

THE SOUTH COAST ORCHID CLUB OF SA INC.

# Gazette

August 2019

Patron: Coralie Hills FAOC  
President: Michael Willoughby

## AT A GLANCE

The next meeting of the South Coast Orchid Club of South Australia will be held on Wednesday 7th August 2019 at 8.00 pm at St. Bernadette's Church Hall, corner of Walsh Avenue and South Road, St. Marys. Our Guest Speaker will be Steve Howard who will talk about Cattleyas.  
**PLEASE BRING A PLATE** for Supper.

**LEARNER'S GROUP:** The next class will be 7th August 2019 at 7.30pm. Craig Humfrey asks that you bring along your problem plants so that he can provide you with answers.

**JUDGING:** Please have your plants benched by 7.40pm so Judging can commence at 7.50pm. If you are running late due to work commitments please phone Phil on 0438 891 612.

**CHRISTMAS MEETING:** There is discussion of what to do for our Christmas Break up. Please look at Page 3 for details of various proposals and what to do to have your voice heard.

**DAYTIME CHAPTER:** The next meeting will be held at Lou Kesting Hall, off Broadway, South Brighton on Thursday 8th August 2019 at 2.00 pm. Our Guest Speaker will be Kevin Western who will talk about Western Australian Native Orchids.

**SOUTHERN REGION:** The next meeting will be held at 2.00 pm on Sunday 18th August 2019 in Carrickalinga House, 17-19 Torrens Street, Victor Harbor. Our Guest Speaker will be Kevin Western who will be speaking about Western Australian Native Orchids. Learners Group will be taken by John Gay.

**SOUTHERN REGION SHOW:** Don't forget the Southern Region Show to be held in the Victor Central Shopping Centre from Thursday 22nd to Sunday 25th August. The Victor members have a great collection of plants so come along and see them and have a day out at the coast.

**LUCKY NAME BADGE:** Make sure you wear your Name Badge to meetings, you may win a prize.

**PUBLIC LIABILITY:** Under Insurance Guidelines all members and Committee attending any function or meeting held by the Club must sign and print your name on an Attendance Sheet.

**DEADLINES FOR NEXT GAZETTES**  
25 August and 22 September

## YOUR COMMITTEE FOR 2019

<b>PRESIDENT:</b>	<b>Michael Willoughby</b>
<b>SENIOR VICE PRESIDENT:</b>	<b>Malcolm Manglesdorf</b>
<b>VICE PRESIDENT:</b>	<b>Kevin Western</b>
<b>SECRETARY:</b>	<b>Lucy Spear</b>
<b>TREASURER:</b>	<b>Anne Steer</b>
<b>COMMITTEE:</b>	<b>Donna Meeuwsen, Oui Ju, Jim Fogarasi, Christine Robertson, Craig Humfrey, Geoffrey Spear, Craig Dicker</b>

### **NON COMMITTEE POSITIONS:**

<b>Registrar</b>	<b>Phil Steer</b>
<b>Editor</b>	<b>Christine Robertson</b>
<b>Web Master</b>	<b>Michael Willoughby</b>
<b>Librarians</b>	<b>Raelene Gardner (Main Meeting) Diane Cawley (Southern Region)</b>
<b>Photographer</b>	<b>Neil Cooper</b>
<b>Convenor S. R. Group</b>	<b>Geoff Spear</b>
<b>Convenors Daytime Chapter</b>	<b>Barbara Almond, Patty Abell</b>
<b>Convenor Main Beginners Gr.</b>	<b>Craig Humfrey</b>

### **LIFE MEMBERS**

\* denotes Member who has passed away.

