidenced by the affixing of a certificate of approval as provided below to the Supplemental Declaration and the recording of said certificate with the Supplement Declaration in the Public Records of Palm Beach County.

A. The right of approval provided in this section shall be held by the Declarant for as long as there is a Class B Membership or until the Declarant surrenders its right of approval to the Master Association. Thereafter, the Master Association, acting by and through the ARC, shall hold the said right of approval.

B. No person shall attempt to avoid the requirement of approval set forth in this section by including "deed restrictions" or conditions in any deed or instrument of conveyance of the Property and all such attempted restrictions and conditions, unless approved as herein provided, are hereby declared null and void.

C. The purpose of the provisions of this Section is to ensure that the Property is developed through a uniform plan of development. The provisions of this Section shall apply to all persons owning any of the Property, including but not limited to developers and builders acquiring title from the Declarant.

D. Any Supplemental Declaration executed by the Declarant shall be deemed approved as provided herein without the necessity of any separate certificate of approval.

E. The issuance of its approval or consent to the recording of any Supplemental Declaration shall not deem the Declarant, the ARC or the Master Association to be the developer of the property encumbered thereby, and the Declarant, ARC and the Master Association shall incur no liability to any person for their issuance of, withholding of approval or consent to the recording of any Supplement Declaration.

Section 3. City of Delray Beach Approval. Notwithstanding any term or condition contained in this Declaration to the contrary, Declarant ratifies and confirms that its architectural design of the Units to be constructed on the Property by Declarant and any modification of the architectural design of said Units to be constructed by Declarant is

subject to approval by the City of Delray Beach, which City of Delray Beach approval terminates when the last Unit constructed by Declarant is completed as evidenced by a Certificate of Occupancy or Completion issued by the applicable governmental authority.

GENERAL CONDITIONS

1. All activities authorized by this permit shall be implemented as set forth in the plans, specifications and performance criteria as approved by this permit. Any deviation from the permitted activity and the conditions for undertaking that activity shall constitute a violation of this permit and Part IV, Chapter 373, F.S.
2. This permit or a copy thereof, complete with all conditions, attachments, exhibits, and modifications shall be kept at the work site of the permitted activity. The complete permit shall be available for review at the work site upon request by District staff. The permittee shall require the contractor to review the complete permit prior to commencement of the activity authorized by this permit.
3. Activities approved by this permit shall be conducted in a manner which does not cause violations of State water quality standards. The permittee shall implement best management practices for erosion and pollution control to prevent violation of State water quality standards. Temporary erosion control shall be implemented prior to and during construction, and permanent control measures shall be completed within 7 days of any construction activity. Turbidity barriers shall be installed and maintained at all locations where the possibility of transferring suspended solids into the receiving waterbody exists due to the permitted work. Turbidity barriers shall remain in place at all locations until construction is completed and soils are stabilized and vegetation has been established. All practices shall be in accordance with the guidelines and specifications described in Chapter 6 of the Florida Land Development Manual; A Guide to Sound Land and Water Management (Department of Environmental Regulation, 1988), incorporated by reference in Rule 40E-4.091, F.A.C. unless a project-specific erosion and sediment control plan is approved as part of the permit. Thereafter the permittee shall be responsible for the removal of the barriers. The permittee shall correct any erosion or shoaling that causes adverse impacts to the water resources.
4. The permittee shall notify the District of the anticipated construction start date within 30 days of the date that this permit is issued. At least 48 hours prior to commencement of activity authorized by this permit, the permittee shall submit to the District an Environmental Resource Permit Construction Commencement Notice Form Number 0956 indicating the actual start date and the expected construction completion date.
5. When the duration of construction will exceed one year, the permittee shall submit construction status reports to the District on an annual basis utilizing an annual status report form. Status report forms shall be submitted the following June of each year.
6. Within 30 days after completion of construction of the permitted activity, the permittee shall submit a written statement of completion and certification by a registered professional engineer or other appropriate individual as authorized by law, utilizing the supplied Environmental Resource Permit Construction Completion/Certification Form Number 0881. The statement of completion and certification shall be based on onsite observation of construction or review of as-built drawings for the purpose of determining if the work was completed in compliance with permitted plans and specifications. This submittal shall serve to notify the District that the system is ready for inspection. Additionally, if deviation from the approved drawings is discovered during the certification process, the certification must be accompanied by a copy of the approved permit drawings with deviations noted. Both the original and revised specifications must be clearly shown. The plans must be clearly labeled as "As-built" or "Record" drawing. All surveyed dimensions and elevations shall be certified by a registered surveyor.
7. The operation phase of this permit shall not become effective: until the permittee has complied with the requirements of condition (6) above, and submitted a request for conversion of Environmental Resource Permit from Construction Phase to Operation Phase, Form No. 0920; the District determines the system to be in compliance with the permitted plans and specifications; and the entity approved by the District in accordance with Sections 9.0 and 10.0 of the Basis of Review for Environmental Resource Permit Applications within the South Florida Water Management District, accepts responsibility for operation and maintenance of the system. The permit shall not be transferred to such approved operation and maintenance entity until the operation phase of the permit becomes effective. Following inspection and approval of the permitted system by the District, the permittee shall initiate transfer of the permit to the

GENERAL CONDITIONS

- approved responsible operating entity if different from the permittee. Until the permit is transferred pursuant to Section 40E-1.6107, F.A.C., the permittee shall be liable for compliance with the terms of the permit.
8. Each phase or independent portion of the permitted system must be completed in accordance with the permitted plans and permit conditions prior to the initiation of the permitted use of site infrastructure located within the area served by that portion or phase of the system. Each phase or independent portion of the system must be completed in accordance with the permitted plans and permit conditions prior to transfer of responsibility for operation and maintenance of the phase or portion of the system to a local government or other responsible entity.
 9. For those systems that will be operated or maintained by an entity that will require an easement or deed restriction in order to enable that entity to operate or maintain the system in conformance with this permit, such easement or deed restriction must be recorded in the public records and submitted to the District along with any other final operation and maintenance documents required by Sections 9.0 and 10.0 of the Basis of Review for Environmental Resource Permit applications within the South Florida Water Management District, prior to lot or units sales or prior to the completion of the system, whichever comes first. Other documents concerning the establishment and authority of the operating entity must be filed with the Secretary of State, county or municipal entities. Final operation and maintenance documents must be received by the District when maintenance and operation of the system is accepted by the local government entity. Failure to submit the appropriate final documents will result in the permittee remaining liable for carrying out maintenance and operation of the permitted system and any other permit conditions.
 10. Should any other regulatory agency require changes to the permitted system, the permittee shall notify the District in writing of the changes prior to implementation so that a determination can be made whether a permit modification is required.
 11. This permit does not eliminate the necessity to obtain any required federal, state, local and special district authorizations prior to the start of any activity approved by this permit. This permit does not convey to the permittee or create in the permittee any property right, or any interest in real property, nor does it authorize any entrance upon or activities on property which is not owned or controlled by the permittee, or convey any rights or privileges other than those specified in the permit and Chapter 40E-4 or Chapter 40E-40, F.A.C..
 12. The permittee is hereby advised that Section 253.77, F.S. states that a person may not commence any excavation, construction, or other activity involving the use of sovereign or other lands of the State, the title to which is vested in the Board of Trustees of the Internal Improvement Trust Fund without obtaining the required lease, license, easement, or other form of consent authorizing the proposed use. Therefore, the permittee is responsible for obtaining any necessary authorizations from the Board of Trustees prior to commencing activity on sovereignty lands or other state-owned lands.
 13. The permittee must obtain a Water Use permit prior to construction dewatering, unless the work qualifies for a general permit pursuant to Subsection 40E-20.302(3), F.A.C., also known as the "No Notice" Rule.
 14. The permittee shall hold and save the District harmless from any and all damages, claims, or liabilities which may arise by reason of the construction, alteration, operation, maintenance, removal, abandonment or use of any system authorized by the permit.
 15. Any delineation of the extent of a wetland or other surface water submitted as part of the permit application, including plans or other supporting documentation, shall not be considered binding, unless a specific condition of this permit or a formal determination under Section 373.421(2), F.S., provides otherwise.
 16. The permittee shall notify the District in writing within 30 days of any sale, conveyance, or other transfer of ownership or control of a permitted system or the real property on which the permitted system is located. All transfers of ownership or transfers of a permit are subject to the requirements of Rules 40E-1.6105 and

GENERAL CONDITIONS

40E-1.6107, F.A.C. The permittee transferring the permit shall remain liable for corrective actions that may be required as a result of any violations prior to the sale, conveyance or other transfer of the system.

