HERBAL POWDERS AND DRY EXTRACTS

ABOUT

I am thrilled to introduce Namashram Industries, a company that specializes in the production and export of top-notch Essential oils, Liquid & Dry extracts, Spray Dried powders and more. Our company is dedicated to the procurement, distillation, and packaging of a wide range of essential oils, including lavender, peppermint, lemon, and eucalyptus etc. We employ advanced technology and methods to ensure that our oils are of the highest quality and potency. Our skilled team works closely with farmers and distillers worldwide to source the finest raw materials for our products. Customer satisfaction is our top priority, and we strive to constantly improve and expand our product line. Whether you are a small business owner in need of high-quality essential oils or a large corporation searching for a dependable supplier, Namashram Industries is the perfect fit.

WHAT ARE HERBAL POWDERS

HERBAL POWDERS

Herbal powders are finely ground powders made from dried plants or parts of plants, such as leaves, flowers, roots, and bark. They are used in traditional medicine, Ayurvedic medicine, and herbalism for various purposes, including as dietary supplements, remedies for certain health conditions, and ingredients in cosmetics and other products. They can be taken orally or used topically, depending on the herb and intended use. Some examples of herbal powders include turmeric powder, neem powder, ashwagandha powder, and amla powder.

Applications

PHARMACY

MANUFACTURING PROCESS

Herbal powders are typically produced through a process called drying and milling. The process begins with the selection of high-quality, fresh herbs that are free from contaminants and diseases. The herbs are then washed and cleaned to remove dirt and debris. Next, the herbs are dried using a variety of methods such as sun drying, shade drying, or using a dehydrator. The drying process removes the moisture from the herbs, preserving the active compounds and preventing spoilage.

Once the herbs are dry, they are then milled into a fine powder using a grinder or mill. The milling process breaks down the dried herbs into small particles, making it easier to consume and mix with other ingredients.

Finally, the powder is sifted to remove any large pieces and to ensure a consistent particle size. After that, it is packaged and stored in an airtight container to maintain its freshness.

