ZEISS DriveSafe Lenses

An every day lens solution designed to help you feel safer and more confident when driving.

Single Vision DriveSafe £x

Single Vision DriveSafe Individual £x

Progressive DriveSafe £x

Progressive DriveSafe Individual £x

Individual lens options provide optimised vision and unlimited frame choice due to the lens being tailored to the wearers' facial anatomy.

Benefits of ZEISS DriveSafe Lenses

Better vision in low light conditions, in the rain or at dusk, thanks to Luminance Design® Technology from ZEISS.

Reduced glare from oncoming cars and street lights thanks to ZEISS DuraVision DriveSafe UV Design® Coating.

Clear, dynamic vision for fast refocusing when switching from the road to the dashboard and mirrors with Progressive DriveSafe lens design.

Benefits of ZEISS Lenses

ZEISS UVProtect Technology

Full UV protection in all clear, plastic ZEISS lenses - all day, every day*.

- **Potentially harmful UV rays** are blocked by the lens up to 400nm.

- **Full UV protection** of the eyes and surrounding skin.

- **Clear, plastic, all-day spectacle lenses** offer sunglass level UV protection.

*Excluding ZEISS Bifocal lenses.

ZEISS BlueGuard Lenses

£x

Optional additional blue light filtering solution for your lenses.

- **Easy on the eyes:** Designed to address digital eye strain by filtering blue light without blue-purple reflections.

- **More Protection:** Sunglass level UV protection as standard and filters potential harmful blue light.

- **Less reflection:** Looks good on and offline, with less annoying reflections of digital blue light for excellent clarity.

ZEISS DuraVision UV Premium Coatings

Offering clear vision, great protection and excellent appearance.

Anti-reflective Coating

Reduces reflections to a minimum.

Durable, scratch-resistant coating

Optimum hardness for protection against scratches.

Anti-static

Repels dust and dirt.

Easy to clean

Smudge-resistant surface repels water droplets.
