Think outside the box when making gifts. Remember, a pattern is only a suggestion!

Try new things—there are so many different types of stabilizers that can transform your projects. You can embellish store bought items—placemats, towels, napkins and much more. Look at quilting and home decor patterns and think of how you can transform them. Runner to wall hanging, etc. Practice, practice, practice—the more you do the better and faster you get. Look at resale stores to find items to practice on before stitching expensive, new items. When stitching samples, use coordinating color background fabrics so the samples can be used to make something!
