\$50

Under 300 lbs.

CCCD has funds available to assist Carroll County producers with the management of deceased livestock. To receive payment, a picture of the dead animal, and a picture of the compost pile with the date displayed, must be turned in within 30 days of mortality. Random site visits may be performed.

WHY IS IT SO IMPORTANT?

Improper disposal of animal carcasses can contaminate Kentucky's soil and water resources or spread disease. CCCD supports producers composting animal mortalities.