1978 Dulcie Grave *	1986 Harry Viney *	2009 Don Biebrick
1978 Leora Harvey	1986 John Nicholls	2009 Henk Van Leuveren*
1978 L. & H. Poole*	1989 Helen Edwards	2010 Dorothy Carassai
1978 Ellie Shaw*	2003 Norman Gitsham	2011 John and Bev Gay
1979 Syd Monkhouse	2005 Merve Steele*	2012 Noel Oliver *
1979 Bernie Hanson*	2005 Shirley Steele	2015 Lesley Fenton
1981 Lois Hanson*	Circa Tony and Toshy Deonno*	2015 Rod McRedmond
1981 John Leeder*	2007 Ron and Irene Parish	2018 Kevin Western
1985 Brenda Lynch	2007 Murray Boulderstone *	This list is still being
1985 Bubs Gready *	2008 Geoff and Lucy Spear	compiled.

### **SUBSCRIPTIONS:**

Subscriptions for 2019 are now due. We do value your membership and seeing you at meetings each month.

#### **RATES – One membership covers all groups**

<b>Family Membership</b>	<b>\$38.00</b>
<b>Single Membership</b>	<b>\$30.00</b>
<b>Junior Membership</b>	<b>\$22.00</b>

#### **Rural and Interstate Membership**

<b>Family Membership</b>	<b>\$34.00</b>
<b>Single Membership</b>	<b>\$28.00</b>

## **Happy Birthday .....**

**JACK CRONSHAW, DONJA HAYES,  
GRAHAM ZERBE, HENRY HANCOCK,  
CRAIG DICKER, ELSIE CLIFFORD,  
VERONICA WALSH, LYNN HEYSEN**

Is your name in the Birthday Book ??

## President's Message

Last month we were treated to a presentation from Callyn Farrell from Down Under Native Orchids on the influence of *Dendrobium speciosum* in its hybrids. The presentation was very well received and we welcomed members from other Orchid clubs who came to hear Callyn's presentation.

This month we welcome Steve Howard who will talk on Cattleyas. This is a genus of showy flowers of varying sizes from the very large to what was known as teacup Cattleyas. Cattleyas come in a range of colours as well as shape and sizes, come along and learn more from Steve.

Our Winter Show (July 28th - August 3rd) is at Colonnades this year. We congratulate all the winners and many thanks to all the members who have shown their plants and provided plants for the sales table. Without these plants our shows would not be the spectacle for the public that they are.

The Southern Region Show is being held at a new venue, the Victor Central Shopping Centre, 274 Torrens Street, Victor Harbor (Woolies) from the 22nd - 25th August this year and our growers from the Southern Region always put on a great spectacle. Make a day of it to see the show and visit Victor, you may even see a visitor in the bay.

Please consider entering the orchid competition at the Royal Adelaide Show this year. It is an open competition offering generous prize money throughout all of the classes. The South Coast Orchid Club of South Australia is sponsoring Champion Seedling this year. To find more visit the Royal Horticultural website, [www.theshow.com.au](http://www.theshow.com.au). It is a wonderful opportunity to show our passion to the public.

Successful growing and showing

*Michael Willoughby*

### **Christmas meeting Wednesday 6th December 2019**

There has been a suggestion that instead of the regular meeting on 6th December 2019 that a bus trip to see the Christmas lights around Adelaide be organised.

Please give us an idea of what you would prefer to do for the Christmas meeting this year. A clipboard will be put out for all members to give an indication at August main meeting.

- \$25 for bus trip to see Christmas lights around Adelaide
- \$25 for bus trip plus \$25 meal on way to looking at the Christmas lights
- We have a Christmas meeting and meal as we had in the clubrooms last year, same price as last year. Catered by Texas Bull Machine

Don't forget to let us know your preference at the August Main Meeting.

## **ORCHID CALENDAR 2019**

**WINTER SHOW:** Sunday 28th July to Saturday 3rd August 2019  
Colonnades Shopping Centre

**SOUTH REGION SHOW:** Thursday 22nd August to Sunday 25th August 2019  
Victor Central Shopping Centre

**PLANT HOUSE VISIT:** Sunday 8th September 2019  
Laurie & Sue Carter Residence

**SPRING SHOW:** Sunday 22nd September to Saturday 28th September 2019  
Seaford Shopping Centre

**PLANT HOUSE VISIT:** Sunday 13th October 2019  
Jane & Don Higgs Residence

In July the Club celebrated its 54th Birthday. Callyn Farrell provided an interesting talk, there were lots of beautiful orchids on display and we finished the evening with a sumptuous supper.