DRY HERBAL POWDERS

1. Aam / Mango/Amba Garbha /	(Mangifera Indica)	89. Carrot / Gajar Beej	(Daucus Carota)
2. Aam -Gutli /Amba Garbha /	(Mangifera Indica)	90. Cat's claw	(Uncaria Guianensis)
3. Abhal	(Juniper)	91. Khas kha	(Vetiveria zizanioides)
4. Aconitum Ferox	(Aconite Bachnag)	92. Kapoor Kachr	(Hedychium spicatum)
5. Aghedo / Apamarga	(Achyranthes Aspera)	93. Harad	(Terminalia chebula)
6. Agnimantha / Arnimool.	(ClerodendrumPhlomis)	94. Jatamansi	(Nardostachy)
7. Agarwood / Agar	(Aquilaria Gallocha)	95. Bahera leaves	(Terminalia)
8. Ajmoda (Celery seed)	(Apium Graveolens)	96. Shankpushpi	(Convolvulus)
9. Ajwain / Ajwain	(Trachyspermum ammi)	97. Amla	(Emblia officinalis)
10. Akado	(Calotropis Gigantea)	98. Moringa	(Moringa oleifera)
11. Akalkaro Flower / Root	(Anacyclus Pyrethrum)	99. Tej patta	(Cinnamomum)
12. Alfalfa / Gadabghas	(Medicago Sativa)	100. Adusa	(Justiciaadhatoda)
13. Aloe / Kumari /Aloe Vera	(Aloes Indica)	101. Heena	(Lawsonia inermis)
14. Aloe vera Powder 100 X	(Aloes Barbadensis)	102. Shikakai	(Acacia concinna)
15. Aloe vera Powder 200X	(Aloes Barbadensis)	103. Katha	(Senegalia catechu)
16. Alsi (Lin Seed/Flax Seed)	(Linum Usitatissimum)	104. Babool Chaal	(Vachellia nilotica)
17. Amaltas / Garmalo	(Cassia Fistula)	105. Aloe vera	(Aloe barbadensis)
18. Amba Chhal	(Mangifera Indica)	106. Kalmegh	(Andrographis)
19. Ambaholder	(Cucurma Amda (Oleoresin)	107. Bael giri	(Aegle marmelos)
20. Amervela	(Cassytha Filiformis)	108. Arjuna bark	(Terminalia arjuna)
21. Amla	(Emblia officinalis)	109. Lemon grass	(Cymbopogon)
22. Amlavetas	(Rheum Emodi)	110. Manjiththa	(Rubia Cordifolia)
23. Amli / Imli	(Tamarindus Indica)	111. Triphala	(Emblia officinalis)
24. Anant Mool	(Hemidesmus Indicus)	112. Kapoor sugandhi	(Curcuma)
25. Anise	(Pimpinella anisum)	113. Curry leaves	(Murraya koenigii)
26. Annatto	(Bixa Orellana)	114. Jivanti powder	(Leptadenia)
27. Antamul	(Tylophora Indica)	115. Gudmar	(Gymnema sylvestre)
28. Apple	(Malus Domestica)	116. Punarnava roots	(Boerhavia)
29. Apricot	(Prunus Armeniaca)	117. Vidarikand extract	(Pueraria)
30. Arand / Castor Root	(Ricinus Communis)	118. Spirulina	(Arthrospira platensis)
31. Aritha / Rita	(Sapindus Trifoliatus)	119. Barley	(Hordeum vulgare)
32. Arjun	(Terminalia Arjuna)	120. Amaltas	(Cassia fistula)
33. Arlu / Indian Trumpet	(Oroxylum Indicum)	121. Aritha / Rita	(Sapindus)
34. Arnica	(Arnica Montana)	122. Bhringraj	(Eclipta alba)
35. Artichok	(Cynara Scolymus)	123. Alfalf	(Medicago sativa)
36. Ashok Chhal	(Saraca Indica)	124. Brahmi	(Bacopa monnieri)
37. Ashwagandha	(Withania Somnifera)	125. Anardana	(Punica granatum)
38. Asiasari Radix	(Rheum Palmatum)	126. Wheat grass	(Triticum)
39. Astawarga	(Gentiana Olivieri Griseb)	127. Stevia	(Stevia rebaudiana)
40. Astragalus	(Astragalus Propinquus)	128. Konch seeds	(Mucuna pruriens)
41. Tapari / Kakai	(Abutilon Indicum)	129. Cinnamon	(Cinnamomum)
42. Ativish	(Aconitum Heterophyllum)	130. Ginger	(Zingiber officinale)
43. Augurshefa / Laxmana	(Atropa Belladonna)	131. Indigo	(Indigofera tinctoria)
44. Avocado	(Persea Americana)	132. lemon	(Citrus limon)
45. Babchi / Bakuchi (Gavar)	(Psoralea Corylifolia)	133. Kali jeera	(Centratherum)
46. Babul	(Acacia Arabica)	134. Kali mirchi	(Piper nigrum)
47. Babul Chaal	(Acacia Arabica)	135. Jammacian	(Pimenta)
48. Bach	(Acorus Calamus)	136. Imli beej	(Tamarindus Indica)
49. Badasal	(Vateria Indica)	137. Orange powder	(Aurantium)
50. Badrangboya	(Melochia Corchorifolia)	138. Chop chini	(Cinnamomum)
51. Bael (Sirphal)	(Aegle Marmelos)	139. Urban ubtan	(Saffron &Turmeric)
52. Bael Leaf	(Aegle Marmelos)	140. Vijaysar Powder	(Pterocarpus)
53. Baheda	(Terminalia Belerica)	141. Kasuri methi	(Trigonella)
54. Bakayan-Mahanimba	(Melia Azadirachta)	142. Tulsi leaf	(Ocimum)
55. Bakul	(Mimusops Elengi)	143. Saindha namak	(halite)
56. Bala / Jungali Methi	(Sida Cordifolia)	144. Noni extract	(Morinda)
57. Bamboo	(Bambusa Arundinacea)	145. Bitter gourd	(Momordica)
58. Banaba	(Lagerstroemia Speciosa)	146. Ashok Chhal	(Saraca asoca)
59. Banafshah / Gul banafshah	(Viola Odorata)	147. Multani mitti	(Fuller's earth)