17. Upon reasonable notice to the permittee, District authorized staff with proper identification shall have permission to enter, inspect, sample and test the system to insure conformity with the plans and specifications approved by the permit.
18. If historical or archaeological artifacts are discovered at any time on the project site, the permittee shall immediately notify the appropriate District service center.
19. The permittee shall immediately notify the District in writing of any previously submitted information that is later discovered to be inaccurate.

SPECIAL CONDITIONS

1. The construction phase of this permit shall expire on December 17, 2008.
2. Operation of the surface water management system shall be the responsibility of BEXLEY PARK MASTER HOMEOWNER'S ASSOCIATION. Within one year of permit issuance or concurrent with the engineering certification of construction completion, whichever comes first, the permittee shall submit a copy of the recorded deed restrictions (or declaration of condominium, if applicable), a copy of the filed articles of incorporation, and a copy of the certificate of incorporation for the association.
3. The permittee shall be responsible for the correction of any erosion, shoaling or water quality problems that result from the construction or operation of the surface water management system.
4. Measures shall be taken during construction to insure that sedimentation and/or turbidity violations do not occur in the receiving water.
5. The District reserves the right to require that additional water quality treatment methods be incorporated into the drainage system if such measures are shown to be necessary.
6. Lake side slopes shall be no steeper than 4:1 (horizontal:vertical) to a depth of two feet below the control elevation. Side slopes shall be nurtured or planted from 2 feet below to 1 foot above control elevation to insure vegetative growth, unless shown on the plans.
7. Facilities other than those stated herein shall not be constructed without an approved modification of this permit.
8. A stable, permanent and accessible elevation reference shall be established on or within one hundred (100) feet of all permitted discharge structures no later than the submission of the certification report. The location of the elevation reference must be noted on or with the certification report.
9. The permittee shall provide routine maintenance of all of the components of the surface water management system in order to remove all trapped sediments/debris. All materials shall be properly disposed of as required by law. Failure to properly maintain the system may result in adverse flooding conditions.
10. This permit is issued based on the applicant's submitted information which reasonably demonstrates that adverse water resource related impacts will not be caused by the completed permit activity. Should any adverse impacts caused by the completed surface water management system occur, the District will require the permittee to provide appropriate mitigation to the District or other impacted party. The District will require the permittee to modify the surface water management system, if necessary, to eliminate the cause of the adverse impacts.
11. Minimum building floor elevation: 19.70 feet NGVD.
12. Minimum road crown elevation: 18.20 feet NGVD.
13. The operable structure shall remain locked at all times unless specific approval is granted by the Lake Worth Drainage District for its operation. At no time shall the structure be operated to bypass the water quality detention requirements or to lower the lake levels below the permitted control elevation for the project. If for whatever reason, it is determined that the permittee has not complied with the directives of the LWDD, and/or has operated the structure contrary to the intended purpose of an emergency outflow (when LWDD canal conditions permit), the structure shall be modified to permanently prevent operation of the structure. In addition, the structure shall be equipped with a locking mechanism to prevent unauthorized use. A staff gage shall be installed upstream of the structure so that lake levels within the project can be quickly determined.
14. If prehistoric or historic artifacts, such as pottery or ceramics, stone tools or metal implements, dugout canoes, or any other physical remains that could be associated with Native American cultures, or early

colonial or American settlement are encountered at any time within the project site area, the permitted project should cease all activities involving subsurface disturbance in the immediate vicinity of such discoveries. The permittee, or other designee, should contact the Florida Department of State, Division of Historical Resources, Review and Compliance Section at (850-) 245-6333 or (800) 847-7278, as well as the appropriate permitting agency office. Project activities should not resume without verbal and/or written authorization from the Division of Historical Resources. In the event that unmarked human remains are encountered during permitted activities, all work shall stop immediately and the proper authorities notified in accordance with Section 872.05, Florida Statutes.

15. All special conditions and exhibits previously stipulated by permit number 50-06164-P remain in effect unless otherwise revised and shall apply to this modification.

PROJECT PURPOSE:

This application is a request to modify Permit No. 50-06164-P for the construction and operation of a surface water management system to serve a 54.50 acre residential development known as Bexley Park. Staff recommends approval with conditions.

PROJECT EVALUATION:

PROJECT SITE DESCRIPTION:

Conceptual approval for the 54.50 acre Bexley Park development (Permit No. 50-06164-P) was issued on November 13, 2003. In addition, lake excavation, site grading and filling were authorized at that time. The site is located east of Military Trail, west of Barwick Road, between the Lake Worth Drainage District L-30 and L-31 canals in the City of Delray Beach. There are no wetlands or other surface waters located within or affected by the proposed project.

PROPOSED PROJECT:

Proposed is the modification of Permit No. 50-06164-P for the construction and operation of a surface water management system to serve a 54.50 acre residential development known as Bexley Park. The surface water management system will consist of inlets, culverts, and swales which will direct runoff into a previously permitted 3.78 acre lake which will provide water quality treatment and attenuation. Discharge from the lake is to the Lake Worth Drainage District's L-31 Canal through a previously permitted control structure.

The applicant's engineer has submitted plans and calculations to demonstrate compliance with the land use and site grading assumptions made from the design of the master surface water management system.

CERTIFICATION AND MAINTENANCE OF THE WATER MANAGEMENT SYSTEM

It is suggested that the permittee retain the services of a Professional Engineer registered in the State of Florida for periodic observation of construction of the surface water management (SWM) system. This will facilitate the completion of construction completion certification Form #0881 which is required pursuant to Section 10 of the Basis of Review for Environmental Resource Permit Applications within the South Florida Water Management District, and Rule 40E-4361(2), Florida Administrative Code (F.A.C).

Pursuant to Chapter 40E-4 F.A.C., this permit may not be converted from the construction phase to the operation phase until certification of the SWM system is submitted to and accepted by this District. Rule 40E-4 321(7) F.A.C. states that failure to complete construction of the SWM system and obtain operation phase approval from the District within the permit duration shall require a new permit authorization unless a permit extension is granted.

For SWM systems permitted with an operating entity who is different from the permittee, it should be noted that until the permit is transferred to the operating entity pursuant to Rule 40E-1.6107, F.A.C., the permittee is liable for compliance with the terms of this permit.

The permittee is advised that the efficiency of a SWM system will normally decrease over time unless the system is periodically maintained. A significant reduction in flow capacity can usually be attributed to partial blockages of the conveyance system. Once flow capacity is compromised, flooding of the project may result. Maintenance of the SWM system is required to protect the public health, safety and the natural resources of the state. Therefore, the permittee must have periodic inspections of the SWM system performed to ensure performance for flood protection and water quality purposes. If deficiencies are found, it is the responsibility of the permittee to correct these deficiencies in a timely manner.

40E-4.321 Duration of Permits

(1) Unless revoked or otherwise modified the duration of an environmental resource permit issued under this chapter or Chapter 40E-40, F.A.C. is as follows:

(a) For a conceptual approval, two years from the date of issuance or the date specified as a condition of the permit, unless within that period an application for an individual or standard general permit is filed for any portion of the project. If an application for an environmental resource permit is filed, then the conceptual approval remains valid until final action is taken on the environmental resource permit application. If the application is granted, then the conceptual approval is valid for an additional two years from the date of issuance of the permit. Conceptual approvals which have no individual or standard general environmental resource permit applications filed for a period of two years shall expire automatically at the end of the two year period.

