

DO YOU TAKE CREDIT CARD PAYMENTS?

YES?

Then, when was the last time you checked your credit card processing rates?

By far the most popular payment method in use today, credit cards are a mandatory requirement for an effective payment operation. With consumers now expecting even more flexibility when it comes to making payments, including mobile payment methods, credit card processing services have become much more complex and are fraught with hidden fees and limitations. However, making a direct comparison between providers and finding the best deal for your business is difficult, since rates and contracts vary from customer to customer, but that's where we can help.

Let Happy POS do all the hard work for you and we will scour the market to find the best provider and the best deal for your business. We have years of experience in the field and integrate with over a hundred POS softwares. So, don't 'settle' for your current card payment provider before contacting Happy POS. We could save you up to 40% on your current fees and what's more, we offer this service completely free of charge!

We could save you up to 40% on your current rates...and we'll do it for FREE!

*You've got nothing to lose, we can only save you money.
