Innov-ís BQ2450

Overview

If you have a passion for sewing and quilting, take a look at the Innov-ís BQ2450. This versatile advanced sewing and quilting machine was built for home-based enthusiasts aspiring to take their projects to the next level. Advanced features like the MuVit Digital Dual Feed - a motor-driven foot - and smooth, easy pivoting with the Pivot function, make this the ideal machine for working on quilts or any project with thin or layered fabrics. Sew and quilt faster - up to 1,050 stitches per minute - while enjoying luxuries like automatic needle threading and bobbin winding while sewing. The BQ2450 Quilters Bundle includes a wide table for large projects, an open toe foot for MuVit for expanded visibility of the needle area, a Stitch in the Ditch Dual Feed Foot foot for more efficient feed movement, and a two-spool thread stand which can hold up to two king thread spools.

Built-in stitches, buttonhole styles and fonts

- 561 sewing stitches (531 built-in, 30 on CD), 14 one-step auto-size buttonhole styles, and 5 sewing lettering fonts.

5.0" x 11.25" spacious workspace for large quilts

- A dream for any quilter, with the capacity to accommodate large quilts and projects.

Color LCD touch screen display

- Large 3.6" x 6.0" display with accessibility to view on-screen tutorials and control the machine with the intuitive on-screen icons.

MuVit Digital Dual Feed

- Use the direct motor-driven foot to powerfully feed fabric from the top and bottom, giving you greater control.

Pivot function

- The presser foot automatically lifts as the needle remains lowered for fast and easy fabric manipulation.

Automatic Height Adjuster (AHA) feature

- The AHA feature helps ensure consistent stitch length on all fabric thicknesses by keeping the presser foot pressure consistent, regardless of fabric thickness, leading to consistent stitch quality across uneven surfaces.

Improved sewing

- Experience a smoother sewing experience with longer feed dogs and J foot for powerful feeding and stitch consistency.

Lockstitch key

- Automatically sew a tie-off stitch or easily sew a block of decorative stitches.

10" LED lighting

- No more task lights needed, making it easy on the eyes!

Built-in USB port

- Easily import decorative stitches from your memory stick.
