By submitting the following, you agree to assist in your research as needed:

Signature: _____

In order for us to help you with your case, you will need you to allow us access to your Ancestry DNA matches. (When and if necessary we may request access to your MyHeritage account, 23andme and Family Tree DNA-FTDNA. These services will all be very crucial in helping to identify your unknown relative)

Instructions on sending your Ancestry DNA matches.

1. Log into Ancestry account
2. Click on your DNA tab and select DNA Summary
3. In the upper right hand corner there is a gear icon - click there. It will bring you to your DNA settings.
4. Scroll down towards the end of the page until you get to the section that says share your ethnicity's and DNA matches.
5. Click there and that's where you will add the following email address to give us access to your matches:

ladytgibson@yahoo.com
6. From the pull down menu please select collaborator (this allows us to identify and sort your matches) and click send.
