Service

Estimated Pricing

Ultrasound

\$50.00

Ultrasonographic examination of the mare's reproductive tract to assess ovarian activity, follicular development, uterine condition, or pregnancy status, as applicable. Findings and follow-up recommendations are documented according to the service provided.

Mare Insemination - Fresh/Cooled

\$100.00

Insemination of a mare using fresh or cooled semen according to the breeding plan and semen handling requirements. Semen, ultrasound examinations, medications, and additional reproductive management are billed separately.

Mare Insemination - Frozen

\$200.00

Insemination of a mare using thawed frozen semen, with timing coordinated to the breeding plan and semen handling requirements. Semen, ultrasound examinations, medications, and additional reproductive management are billed separately.

Embryo Flush

\$750.00

Uterine flushing procedure to recover an embryo from a donor mare following ovulation and appropriate reproductive management. Embryo evaluation, recipient preparation, transfer, and laboratory or veterinary fees may be billed separately.

Embryo - Frozen Thaw/Prep

\$200.00

Thawing and preparation of a previously cryopreserved embryo for transfer, performed using appropriate handling procedures. Embryo transfer, recipient management, and additional veterinary or laboratory fees are billed separately.

Embryo Transfer

\$250.00

Transfer of a recovered or thawed embryo into a prepared recipient mare as part of an embryo transfer program. Recipient mare fees, embryo recovery, medications, and additional veterinary services are billed separately unless included.

Embryo Shipping - Fresh

\$350.00

Preparation and packaging of a fresh embryo for shipment using appropriate handling and transport materials.

Embryo Shipping - Frozen

\$550.00

Preparation and packaging of a cryopreserved embryo for shipment using appropriate storage and transport methods.

Progesterone Test

\$50.00

Progesterone testing to assess the mare's progesterone level as part of reproductive management. Testing supplies and interpretation or follow-up by a veterinarian are handled according to the service arrangement.

Uterine Culture

\$50.00

Collection and submission or processing of a uterine sample for culture to identify potential bacterial or fungal growth.

Uterine Culture and Sensitivity

\$125.00

Collection and testing of a uterine sample to identify microbial growth and assess antimicrobial sensitivity when indicated. Treatment and follow-up testing are billed separately.

Uterine Lavage

\$150.00

Uterine flushing performed as part of a mare's reproductive management plan to remove accumulated fluid or debris. Additional medications, supplies, and veterinary services are billed separately.

Recip Mare Deposit

\$500.00

Refundable deposit securing a recipient mare, subject to the recipient mare agreement and return-condition requirements. The deposit is refunded according to the agreement when the mare is returned in acceptable condition and all applicable obligations are met.

Recip Mare Lease

\$3,000.00

Lease of a recipient mare for use in an embryo transfer program, subject to the recipient mare lease agreement. Veterinary care, breeding management, board, medications, and other program expenses are included only as specified in the agreement.

Foaling Service

\$1,000.00

Foaling management and monitoring, including scheduled observation and response to signs of impending foaling, with appropriate assistance when needed. Board, medications, veterinary care, and additional services are billed separately.

Foal IgG Test

\$50.00

Testing of a foal's blood to assess immunoglobulin G (IgG) levels and help evaluate passive transfer of maternal antibodies. Veterinary interpretation, treatment, and any additional testing are billed separately.

Temporary Caslick Placement

\$30.00

Temporary closure of the mare's vulvar lips using staples to help prevent contamination of the reproductive tract, as indicated for reproductive management. Final placement and removal should be performed by a veterinarian; veterinary fees and follow-up care are billed separately unless otherwise specified.

Service

Estimated Pricing

Phantom Training

\$1,000.00

Structured training to help a stallion become comfortable with the collection phantom and the semen collection process. Includes 6 scheduled training sessions and appropriate handling based on the stallion's progress.

Additional Phantom Training

\$165.00

Additional phantom training sessions beyond the included training package to continue developing the stallion's comfort and cooperation with the collection process.

Chemical Collection - Cooled

\$450.00

Chemically induced semen collection followed by semen evaluation, preparation, and packaging for cooled shipment or use, as applicable. Shipping and additional supplies are billed separately unless specified otherwise.

Chemical Collection - Frozen

\$750.00

Chemically induced semen collection followed by semen evaluation, processing, and preparation for cryopreservation. Freezing, storage, and shipping charges are billed separately unless specified otherwise.

