CEO  
TIP of Riverside County

To: Whom it may concern

From: Magda Stewart

Reference: Christopher Cox

This is a testimonial for Christopher Cox. I reached out to Christopher since I had heard he was doing grant writing and asked if he would be interested in helping us with a grant that was due in 5 days.

He was quick to respond and set up a phone appointment to discuss the particulars to see if he would be able to help. Christopher decided to accept and not only did he get it submitted in time, but his communication during the process was amazing.

He provided constant updates, set up phone appointments when he had questions and to review the application in case I wanted to make changes, and his fee I feel was very fair.

Thank you Christopher!
