Organization Name

Elliot Lake Family Health Team

Position

Nurse Practitioner

FTE Type

1.0, Permanent

Address

31 Nova Scotia Walk
Elliot Lake, Ontario
Canada

Closing date

April 22, 2024 @ 8:00am

The ELFHT provides primary health care, including chronic disease management, health promotion and disease prevention, to a rostered and unattached population of patients in the local community and surrounding area. The ELFHT employs an interprofessional team of health care providers who work in a collaborative model of care.

The ELFHT is currently seeking a 1.0 FTE Nurse Practitioner (37.5 hrs/week) to join its growing team of health care professionals. The position is for 5 days a week.

The Nurse Practitioner (NP) will deliver care in accordance with ELFHT policies and procedures, while adhering to the professional practice standards, and regulations set out by the College of Nurses of Ontario. The NP will ensure that the primary care needs of patients under their care are met. This full-time position will allow the NP to work autonomously, with a strong focus on providing comprehensive primary care.

You will join our FHT in collaborating with community partners to creatively and effectively meet the primary health care needs of our patients as well as those of individuals in the wider community.

JOB DESCRIPTION

- Provide primary healthcare services to patients
- Conduct periodic examinations and risk assessments that may include care of at-risk populations, wellness exams, pap tests, pediatric care, and immunizations
- Monitor the ongoing therapy of patients with chronic stable illness by providing effective pharmacological, complementary, or counseling interventions
- Maintain accurate, concise, and confidential EMR documentation pertaining to patient history and encounter data
- Recommend and arrange for specialist referrals
- Collaborate with other multidisciplinary team members and external partners
- Participate in a broad range of health promotion and chronic disease management processes, programs, and patient education (group and individual) in collaboration with multidisciplinary team members (as needed)
- Participate in ongoing quality monitoring and improvement
- Communicate ideas and concerns to the team and participate in problem-solving
- Protect patient privacy and confidentiality as per PHIPA
- Others duties as assigned within scope of practice

QUALIFICATIONS

- Registration in good standing with the College of Nurses of Ontario as a Registered Nurse in the Extended Class (RNEC)
- CPR certification, current driver's license, and valid professional liability insurance
- Excellent clinical assessment skills and the ability to think critically and problem solve
- Demonstrated ability in utilizing the nursing process in planning, implementing, and evaluating patient care
- Knowledge and proficiency in current, evidence-based methods and practices of primary care delivery, with an emphasis on health promotion, risk reduction and chronic disease management
- Leadership, organization, time management, and interpersonal skills
- Ability to prioritize, manage time effectively and be flexible in a highly active and constantly changing work environment
- Proficiency in the use of computers and information technology is required including the use of electronic medical records (EMR)
- Ability to speak and write in English and French preferred

HOW TO APPLY

Qualified applicants are asked to forward their cover letter and resume to:
