The breeder has 1st pick of all puppies in every litter and can hold multiple puppies for as long as they deem necessary. Buyer understands this and will be respectful and patient of this process.

The order of picking is determined by the order in which the deposits are received. Picking begins 12 hours after birth. Each buyer has up to 48 hours to choose. Buyer understands the breeder cannot guarantee conception, sex, color, etc. If what you want is not born or picked by another buyer, you can move your deposit to another litter. There is no promised time between litters. Buyer understands if they move litters they will come in line after buyers who have placed deposit on that specific litter already. Breeder has the right to refuse all sales.

Buyer understands if the puppy they choose passes away in the breeders care, they can choose from available puppies in this litter or wait for another litter. Buyer is aware balance is due before puppy is six weeks old. Failure to do so forfeits deposit and the puppy will be resold.