61. Bara Dudhi	(Euphorbia Hirta)	149. Hibiscus Flower	(rosa-sinensis)
62. Barberry	(Berberis Vulgaris)	150. Mango kernel	(Mangifera)
63. Barseem	(Trifolium Alexandrianum)	151. Nagarmotha powder	(Cyperus)
64. Beet	(Beta Vulgaris)	152. Ratan jot	(Alkanna tinctoria)
65. Beet	(Beta Vulgaris)	153. Safed musli	(Chlorophytum)
66. Belladonna	(Atropa Belladonna)	154. Gokhru	(Tribulus terrestris)
67. Betal / Nagvalli	(Piper betle L)	155. Dhoop batti	(Masala Dhoop)
68. Bharangi Mool	(Clerodendron Serratum)	156. Jamun powder	(Sygium)
69. Bhilama	(Semecarpus Anacardium)	157. Adhatoda vasica	(Justicia)
70. Bhringraj / Bhangra	(Eclipta Aliba)	158. Ashwagandha	(Withania)
71. Bhui Amla	(Phyllanthus Niruri)	159. Neem	(Azadirachta indica)
72. Bhujaar	(Pterocarpus Marsupium)	160. Rose petal	(Rosa rubiginosa)
73. Bilberry	(Vaccinium Myrtillus)	161. Giloy	(Tinospora cordifolia)
74. Biranjshipha	(Achillea Millefolium)	162. Sanay patti	(Senna alexandrian)
75. Birch	(Betula Alba)	163. Ajwain	(Trachyspermum)
76. Black Cohosh	(Cimicifuga Racemosa)	164. Wall nut shell	(Juglans regia)
77. Black Pepper / Kali mirch	(Piper Nigrum)	165. Jeera	(Cuminum cyminum)
78. Blackberry	(Rubus Fruticosus)	166. Amba Haldi	(Curcuma amada)
79. Blueberry	(Vaccinium Cyanococcus)	167. Turmeric	(Curcumin)
80. Brahmi / Mandukparni	(Centella Asiatica)	168. Lod	(Symplocos)
81. Brazil Nut	(Bertholletia Excelsa)	169. Manda lakri	(Litsea glutinosa)
82. Burdock root	(Dandelion Burdock)	170. Bidarikand	(Pueraria)
83. Cabbage	(Brassica Oleracea)	171. Banchoshan	(Bambusa)
84. Calendula (Marigold)	(Calendula Officinalis)	172. Daru haldi	(Berberis)
85. Camphor	(Cinnamomum Camphora)	173. Gangchi	(Cissus)
86. Capsicum (Mirch)	(Capsicum Annuum)	174. Jaw harde	(Chebulic)
87. Capsicum (Capsaicin)	(Capsicum Annuum)	175. Kaifal	(Myrica esculenta)
88. Caraluma	(Caralluma Fimbriata)	176. Kuda chaal	(Holarrhena)

SPRAY DRIED POWDERS

Spray dried powders are small particles of a substance that are formed by atomizing a liquid into fine droplets and then drying them in a hot air stream. The process results in a dry, free-flowing powder that can be easily reconstituted into its original form by adding water.

