“And all that dwell upon the earth shall worship him, whose names are not written in the book . . .” (Revelation 13:8).

Dear friend

August 2024

The rollercoaster ride to who will become the next president of the United States has begun. On Saturday July 13, Donald Trump cheated death by dodging an assassin's bullet by centimeters. It appears Thomas Matthew Crooks, a twenty-year-old video gamer from the small town of Bethel Park, Pennsylvania planned it all out, but missed! Thankfully Trump gave God credit for sparing his life.

This past month the American people have also witnessed that current President Joe Biden is not mentally fit for office. It appears Biden has Parkinson/ Dementia. Therefore, he has been forced out of the 2024 presidential race opening the door for Kamala Harris, a homegrown Marxist radical to take his place. So the question that remains: Who is really in control of our government? We will answer that question in this edition of *Tribulation Watch Newsletter*.

God bless you!
Bro. Matt Tiemann

Did you know that the youth of America are being programmed to kill?

We all know this past July Donald Trump survived an assassination attempt on his life in the small town of Butler, Pennsylvania. The news has been non-stop and so has the blame game.

The U.S. Secret Service is getting most of the blame for allowing twenty-one-year Thomas Matthew Crooks to sneak under their radar. It's reported Crooks used his own personal drone to scope out the grounds prior to the attack. He then climbed up on top of a metal building with his rifle in hand.

Many spectators saw Crooks climb on top of the building and tried to warn the authorities, but to no avail. Donald Trump was allowed to enter the stage while the threat continued to exist. Trump's would-be assassin fired off eight shots before he was killed by a single shot from a Secret Service sniper. Kimberly Cheatle, director of the Secret Service was forced to resign because of the horrendous mistakes made by her agency at Trump's rally.

Steam Platform

Like most of the school shootings that are taking place today America, don't expect any blame to be given on what Trump's would-be assassin was “feeding” on. Because those (Synagogue of Satan) that control the media don't want the masses to know that young people in America are being “programmed” to kill through violent video games.

Original reports from a source inside an FBI briefing to lawmakers suggested the 20-year-old Crooks wrote in a post on Steam gaming platform earlier this month, “July 13 will be my premier, watch as it unfolds.” The original reporting was from multiple sources inside a briefing for lawmakers.

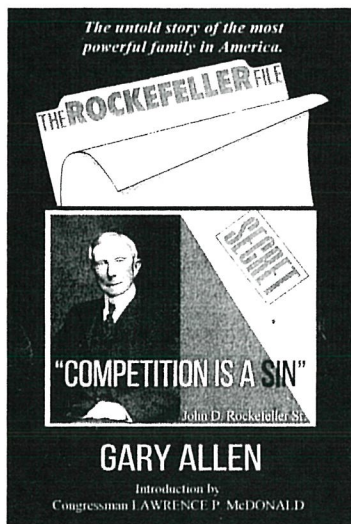

The Steam gaming platform created by multi-Billionaire Gabe Newell, offers more than 100,000 games. Many of these games are violent, bloody shooting games, including the assassination game “Mr. President” which was released in 2016. In the game Mr. President, players become a Secret Service agent dressed in a black suit and

sunglasses. They take the bullets for presidential candidate Ronald Rump who looks like Donald Trump. If the player fails to do their job right, the bullets will hit their target!

Final comment: It's time for the American people to wake up, especially lawmakers and hold the producers of violent video games and platforms accountable. Until that happens the youth of America will continue to be "programmed" to kill!

WHO'S IN CONTROL?

Editor's note: Some of the following article came from the book *The Rockefeller File* by Gary Allen, which was first published in 1976. The introduction of this book was written by Lawrence P. McDonald a Congressman from the State of Georgia. A year later Congressman McDonald was killed when his South Korean flight 007 was shot down by Russian Communists. Many believe he was assassinated, especially his wife. It's dangerous to stand up against the elite.

Introduction: "**The Rockefeller File** is not fiction. It is a compact, powerful and frightening presentation of what may be the most important story of our lifetime: the drive of the Rockefellers and their allies to create a one-world government, combining super-capitalism and Communism under their control.

For more than one hundred years, since the days when John D. Rockefeller Sr. used every devious strategy he could devise to create a gigantic oil monopoly, enough books have been written about the Rockefellers to fill a library. I have read many of them. And to my knowledge, not one has dared reveal the most vital part of the Rockefeller story: that the Rockefellers and their allies for the last fifty years, have been carefully following a plan to use their economic power to gain political control of first America, and then the rest of the world.

