NEW MOON

**THE VISION &
NEW
BEGINNINGS**

HOW TO WORK WITH THE NEW MOON

The New Moon marks the beginning of the lunar cycle. Contrary to popular belief, it is actually when the moon is 1% luminated in the sky (not when it is completely dark). So the New Moon is actually a day after it is stated in any astrological calendars, almanacs, or moon phase apps.

Each New Moon falls under a particular astrological sign, which is the same one as the Sun's zodiac sign for that month. As the moon travels through the zodiac, there are different and unique energies that impact the Moon along with us humans. It's important to consider the sign that the moon falls in when planning rituals, spells, and other magickal workings. With each of these placements, it provides a direction and focus for us in planning the best way to harness that energy for our intentions and manifestations.

The energy of the New Moon is all about new beginnings, setting intentions, and planting the seeds for the future. When you are setting your intentions for the New Moon and the accompanying lunar cycle, it is important to be as specific as possible about the goals you wish to achieve or what you desire to accomplish. The more details that you include, the easier it will be for the universe to manifest that specific intention or desire.

WORKING WITH THE NEW MOON

Write your intentions in a journal or planner:

Find a quiet space and list your goals and desires. Reflect on how you want to grow and evolve during this lunar cycle.

Create a new moon vision board:

Gather images, quotes, and symbols that represent your intentions. Arrange them on a board to serve as a visual reminder of your goals. You can also use a digital vision board (like Canva) to create a digital vision board.

Carve a word or intention into a candle:

Choose a candle that aligns with your purpose, such as white for clarity or green for abundance. Carefully carve your intention into the wax before lighting it.

Write your intention on a bay leaf:

Use a pen or marker to inscribe your goal onto a bay leaf. Hold it in your hands, visualize your intention manifesting, and then burn the leaf as a symbolic release.

NEW MOON RITUAL: SETTING INTENTIONS

- Envision roots going from your feet into the ground to connect you with the earth.

3. Reflect on Your Desires

- What are your goals? What do you want to achieve? What changes do you want to make?

4. Write Down Your Intention(s)

- You can write a single intention or multiple, depending on what you want.

NEW MOON RITUAL: SETTING INTENTIONS

GROWTH,
ACTION &
MANIFESTATION

HOW TO WORK WITH THE WAXING MOON

The Waxing Moon phase begins just after the New Moon and continues until the Full Moon with several key phases: Waxing Crescent, First Quarter, and Waxing Gibbous. As the moon grows in light, so too does your energy, motivation, and clarity. This is a time of momentum, action, and manifestation-building, when your intentions begin to take form and gather strength. It's a powerful phase for goal setting, developing routines, learning new skills, or making confident decisions that align with your desires. The Waxing Moon teaches us the importance of commitment, consistency, and tending to our intentions so they can grow into their fullest potential by the time the Full Moon arrives.

FULL MOON

POWER,
ILLUMINATION
& CELEBRATION

HOW TO WORK WITH THE FULL MOON

The Full Moon comes right in the middle of the lunar cycle (about two weeks after the New Moon). The Full Moon is a time when the moon is at its most powerful, radiating its peak energy and illuminating the night sky in its full brilliance, making it the perfect time to manifest your desires and amplify the intentions you set during the New Moon. The Full Moon's energy is potent and can supercharge your goals, helping you align with your deepest aspirations and release anything holding you back.

You can work with the Full Moon's energy for three days—the day before, the day of, and the day after—allowing for a flexible window to harness its magical influence through rituals, meditations, or celebrations. It's a time to embrace your power, connect with the universe, and watch your dreams take shape.

Each Full Moon falls under a particular astrological sign, which is opposite of the Sun's zodiac sign for that month. As the moon travels through the zodiac, there are different and unique energies that impact the Moon along with us humans. Meditate

Spend time in quiet meditation under the moonlight. Focus on releasing negativity, connecting with your inner power, and aligning with your highest purpose.

CRYING & DARK MOON

**REST, GRIEF,
AND THE
SACRED PAUSE**

UNDERSTANDING THE CRYING MOON

The Crying Moon isn't a traditional astronomical phase, it's an energetic and emotional space between waning and darkness. This is the grief phase of the moon cycle. Here, you may feel:

- Emotionally raw or weepy
- Grief rising from the body or heart
- A need for solitude, silence, or sleep
- Resistance to doing anything

This is not weakness. This is sacred vulnerability, and it's part of your spiritual cycle. Allow yourself to feel. Grieve what was lost. Mourn what didn't grow. Honor your shadows, regrets, and broken pieces. There is healing in the tears.

Each Full Moon falls under a particular astrological sign, which is opposite of the Sun's zodiac sign for that month. As the moon travels through the zodiac, there are different and unique energies that impact the Moon along with us humans. It's important to consider the sign that the moon falls in when planning rituals, spells, and other magical workings. With each of these placements, it provides a direction and focus for us in planning the best way to harness that energy for our intentions and manifestations.

UNDERSTANDING THE DARK MOON

The Dark Moon is the final lunar phase, right before the New Moon appears. No moon is visible in the sky, and that absence creates space for deep rest, reflection, and spiritual restoration. The Dark Moon invites:

- Complete energetic shutdown and stillness
- Time with ancestors, dreams, and your inner voice
- Shadow work and soul integration
- An energetic "death" before the cycle renews

This is the spiritual compost phase. What is no longer useful breaks down and returns to the Earth, so new life can begin.

Each Full Moon falls under a particular astrological sign, which is opposite of the Sun's zodiac sign for that month. WORKING WITH THE CRYING/DARK MOON

Emotional Healing

Let yourself cry, sleep, journal, or do nothing at all. Take salt baths or lay down on the Earth for grounding. Use soft music, herbal teas, or gentle movement (like yin yoga) to support release.

Shadow Work

Reflect on patterns, fears, or beliefs that need healing. Ask yourself: What part of me do I keep hiding? Why? Use tarot or oracle cards to explore the unseen.

Ancestor Connection

Light a candle for your ancestors. Ask them for support or insight. Speak to them aloud or write them a letter. Place offerings on your altar — water, food, herbs, or photos.

Rest & Dream

Sleep in. Turn off notifications. Let your dreams guide you — record them in your Moon Journal. Say 'no' to obligations that feel heavy or forced.
