INNOVATION

ISO Certification

Our Premium Carpet Series is proudly ISO 9001 certified, ensuring that every tile meets the highest standards of quality management and consistency.

This certification is a testament to our continuous dedication to providing products that exceed client expectations, delivered with precision and reliability.

Green Certification

As part of our commitment to environmental responsibility, our carpets are Green Certified, designed with sustainable materials and eco-friendly production processes.

We prioritize reducing our environmental footprint and contribute to the creation of healthier, greener spaces.

Our Green Certification guarantees that our products are free from harmful substances, contributing to indoor air quality and providing an environmentally sustainable flooring solution.

About Us

At Florence Carpets Pvt Ltd, we believe that every space deserves to be transformed into something extraordinary. With over 12 years of expertise in the flooring industry, we specialize in providing premium carpet tiles and wooden flooring solutions that blend design innovation, unmatched durability, and sustainability.

As a leader in the commercial flooring market across Pan India, we work closely with architects, designers, and businesses to deliver tailored solutions for corporate offices, hotels, educational institutions, and more. Our vast portfolio includes landmark projects such as Taaza Noida, Study Group Noida, Bureau Veritas Noida, and Innov8 Chennai, where we've consistently delivered high-quality flooring products with exceptional customer satisfaction.

Our carpets are ISO 9001 certified for quality management, and we are proud to offer Green Certified products that prioritize environmental sustainability. We are committed to reducing our ecological footprint while creating spaces that inspire and function at their best.

With a deep understanding of market needs, a focus on innovation, and a commitment to excellence, Florence Carpets Pvt Ltd is your trusted partner for transforming any space into a sophisticated and functional environment.