(b) For a conceptual approval filed concurrently with a development of regional impact (DRI) application for development approval (ADA) and a local government comprehensive plan amendment, the duration of the conceptual approval shall be two years from whichever one of the following occurs at the latest date:

1. the effective date of the local government's comprehensive plan amendment.
2. the effective date of the local government's development order.
3. the date on which the District issues the conceptual approval, or
4. the latest date of the resolution of any chapter 120.57, F.A.C., administrative proceeding

or other legal appeals

(c) For an individual or standard general environmental resource permit, five years from the date of issuance or such amount of time as made a condition of the permit.

(d) For a noticed general permit issued pursuant to chapter 40E-400, F.A.C., five years from the date the notice of intent to use the permit is provided to the District.

(2)(a) Unless prescribed by special permit condition, permits expire automatically according to the timeframes indicated in this rule. If application for extension is made in writing pursuant to subsection (3), the permit shall remain in full force and effect until:

1. the Governing Board takes action on an application for extension of an individual permit,
- or

2. staff takes action on an application for extension of a standard general permit.

(b) Installation of the project outfall structure shall not constitute a vesting of the permit.

(3) The permit extension shall be issued provided that a permittee files a written request with the District showing good cause prior to the expiration of the permit. For the purposes of this rule, good cause shall mean a set of extenuating circumstances outside of the control of the permittee. Requests for extensions, which shall include documentation of the extenuating circumstances and how they have delayed this project, will not be accepted more than 180 days prior to the expiration date.

(4) Substantial modifications to Conceptual Approvals will extend the duration of the Conceptual Approval for two years from the date of issuance of the modification. For the purposes of this section, the term "substantial modification" shall mean a modification which is reasonably expected to lead to substantially different water resource or environmental impacts which require a detailed review.

(5) Substantial modifications to individual or standard general environmental resource permits issued pursuant to a permit application extend the duration of the permit for three years from the date of issuance of the modification. Individual or standard general environmental resource permit modifications do not extend the duration of a conceptual approval.

(6) Permit modifications issued pursuant to subsection 40E-4.331(2)(b), F.A.C. (letter modifications) do not extend the duration of a permit.

(7) Failure to complete construction or alteration of the surface water management system and obtain operation phase approval from the District within the permit duration shall require a new permit authorization in order to continue construction unless a permit extension is granted.

Petitions must substantially comply with the requirements of either subsection a. or b. above.

d. State Lands Environmental Resource Permit: Pursuant to Section 373.427, Fla. Stat., and Rule 40E-1.511(3), Fla. Admin. Code (also published as an exception to the Uniform Rules of Procedure as Rule 40E-0.109(2)(c)), a petition objecting to the SFWMD's agency action regarding consolidated applications for Environmental Resource Permits and Use of Sovereign Submerged Lands (SLERPs), must be filed within 14 days of the notice of consolidated intent to grant or deny the SLERP. Petitions must substantially comply with the requirements of either subsection a. or b. above.

e. Emergency Authorization and Order: A person whose substantial interests are affected by a SFWMD Emergency Authorization and Order, has a right to file a petition under Sections 120.569, 120.57(1), and 120.57(2), Fla. Stat., as provided in subsections a. and b. above. However, the person, or the agent of the person responsible for causing or contributing to the emergency conditions shall take whatever action necessary to cause immediate compliance with the terms of the Emergency Authorization and Order.

f. Order for Emergency Action: A person whose substantial interests are affected by a SFWMD Order for Emergency Action has a right to file a petition pursuant to Rules 28-107.005 and 40E-1.611, Fla. Admin. Code, copies of which are attached to this Notice of Rights, and Section 373.119(3), Fla. Stat., for a hearing on the Order. Any subsequent agency action or proposed agency action to initiate a formal revocation proceeding shall be separately noticed pursuant to section g. below.

g. Permit Suspension, Revocation, Annulment, and Withdrawal: If the SFWMD issues an administrative complaint to suspend, revoke, annul, or withdraw a permit, the permittee may request a hearing to be conducted in accordance with Sections 120.569 and 120.57, Fla. Stat. within 21 days of either written notice through mail or posting or publication of notice that the SFWMD has or intends to take final agency action. Petitions must substantially comply with the requirements of Rule 28-107.004(3), Fla. Admin. Code, a copy of the which is attached to this Notice of Rights.

2. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the SFWMD's final action may be different from the position taken by it previously. Persons whose substantial interests may be affected by

any such final decision of the SFWMD shall have, pursuant to Rule 40E-1.511(2), Fla. Admin Code (also published as an exception to the Uniform Rules of Procedure as Rule 40E-0.109(2)(c)), an additional 21 days from the date of receipt of notice of said decision to request an administrative hearing. However, the scope of the administrative hearing shall be limited to the substantial deviation.

3. Pursuant to Rule 40E-1.511(4), Fla. Admin. Code, substantially affected persons entitled to a hearing pursuant to Section 120.57(1), Fla. Stat., may waive their right to such a hearing and request an informal hearing before the Governing Board pursuant to Section 120.57(2), Fla. Stat., which may be granted at the option of the Governing Board.

4. Pursuant to Rule 28-106.111(3), Fla. Admin. Code, persons may file with the SFWMD a request for extension of time for filing a petition. The SFWMD, for good cause shown, may grant the extension. The request for extension must contain a certificate that the petitioner has consulted with all other parties, if any, concerning the extension and that the SFWMD and all other parties agree to the extension.

CIRCUIT COURT

5. Pursuant to Section 373.617, Fla. Stat., any substantially affected person who claims that final agency action of the SFWMD relating to permit decisions constitutes an unconstitutional taking of property without just compensation may seek judicial review of the action in circuit court by filing a civil action in the circuit court in the judicial circuit in which the affected property is located within 90 days of the rendering of the SFWMD's final agency action.

6. Pursuant to Section 403.412, Fla. Stat., any citizen of Florida may bring an action for injunctive relief against the SFWMD to compel the SFWMD to enforce the laws of Chapter 373, Fla. Stat., and Title 40E, Fla. Admin. Code. The complaining party must file with the SFWMD Clerk a verified complaint setting forth the facts upon which the complaint is based and the manner in which the complaining party is affected. If the SFWMD does not take appropriate action on the complaint within 30 days of receipt, the complaining party may then file a civil suit for injunctive relief in the 15th Judicial Circuit in and for Palm Beach County or circuit court in the county where the cause of action allegedly occurred.

7. Pursuant to Section 373.433, Fla. Stat., a private citizen of Florida may file suit in circuit court to require the abatement of any stormwater management system, dam, impoundment, reservoir, appurtenant work or works that violate the provisions of Chapter 373, Fla. Stat.

DISTRICT COURT OF APPEAL

8. Pursuant to Section 120.68, Fla. Stat., a party who is adversely affected by final SFWMD action may seek judicial review of the SFWMD's final decision by filing a notice of appeal pursuant to Florida Rule of Appellate Procedure 9.110 in the Fourth District Court of Appeal or in the appellate district where a party resides and filing a second copy of the notice with the SFWMD Clerk within 30 days of rendering of the final SFWMD action.

LAND AND WATER ADJUDICATORY COMMISSION

9. A party to a "proceeding below" may seek review by the Land and Water Adjudicatory Commission (FLAWAC) of SFWMD's final agency action to determine if such action is consistent with the provisions and purposes of Chapter 373, Fla. Stat. Pursuant to Section 373.114, Fla. Stat., and Rules 42-2.013 and 42-2.0132, Fla. Admin. Code, a request for review of (a) an order or rule of the SFWMD must be filed with FLAWAC within 20 days after rendition of the order or adoption of the rule sought to be reviewed; (b) an order of the Department of Environmental Protection (DEP) requiring amendment or repeal of a SFWMD rule must be filed with FLAWAC within 30 days of rendition of the DEP's order, and (c) a SFWMD order entered pursuant to a formal administrative hearing under Section 120.57(1), Fla. Stat., must be filed no later than 20 days after rendition of the SFWMD's final order. Simultaneous with filing, a copy of the request for review must be served on the DEP Secretary, any person named in the SFWMD or DEP final order, and all parties to the proceeding below. A copy of Rule 42-2.013, Fla. Admin. Code is attached to this Notice of Rights.

