

Safe Condition:

A safe condition means the following:

Firearm unloaded

Action open

Magazine removed (if detachable)

Slide, bolt, lever, whatever locked OPEN

Revolver cylinder open & empty.

For any firearms that have a bolt that cannot be locked open, place a spent cartridge or chamber flag, sticking up out of the chamber that all can easily see.

Set all firearms down with the muzzle pointed down range

Step back from the line and KEEP HANDS OFF ALL FIREARMS!!

Responsibilities:

When you possess a firearm, even temporarily, you have several responsibilities, to yourself and to others.

YOU HAVE THE RESPONSIBILITY TO UNDERSTAND THE PROPER AND SAFE OPERATION OF YOUR FIREARM(S).

GET PROPER SAFETY TRAINING FROM A PROFESSIONAL INSTRUCTOR WHO IS CERTIFIED TO TEACH IT.

Read the owner's manual for the firearm. If you do not have one, write to the manufacturer.

Most U.S. manufacturers will furnish a manual to you free of charge for any firearm they make, or have made in the recent past.

You have the responsibility to know how to put the firearm in a SAFE CONDITION promptly.

All firearms must be in this condition anytime anyone is forward of the firing line. The firing line is the front edge of the concrete.

DO NOT HANDLE FIREARMS FOR ANY REASON (EVEN TO CASE THEM AND LEAVE THE RANGE) WHILE PEOPLE ARE DOWN RANGE.
