# ABOUT US

At Canadian Atlantic Seafood Imports Inc. (CASII), we offer a wide variety of quality seafood products at competitive prices for our clients' *retail* and *food services* requirements. As a family business, we take pride in striving for perfection in everything we do. Our passion to transform the seafood industry through innovation, education and exceptional quality will continue to impact our rapid growth.

In keeping with our vision of providing seafood excellence through quality standards, harvesting is based on *Sustainable Seafood*. We are committed to the sustainability of our environment and fisheries by ensuring that harvesting is humane and that conservation of wildlife is paramount.

We are confident that once you have experienced our seafood, you will understand why our family is so passionate and proud about the excellence we provide.

Our mission is to passionately  
support harvesting the freshest and most  
*Natural Wild Seafood*  
of the highest quality and  
taste while revolutionizing the  
*Sustainable Seafood Process*

# QUALITY

We are committed to providing our clients with the highest quality seafood products coupled with exceeding our clients' needs and expectations. We place special emphasis on service excellence and maintaining the highest food safety and quality standards. Our Team is committed to our company's Quality Assurance standards to deliver only the freshest and best tasting seafood to our clients.

All of CASII seafood products are inspected and released for sale by the Canadian Food Inspection Agency (CFIA). Our products are purchased with pride and confidence from reputable suppliers and we place our clients' needs first. We are proud leaders in delivering quality seafood to our valued clients worldwide.

# CERTIFICATION

Our Certifications and Awards stand as further assurance and recognition of our dedication and commitment to providing quality products as well as to being an outstanding business entity.

## **HACCP**

Our operations are certified under the Hazard Analysis and Critical Control Points (HACCP) protocol which guarantees our adherence to food safety practices and providing quality products.

## **EU**

All of our Processing Plants meet the requirements and specifications of the European Union.

## **BRC**

Our Shrimp Plant is certified by the British Retail Consortium (BRC), which ensures that our operation is of global standards.

This certification serves as assurance that our products and every aspect of our production process have full traceability.

## **VPHU**

Our operations are certified by the Republic of Guyana's Ministry of Health through its Veterinary Public Health Unit (VPHU), which approves PSI's adherence to all the sanitary and hygienic requirements for operation in seafood processing.

# PRODUCTS

Proven a great source of protein and packed with heart-healthy omega-3 fatty acids, vitamins, calcium and so much more, it is of no surprise that the world is relishing in the delicious delight that is Fish and Seafood.

At Canadian Atlantic Seafood Imports Inc., we are proud to provide a wide variety of fish that are of international standards and which create the most enticing meals.

Our fish products are wild caught using methods which include trawling, drift-net fishing and long-lining. Our methods are regulated to ensure the conservation of wildlife and the protection of the environment.
