

SLEEP ON IT™

Overnight Moisture Mask

The ultimate ON mask for a parched complexion, this heavyweight, overnight formula is packed with hydrating ingredients to moisturize your face and help knock out dry skin while you're drifting off in dreamland. 7 powerfully moisturizing oils, shea and palm butters, and gently exfoliating fruit extracts ensure you'll wake up with soft, smooth skin.

FF5015

7 different hydrating oils, including meadowfoam, coconut, and sunflower, deeply moisturize skin.

Moisturizing shea butter is full of skin-loving fatty acids and antioxidants. It can help hydrate and condition skin and contains vitamin A, which can help promote a younger looking, supple skin complexion.

Aloe vera can help soothe and hydrate dry skin and help reduce the appearance of fine lines and wrinkles due to its ultra-hydrating abilities. Aloe vera is 99% water.

Rich in antioxidant vitamin C and amino acids, pineapple helps to soften and soothe skin, promoting a refreshed complexion. It contains an enzyme called bromelain; packed with vitamins and minerals, it works to gently exfoliate by removing dead skin cells without affecting healthy ones.

Apply a thin layer to a clean face and neck. Leave on overnight. Can be used nightly for dry skin. Normal/combo and oily skin can use 2-3 times weekly.
