

ZEISS Progressive SmartLife Lenses

Designed for smooth, clear and comfortable vision from near to far in our connected and on-the-go lifestyle.

EnergizeMe £

- **Soft easy to use design**
- Allowing for good vision for Distance and Near with a comfortable Intermediate zone

SmartLife Plus £

Using ZEISS SmartView Technology, ZEISS Progressive SmartLife Lenses assist your eyes to negotiate ever more devices as you turn your attention from the palm of your hand to the world around you. They're designed to be easy to adapt to and help by seamlessly improving what you view in your peripheral vision whilst being on the move.

- **Optimised for the eyes + frame.**
Allowing for excellent vision no matter the wearers' frame of choice.

SmartLife Superb £

- **Optimised for the eyes + frame + face.** Using ZEISS FaceFit Technology, lenses are tailored to wearers' bespoke physiological measurements.

SmartLife Ind 3 £

Lens diagrams for illustration purposes only.

- **Optimised for the eyes + frame + face + specific daily activities.** Using ZEISS IndividualFit Technology ensures the most bespoke lens design, tailored to wearers' individual viewing needs.