Our Patron Coralie Hills cut the Birthday cake and we all sang "Happy Birthday to Us".

## PLANT OF MONTH - *Cuitlauzina pulchella*

*Cuitlauzina pulchella* (*Osmoglossum pulchellum*) has been seen on the show benches of the Club recently but little is known of its origins so it is time to write about it. *Cuitlauzina pulchella* is a native of Mexico, Guatemala, Honduras, Nicaragua and El Salvador where it grows as a sympodial epiphyte in pine-oak forests at elevations of 1400 to 2100 m.

The clustered, egg shaped, tapering, compressed pseudobulbs are usually glossy yellowish green. Two 36cm long leaves are slender, sharply pointed, rigidly erect, have papery texture and arise from the top of the pseudobulb. Erect to arching flower spike grows from the base of the new growth. 3-8 white flowers are long lived and very fragrant; Lip is held uppermost, reflexed at callus apex to form a right angle so apex points backwards to ovary. The fleshy yellow callus has dark red spots and consists of two lateral ridges that terminate in prominent erect tips and a central triangular ridge that points to the column.

It has a limited history of hybridization with 6 primary offspring and 9 Offspring in total. It has been awarded worldwide 16 times, both cultural awards and quality awards. In Australia there have been five awards 1ACM, 1ACC, 1AM and 2 HCC.

## PLANT COMMENTARY FOR JULY

### Orchid of the Night and Orchid of Open Division

**Orchid of the Night**  
**Orchid of Open Division**  
*Zga. Big Park x Npp. Jimbaran*  
 Grown by Robert & Lesley Gunn  
 Photo Neil Cooper

The plant of Open Division was a *Zygopetalinae* intergeneric *Zga. Big Park x Npp. Jimbaran* 'Black Sabbath'. (The judges were unable to find the parentage of *Zga Big Park*). The plant was very well grown by Lesley and Bob Gunn.

The plant was a reasonably compact plant with four inflorescences each carrying several flowers. The plant was very clean and free of any fungal spotting. The flowers were a good shape and well filled in and had contrasting colours with a purple labellum on shiny brown sepals and petals.

Lesley grows her plants in a shade house under 70 % shade cloth.

**Seedling of the Night**  
*Cym. Kelly Blakiston x Ruby Sarah*  
 Grown by Michael Willoughby & Oui Ju

## PLANT COMMENTARY FOR JULY cont...

### Orchid of First Division

The plant of First Division was grown by George Misirlis and was a very clean and well grown plant of *Cym. Morialta* 'Morialta Falls'. This *Cymbidium* was first registered in 1985 but continues to be a winner on the Showbench.

The flowers were evenly spaced around the plant on 6 inflorescences with two still to open. A rough count resulted in approximately 28 flowers on each inflorescence. The inflorescences displayed themselves nicely hanging over the edge of the pot giving a terrific display of small orange flowers with a striking red labellum.

Congratulations George.

**Orchid of First Division**  
*Cym. Morialta* 'Morialta Falls'  
 Grown by George Misirlis

### Orchid of Second Division

The plant chosen by the Judges was a small but well grown plant of *Npp. Adelaide Jester* x *Z. Artur Elle* 'Essendon' grown by Coral Tillman & Trevor Kenny. This plant had two new growths with two spikes on each. The plant was clean and free of fungal spotting. The flowers were clean and fresh and presented themselves well on the plant.

The colour contrast of the flowers was striking with a pale green background to a striking white lip with purple striations. The foliage was a pale green, indicating that the plant was growing in optimum conditions to promote growth. Coral grows this plant on a back veranda which is north facing.

