Liturgy of the Word

- Deuteronomy 8:2–3, We live on every word 14b–16a that comes from the mouth of God.
- Psalm 147 “Praise the Lord, Jerusalem.”
- 1 Corinthians 10:16–17 The cup we bless and the bread we break are a participation in the body of Christ.
- John 6:51–58 Jesus is the living bread come down from heaven.

The food God provides is unique and special. Take the manna God provided in the desert. Twice Moses says in our first reading that this food was unknown to their ancestors. The food that Jesus provides was also unknown to anyone’s ancestors and it is even more special, for it is Christ’s own Body and Blood. Saint Paul reminds us that we participate in the Body and Blood of Christ when we share the Eucharist, and Jesus tells us that whoever does so remains in him and he in us. As we listen to the word of God, let us listen for the many ways God feeds us.

Pastor's Reflection

This past week, Pope Leo unveiled his first encyclical *Magnifica Humanitas* or "On Safeguarding the Human Person in the Time of Artificial Intelligence." It was published on the anniversary of Leo XIII's encyclical *Rerum Novarum* in 1891, which was written to address the economic and technological challenges of his day. So, today's Leo is trying to do the same thing with the emerging challenges of the 21st century, which he identifies as "digitalization, artificial intelligence (AI), and robotics." In this encyclical, Pope Leo acknowledges his responsibility to promote the dignity of the human person considering these changes. He is reminding us that as a Church we have the task of "guiding history to become a place where the dignity of every person is safeguarded, justice is promoted and fraternity is made possible." (1)

To accomplish this, Pope Leo uses two Biblical accounts, each a lesson in how to deal with today's challenges. The first is the story of the Tower of Babel, which is the way to avoid. He calls it the "Babel Syndrome" in which humanity operates from a foundation of pride, forgets about God, and dehumanizes others through the "idolatry of profit." Instead of this dead-end strategy, Pope Leo proposes the "Way of Nehemiah." Nehemiah was charged with rebuilding the walls of Jerusalem after they had been destroyed by an invading army and the population was returning from the Babylonian Exile. Nehemiah's strategy was one that promoted unity, he put God first and included many voices in the project. Instead of disorder and disunity, which was the result of Babel, Nehemiah's efforts created unity, respect, and a foundation built on God's providence.

All this is just from the introduction of the encyclical. Over the next few weeks, we will explore the encyclical in greater detail, but I encourage you to read it for yourself. You can find it here online: www.vatican.va. Ultimately, Pope Leo hopes to put the God- given dignity of every human being at the center of technological progress. The last sentence of the Introduction says it best: "With the heart of a shepherd and a father, I ask everyone to abandon the construction of yet another Tower of Babel and to join forces in building up the common good, so that humanity will never lose its beauty, and the world once again will come to recognize the human heart as the place where God desires to dwell."
