### MultiSpectra Global on the Indian University Grants Commission

MultiSpectra Global notes with a sense of deep concern that a concerted attempt is being made by the Indian University Grants Commission, on dubious and specious grounds, to forcibly alter, to the detriment of higher education and research, the status quo of publications controverting the norms prevailing in the civilised world.

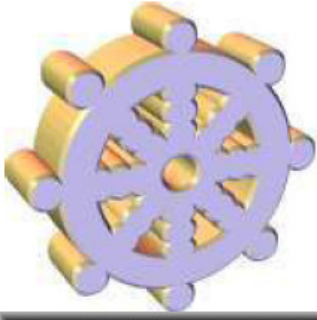

In this connection, it is further noted that:

1. The Indian University Grants Commission is a subsidiary agency of the Indian Ministry of Human Resource Development, a Ministry notorious for its corruption and nepotism. This Ministry, and its subsidiaries, are notorious for demanding bribes for the release of retirement benefits, including pension. One Sanjeev Kumar Sharma and one Rajan may be conspicuously mentioned in this respect.
2. The Indian University Grants Commission is in no way the arbiter and the decider as to what constitutes knowledge and scholasticism in the civilised world.
3. The so-called committee established by the Indian University Grants Commission was hand-picked so that it was composed of lackeys and cronies devoid of any trace of scholasticism and characterised by foolishness worthy of savages.

MultiSpectra Global therefore concludes, without mincing any words, that taking no cognisance of the recently issued fiat of the Indian University Grants Commission shall constitute the mark of an educated, erudite, wise and civilised man.

Dr. Amartya Kumar Bhattacharya
