Laminate Flooring Structure

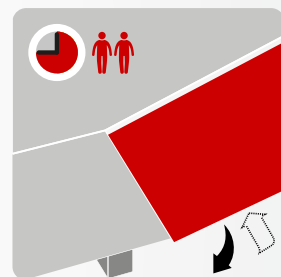

Strong and Robust Technology

2G is the brand name of the strong and robust angling installation system by Välinge.

Locking system for every needs

Floor installation should be a fast and simple process with perfect results every time. That means no gaps between the boards, no unevenness, and no squeaking sounds. Equally important, the floor should remain perfect for its lifetime of the floor. The Välinge range of locking systems provides an industry standard for installing floors. Since no floor is alike, these systems have been optimized for all flooring products, widths, and thicknesses.

ANGLING INSTALLATION

- Works with all materials
- For long and short side
