

In this second edition of our monthly Club newsletter, we're excited to continue celebrating our Members of the Month, sharing highlights from around the Club, and keeping you informed on ways you can get involved and support our Club community.

FEBRUARY HIGHLIGHTS

MORNING PROGRAM

Our morning members have been having lots of fun in the arts and crafts room, getting creative and starting their day with imagination and hands-on projects! From colorful drawings and themed crafts to collaborative creations with friends, they've been expressing themselves and building confidence while having a great time together. We love seeing their creativity shine first thing in the morning!

DROP IN PROGRAM

**OUR MEMBERS
TRIED CURLING!**

February was packed with Olympic fun! From designing their own medals in the art room, to competing in table curling in the games room, to racing on mats for our very own skeleton event, our members truly embraced the Olympic spirit and had an unforgettable time.

MEMBER OF THE MONTH

This month, we are proud to celebrate Nova as both our Member of the Month and our 2025–2026 Rising Star!

Nova has shown incredible growth and maturity over the past year. She consistently demonstrates leadership, strong character, academic effort, and active involvement in Club programs. We are so proud of the amazing young woman she is becoming.

Nova will be recognized at the WNY Youth of the Year event this April, alongside Rising Stars from the other WNY Clubs. We can't wait to celebrate her accomplishments!

Congratulations

AFTERNOON JUNIORS PROGRAM

This month, our Afternoon Juniors truly took over the gym! Every Friday, the energy was through the roof as our members headed into the gym to burn off some steam, practice team-building, and—most importantly—have a blast. It's been the perfect way to channel all that end-of-the-week excitement into healthy, active play.

DRIVING THE FUTURE: STEM GETS A BOOST!

We're proud to celebrate a powerful partnership with Ford Motor Company through the Ford Future Workforce STEM Initiative! A generous \$150,000 investment from Ford Buffalo Stamping Plant will expand hands-on STEM learning across 7 Boys & Girls Clubs in WNY, helping our members build critical skills and explore future career pathways.

We're grateful to the Ford leadership team for their continued support and commitment to the youth in our community!

WE'RE SHIFTING STEM INTO HIGH GEAR!
