

LOVE YOU SNOW MUCH™

O₂ Bubbling Face Mask

Breathe new life into dull winter skin with this uniquely formulated bubbling, oxygenated face mask with a whisper-light feel, while moisturizing and brightening for a refreshed and more even looking complexion. Fragranced with fresh, wild mint.

HH5206

Glycerin is a skin identical ingredient, meaning it's naturally found in and easily absorbed by the skin. It's also a potent humectant, drawing water from the air to help skin lock in its moisture levels.

Licorice root is an antioxidant and is soothing, especially for sensitive skin. Licorice root can help even out skin tone. It contains an ingredient called glabridin, which helps to fade the appearance of scars and age spots.

Niacinamide has soothing properties and promotes refreshed skin, helping skin look younger and firmer by visibly reducing the appearance of large pores, fine lines, and uneven skin tone.

Wild mint oil can help soothe skin thanks to its high menthol content. It's cooling on the skin for a refreshing feel.

Apply a thin layer to clean, damp skin. Leave on for 10 minutes, rinse, and pat dry. Follow with Snow and Tell Brightening Face Moisturizer.
