### Author's Vision

This story was not written for entertainment — it was written as a warning. I believe \*The Sealed Ones\* is meant to wake people up and equip the remnant before it's too late. If adapted for film, it must stay true to its prophetic roots and boldly expose what many are too afraid to say.

I am praying for the right creative team — one that fears God, discerns the times, and will not water down the truth.

Thank you again for your consideration.

In truth and boldness,

Abby Salinas