Well done Coral and Trevor

Thank you to our Judges, Recorders & Pencillers for all your efforts! I am looking forward to seeing all your achievements at the upcoming winter show and remember, don't judge your own plant, leave that to the Judging Panel.

Good Growing .

*Phil Steer Registrar*

## DAYTIME CHAPTER Thursday 11th July 2019

Hi Everyone,

Even though it was a very cold day we had a good turnout to watch and hear what Geoff Spear had to say about repotting cymbidiums . Unfortunately Lesley and Bob Gunn, Patty and George Abel and Max Almond were unable to join us. A warm welcome was given to Rowan Crowhurst and Josephine Ogrowsky.

We were very grateful that Geoff was able to step into Kevin Western's shoes at the last minute as Kevin was stranded in New South Wales. Geoff's demonstration was very informative with humorous anecdotes. The new members asked Geoff several questions and were surprised that they were treating their orchids with kid gloves. Thank you Geoff for helping us out at the last minute.

Rowan offered to describe the orchids that were on display and Coral Tillman's green *Zygopetalum* won Plant of the Day.

We had a discussion on what we would like to do at Christmas and members can ring me on 82783848 if they have any ideas.

Our next meeting is on August 8<sup>th</sup> and hopefully Kevin Western will be back and able to speak to us.

After the meeting members enjoyed a scrumptious afternoon tea.

*Barbara*

Geoff Spear our Guest Speaker  
and Barbara Almond

Convenor, Geoff Spear opened the meeting at 2.10pm welcoming the 37 members present. Many thanks to John Gay for once again passing on his wonderful knowledge to the Learner Class - despite just this morning having to admit his wife to hospital after a fall. Best wishes to Bev. Geoff also thanked Pauline and Mark Hockey for bring along a large number of plants for sale to members. And he welcomed guest speaker Dawn Franklin and her husband Ian as well as a visitor and possible new member Keith.

Geoff and Lucy reminded members about the forthcoming Southern Region Show from Thursday 22nd to Sunday 25th August – to be held this year in Victor Central – at the top of the escalator. The tables and other items for the display will be put in on the Wednesday evening – with plants coming in for judging etc between 7 and 8 am Thursday. There are still a couple of spots to fill on the roster. Lucy has tags for sale plants – which must be brought in on the Wednesday evening.

**Guest Speaker:** Our guest speaker for the day was Dawn Franklin, a member of the Gawler Districts Orchid Club and OCSA. Dawn has been growing orchids for some 15 years since being introduced to them by Pat & Dave Harmer. Dawn's special love is *Oncidiums* – but we learned at the end of her talk that she had recently been awarded for a large specimen *Paphiopedilum* so clearly she spreads her love around. Her presentation was one of the best we've had in recent times, being both informative and amusing as she told the tale of her personal journey with these wonderful plants. It will surprise members who heard her to learn that this was her first ever orchid presentation – well done Dawn – we loved it!!

## First Division

### Australian Native Epiphyte - Hybrid

1599	Den. Hilda Poxon 'Ern'	Eileen Pinnock (519)	3
1600	Den. (Blushart x Rutherford Starburst)	Eileen Pinnock (519)	2
1601	Den. Anne's Rainbow Surprise	Shirley & Don Greig (1128)	1

