

Blanket

3/4 yard cotton, flannel or gauze fabric

If using gauze, keep it folded in half for a double layer and stitch 3 or 4 lines down the length to hold the layers together. Trim to 25" x 30"

1 cuddle roll

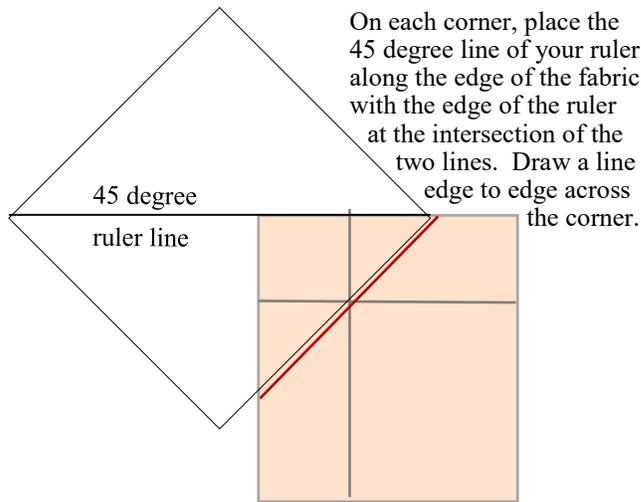

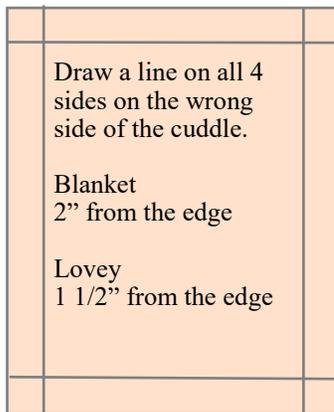

Trim the cuddle fabric to 30" x 35"

If you're using larger cuts of fabric and cuddle, Have the cuddle measure 5" larger than the fabric in both directions.

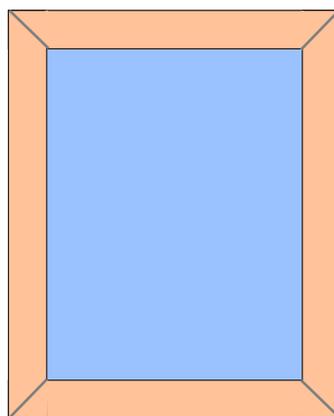

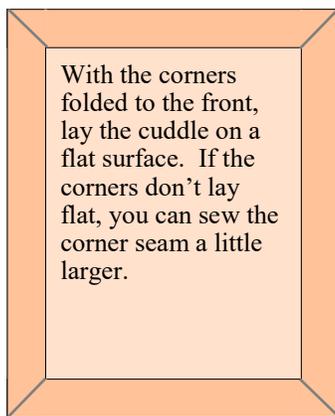

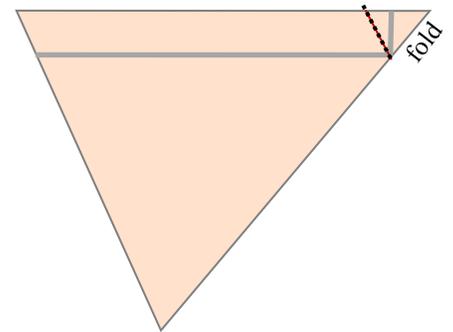

Lovey

1 cuddle square 20" x 20"

1 fat quarter trimmed to 16" x 16"

One at a time, on each corner, fo'ld the cuddle, right sides together, matching the ends of the diagonal line. Pin and sew across the diagonal line. Trim 1/4" away from the stitch line. Turn the corners to the front, creating the mitered corners.

Place the fabric in the center of the cuddle, under the folded over edges. The center piece may not reach all the way to the folded edge. That's ok. Pin or spray baste the center fabric in place. Additional quilting may be added to the center of the project if desired.

Using a zig zag, serpentine, or decorative stitch, secure the cuddle to the front of the blanket by sewing along the edge of the cuddle.