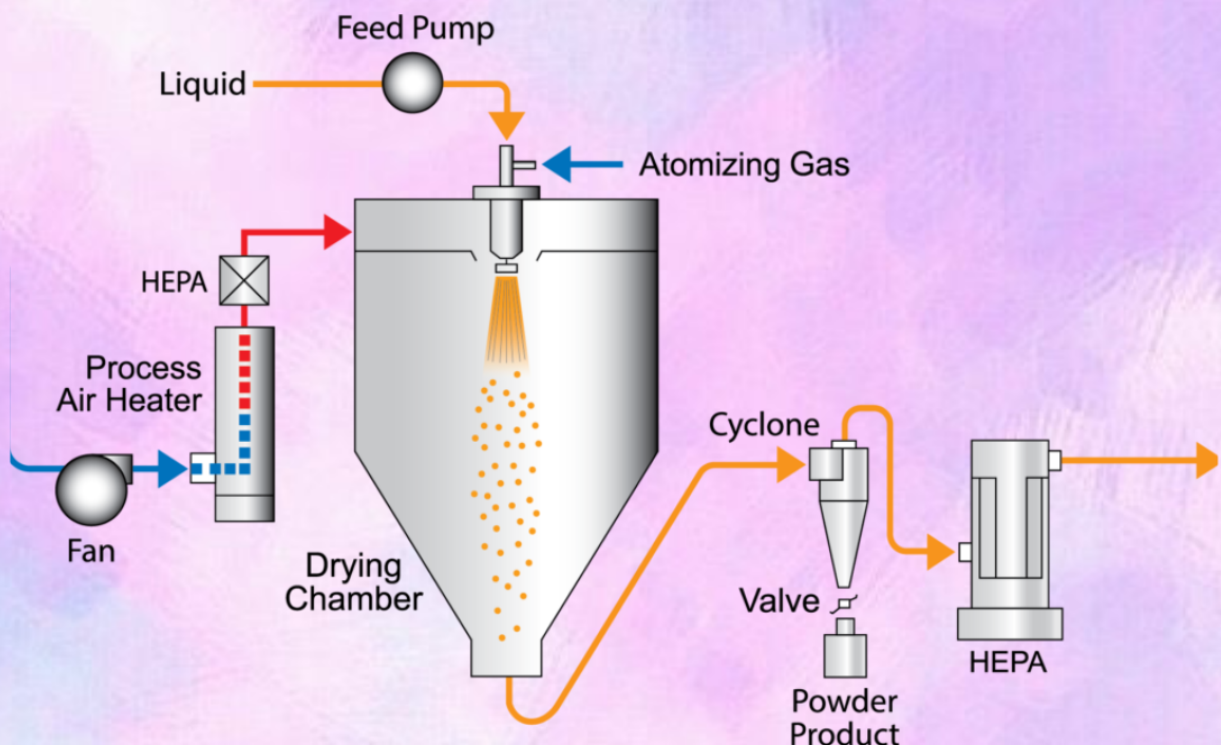

ADVANTAGE

- 1.) Improved stability and shelf life compared to liquid forms
- 2.) Easier storage and transportation due to reduced volume and weight
- 3.) Increased solubility and dispersibility in liquids
- 4.) Customizable particle size and surface area for desired properties

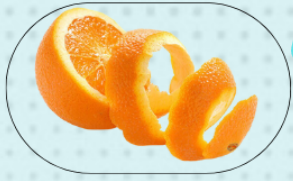

APPLICATION

- 1.) Food and beverage ingredients (flavors, colors, vitamins, proteins)
- 2.) Pharmaceuticals (active ingredients, excipients)
- 3.) Chemicals (agricultural products, cleaning agents)

MANUFACTURING PROCESS

SPRAY DRIED FRUIT POWDER

Orange peel powder
(Citrus Sinensis)

Mango seed powder
(Mangifera indica)

Apple powder
(Malus domestica)

Custard apple powder
(Annona squamosa)

Mulberry powder
(Morus)

Raspberry powder
(Rubus idaeus)

Strawberry powder
(Fragaria ananassa)

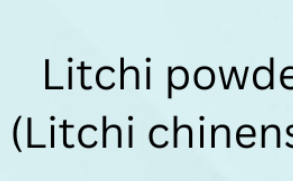

Watermelon powder
(Citrullus lanatus)

Noni extract
(Morinda citrifolia)

Dragon fruit powder
(Morinda citrifolia)

Litchi powder
(Litchi chinensis)

Black currant
(Ribes Nigrum)

Blueberry powder
(Cyanococcus)

Jamun powder
(Syzygium cumini)

Pomegranate powder
(Punica granatum)

Lemon powder
(Citrus Sinensis)

Coconut powder
(Cocos nucifera)

Sugarcane
(Saccharum officinarum)