### Australian Native Epiphyte - Species

1598	Den. teretifolium	Eileen Pinnock (519)	3
------	-------------------	----------------------	---

### Australian Native Terrestrial - Species

1602	Cyrtostylis robusta	Ruth Tugwell (613)	3
1603	Corybas incurvus	Ruth Tugwell (613)	2

### Cymbidium 60 - 90mm White Cream Yellow Green

1606	Cym. (Trace's Bullion x Lunar Glow)	Sid James (170)	3
1607	Cym. Unknown 2	Sid James (170)	2

### Cymbidium over 90mm - any other colour

1604	Cym. Maluka 'Brilliant'	Sid James (170)	3
1605	Cym. Yellow River 'Estar'	Sid James (170)	2

### Cymbidium under 60 Red Pink Brown

1608	Cym. Heathsted 'Winter Sarah'	Sid James (170)	3
1609	Cym. Memoria Dora Price 'Rosalie'	Sid James (170)	2

### Cymbidium under 60 White Cream Yellow Green

1610	Cym. Star Gazer	Sid James (170)	3
1611	Cym. My Sweet 'Amy'	Sid James (170)	2

### Oncidiinae - Hybrid < 60mm

1613	Lsz. Mini Primi	Eileen Pinnock (519)	3
------	-----------------	----------------------	---

### Oncidiinae - Hybrid > 60mm

1612	Milt. unknown	Eileen Pinnock (519)	3
------	---------------	----------------------	---

### Oncidiinae - Species

1614	Cu. pulchella	Shirley & Don Greig (1128)	3
------	---------------	----------------------------	---

### Orchid Genera not listed elsewhere - Hybrid

1618	Aranda Prapin	Chris and Lyn Heysen (1140)	3
------	---------------	-----------------------------	---

### Orchid Genera not listed elsewhere - Species

1619	Ste. restrepiodes	Shirley & Don Greig (1128)	3
1620	Max. schunkeana	Shirley & Don Greig (1128)	2

### Paphiopedilum - Non Standard

1616	Paph. Unknown	Sid James (170)	3
1617	Paph. Yi-Ying Tricolor Crystal	Chris and Lyn Heysen (1140)	2

### Paphiopedilum - Standard

1615	Paph. Yi-Ying Golden Slipper	Sid James (170)	3

### ATTENTION EXHIBITORS - PLANT NAMES

After you have displayed your plants at the meetings or at one of our Shows, you should check the results lists for your plants. You need to check the names of your plants.

At present there is a lot of reclassification of orchids into different genera with current studies of DNA for relationships. Many crosses are also being registered.

The judges do try to keep up to date with these changes and pass them on to you, the exhibitors.

## SOUTHERN REGION SHOW

### Wednesday 21st August:

Meet at 5.45pm side door by escalator for 6pm start.  
Geoff and Warren in charge of Trailer and handing out stock.  
First set up trestles for trading table, Ladies put on cloths, Shirley and helper mark off Orchids members are bringing in orchids for sale .  
Orchids to be bought in from Van and put on Trading Table  
Bring in equipment from van to build Show Stand.  
Out by 8pm but 2 people required to stay till 9pm please.

### Thursday 22nd August:

7.45am please  
8 am Show Plants To be put into display for Judging,  
Lynn Heysen and Lucy to arrange display .  
9am Sharp Judging

### Sunday 25th August:

Take out 3.30 pm, Many helpers make light work.

### Note:

Members working on the Trading Table, please see Gary, Maintenance Man, for Car Park Permits

**HAVE A GREAT SHOW**

## **Orchid Culture Notes for August**

The last month of Winter is already on our doorstep and the Spring shows not that far away. August weather is still cold but we seem to get enough 20° to remind us that Winter is starting to lose its hold. After a very cold and wet July this is surely a positive to look forward to.

We are nearing the peak months of our flowering season especially for those with collections dominated by natives and cymbidiums. This year displays have seen quite a high percentage of plants showing the effects of cold and exposure. Even when grown under cover effects of botrytis are apparent and although we will soon enter a drying phase, most of our flowering plants will still suffer the effects. The only way to combat this is to remove plants to an area under cover where the air is quite dry. That is why I test the boundaries at home and load up my laundry. Even though I have an 8 x 3 flowering house outside, I too cannot escape the marking of the flowers that is so bad this year. The laundry will provide me the dryness I need: I can always hang my clothes in the flowering house!

