

SHOW AND GEL™

Hydrating Body Gel

This lightweight, non-greasy hydrator contains simple ingredients that keep skin fresh and feeling soothed with unique gel-to-water technology, first seen in trendy Korean skincare products and adopted by some of the top-selling skincare brands in the US. It also contains fermented radish for youthful looking skin and a dose of antioxidants.

SJ1011

Electrolyte-rich coconut water is excellent for hydrating. It's moisturizing but lighter than coconut oil, so it's particularly beneficial for people with oily complexions. It's easily absorbed and non-greasy. It also contains vitamin C, calcium, magnesium, and glucose.

Prickly pear cactus contains vitamin E and vitamin K for fresh, renewed, and brighter skin. It absorbs quickly for immediate moisture.

Aloe vera can help soothe and hydrate dry skin—it's 99% water—reducing the appearance of fine lines and wrinkles. It contains minerals, enzymes, and amino acids. It also contains salicylic acid, a type of AHA that promotes clearer looking skin.

Apply liberally from head to toes daily. Pro tip: Apply directly after the shower onto slightly damp skin to lock in hydration.