Test Cool

\$350.00

Test collection and evaluation to assess semen quality and suitability for cooled semen processing and shipment. Includes the applicable evaluation and preparation for the test shipment or assessment.

Test Freeze

\$1,200.00

Test collection and processing to evaluate a stallion's suitability for semen cryopreservation, including post-thaw assessment and a summary of results. Results help guide future freezing decisions but do not guarantee fertility.

Frozen Semen Shipment

\$550.00

Preparation and shipment of frozen semen in an appropriate shipping container, including applicable packaging and handling.

Cooled Semen Shipment

\$350.00

Preparation and shipment of cooled semen using appropriate packaging and temperature-control materials.

Cooled Semen Shipment Return

\$40.00

Return shipment of the cooled semen shipping container and associated materials to the designated location.

Frozen Semen Storage- Up to 250

\$30.00

Monthly storage of up to 250 frozen semen straws for the designated stallion or owner. Additional storage is charged according to the applicable straw-count tier.

Frozen Semen Storage - 251-500

\$50.00

Monthly storage of 251-500 frozen semen straws for the designated stallion or owner.

Frozen Semen Storage - 501-750

\$70.00

Monthly storage of 501-750 frozen semen straws for the designated stallion or owner.

Frozen Semen Storage - 751-1000

\$90.00

Monthly storage of 751-1,000 frozen semen straws for the designated stallion or owner.

Frozen Semen Storage - 1001-1250

\$110.00

Monthly storage of 1,001-1,250 frozen semen straws for the designated stallion or owner.

Frozen Semen Storage - 1251-1500

\$130.00

Monthly storage of 1,251-1,500 frozen semen straws for the designated stallion or owner.

Semen Collection - Fresh/Cooled

\$350.00

Collection and evaluation of fresh semen, including assessment of semen quality and preparation for immediate use or cooled semen processing, as applicable. Extenders, shipping, and additional processing are billed separately unless included.

Semen Collection - Frozen

\$650.00

Collection and evaluation of semen for cryopreservation, including processing and preparation for freezing. Freezing supplies, storage, and shipping are billed separately unless included in the service.

Stallion Clean Out

\$300.00

Scheduled collection intended to clear stored sperm from the reproductive tract before subsequent collection or breeding activity. Semen evaluation or additional collections may be billed separately.

Sheath Cleaning

\$50.00

Routine sheath cleaning to remove accumulated debris and smegma using appropriate cleaning techniques. Veterinary examination or treatment of abnormalities is not included.

Service

Estimated Pricing

Farrier - Trim

Varies

Routine hoof trimming performed by a farrier to maintain appropriate hoof length and balance. Corrective work, shoeing, and additional farrier services are billed separately.

Foal Photography

Varies

Photography session featuring a foal, capturing individual images for owner keepsakes, records, or promotional use as agreed. Image selection, editing, and usage rights are subject to the agreed photography arrangement.

Mare Photography

Varies

Photography session featuring a mare, capturing individual images for owner keepsakes, records, or promotional use as agreed. Image selection, editing, and usage rights are subject to the agreed photography arrangement.

Stallion Photography

Varies

Photography session featuring a stallion, capturing individual images for promotional materials, breeding advertisements, or owner use. Image selection, editing, and usage rights are subject to the agreed photography arrangement.

Promotional Flyer

\$150.00

Design of a promotional flyer featuring the horse, service, or program specified by the client. Includes the agreed layout and information; additional revisions, printing, or advertising costs may be billed separately.

Handling For Outside Service

\$25.00

Handling, restraint, and coordination of a horse for a scheduled service performed by an outside provider. The outside provider's fees and any additional handling time are billed separately unless otherwise agreed.

Hauling

\$2/mile

Transportation of a horse to or from the designated location using appropriate equine transport arrangements. Hauling charges are based on the agreed trip, distance, and applicable additional expenses. Charged on a per mile basis.

Vet Support Service

Varies

Coordination and on-site support for veterinary services, including horse handling, preparation, and assistance as appropriate. Veterinary examinations, procedures, medications, and other veterinarian-billed charges are separate unless expressly included.

Disclaimer: 7E Performance Horses is not a veterinary facility. All veterinary-related procedures are performed or conducted under the oversight or review of a licensed veterinarian. These services will be billed at the veterinarian's rate
