GET THE EXACT RESULTS YOU WANT

As part of a practice designing building services, sustainability and environmental solutions, we can harness the appropriate resources to meet the varying needs of our clients and their building management portfolio.

PLANNED MAINTENANCE VISITS

The GPS is privileged to offer a comprehensive range of Planned Maintenance options.

We welcome enquiries so we can talk you through our service and develop a bespoke package to meet your needs.

Typically, our annual maintenance contract includes 52 weekly visits & 12 monthly visits to ensure all facilities are in proper working order & prevent any fault from occurring.

After each visit we report back to the client with details of the maintenance checks.
