

SET THE TONE™

Balancing Toner

This ultra-mild balancing face toner contains simple, naturally derived ingredients for a non-drying application. This lightweight formula promotes even skin tone and a clean finish with a refreshing citrus fragrance. Perfect for well-balanced, normal/combination skin as well as oily skin types that are so over the shine.

LN1102

Willow bark extract, willow leaf extract, and salicylic acid are a natural source of beta hydroxy acid (BHA), a gentle exfoliant that can help to break down dead skin and keep pores free of debris.

Aloe vera can help soothe and restore moisture to dry skin. It contains minerals, enzymes, and amino acids. It also contains salicylic acid, a type of AHA that promotes clearer looking skin.

Bergamot is cleansing and contains compounds that can help reduce the appearance of uneven skin tone.

Orange is a skin conditioner that aids in soothing skin. It also has cleansing and astringent qualities that can help reduce the appearance of skin imperfections and is high in vitamin C, a potent antioxidant, which helps to even out skin tone for a supple, radiant complexion.

Pre-moisten a cotton round, squeeze to remove excess, and apply toner. Follow with your favorite serum, eye crème, and moisturizer. Can be used as a second step cleanser by applying double the amount to skin and wiping gently off with a cotton pad.
