

## **Instructions to start running BILAN**

1. Copy files 'bilan' and 'qtintf70.dll' on a local drive<sup>1</sup>. Both files need to be in the same subfolder.
2. Copy file with input data ('METU') for the Metuje catchment. The reader can use this file as an example.
3. Double click on 'bilan'.
4. For the case study on climate change in the Metuje catchment (Section 9.4.4) the reader can copy the input files 'METU1', 'METU2', 'METU3', 'METU4'. These files include input for the four climate change scenarios (Table 9.2).

For additional information the reader can copy the following documents:

1. User's guide BILAN.pdf.
2. Background information BILAN.pdf.
