HAPPY NOVEMBER!

WE ARE SO THANKFUL FOR YOU!

WHAT YOUR HORSES WANT YOU TO KNOW

It's amazing how much closer to our horses we become when we understand how they experience the world. Enjoy our revamped *Perception Is Reality* video. We updated this classic as this information is so important! Click HERE to watch the 17 minute tutorial.

FUN FACT!

Przewalksi's Horses are Saving the Asian Steppes!

Most people were panicked! The Steppes of Asia were vanishing at an alarming rate. One plan after another failed to make a dent in the encroaching desert. Then one clever scientist had a new idea. ***He brought back the Przewalksi's Horse -and they did the rest.*** This 20 minute video is a joyous inspiration of how Nature can cure her own!! DID YOU KNOW?

Many are concerned about the cumulative affect of billions of AI searches occuring daily. You can make a difference! If your Google search is a simple, one that doesn't need the full power of AI behind it, you can add -ai to your inquiry. (like "minus ai") This commands the search to not use AI. It does require you to do your own spellchecking though. ;)

THOUGHT OF THE MONTH

"WITHIN A GRAIN OF SAND, I SEE ME AND THE UNIVERSE. IT'S ONLY OUR THINKING THAT LESSENS OUR BELONGING, OUR BEING PART OF WHAT IS, WHAT HAS BEEN, AND WHAT WILL ALWAYS BE. THE THOUGHT THAT WE ARE NOT AN ESSENTIAL PART OF THE UNIVERSE MAKES US WEAK"

~Bob Randall
