CLARINS *Precious* AS RARE AS YOU.

A new vision of luxury, rare, powerful,
committed to responsible beauty.
Inspired by plants and driven by science.

RARE FLOWER

On the coast of Brittany, France, grows the
elusive Moonlight Flower – the beating heart
of our NEW Clarins Precious skincare collection.
This plant blooms one night a year, and only for
a few hours, bearing flowers so exceptionally rare,
they are harvested by hand when they reach their
full molecular richness.

RARE SCIENCE: SKIN AGE-DELAYING TECHNOLOGY

EXCLUSIVE MOONLIGHT FLOWER CRYOEXTRACT

The Moonlight Flower is hand-picked at peak potency and immediately frozen to -196°C , harnessing a precious anti-aging cryoextract exclusive to Clarins. This cutting-edge, natural extraction process preserves the flower's most fragile, youth-promoting active ingredients to visibly boost skin's resistance to aging.

THREE ANTI-AGING PEPTIDES

Working in perfect synergy with Moonlight Flower cryoextract, a trio of biomimetic revitalizing and replenishing peptides visibly firm, replenish and fight wrinkles.

RARE SENSORIAL EXPERIENCE

Sensorial formula is infused with pure plant extracts that address premature signs of skin aging:

- Organic Oat Sugars visibly tighten and smooth the skin's surface.
- Organic Leaf of Life extract powers the skin's natural hydration.
- Organic Acerola plus Albizia extracts boost radiance.
- Organic Camelia oil nourishes, comforts and softens.
- A vitamin C derivative visibly reduces dark spots.
- Clarins' Anti-Pollution Complex of Organic White Horehound, Furcellaria and Nipplewort extracts helps minimize damage from environmental pollution – indoors and out – including skin-aging blue lights from electronics.

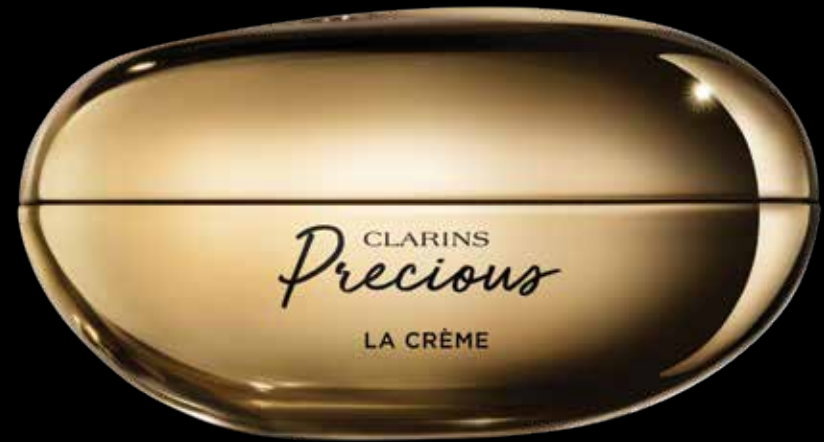

Master perfumer, Dorothée Piot, from one of the most esteemed fragrance houses in Grasse, France, was commissioned to craft the signature Precious scent: featuring notes of Vanilla and Peony, with hints of Peach, Cedar Wood and Musk.

L'outil

This luxurious, 3-in-1 facial massage tool – inspired by Clarins Art of Touch – promotes lymphatic drainage and enhances the anti-aging efficacy of La Crème.

Developed after 2 years of rigorous research, with 3 different sides designed to mimic a specific spa facialist technique:

- Cold cushion side - relaxes facial muscles and releases tension for a visible smoothing effect.
- Crescent moon side - hugs facial contours and provides similar draining and sculpting benefits as traditional Chinese Gua Sha facial massage.
- Fingertip side - targets pressure points to eliminate micro-tensions and promote lymphatic drainage.

L'Outil enhances the visibly smoothing and radiance-boosting results of La Crème, and completes the rare Precious Skincare ritual to promote a visibly firmer, more youthful-looking appearance.
