

# Skaneateles Lake

## Alternative Onsite Wastewater Treatment Technology Training and Tour

### Location: Cayuga County Soil & Water Conservation District

7413 County House Road  
Auburn, NY 13021 and  
multiple sites around Skaneateles Lake

### Date: September 16, 2021

8:00 am Registration (coffee & pastries)  
8:00 am to 5:00 pm

Price: \$250 (\$200 for Regulators and Code  
Enforcement Officers)

Space is very limited - please register early.

**Morning - Classroom** - Design, construction, operation and how to conduct annual maintenance includes classroom training, and lunch.

**Afternoon - Demo Project Onsite Systems Tour** - Visit and observe first hand a variety of operational advanced onsite wastewater treatment technologies while learning about their lakeside field performance and maintenance requirements.

### Who should attend?

Professional Engineers  
Architects  
Code Enforcement Officers  
Contractors  
Wastewater professionals  
Lake Association Members

### Increase confidence as you train with onsite wastewater professionals and ...

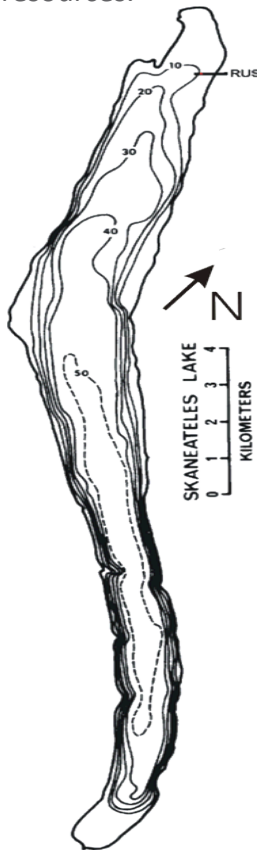

Gain PDHs for PEs  
Learn alternative design solutions for difficult sites  
Submit better septic designs  
Meet manufacturers' representatives  
Gain a competitive advantage  
Consult with Eric E. Murdock, P.E.  
Receive a Certificate of Completion

### Professional Development Hours: Professional Engineers (PIE)

The **Skaneateles National Community Decentralized Wastewater Demonstration Project** was initiated with funding assistance from USEPA to introduce alternative onsite wastewater treatment technologies in the Skaneateles Lake Watershed. The Skaneateles watershed offers many challenging site conditions. Advanced technologies help protect this high quality water resource that is used as an unfiltered drinking water supply for the City of Syracuse. By demonstrating design, installation, operation and maintenance, the project has expedited the introduction of alternative systems to the region. This training serves to sustain valuable natural resources.

The **New York Onsite Wastewater Treatment Training Network, Inc. (OTN)** represents various industry and agency professionals, including specialists from NYS-DEC, NYSDOH, and NYSDOS. The OTN provides hands-on training throughout NYS to those involved with onsite systems.

**Registration Fee: \$250 (regulators \$200)**

Make check payable to: OTNNY  
 Please return registration form and payment to:

OTNNY PO Box 6265 Syracuse, NY 13217