Do I mean conspiracy? Yes, I do. I am convinced there is such a plot, international in scope, generations old in planning, and incredibly evil in intent. You will find the truth-often surprising, sometimes unpleasant, always vital-in the pages that follow. Gary Allen has done a masterful job of combing the hundreds of scattered facts and hidden clues of the Rockefeller puzzle until one unmistakable pattern emerges.

The picture that is revealed when **The Rockefeller File** is finally opened may shock you. In this book, you will learn why the Rockefellers follow the policies they do, what their goals are, where they intend to take America...and why it is essential they be stopped.-Lawrence P. McDonald, Member of Congress. November 1975.

Creating a New World Order

The Rockefellers learned nearly a century ago that there are two standard ways for one of their companies to absorb another corporation. If the firm to be required is much smaller, a "takeover" is the simplest procedure: buy 'em out. But if the competitor is more your equal, a "merger" must be arranged.

The same principles hold true among nations. No matter how much this country sends abroad as foreign aid, technical assistance, loans that are never repaid, or other largesse, there is simply no way another country-or even a bloc of countries-can be made powerful enough to take us over.

Recognizing this political fact of life, the master planners devised the strategy of a merger-a great merger-among nations. But before such a merger can be consummated, and the United States becomes just another province in a New World Order, there must at least be the semblance of parity among the senior partners in the deal. How does one make the nations of the world more nearly equal? The *insiders* determined that a two-prong approach was needed; use American money and know-how to build up your competitors, while at the same time use every devious

strategy you can devise to weaken and impoverish this country. The goal is not to bankrupt the United States, we must emphasize. Rather, it is to reduce our productive might, and therefore our standard of living, to the meager subsistence level of the socialized nations of the world.

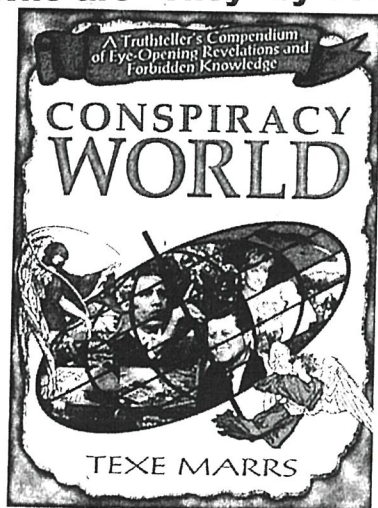

Only a fascist-socialist dictatorship would have the power to accomplish such a “redistribution.” Notice that the plan is not to bring the standard of living in less developed countries up to our level, but to bring ours down to meet theirs coming up.

You may be assured, however, that the Rockefellers and their allies are not talking about reducing their own quality of life. It's *your* standard of living which must be sacrificed on the altar of the New World Order.

The Rockefeller game plan is to use population, energy, food, and financial controls as a method of *people control* which will lead, steadily and deliberately, into the Great Merger. Much of the spadework for setting up this ploy is being done by Henry Kissinger, who was a personal employee of Nelson Rockefeller for a decade before Rocky placed him in the Nixon Administration. On numerous occasions Henry Kissinger has declared that his goal is to create a “New World Order.”

Common sense tells us that a Rockefeller hireling such as Kissinger would not be setting up an “international control” system which takes assets from the Rockefellers and gives them to someone else. Obviously, the game plan is to take other people's assets and put them under the umbrella of a Rockefeller-controlled World Government. *Gary Allen-The Rockefeller File.*

Who are “They”-by Texe Marrs

Beginning in 1986, I launched my nonstop quest to discover who “They” are. For many years I toiled in the deep, dark dungeon of conspiracy science. I read every book, every treatise, every article I could get my hands on to get to the answer. I thought that, perhaps, if I could build on the works of other great conspiracy scientists, I would find the answer. The guilty culprits, the monsters who have so tormented the earth and continue to do so would be revealed.

Good men and woman long before my entry into the battle had done great work seeking to unravel the mystery. I need not recount their names here. You know them, and they deserve maximum credit for their labors in search of the truth-to unveil “They,” the parasites who bedevil the world and infect society.

It seemed for a time I would find them (that is, “They”) lurking about in one or another of the many secret societies or globalist organizations. Could the masters of humanity be found in the Bohemian Grove, the Council on Foreign Relations (CFR), the Trilateral Commission, the Scottish Rite of Freemasonry, the Grand Orient Lodge, the Pilgrim Society, the Bilderbergers, the World Economic Forum (WEF), the G20, the P2 Lodge, the Priory of Sion, the Rosicrucian Order, the Order of Skull and Bones, Alta Vista, O.T.O?

