NYOI DATA

NYOI (National Youth Outcomes Initiatives) data helps us assess the overall Club experience, safety, and program effectiveness.

Every year Boys & Girls Clubs of America distributes a member survey to assess program and Club quality.

Challenges Among Members

- **Social Skills:** Teaching youth positive relationships
- **Coping Skills:** Teaching growth-mindset skills
- **Physical Activity:** Teaching positive sportsmanship to youth
- **Leadership Activities:** Encouraging youth to give back to their community
- **Giving their full potential to all programs:** The building lacks the need for sufficient space when carrying out youth programming.

The past few years have brought on challenging financial times: obstacles like inflation, rising utility expenses, facility upgrades, and staffing costs have heavily strained our ability to provide families with the highest quality youth services at the lowest price possible. If we are going to continue to operate to provide the quality and quantity of programs as in the past, we must exceed all of our current budget goals.

FROM MEMBERS TO COMMUNITY CONTRIBUTORS

Investing in youth through direct outreach and transformative teen employment is our commitment to the community's future. What makes us unique? Many of our staff are former members, providing a powerful example of growth and continuity as they work with us from high school through their college years. These photos showcase the dedicated staff from Eden and Lake Shore High Schools who are making a real difference, guiding and inspiring the next generation.
