

PARTNER WITH US

**EVERY DOLLAR MAKES
A DIFFERENCE**

Community Hope Ministries operates entirely on donations large and small from individuals just like you who want to support our mission of life restoration. By donating to our ministry, please join us in our commitment to reconstruct the many lives devastated by drugs and alcohol.

Our work is sustained only through the financial contributions of our dedicated supporters and partners. Your donation provides individuals with the opportunity for life transformation. You can make a one-time gift or become a monthly contributor by sending checks to the following address:

Dear CHM,

I received the cards that you sent I appreciate all the support from Community Hope members. Let me start by saying thank you. I have

been through a lot in my past where I've had to deal with tough situations on my own. This time is completely different. I have more than enough support from

Community Hope. I have had my face to face with God here at "Peniel". Peniel is the best kept secret! I pray that more people who are struggling seek help.

Thank you so very much for helping me change my life. Community Hope is truly doing the work of

God. One of the biggest lessons

I've learned by coming here is there's pain in making the right decision. I know my time here will

be challenging but this is my season to succeed. When I think of CHM the verses that come to mind are Philippians 1:3-6. I pray that God's rich anointing rests mightily upon Community Hope Ministries.

Sincerely, Christopher S.

This was from a client 4 months in treatment.

I thank my God every time I remember you. In all my prayers for all of you, I always pray with joy because of your partnership in the gospel from the first day until now, being confident of this, that he who began a good work in you will carry it on to completion until the day of Christ Jesus.

Philippians 1:3-6

OUR MISSION

Community Hope Ministries is a non-profit, 501(c)3 organization, established in April of 2008 with the purpose of offering financial assistance to both men and women who are battling various types of addictions. We provide the initial support necessary for an individual to begin to seek help through an appropriate rehabilitation program. Community Hope Ministries, with the generous financial support of our faithful donors and partners, discreetly assists men and women without regard to their age, race, religion, or socioeconomic backgrounds.

Currently, we are supporting clients suffering from drug and alcohol addiction in a faith-based rehabilitation facility:

Peniel Drug and Alcohol Residential treatment Center, Johnstown, PA.
Peniel: www.penieltreatment.com

Peniel is a highly successful rehabilitation that helps restore broken lives through programs that have brought many from addiction, despair, and crisis to a place of hope and restoration.

Some words from our graduates...

Community Hope Ministries assisted me in overcoming a 24-year drug addiction. When no one else believed in me, they did. They funded my treatment at Peniel, where I learned to live without drugs. They stripped away the layers and rebuilt me with biblical principles. Without CHM, I might not be alive today.

After over a decade of drug addiction, multiple secular rehabs and many overdoses, Community Hope Ministries saved my life! They offered to fund a long-term faith-based treatment program that completely transformed my life. I accepted the offer and will be forever grateful for this program and the people who support it.

When no one else had an answer for me, Community Hope did. Without Community Hope, I believe my path to sobriety and my walk with Christ would have been significantly delayed, if it had occurred at all. Long-term Christian treatment enabled me to confront the past pains that fueled my addictions. Now, equipped with coping strategies and God's guidance, I navigate daily challenges with gratitude and a sense of salvation. This journey has been a genuine renewal of mind, body, and spirit.

Did you know?

Every 2 hours someone in PA dies from a drug overdose.

In PA there are 299,000 estimated individuals with a drug disorder.

In 2012 there were 2132 overdose cases. It had increased 241% to 5146 in 2022, 84% opioid related & 78.4% from fentanyl.

Fayette County PA is the 5th worst county for overdoses.

Residents of the Appalachian region are 60% more likely to die from drug overdose than residents of the rest of the US.