Very soon it will be time to look at the annual task of re-potting and division. Whilst still a couple of months away, now is a good time to take stock of the numbers of plants that need work so we can stock up on pots, mix, etc. I usually start looking at the seedling catalogues about now to get my orders in to coincide with Spring. No point really subjecting little plants to our cold Winter unless you have the right protection, so getting them at a time of year with the weather warming and the plants entering new growth is a sound decision if we are to get them underway.

Many orchids are still resting and a keen eye will already see the commencement of new shoots to herald the start of a new season. It is hard to believe but by the end of August we have already put nearly 90 minutes of extra daylight onto the Winter solstice. This is plenty of daylight increase to tell the plants it is time to start moving again soon.

Not all plants rest over winter. Zygopetalums are one orchid that do not appear to have a resting period, as are the cymbidiums. Sure they slow up but never really go dormant. With weather still cool and the humidity high, watering is still infrequent and should be applied only when the plants are dry and ideally left to the warmer days. Zygopetalum new growths should be well advanced so stick with the higher nitrogen to balanced feeds until they bulb up later on.

Those looper caterpillars are quite bad this year and have been all over Winter so regular inspection of any chewing activity under the leaves is a must. The cold and wet of this winter has also taken toll on some of the new growths and they have rotted out or at best lost a few leaves. Either way this growth will be severely restricted and will not build up a new bulb, if it even does so and unlikely to produce a new growth big enough to flower off next year.

Now is the time to reduce the watering on the natives and dry them out somewhat. In the eastern states the Spring months are the driest part of the year and this is where most, if not all our Australian natives come from. Watch out for aphids on the new spikes and keep dry. One cold, wet episode will have buds dropping like flies. If you can, try to maximise light levels as the natives flower to bring out the colour.

Cattleyas will soon show new growth eyes developing from the base of the previous years canes and the sheaths of the spring flowering species and hybrids will start to fill out. If these sheaths show any sign of fungal spots I would be peeling them back to expose the buds and keep the buds dry. Leaving the spots to enlarge will invariably mark or even rot out the buds. A Cattleya will only flower once off a pseudobulb. Watch out for any fungal problems near the growth buds. This is usually indicated by the presence of black sheaths. Preventative sprays of fungicides can certainly reduce this somewhat.

## **Orchid Culture Notes for August cont..**

Oncidiums have now finished their flowering and are generally resting. Those in active growth are only watered if conditions are very dry or the plant grown under cover. Feeding is monthly at my place for these as the cool temperatures slow down the plants metabolism and their need for supplementary feeding. I only feed Oncidiums that show active roots.

Even though the Oncidiums have largely finished there are plenty of Oncidiinae intergenerics around that will grow cold and provide colour for much of the year. Colmanaras, Beallaras, Odontocidiums (now Oncidiums) and Vuylstekearas are just a few of the complex that are quite happy here grown above the Cymbidiums. I also find that these intergenerics are quite variable in their flowering times as well and even have the luxury of sporting a second spike after the first one has died down. A little more cover over Winter will improve your results as these do mark easily.

The majority of the terrestrials we see benched will begin flowering from now on. Starting off with the greenhoods (*Pterostylis*) and later on the donkey orchids (*Diuris*) and the sun orchids (*Thelymytra*). Keep evenly moist and try to keep the light levels up. Weak feeds of organic based feeds like seaweed and fish emulsions will assist growth. Avoid chemical fertilisers. Pull out weeds as they appear and remove any plants that show signs of virus or fungal problems. This is usually identified by odd markings, and yellowing of the leaves. Fungus affected plants literally fall out of the pot when you lift up a leaf. Virus in *Diuris* shows up with brown markings.

Paphiopedilums are well into their flowering season and like many genera are easy to grow once the culture and correct conditions are provided. The large standard Paphiopedilums (standard referring to shape) usually peak this time of year with the smaller novelties later on as the weather warms. The trick with Paphiopedilums is to keep them evenly moist and moving. They don't mind being grown close together and take up little space and are a low light orchid. So for those that have a shady section in the shade house a small collection of cool growing Paphiopedilums is worth a try. They are not a hungry feeder, little and often is the key.

