MultiSpectra Global International Internships, International Intensive Open Internships and International Open Internships

MultiSpectra Global offers International Internships (MSGII), International Intensive Open Internships (MSGIIOI) and International Open Internships (MSGIOI). The company is the first company in the world to offer the last two types of Internships. All the three types of Internships are offered under the broad ambit of MultiSpectra Edge.

The MSGII is a full-time Internship that is carried out at the office of MultiSpectra Global, usually in summer and winter. A formal certificate is awarded at the end of the Internship. Besides, Interns are eligible for various Awards endowed by MultiSpectra Global.

The MSGIOI is just like a remote MSGII that is carried out at the location of the Intern without physically having to come to the office of MultiSpectra Global. The other details are just the same as for the MSGII. Like the MSGII, it too is a time-bound Internship. The MSGIOI is particularly suitable for those Interns who are unable to come to the office of MultiSpectra Global physically.

The MSGOI differs from the MSGII and the MSGIOI because it is not a time-bound Internship. It too is remote and is carried out at the location of the Intern. It may be continued as long as it is feasible for MultiSpectra Global and the Intern. It may be appended to a MSGII or a MSGIOI or carried out on a stand-alone basis. Not being a time-bound Internship, it allows the Intern to embark on a continuous programme of career development. Besides formal certificates as may be applicable, Interns are eligible for various Awards endowed by MultiSpec-