So many groups, orders, organizations, and secret societies, and so little time and answers. Importantly, I asked, is there a link between them all, a connecting cord? Could one identifiable, a core people or organization, or even one nation be responsible for all-or at least most-of these evil groups? If so, were “They” human or perhaps, of a demonic character? Maybe the Devil himself and his dark angels are the hierarchy, the “CONTROLERS”, the “ascended masters” the plotters behind the world conspiracy? Is it “They” who pull the strings of earthly “puppets?” Is that possible?

After careful consideration, I realized that “They” are of human origin but also are led and inspired by devil powers. The ongoing conspiracy, then, is a combination of human and supernatural.

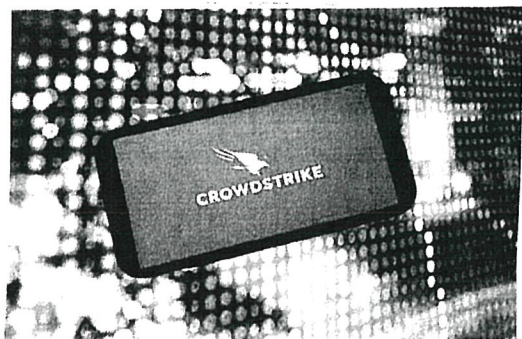

So the question that remains: if “They” are the Zionists Jews, then who is at the head? Well, if the old saying “he who owns the gold makes the rule” is true, and it is, then we know the international bankers such as the Rothschild's and Rockefellers are making the decisions for the rest of humanity.

In the 1880's, Rockefeller and Rothschild were competing as the world's foremost oil and banking barons. But the

two competitors each finally realized that competition was not a good thing. The more oil wells they drilled, the more oil produced, the more the price of oil per barrel fell. This led a disgruntled John D. Rockefeller Sr. to exclaim, *"Competition is a Sin!" -Texes Marrs-Conspiracy of the Six-Pointed Star.*

Side note: Before he died of cancer, Hollywood director and documentary filmmaker, Aaron Russo (Jew), openly discussed his relationship with Nicholas Rockefeller of the Rockefeller family. According to Russo, Nicholas Rockefeller personally told him that the elite's ultimate goal was to create a microchipped population. Russo replied, "I used to say to him, what's the point of all this? You have all the money in the world you need. You have all the power you need. What's the point? What's the end goal?" Rockefeller replied (paraphrasing), **"The goal is to get everybody chipped, to control the whole society, to have the bankers and the elite people control the world."** Rockefeller even assured Russo that if he joined the elite, his chip would be specially marked to avoid undue inspection by authorities.

Conspiracy Alert!!!

On July 19th, a day after Donald Trump's speech at the Republican convention a major computer glitch wreaked havoc across the globe, grounding flights and disrupting banking and healthcare services.

According to media reports, the large-scale digital disruption caused by a bug in a software update of CrowdStrike, a U.S.-based security software company. The bug affected computers using the Microsoft Windows operating system.

Many airlines around the world had to cancel or delay thousands of flights, including in Australia, the United States, Germany, the Netherlands, Singapore, Hong Kong, and India.

Millions of computers were reportedly affected by the bug in CrownStrike's virus scanner, Falcon, which caused Microsoft Windows to crash and show a blue screen known as the "Blue Screen of Death."

Health services were also affected around the world, with the Department of Health in Belfast, Northern Ireland, for instance, reporting that practices were unable to access laboratory test results, patient records, or routine prescriptions. Radiotherapy services were also affected, but emergency services were able to continue, according to the BBC.

Worldwide Cyber Storm Coming

"There's a gathering cyber storm," Sadie Creese, a Professor of Cyber Security at the University of Oxford, said during an interview at the World Economic Forum's annual meeting 2023 in Davos, Switzerland. "This storm is brewing, and it's really hard to anticipate just how bad it will be."

There is also widespread concern that governments will boost their support to our direct involvement in disruptive cyber operations. This includes, notably, nefarious cyber activities carried out by countries like Russia and North Korea.

"This is a global threat, and it calls for a global response and enhanced and coordinated action," Jurgen Stock, the Secretary-General of the international Criminal Police Organization (INTERPOL), said in Davos. "The key to winning the battle against cybercrime is, of course, to work together to make it a priority across the geopolitical fault lines."

The report found that business leaders are far more aware of the cyber threat than the year prior. In fact, 91% of respondents said they believe a far-reaching and catastrophic cyber event is at least somewhat likely in the next two years. However, the report concludes that organizations continue to face significant challenges when it comes to effectively addressing cyber concerns.

God bless you friend. Keep your eyes on Jesus. Hold loosely to the things of this world!
