

Join the great American 3-WHEEL REVOLUTION

BAJA Series

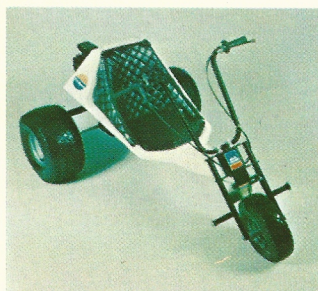

BAJA CUB

Youngsters join the Great American 3-Wheel Revolution with the BAJA CUB. Red-White-Blue, and powered by a 3½HP Tecumseh 4-Cycle engine. Children love the excitement of their own motor powered 3-Wheeler. And the BAJA CUB is made of extra heavy tubular steel for youngster-rugged construction. Seat Pad shown is an accessory item. Other accessories are also available. The BAJA CUB is the smallest, least expensive, 3-Wheel Motorcycle available with the famous Tri-Sport name.

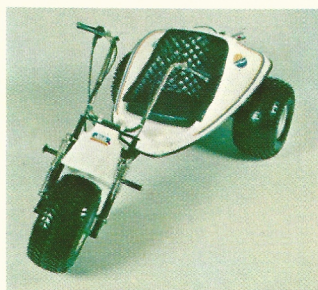

HP	DISP.	WEIGHT	LENGTH	WIDTH
3½	9.06 cu. in.	140 lb.	59"	40"

BAJA ROVER

Continuing demands for an economical full size Tri-Sport make possible the fundamental BAJA ROVER. It's powered by a 5HP Briggs & Stratton 4-Cycle engine that gives the feeling of Indianapolis just around the corner. The BAJA ROVER is another part of the Great American 3-Wheel Revolution that allows total family participation in this rapidly growing sport. The BAJA ROVER is anybody's 3-Wheeler—Mother, Son, Father, Daughter. And the cost is low, low, low. The BAJA ROVER runs on regular gasoline as do all the Tri-Sport 3-Wheel Motorcycles in the off-road BAJA series. Accessories are available. Some are listed below.

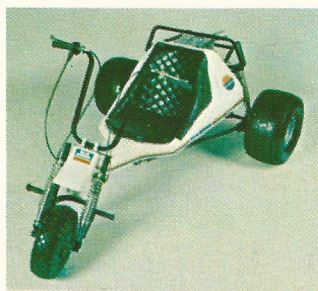

HP	DISP.	WEIGHT	LENGTH	WIDTH
5	12.57 cu. in.	170 lb.	67"	48"

BAJA SCOUT

As always . . . The Knobby-Tired Tri-Sport Great. The all-around popular leader in the 3-Wheel Motorcycle industry. Now a part of the Red-White-Blue Great American 3-Wheel Revolution, the BAJA SCOUT is powered by an 8HP Tecumseh 4-Cycle engine. It is not only the world's most popular fun machine, it is also a handy work vehicle around the house and farm. The BAJA SCOUT has a cargo carrier and an optional hefty trailer hitch for pulling a large selection of pull-equipment such as Lawn Mowers, Rollers, Seeders, Dump Trailers. It has directional brakes (one to each rear wheel) and a large selection of accessories fit the BAJA SCOUT including Wheelie Wheel, Lights, Dune Flags.

HP	DISP.	WEIGHT	LENGTH	WIDTH
8	18.65 cu. in.	185 lb.	81"	48"

BAJA NOMAD

No stranger to the Great American 3-Wheel Sport. Powered by the same husky 8HP Tecumseh engine as the BAJA SCOUT, but with the added comfort feature of independent suspension (shocks) at all three wheels. Shock Absorbers, plus dual rear axles, provide a smooth ride on trail-busting excursions and rendezvous' with friends and/or families. Just another of the great new Tri-Sport 3-Wheel Motorcycles involved in a major new sport that's sweeping the country. You can take a free demonstration ride at a nearby Tri-Sport dealer. Do it . . . you'll love it!

HP	DISP.	WEIGHT	LENGTH	WIDTH
8	18.65 cu. in.	175 lb.	77"	52½"

Standard features on all BAJA TRI-SPORT vehicles:
Magura Twist Throttle Grips, and two-position On/Off engine switch.
