

March 3, 2026

Dear Property Owner:

RE: 23088-100
San Martin Blvd. Over Riviera Bay Bridge FM & WM Relocation

The City of St. Petersburg has recently authorized a contractor to relocate two City-owned utilities currently attached to the bridge: a 24-inch sanitary force main and a 12-inch water main. The construction cost is \$6,713,162.00.

Construction is scheduled to commence March 2026 and complete October 2026. The construction schedule is subject to change based on weather and unforeseen conditions.

Local access to residents should always be maintained. However, minor disruptions are inevitable, and we appreciate your patience.

The contractor, PCL Construction, Inc. shall notify you seven to ten calendar days in advance of commencement of work in your area. Our contractor has been directed to make every effort to minimize any inconvenience experienced throughout the construction phase.

The City will have full time construction inspector available to answer questions or address concerns in the field. Also, feel free to contact Shannon McKeown, Engineering Construction Division, at 727-551-3144.

We very much appreciate your cooperation and patience as we proceed with this important project. Thank you.

Sincerely,

Brijesh Prayman, P.E.
Director, Engineering & Capital Improvements
