

Gladhaven Campground and Marina

October 2022 Newsletter

We are officially entering our last month of the season. Please take note that our last guaranteed weekend open will be the weekend of October 15th. Anything after that will be weather dependent and possibly short notice of water shut off. You will still have access to your camper but may not have running water.

We sincerely thank you all for an amazing first year of owning the campground. We are excited for what the future holds for us at Gladhaven. Please check our Facebook for an end of the season survey.

Thank you,
Johnathan, Jennifer, Garrett & Hunter Schuck

Notice

I am sure you have noticed our ice merchandiser is gone. Unfortunately Home City Ice is no longer letting us use their merchandiser. We have one on order but it is 4-6 weeks delivery. We do have some ice inside the office if you need it.

Notice

Boats will need to be out of the water before it starts freezing. Once the harbor gets closer to that point we will give a final date they must be removed by. Remember all items must be removed from dock poles. Buoys, noodles, rope etc.

Reminders

- Make sure to get your contracts and deposits in. They MUST be returned by October 15.
- If you are storing your boat and trailer on the property for the winter please make sure it is included on your contract. You will get a new blue tag for winter storage. This includes storing it on your site. When placing your trailer on the fence row please space as close as possible. This will allow for more trailers to be placed.