PRIVATE PROPERTY RIGHTS PROTECTION ACT

10. A property owner who alleges a specific action of the SFWMD has inordinately burdened an existing use of the real property, or a vested right to a specific use of the real property, may file a claim in the circuit court where the real property is located within 1 year of the SFWMD action pursuant to the procedures set forth in Subsection 70.001(4)(a), Fla. Stat.

LAND USE AND ENVIRONMENTAL DISPUTE RESOLUTION

11. A property owner who alleges that a SFWMD development order (as that term is defined in Section 70.51(2)(a), Fla. Stat. to include permits) or SFWMD enforcement action is unreasonable, or unfairly burdens the use of the real property, may file a request for relief with the SFWMD within 30 days of receipt of the SFWMD's order or notice of agency action pursuant to the procedures set forth in Subsections 70.51(4) and (6), Fla. Stat.

MEDIATION

12. A person whose substantial interests are, or may be, affected by the SFWMD's action may choose mediation as an alternative remedy under Section 120.573, Fla. Stat. Pursuant to Rule 28-106.111(2), Fla. Admin. Code, the petition for mediation shall be filed within 21 days of either written notice through mail or posting or

Revised August 2000

publication of notice that the SFWMD has or intends to take final agency action. Choosing mediation will not affect the right to an administrative hearing if mediation does not result in settlement.

Pursuant to Rule 28-106.402, Fla. Admin. Code, the contents of the petition for mediation shall contain the following information:

- (1) the name, address, and telephone number of the person requesting mediation and that person's representative, if any;
- (2) a statement of the preliminary agency action;
- (3) an explanation of how the person's substantial interests will be affected by the agency determination; and
- (4) a statement of relief sought.

As provided in Section 120.573, Fla. Stat. (1997), the timely agreement of all the parties to mediate will toll the time limitations imposed by Sections 120.569 and 120.57, Fla. Stat., for requesting and holding an administrative hearing. Unless otherwise agreed by the parties, the mediation must be concluded within 60 days of the execution of the agreement. If mediation results in settlement of the dispute, the SFWMD must enter a final order incorporating the agreement of the parties. Persons whose substantial interest will be affected by such a modified agency decision have a right to petition for hearing within 21 days of receipt of the final order in accordance with the requirements of Sections 120.569 and 120.57, Fla. Stat., and SFWMD Rule 28-106.201(2), Fla. Admin. Code. If mediation terminates without settlement of the dispute, the SFWMD shall notify all parties in writing that the administrative hearing process under Sections 120.569 and 120.57, Fla. Stat., remain available for disposition of the dispute, and the notice will specify the deadlines that then will apply for challenging the agency action.

VARIANCES AND WAIVERS

13. A person who is subject to regulation pursuant to a SFWMD rule and believes the application of that rule will create a substantial hardship or will violate principles of fairness (as those terms are defined in Subsection 120.542(2), Fla. Stat.) and can demonstrate that the purpose of the underlying statute will be or has been achieved by other means, may file a petition with the SFWMD Clerk requesting a variance from or waiver of the SFWMD rule. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have concerning the SFWMD's action. Pursuant to Rule 28-104.002(2), Fla. Admin. Code, the petition must include the following information:

- (a) the caption shall read:
Petition for (Variance from) or (Waiver of) Rule (Citation)
- (b) The name, address, telephone number and any facsimile number of the petitioner;

- (c) The name, address telephone number and any facsimile number of the attorney or qualified representative of the petitioner, (if any);
- (d) the applicable rule or portion of the rule;
- (e) the citation to the statute the rule is implementing;
- (f) the type of action requested;
- (g) the specific facts that demonstrate a substantial hardship or violation of principals of fairness that would justify a waiver or variance for the petitioner;
- (h) the reason why the variance or the waiver requested would serve the purposes of the underlying statute; and
- (i) a statement of whether the variance or waiver is permanent or temporary. If the variance or waiver is temporary, the petition shall include the dates indicating the duration of the requested variance or waiver.

A person requesting an emergency variance from or waiver of a SFWMD rule must clearly so state in the caption of the petition. In addition to the requirements of Section 120.542(5), Fla. Stat. pursuant to Rule 28-104.004(2), Fla. Admin. Code, the petition must also include:

- a) the specific facts that make the situation an emergency; and
- b) the specific facts to show that the petitioner will suffer immediate adverse effect unless the variance or waiver is issued by the SFWMD more expeditiously than the applicable timeframes set forth in Section 120.542, Fla. Stat.

WAIVER OF RIGHTS

14. Failure to observe the relevant time frames prescribed above will constitute a waiver of such right.

28-106.201

42-2.013 REQUEST FOR REVIEW PURSUANT TO SECTION 373.114 OR 373.217

(1) In any proceeding arising under Chapter 373, F.S., review by the Florida Land and Water Adjudicatory Commission may be initiated by the Department or a party by filing a request for such review with the Secretary of the Commission and serving a copy on any person named in the rule or order, and on all parties to the proceeding which resulted in the order sought to be reviewed. A certificate of service showing completion of service as required by this subsection shall be a requirement for a determination of sufficiency under Rule 42-2.0132. Failure to file the request with the Commission within the time period provided in Rule 42-2.0132 shall result in dismissal of the request for review.

(2) The request for review shall identify the rule or order requested to be reviewed, the proceeding in which the rule or order was entered and the nature of the rule or order. A copy of the rule or order sought to be reviewed shall be attached. The request for review shall state with particularity:

- (a) How the order or rule conflicts with the requirements, provisions and purposes of Chapter 373, F.S., or rules duly adopted thereunder;

(b) How the rule or order sought to be reviewed affects the interests of the party seeking review;

(c) The oral or written statement, sworn or unsworn, which was submitted to the agency concerning the matter to be reviewed and the date and location of the statement, if the individual or entity requesting the review has not participated in a proceeding previously instituted pursuant to Chapter 120, F.S., on the order for which review is sought;

(d) If review of an order is being sought, whether and how the activity authorized by the order would substantially affect natural resources of statewide or regional significance, or whether the order raises issues of policy, statutory interpretation, or rule interpretation that have regional or statewide significance from a standpoint of agency precedent, and all the factual bases in the record which the petitioner claims support such determination(s); and

(e) The action requested to be taken by the Commission as a result of the review, whether to rescind or modify the order, or remand the proceeding to the water management district for further action, or to require the water management district to initiate rulemaking to adopt, amend or repeal a rule.

28-107.005 EMERGENCY ACTION

- (1) If the agency finds that immediate serious danger to the public health, safety, or welfare requires emergency action, the agency shall summarily suspend, limit, or restrict a license.
- (2) The 14-day notice requirement of Section 120.569(2)(b), F.S., does not apply and shall not be construed to prevent a hearing at the earliest time practicable upon request of an aggrieved party.

(3) Unless otherwise provided by law, within 20 days after emergency action taken pursuant to paragraph (1) of this rule, the agency shall initiate a formal suspension or revocation proceeding in compliance with Sections 120.569, 120.57 and 120.60, F.S.

40E-1.611 EMERGENCY ACTION

(1) An emergency exists when immediate action is necessary to protect public health, safety or welfare; the health of animals, fish or aquatic life; the works of the District, a public water supply, or recreational, commercial, industrial, agricultural or other reasonable uses of land and water resources.

(2) The Executive Director may employ the resources of the District to take whatever remedial action necessary to alleviate the emergency condition without the issuance of an emergency order, or in the event an emergency order has been issued, after the expiration of the requisite time for compliance with that order.

