# About Us

The Moody Clinic was established in 1952 and has provided comprehensive pediatric outpatient rehabilitation services to children in need for more than six decades. Our mission is to, 'provide the highest quality of rehabilitative services to maximize the potential of children with special needs.' The clinic is governed by 18 volunteer directors.

# Our Mission

Our mission is to provide the highest quality of rehabilitative services to maximize the potential of children with special needs.

Our goal is to provide affordable access to rehabilitative care and create a lasting impact for those who would otherwise go untreated.

# Our Services

Licensed therapists provide speech, feeding, physical and occupational therapy to children with developmental delays, disabilities, or acquired injuries from birth to age 21.

1

## PHYSICAL THERAPY

Physical therapists create personalized programs to enhance a child's movement, strength, balance, mobility, and motor skills. The treatment may involve therapeutic exercises and activities, functional training, physical agents, and/or assistive devices to help the child achieve maximum functional independence, alleviate pain, and avoid further impairments.

2

## OCCUPATIONAL THERAPY

Occupational therapists specialize in helping children with a range of needs improve their cognitive, physical, sensory, and motor skills, which in turn helps to enhance their self-esteem, sense of accomplishment, and overall quality of life. Given that play and learning are a child's primary activities, occupational therapists often evaluate kids' skills for playing, school performance, and daily activities, and compare them with what is developmentally appropriate for their specific age group.

3

## SPEECH THERAPY

Speech and language pathologists diagnose and evaluate speech problems that include fluency (stuttering), articulation, voice disorders, and language problems such as aphasia and delayed language. Therapists also treat feeding and swallowing difficulties.

# Executive Director's Message

## Jessica Ray Cuevas

### **Executive Director, Moody Clinic**

2023 marked my sixth year as the Executive Director of Moody Clinic. It has been a privilege to serve our community alongside Moody Clinic's amazing staff and board of directors.

In thinking of how to describe 2023, the word "**growth**" continues to come to mind. Moody Clinic saw growth in our communities demand for services, growth in our donors support of the work that is done with our patients, and growth in our staff's knowledge base in their respective fields. And these examples are just the tip of the iceberg!

The most exciting "**growth**" is what we hope to accomplish in 2024. Eric Morales, Development Director, and I created an expansion plan that we know will take Moody Clinic to the next level and helps us to better serve our community. Thank you for entrusting me and my team with the care of this gem of a clinic!

At Moody Clinic, we believe in seeing possibilities where others might see limitations. Our team of experienced clinicians works closely together to create a personalized plan of care tailored to each child's unique needs. Our goal is to provide rehabilitative treatment that helps children achieve developmentally appropriate functional skills.

Having been in operation for over seven decades, our staff has gained valuable experience and firsthand knowledge of the daily struggles families face when trying to find the right care for their children with special needs. At Moody Clinic, we are driven by compassion and are committed to improving the lives of thousands of patients who have come through our doors since our inception in 1952.