A new crop of Spring and Summer weeds will soon show up and should be removed as soon as they appear. Continue to treat for slugs and snails as many genera are now in flower and these new soft spikes make good tucker. Wrapping some copper strip or even cotton wool around the base of the spikes will deter them. Please remove the cotton wool before you show your orchid. We judges want to judge an orchid and not a poodle.

Observe for any fungal problems. With warming weather this will become a bigger problem over the next few months. Remove dead leaves and flowers as soon as you can as these when wet will attract fungal problems overnight. Some plants that do show signs of rot may be telling you something about your culture as well. Factors such as: I am too wet, too cold, lack of air movement, my mix has broken down, I have been damaged, are just some of the many causes of fungal attack. I have been on many orchid walks in the wild yet have never seen the fungal problems there that we have in our collections. So it is clear that these problems are our doing and we must be able to identify why and act accordingly. It is what makes us a better grower, the ability to observe and act. We will never eradicate these problems given that the majority of the genera we grow are so far removed from the species that make up their background that their own natural defences will not work. The best offence to defence is good culture.

The key to August is to provide flowering and near flowering plants with the cover they need to avoid environmental damage. Pest numbers are still down but it won't be long before their numbers increase. Observe plant resting periods and keep an eye out for any developing problems with fungal issues. September is on our doorstep and with it another growing season ready to begin.

*Steve Howard*

## **ORCHID CLUBS IN SOUTH AUSTRALIA** **General Meeting Times**

**THE SOUTH COAST ORCHID CLUB OF SOUTH AUSTRALIA:** Meets on the first Wednesday of the month at St. Bernadette's Church Hall corner of Walsh Avenue and South Road, St. Mary's. Beginners Class starts at 7.15p.m., meeting at 8.00p.m.

**THE DAYTIME CHAPTER:** meets at the Lou Kesting Hall, off Broadway, South Brighton on the second Thursday of the month at 2.00p.m.

**THE SOUTHERN REGION:** meets at Carrickalinga House, 17-19 Torrens Street, Victor Harbor at 2.00p.m. on the 3<sup>rd</sup> Sunday of the month.

**THE ORCHID CLUB OF SOUTH AUSTRALIA:** meets at 8pm in The Enfield Community Centre, 540 Regency Road, Enfield on the 1<sup>st</sup> Thursday of the month.

**Daytime Group:** meets from 2.00p.m. to 4.00p.m. in the Enfield Community Centre, 540 Regency Road, Enfield on the 2<sup>nd</sup> Friday of the month.

**THE MURRAY BRIDGE AND DISTRICT ORCHID CLUB:** meets at 1.45pm in the Seventh Day Adventist Hall, corner Myall Avenue and Standen Street, Murray Bridge on the 4<sup>th</sup> Sunday of the month.

**NORTHERN AND EASTERN DISTRICTS ORCHID SOCIETY:** meets in St. Philip's Church Hall, Galway Avenue, Broadview from 7.30p.m. on the 3<sup>rd</sup> Thursday of the month.

**THE SOUTH AUSTRALIAN ORCHIDACEOUS SOCIETY:** Meets at the Adelaide West Uniting Church Hall, 312 Sir Donald Bradman Drive, Brooklyn Park from 7.30p.m. on the 3<sup>rd</sup> Wednesday of the month.

**THE NATIVE ORCHID SOCIETY OF SOUTH AUSTRALIA:** meets at 7.30p.m. at St. Matthew's Church Hall, Bridge Street, Kensington on the 4<sup>th</sup> Tuesday of the month.

**THE CYMBIDIUM CLUB OF SOUTH AUSTRALIA:** Meets at 7.30p.m. at Burnside Community Centre, 401 Greenhill Road, Tasmore on the 4<sup>th</sup> Wednesday of the month.