Revised August 2000

Included with this letter/permit is a brochure from the Florida Department of Environmental Protection (DEP) on Florida's National Pollutant Discharge Elimination System (NPDES) program for construction activities. As the brochure indicates, the U.S. Environmental Protection Agency authorized the DEP in October 2000 to implement the NPDES stormwater permitting program in Florida. The District is assisting DEP by distributing this information to entities which may be subject to regulation under the NPDES program. No response to the District is required.

A "Generic Permit for Stormwater Discharge from Construction Activities that Disturb Five or More Acres of Land" is required for a construction activity which contributes stormwater discharges to surface waters of the State or into a municipal separate storm sewer system and disturbs five or more acres of land. A permit is required for less than five acres if the activity is part of a larger common plan of development or sale that will meet or exceed the five acre threshold.

The permit required under DEP's NPDES stormwater permitting program is separate from the Environmental Resource Permit required by the District. Receiving a permit from the District does not exempt you from meeting the NPDES program requirements.

If you have any questions on the NPDES program, there are DEP phone numbers, mailing addresses and internet web page addresses in the brochure. The DEP web site, at www.dep.state.fl.us/water/stormwater/npdes/, provides information associated with the NPDES program including all regulations and forms cited in the brochure.

RELATED CONCERNS:

Water Use Permit Status:

Water Use application number 030909-4 has been submitted for this project. This permit does not release the permittee from obtaining all necessary Water Use authorization(s) prior to the commencement of activities which will require such authorization, including construction dewatering and irrigation, unless the work qualifies for a general permit issued pursuant to Section 40E-20 FAC.

Historical/Archeological Resources:

The District has received comments from the Florida Department of State, Division of Historic Resources stating that, while records indicate that no significant archeological or historic site or structure occurs within the project area, an examination of the surrounding region and of environmentally similar sites suggests there may be a potential for archeological resources to exist in the area. Therefore, the Division of Historic Resources recommended that a special condition be included in the permit to address fortuitous finds or unexpected discoveries of artifacts during ground-disturbing activities on the property (refer to the enclosed Special Conditions).

DCA/CZM Consistency Review:

The District has not received a finding of inconsistency from the Florida Department of Community Affairs or other commenting agencies regarding the provisions of the federal Coastal Zone Management Plan.

Enforcement:

There has been no enforcement activity associated with this application.

**IN THE CIRCUIT COURT OF THE FIFTEENTH CIRCUIT
IN AND FOR PALM BEACH COUNTY, FLORIDA**

**BEXLEY PARK MASTER,
ASSOCIATION, INC., a Florida
Not-for-profit corporation,
Plaintiff,**

CIRCUIT CIVIL DIVISION: AB
CASE NO.: 50 2009 CA 043897 MB

v.

**D.R. HORTON, INC.,
Defendant/Third Party Plaintiff.**

**ORDER ON CLARIFICATION
DETERMINING LIMITATIONS ON PLAINTIFF'S STANDING**

THIS MATTER came before the Court after several hearings, the most recent of which was April 26, 2013. Initially, D.R. Horton, Inc., [hereinafter "Defendant"] moved for "Partial Summary Judgment Against Plaintiff" Bexley Park Master Association, Inc., [hereinafter, "Association"]. The Court denied that motion by February 15, 2013 order. Thereafter, Defendant filed a motion seeking clarification of the Court's February 15 order. That motion resulted in hearings on argument as well as law memoranda in support and in opposition. For the reasons set forth below, the motion for clarification is granted and the Court determines that Association has no standing to prosecute claims on behalf of townhome owners alleging defects in walls and windows.

Preliminarily, the Court notes that there is another case pending in this division involving similar issues in which homeowners are asserting claims against

Defendant and its subcontractors for alleged water-intrusion damages to their homes. That putative class-action case is *Omar Cujar, et al. v. D.R. Horton*, 12-CA-19769. The complaint in that case is dated October 28, 2012. This matter was initiated by complaint filed December 31, 2009. “Without admitting that the claims are meritorious, [Defendant] acknowledges that individual unit owners [such as Mr. Cujar] would have standing to bring the claims concerning” claims for allegedly defective windows and walls of individual townhomes. [Defendant’s April 22, 2013 reply, p. 4]

While the entire project or development is comprised of 101 single-family homes, 27 manor homes and 16 three-story town homes, the area of dispute relevant to this issue is solely over the alleged defects in the wood frames, exterior walls, stucco and windows of the townhomes. Defendant advises the Court that the 16 townhomes contain approximately eight-two residences.

The gist of Association’s claim seems to be that the water infiltration through and around the walls and windows of the townhomes is a “matter of common interest to the members.” While it is doubtless true that all townhome owners are concerned by water infiltration, pursuant to applicable law, an association has standing to prosecute actions over such matters only to the extent set forth in the “governing documents” which, in this case means, the “Declaration

of Covenants, Conditions and Restrictions of Bexley Park,” [hereinafter, “Declarations”] See §720.303, Fla. Stat. and Fla. R. Civ. P. 1.221.

Declarations Article X expressly concerns townhomes and manor homes. Section 1 makes it clear that the owners have joint responsibility for the “structure of the party-wall, i.e., repair or maintenance of concrete block or mortar” and for “keeping in force insurance respecting such party-wall.” Nowhere does Article X, section 1 mention the Association. In contrast, Article X, section 2 expressly confers on the Association the duty and right to undertake exterior painting. Article X, section 4 provides “each Townhouse Owner shall be responsible for caulking and repairing and/or replacing any windows and sliding glass doors in the Owner’s Townhouse.”¹ The only reference to the Association in section 4 is to grant it a right of enforcement in the event of breach by the owner. There is nothing unclear or ambiguous in any of the foregoing language.

The Court agrees with the Defendant’s argument that the Association’s reliance on *Andrea M. Klak, et al. v. Eagles’ Reserve Homeowners’ Association, Inc., et al.*, 862 So. 2d 947 (Fla. 2nd DCA 2004) is misplaced. There a large group of townhome owners brought an action for declaratory judgment against their homeowners’ association contending that the association did not have authority to

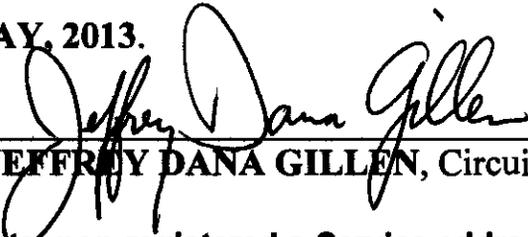

¹ The Court is unconvinced by Association’s strained argument that use of the preposition “in” here means that only interior sliding doors or interior windows are the responsibility of the owner. Even if the townhomes do contain purely interior windows or sliding doors, for example in showers or kitchens, the context of this provision clearly refers to windows and sliding doors which allow access from inside a townhome to its exterior.

undertake repair and substantial reconstruction of some homes which were affected by serious construction defects. Then Judge now Justice Canady wrote: "It appears that the position of the Klak group was related, at least in part, to its concern that the association's assumption of responsibility for the repairs and reconstruction would adversely affect the ability of individual homeowners to pursue insurance claims for the damages to their units." [*Id.* At 950] As the matter involved interpretation of that association's declaration, the Second District reviewed *de novo* the trial court's order which had "determined that 'the term exterior of the Dwelling Units' includes everything from the interior coat of paint to the outside of the buildings.'" [*Id.* At 954] The Second District held that the trial court's interpretation was contrary to the plain meaning of the term "exterior." [*Id.*] Thus, *Klak* supports the proposition that Mr. Cujar has standing to pursue the claims in that lawsuit concerning alleged defects in the walls and windows on behalf of other, similarly-situated homeowners, but that Association does not have standing to pursue such claims in this lawsuit.

ORDERED AND ADJUDGED that the motion for clarification is granted. Partial summary judgment by Defendant D.R. Horton, Inc. against Bexley Park Master Association, Inc. is hereby granted. Bexley Park Master Association, Inc. does not have standing to pursue claims for alleged defects in walls and windows on Townhomes (or any other homes owned in fee simple) within the Bexley Park

community. Association does, however, have standing to prosecute actions involving truly common areas as expressly provided in the Declarations.

