Referral Letter – Gregory Tosi and The Solar Experts

To Whom It May Concern:

We have worked with Gregory Tosi and his team from The Solar Experts since January 2022. During this time, they have performed the following tasks either on our behalf or in partnership with us:

- Scheduled call and meeting times with customers
- Conducted site visits
- Provided project specifications and quotes based on individual site requirements
- Managed the procurement and delivery of various system components to site
- Managed installation times and teams
- Managed ad-hoc project requests
- Managed post installation paperwork and system registration

We have been involved in many projects and installations during this time, and Greg and his team have never let us down. A more professional, punctual and knowledgeable solar installation team you will not find.

It's in their name.

We would highly recommend working with Greg on any solar project.

Please don't hesitate to contact me should you wish to chat further on this.

Best
