

**BOYS & GIRLS CLUB  
OF LAKE SHORE**

We're excited to bring you our monthly Club newsletter, where we'll celebrate our Members of the Month, share fun highlights from around the Club, and let you know how you can get involved and support our Club community.

## JANUARY HIGHLIGHTS

### MORNING PROGRAM

Our morning program has been loving the gym! Early mornings are the perfect time for our energetic kids to move, play, and burn off energy in a positive way. Starting the day with gym activities gives them space to stay active, build teamwork, and have fun with friends.

After getting their wiggles out, members enjoy winding down with art activities that encourage creativity and self-expression. This balance of movement and creativity helps our kids start their mornings feeling focused, confident, and ready for the day ahead.

### DROP IN PROGRAM

January was packed with STEM experiments, New Year's wishes, and plenty of fun for all our members! Everyone joined in on Martin Luther King, Jr. activities, celebrated the start of the year, and got moving with our sport of the month: soccer.

#### **Monthly Rewards**

Members earned points throughout the month, which they used to trade for tattoos for our staff. This February, points will go toward an even bigger treat: Pie the Staff in the Face! We can't wait to see the fun unfold.

### MEMBER OF THE MONTH

Each month, we are proud to recognize an outstanding Club Member of the Month from our Drop-In Program. This member goes above and beyond by showing a positive attitude, great sportsmanship, respect for others, and a willingness to help whenever needed. Congratulations to our January Member of the Month, Angela!

# AFTERNOON JUNIORS PROGRAM

"Take chances, make mistakes, and get messy!" – Mrs. Frizzle

That quote perfectly captured the spirit of our Juniors program this month! Our members explored hands-on learning through sensory bins, exciting STEAM experiments, and creative crafts. Each activity encouraged curiosity, problem-solving, and creativity in a fun and engaging way.

These kids weren't afraid to roll up their sleeves and get their hands dirty in the name of programming and discovery—and that's exactly how learning should be! We're so proud of their enthusiasm and willingness to try new things.