DONE AND ORDERED in Chambers, at West Palm Beach, Palm Beach County, Florida, on this 28th day of **MAY**, 2013.

The real property which shall initially be held, transferred, sold, conveyed, given, donated, and/or occupied subject to this Declaration is described in Exhibit "A" attached hereto and made a part hereof by reference. Because it is customary for developers to change the Development Plans during the course of development, and although the Declarant intends to develop Bexley Park in accordance with the Development Plan, the Declarant hereby reserves the right to review, modify, or amend the Development Plan from time to time in its sole discretion and at its option, including but not limited to adding or deleting real property, increasing or decreasing density, relocating, and reducing or increasing lakes and open or green areas; provided, however, that any such changes may only involve property then owned by the Declarant unless the Owner thereof consents to such change. The Declarant shall not be required to follow any predetermined order of improvement and development within Bexley Park; and it may bring within this Declaration lands and develop them before completing the development of Bexley Park. The Declarant shall have the full power to add to, subtract from or make changes in the Development Plan regardless of the fact that such actions may alter the relative voting strength of the various types of memberships of the Master Association.

Section 2. Additional Property. Additional property may become subject to this Declaration in the following manner:

- A. Future Phases. The Declarant shall have the right, so long as there is a Class B Membership, without any consent of the Master Association being required, to subject to this Declaration, additional properties as future phases of Bexley Park. The additional property shall automatically become subject to this Declaration by filing in the Public Records of Palm Beach County, Florida, a Supplemental Declaration of Covenants, Conditions, and Restrictions with respect to the additional property (the "Supplemental Declaration"). The Supplemental Declaration may contain such complementary additions and modifications of the covenants, conditions, and restrictions contained in this Declaration as may be necessary or convenient, in the judgment of the Declarant, to reflect the different character, if any, of the additional property. Any such modification shall have no effect on the real property described in Exhibit "A" except as may be consistent with this Declaration.

this paragraph, shall extend the operation and effect of this Declaration to such additional property. The Supplemental Declaration may contain any such complementary additions and modifications of the covenants, conditions, and restrictions contained in this Declaration as may be necessary or convenient, in the judgment of the Declarant, or the Master Association, if the Declarant's consent is not required by this paragraph, to reflect the different character, if any, of the added properties, but such modifications shall have no effect on the real property described on Exhibit "A" except as may be consistent with this Declaration.

Upon a merger or consolidation of the Master Association with another association (which merger may only take place as permitted by the articles of incorporation and by-laws of both associations), the Master Association's properties, rights and obligations may, by operation of law, be transferred to the surviving or consolidated association, or, in the alternative, the properties, rights and obligations of the other association may, by operation of law, be added to the properties of the Master Association as a surviving corporation pursuant to a merger. Such maintenance shall be performed in conformance with the requirements of any governmental authority, and an easement for such maintenance is hereby created. The Master Association will have the right, but not the obligation, to maintain any portion of the surface water management, drainage, and storage system for the Property which is owned and/or maintained by any controlling governmental authority, or which is outside of the Property. The Master Association will have the right to enter into agreements with any controlling governmental authority or any other property owner or association for the common maintenance of the surface water management, drainage, and storage system serving the Property and any other property. THE OWNER OF THE GARAGE UNIT LOT AND THE DECLARANT SHALL NOT BE RESPONSIBLE OR LIABLE FOR ANY DAMAGE TO PERSON OR PROPERTY OVER THE GARAGE EASEMENT ON THE GARAGE UNIT LOT AND ANYONE USING THE GARAGE EASEMENT WILL HAVE NO CLAIM AGAINST THE GARAGE UNIT LOT OWNER AND/OR DECLARANT FOR ANY DAMAGE TO PERSON OR PROPERTY SUFFERED IN AND ON THE GARAGE EASEMENT PROPERTY.

Section 8. Easements for Repair. To the extent necessary, each Owner shall have an easement over the adjacent Family Dwelling Unit and over the Common Area to maintain such Owner's Family Dwelling Unit and to make necessary repairs to the Owner's Family Dwelling Unit. Such easement shall not exceed an area extending five (5) feet over the other Family Dwelling Unit or Common Area. Any such right of access shall be exercised in a reasonable manner only and, except for emergency repairs, any Owner shall give at least twenty-four (24) hours prior notice to the other party over whose Family Dwelling Unit the easement is being exercised and shall, to the extent practicable, not interfere with, restrict, disturb or hinder the full enjoyment by such Owner of his or her Family Dwelling Unit. Any Owner exercising the easement rights herein granted shall repair, at such Owner's sole cost and expense, any damage caused by such Owner as a result of such entry.

Section 9. Association Easement. The Master Association shall have an easement over the exterior of the Family Dwelling Unit to the extent necessary for the Master Association to perform its maintenance obligations under this Declaration, including, without limitation an easement over the Residential Lot to the extent necessary to perform its maintenance and repair obligations provided for in this Declaration.

Section 10. Extent of Easements. The rights and enjoyment of the easements created hereby shall be subject to the following:

A. The right of the Declarant or the Master Association, in accordance with its By-Laws, to borrow money from the Declarant or any other lender for the purpose of improving and/or maintaining the Common Area, and providing services authorized herein and, in aid thereof, to mortgage said properties.

B. The right of the Master Association, subject to the notice provisions of its By-Laws, to suspend the rights and enjoyment of said easements of any Member or any tenant, guest, licensee or invitee of any Member for any period during which any assessment remains unpaid, and for any period, not to exceed sixty (60) days, for an infraction of its published Rules and Regulations, it being understood that any suspension for either non-payment of any assessment or breach of any Rules and Regulations of the Master Association shall not constitute a waiver or discharge of the Member's obligation to pay the assessment; provided, however, that the Master Association shall not suspend the right to use any roads belonging to the Master Association, subject, however, to the Rules and Regulations of the Master Association for such use, and provided further that the Master Association may not suspend any rights and easements reserved herein to the Declarant. All suspensions of rights hereunder shall be performed by the Master Association in accordance with its By-Laws;

The right of ingress and egress through such roadways shall not be impaired.

E. The right of the Master Association to give, dedicate or sell all or any part of the Common Area, roadways, or other rights of way to any public agency, authority, or utility for such purposes and subject to such conditions as may be determined by the Master Association, provided that no such gift or sale or determination of such purposes or conditions shall be effective unless the same shall be authorized by the affirmative vote of three-fourths (3/4) of the votes cast by the Voting Members and the Declarant at a duly called meeting of the Members of the Master Association, and unless written notice of the meeting and of the proposed action thereunder is sent at least thirty (30) days prior to such meeting to every Member entitled hereunder to vote. A true copy of such resolution together with a certificate of the results of the vote taken thereon shall be made and acknowledged by the President or Vice-President and Secretary or Assistant Secretary of the Master Association and such certificate shall be annexed to any instrument of dedication or transfer affecting the said property, prior to the recording thereof. ARTICLE VII

ASSESSMENTS

Section 1. Creation of the Lien and Personal Obligations of Assessments. The Declarant covenants, and each Owner of any Family Dwelling Unit shall by acceptance of a deed therefore, regardless of whether or not it shall be so expressed in any such deed or other conveyance, be deemed to covenant and agree to all the terms and provisions of this Declaration and to pay to the Master Association: (1) annual assessments, (2) special assessments, and (3) individual assessments, all fixed, established and collected from time to time as hereinafter provided. The assessments will not be the same for all of the Property and will be different depending on whether the Unit is located in Bexley Park Estates, Bexley Park Manor or Bexley Park Townhomes. Said assessments will only be required of an Owner including Declarant of a Family Dwelling Unit after a Certificate of Occupancy or its equivalent has been issued by the applicable governmental authority having jurisdiction thereof. No assessments will be due until such time as the Certificate of Occupancy has been issued. The annual, special and individual assessments, together with such interest thereon and costs of collection (including Reasonable Attorneys' Fees) therefore shall be a charge and continuing lien as provided herein on the real property and improvements thereon of the Owner against whom each such assessment is made. Each such assessment, together with such interest thereon and cost of collection (including reasonable Attorneys' Fees), shall also be the personal obligation of the person who was the Owner of such real property at the time when the assessments first became due and payable. The liability for assessments may not be avoided by waiver of the use or enjoyment of any Common Area or any Recreational Facility, or by the abandonment of the property against which the assessment was made. In the case of co-ownership of any Property subject to assessment, all of such co-Owners shall be jointly and severally liable for the entire amount of the assessment.

Section 2. Purpose of Annual Assessments. The annual assessments levied by the Master Association shall be used exclusively for the improvement, maintenance, enhancement, and operation of the property described in Article IV, Section 1 and to provide services which the Master Association is authorized or required to provide. The Master Association may establish reserve funds to be held in reserve in an interest bearing account or investments as a reserve for (a) major rehabilitation or major repairs, and (b) for emergency and other repairs required as a result of storm, fire, natural disaster, or other casualty loss. The amount of annual assessment will vary as to the type of Family Dwelling Unit on a Residential Lot as determined by the Board of Directors of the Master Association.

Section 3. Initial Period. There shall be no annual or special assessments prior to August 31, 2004, or until a date determined by the Board of Directors, whichever is later. The Board of Directors shall give notice of the initial budget and commencement of assessments at least 30 days before the first monthly installment becomes due.

After the date established in the immediately preceding sentence, annual assessments shall be levied and determined in accordance with Sections 4 and 5 of this Article VII.

Section 4. Annual Budget of General Expenses. The Master Association shall prepare an annual budget not less than thirty (30) days in advance of the commencement of each fiscal year which shall project the estimated total expenditures for the services set forth in Section 2 above for the forthcoming year. Recreational Expenses may only be included in the budget to the extent they relate to Recreational Facilities owned and/or leased by the Master Association and open to all Owners. No Recreational Expenses relating to any Recreational Facility operated on a Membership Basis shall be contained in the budget; provided, however, that nothing contained herein shall prohibit the Master Association from charging a reasonable fee for the use of any Recreational Facility or from permitting the general public to use same upon payment of such a fee if it is deemed in the best interest of Bexley Park. The Master Association shall, at the same time as it prepares the annual budget, prepare a schedule which sets forth the amount of the annual assessment for each Owner. In the

event the Master Association fails to prepare an annual budget, the annual budget for the preceding year shall be the budget for the Master Association until a new annual budget is prepared by the Master Association. Additionally, if the Master Association determines that the then existing annual budget does not correctly incorporate the expenditures for services set forth in Section 2, then the Master Association shall have the right to prepare a new annual budget together with a schedule setting forth the amount of annual assessments for each Owner.

Section 5. Date of Commencement of Annual Assessments. Due Dates. The annual assessments provided for herein shall commence as to a Residential Lot on the first day of the month following the earliest of the following events to occur: a) a Certificate of Occupancy being issued for a Family Dwelling Unit constructed on a Residential Lot; or b) the occupancy by an Owner of a Family Dwelling Unit on a Residential Lot; or c) the conveyance by the Declarant of a Residential Lot; provided, however, that notwithstanding anything to the contrary contained above, the Owner of a Residential Lot shall pay 1/50th of the annual assessment as to a Residential Lot until a Certificate of Occupancy is issued for the Family Dwelling Unit constructed on the Residential Lot or until the Family Dwelling Unit is occupied by an Owner, whichever first occurs. The first annual assessment shall be adjusted according to the number of months remaining in the calendar year.

Section 6. Purpose of Special Assessments. To the extent that annual assessments are insufficient to fund the services which the Master Association is authorized or required to provide or to repair or reconstruct Common Area or as is otherwise permitted in this Declaration, the Master Association may levy a special assessment to cover the cost thereof.

Section 7. Proportion and Amount of Special Assessments. The total amount of special assessments, in any one year, may not exceed a sum equal to the amount of annual assessment for such year, except in the case of emergency and other repairs required as a result of storm, fire, natural disaster, or other casualty loss. This provision shall be interpreted to mean that the Master Association may make in any one year an annual assessment as set forth in Section 5 of this Article plus an additional special assessment, which additional assessment being considered alone, may not exceed the annual assessment.

Section 8. Individual Assessments. Each Owner of a Family Dwelling Unit is required to maintain his property, whether improved or unimproved, in a state of good repair at all times, which shall include, but shall not be limited to, periodic painting (or other appropriate refinishing) of all structures requiring same and the maintenance of the lawns, shrubbery and trees in a well-groomed and trim condition, and if unimproved, in an orderly and uncluttered condition. Such Owners are further required to maintain their property in accordance with any other covenants, conditions and restrictions and Supplement Declarations to which their deeds or other instruments of conveyance make reference. In the event of the failure of such Owner(s) to maintain their property as required herein, the Master Association, after first given thirty (30) days notice to such Owners and an opportunity to appear before the Board of Directors of the Master Association, may take such steps as are necessary to remedy any defective and/or unsightly conditions or comply with requirements imposed herein, and such Owner(s) of said property shall be assessed for the expense of same. Entry upon such Owner's Property for such purpose shall not constitute trespass. Assessments may also be levied against such Owners for any damage to Common Area, or Recreational Facilities which may be caused by such Owners, their families, lessees, guests or invitees.

Section 9. Monthly Payment of Annual Assessments. Annual assessments shall be paid in advance in monthly installments due on the first day of each calendar month or as otherwise established by the Master Association commencing with the date stated in Section 3 of this Article, and shall be deemed delinquent if not received by the Master Association on or before the tenth date after they become due. The due date and grace period of any special assessment under Section 6 hereof shall be fixed in the resolution authorizing such assessment.

Section 10. Duties of the Board of Directors. The Board of Directors of the Master Association shall prepare an annual budget and fix the amount of the assessment against each of the properties as provided hereinabove for each assessment period and shall, at that time, prepare a roster of the properties, and assessments applicable thereto which shall be kept in the office of the Master Association and shall be open to inspection by any Owner. Written notice of the assessment shall thereupon be sent every Owner. The Master Association shall upon demand at any time furnish to any or Owner who pays assessments directly a certificate in writing signed by an officer of the Master Association, setting forth whether said assessment has been paid. Such certificate shall be conclusive evidence of payment of any assessment therein stated to have been paid. The Master Association may charge a reasonable fee for this certificate.

Section 11. Establishment of Liens to Secure Payment. All assessments and charges levied by the Master Association in accordance with the provisions in accordance with the provisions of this Declaration, together with interest at the highest rate allowed by law, and costs of collection (including, but not limited to costs and reasonable attorney's fees) are hereby declared to be a charge and continuing lien upon the Residential Lot and Unit against which each such assessment or charge is made, and shall also be the personal obligation of the Owner of each Residential Lot and Unit assessed. This lien is superior to any Homestead rights the Owner may acquire. No Owner may be exempt from personal liability for assessments and charges, or release any Residential Lot from the liens and charges hereof, by a waiver of use rights, or by abandoning the Residential Lot. The Master Association's lien is activated by recording a Claim of Lien by the Master Association in the public records of Palm Beach County, setting forth the amount and due date of each unpaid assessment or charge as of the date the Claim of Lien is recorded. The Claim of Lien secures payment of all assessments and charges due at the time of recording (including interest, costs and attorney's fees as provided above), as well as all assessments and charges coming due subsequently, until the lien is satisfied or a final judgment of foreclosure obtained. Upon full payment of all sums secured by a Claim of Lien, the party making payment is entitled to a satisfaction in recordable form.

Section 12. Priority of Liens. Except as otherwise provided by law, the Master Association's lien for unpaid assessments and charges shall be subordinate and inferior to that of any recorded mortgage held by a Institutional Mortgagee, unless the Master Association's Claim of Lien was recorded before the mortgage. The Master Association's lien is superior to, and takes priority over, any other mortgage regardless of when recorded. A lease of a Living Unit is also subordinate and inferior to any Claim of Lien of the Master Association, regardless of when the lease was executed. A mortgagee in possession, a receiver, a purchaser at a foreclosure sale, or a mortgagee that has acquired title by deed in lieu of foreclosure, and all persons claiming by, through or under any of them, shall hold title subject to the liability and lien of any assessment or charge coming due after taking title. Any unpaid assessment or charge which cannot be collected by reason of this Section, shall be treated as a common expense, collectible from all Residential Lots, including the Residential Lot as to which the foreclosure (or conveyance in lieu of foreclosure) took place.

Section 13. Collection of Assessments. If any owner fails to pay any assessment, charge, or installment thereof, within ten (10) days after the due date, the Master Association shall have any or all of the following remedies, to the extent permitted by law, which remedies are cumulative and are not in lieu of, but are in addition to, all other remedies available to the Association.

A. To accelerate the balance of the annual assessment due and charge interest on such assessment or charge, from the due date until paid, at the highest rate allowed by law; and, in addition, to impose a late payment penalty which may not exceed any maximum amount as may be provided for by law.

B. To suspend the voting rights of the owner in the Master Association during the period of delinquency.

C. To file an action in equity to foreclose its lien. Unless another procedure is required by law, the lien may be foreclosed by an action brought by the Master Association in the same manner as provided in Section 718.116 of the Florida Condominium Act, as amended from time to time, for the foreclosure of liens on condominium parcels for unpaid condominium assessments.

D. To bring an action at law for a money judgment against the owner without waiving any foreclosure rights of the Master Association.

E. To assign the right to assessment to a person or entity for collection. In any civil action brought hereunder, the Master Association shall be entitled to judgment for interests, costs and reasonable attorneys fees if it is the prevailing party.

Section 14. Exempt Property. The following property and persons shall be exempted from assessments under this Declaration and liens therefore:

A. Any portion of the Property used exclusively for the purpose of utility easements or dedicated public roadways; and

B. All Common Area.

Section 15. Capital Contributions. At the time of the closing of a Family Dwelling Unit pursuant to an original sale by the Declarant, each purchaser shall pay to the Declarant on behalf of the Master Association a sum equal to the aggregate of Two Hundred Fifty and No/100 (\$250.00) Dollars as the amount of working capital contribution. These monies (hereinafter called "**Capital Contribution**") shall be the Master Association's property, and shall be held by the Master Association through its Board of Directors, pursuant to the powers described in the Articles and By-Laws. The Capital Contribution shall be deemed ordinary association income and need not be separated from or held or applied differently than assessments.

Section 16. Surface Water Management System. The Master Association is responsible for assessing and collecting fees for the operation, maintenance, and, if necessary, replacement of the surface water management system. Fees shall be assessed and collected through annual assessments or other assessment, if necessary.

Section 17. Conservation Areas. The Master Association is responsible for assessing and collecting fees for the perpetual maintenance of the Conservation Areas. Fees shall be assessed and collected through annual assessments or other assessment, if necessary.

Section 18. Declarant's Guarantee of Deficit. Notwithstanding any provision that may be contained to the contrary in this Declaration, for as long as Declarant is the owner of any Lot and there is a Class B Membership, the Declarant shall not be liable for assessment against such Residential Lot, provided that the Declarant funds any deficit in operating expenses, exclusive of reserves, cost of capital improvements and non-budgeted repairs or replacement and management fees (if the Declarant is entitled to same). For the purposes hereof, a deficit shall be computed by subtraction from said expenses (exclusive of the items described in the foregoing sentence) all assessments, contributions and other sums received or receivable by the Master Association. The Declarant may commence such assessments to Residential Lot(s) that it owns and thereby automatically terminate its obligations to fund a deficit in the operating expenses of the Master Association, or any time or from time to time elect again to fund deficits as aforesaid. When all Residential Lots within the Property are sold and conveyed to purchasers, the Declarant shall have no further liability of any kind to the Master Association for the payment of assessments or deficits other than those that arose to prior to such time.

ARTICLE VIII

G. In the event the ARC shall fail to approve or disapprove any plans and specifications submitted in final and complete form, within forty-five (45) days after written request for approval or disapproval is delivered to the ARC by the Owner or the Owner's agent or attorney, then such approval of the ARC shall not be required, and the Owner or the Owner's agent or attorney may record an affidavit in the Public Records stating that the required notice was given and no objection was made by the ARC, which affidavit shall constitute prima facie evidence of the facts stated therein; provided, however, that no building or other structure shall be erected or shall be allowed to remain if built in violation of this Declaration of which violates any of the covenants, conditions or restrictions contained in this Declaration, or which violates any zoning or building ordinance or regulation.

H. Such inspection shall be preceded by reasonable notice to the Owner of the property to be inspected, except for inspections of exterior of improvements and of unenclosed land. The ARC is specifically empowered, acting in the name of the Master Association, to enforce the provisions of this Declaration and all Supplement Declarations by any legal or equitable remedy, and in the event it becomes necessary to resort to litigation to determine the propriety of any constructed improvement, or to remove any unapproved improvements, the Master Association shall be entitled to recovery of all court costs, expenses and reasonable attorneys' fees in connection therewith. The Master Association shall indemnify and hold harmless the ARC and each of its members from all costs, expenses and liabilities including attorneys' fees incurred by virtue of any member of the ARC's service as a member of the ARC. All costs, expenses, and attorneys' fees of the ARC, including those incurred in connection with its enforcement or powers as provided herein, shall be borne by the Master Association; provided, however, that nothing provided herein shall be deemed to negate the Master Association's right to an award of its and the ARC's reasonable attorneys' fees and costs if it is the prevailing party in any administration or judicial proceeding.

I. The ARC is empowered to publish or modify from time to time, design and development standards for Bexley Park.

J. Wherever the written consent of the ARC shall be required, the chairman of the ARC shall be authorized to execute and acknowledge instruments manifesting said consent, after approval by the ARC.

K. A specific improvement, once approved by the Declarant or the ARC, may remain in place notwithstanding the adoption of contrary standards later.

Section 2. Approval of Supplemental Declarations. No Supplement Declaration may be recorded in the Public Records of Palm Beach County by any person, nor shall same have any legal or equitable affect or validity, unless it has been approved as provided in this section. Such approval shall be evidenced by the affixing of a certificate of approval as provided below to the Supplemental Declaration and the recording of said certificate with the Supplement Declaration in the Public Records of Palm Beach County.

A. The right of approval provided in this section shall be held by the Declarant for as long as there is a Class B Membership or until the Declarant surrenders its right of approval to the Master Association.

Thereafter, the Master Association, acting by and through the ARC, shall hold the said right of approval.

B. No person shall attempt to avoid the requirement of approval set forth in this section by including "deed restrictions" or conditions in any deed or instrument of conveyance of the Property and all such attempted restrictions and conditions, unless approved as herein provided, are hereby declared null and void.

C. The purpose of the provisions of this Section is to ensure that the Property is developed through a uniform plan of development. The provisions of this Section shall apply to all persons owning any of the Property, including but not limited to developers and builders acquiring title from the Declarant.

D. Any Supplemental Declaration executed by the Declarant shall be deemed approved as provided herein without the necessity of any separate certificate of approval.

E. The issuance of its approval or consent to the recording of any Supplemental Declaration shall not deem the Declarant, the ARC or the Master Association to be the developer of the property encumbered thereby, and the Declarant, ARC and the Master Association shall incur no liability to any person for their issuance of, withholding of approval or consent to the recording of any Supplement Declaration.

Section 3. City of Delray Beach Approval. Notwithstanding any term or condition contained in this Declaration to the contrary, Declarant ratifies and confirms that its architectural design of the Units to be constructed on the Property by Declarant and any modification of the architectural design of said Units to be constructed by Declarant is subject to approval by the City of Delray Beach, which City of Delray Beach approval terminates when the last Unit constructed by Declarant is completed as evidenced by a Certificate of Occupancy or Completion issued by the applicable governmental authority.
