

THE SOUTH COAST ORCHID CLUB OF SA INC.

Gazette

September 2019

Patron: Coralie Hills FAOC
President: Michael Willoughby

AT A GLANCE

The next meeting of the South Coast Orchid Club of South Australia will be held on Wednesday 4th September 2019 at 8.00 pm at St. Bernadette's Church Hall, corner of Walsh Avenue and South Road, St. Marys. Our Guest Speaker will be Dawn Franklin speaking on Oncidiums. **PLEASE BRING A PLATE** for Supper.

LEARNER'S GROUP: The next class will be 4th September 2019 at 7.30pm.

JUDGING: Please have your plants benched by 7.40pm so Judging can commence at 7.50pm. If you are running late due to work commitments please phone Phil on 0438 891 612.

DAYTIME CHAPTER: The next meeting will be held at Lou Kesting Hall, off Broadway, South Brighton on Thursday 12th September 2019 at 2.00 pm. We will be having a "Getting Involved" session where members will tell us how they got interested and involved with Orchids.

SOUTHERN REGION: The next meeting will be held at 2.00 pm on Sunday 15th September 2019 in Carrickalinga House, 17-19 Torrens Street, Victor Harbor. Our Guest Speaker will be Kevin Western talking about Cymbidiums. Learners Group will be taken by John Gay.

LUCKY NAME BADGE: Make sure you wear your Name Badge to meetings, you may win a prize.

PUBLIC LIABILITY: Under Insurance Guidelines all members and Committee attending any function or meeting held by the Club must sign and print your name on an Attendance Sheet.

VALE - GRACE NOLL 1932-2019

Grace joined Southern Region group of SCOCOSA in April 2005. Grace will be sadly missed as she helped wherever she could. Grace was an excellent grower winning many prizes: Samurai won her best of 2nd Division and she won Grand Champion at the Winter Show at Hallett Cove In 2011. She shared divisions of her plants with other club members. Grace always noticed new members, took them under her wing and showed them how she grew her plants. Our condolences to her family.

RIP

DEADLINES FOR NEXT GAZETTES 22 September and 27 October

SUBSCRIPTIONS:

Subscriptions for 2019 are now due. We do value your membership and seeing you at meetings each month.

RATES – One membership covers all groups

Family Membership	\$38.00
Single Membership	\$30.00
Junior Membership	\$22.00

Rural and Interstate Membership

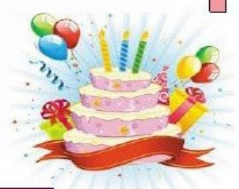

Family Membership	\$34.00
Single Membership	\$28.00

Happy Birthday

**DOROTHY CARASSI, PETER FLAVEL, OUI JU,
JOHN ROBINSON, MICHAEL WILLOUGHBY, SUE ZERBE,
RICHARD WILSON, KAY DAVEY. HELEN MCINTOSH,
DON GREIG (80 Years), ERICA AUSTIN,
JOAN MCMAHON, EILEEN PINNOCK,
STEVEN DAVEY, MARG YELLAND**

Is your name in the Birthday Book ??

President's Message

Are we noticing the effects of climate change as it seems we now are having more extremes of weather? We as orchid growers will need to adapt and evaluate what we can grow and how we grow our collections as we have this challenge put to us after receiving approx. 127mm or 5 inches in the seven months from September 2018.

By all reports the Southern Region Group Annual Show has been a success and in a different location as well; it has been well received by the public. Well done to all the winners and the Southern Region Group growers who put on a great display each show.

There has been changes to our Spring Show being held at the Seaford Central Shopping . This is with the show dates. Please make yourselves aware of these changes and make arrangements to suit if needed. This show is a great opportunity to sell any surplus plants that are in your collection so see what you can part with. See Lucy for plant sales sheets and tags. Please check the Gazette for the Spring Show put in times; they are slightly different than the normal put in time.

Come along to this month's meeting as we welcome a first time speaker to the main group. Dawn Franklin is our guest presenter who will telling us about Oncidiums, a large and varied group of rewarding orchids to grow.

We have a plant house visit this month at Laurie & Susan Carter's house on Sunday 8th September; look for more details below in the gazette.

The committee each year steps down from their positions and now is a good time to think if you are able to spare some of your valuable time as a member of our committee. It is very rewarding.

Successful growing and showing

Michael Willoughby

PLANT HOUSE VISIT SUNDAY 8 SEPTEMBER

The Club has been invited by Laurie and Sue Carter for a Plant House Visit and BBQ at their home 1 Squires Court Summertown from 10.30am

What to bring - a salad or cake, your own drinks. The club will provide meat and bread.

ORCHID CALENDAR 2019

PLANT HOUSE VISIT: Sunday 8th September 2019
Laurie & Sue Carter Residence

SPRING SHOW: Thursday 19th September to Friday 27th September 2019
Seaford Shopping Centre

PLANT HOUSE VISIT: Sunday 13th October 2019
Jane & Don Higgs Residence

SPRING SHOW

SEAFORD RISE SHOPPING CENTRE

THURSDAY 19 SEPTEMBER TO FRIDAY 27 SEPTEMBER 2019

SHOW SET UP: **Thursday 19 September** from 6.00 - 9.00pm the frame work of the Display will be built at Seaford Rise Shopping Centre. Also the Trading Table and early Trading Table Plants will be set up.

Friday 20 September the Trading Table will open for business from 7.00 am to 9.00 pm.

JUDGING: **Saturday 21 September** at St. Bernadette's Church Hall, corner of Walsh Avenue and South Road, St. Marys.

PUT IN TIME: 9.00 - 10.45 am

JUDGING: 11.00 am Sharp.

After judging plants are to be taken to Seaford Rise Shopping Centre to be delivered in an orderly fashion to go in the Display. Please make prior arrangements to take your plants from St Bernadette's Hall to Seaford Rise. Your display plants may be taken straight into Seaford Rise. Please take your plants to Seaford Rise as soon as possible after judging, for us to build a beautiful display.

TRADING TABLE: Members may bring their plants at this time or at anytime during the week. Remember the Shows are the Club's bread and butter. Please bring along any plants you have for sale.

Remember Sunday 22 September will be the best selling day from 12 noon.

TAKE OUT: **Friday 27 September 7.30 - 9.00 pm**

REMINDER: To sell your plants at the Show you must be a financial member and to show a plant you must have owned it for 6 months.

MOST IMPORTANT: The Show Marshall will ring any member if for some reason she feels that any plants may be showing signs of distress.

PREPARING ORCHIDS FOR SALE

1. Select the plants that you want to let go. If your plants are not in flower, you may still sell them but you must attach a photo of the flower.
2. Obtain Plant Sheets and Plant Price Tags from Lucy in the weeks prior to the Sale.
3. Clean all pots. Wipe them over with a damp cloth to remove all white residue of salt from the pots. If these pots have been recycled from somewhere else, please make sure any old advertising and price stickers are all cleaned off.
4. Check all stakes and add more if necessary and re-tie.
5. Remove old brown husks from bulbs and remove weeds, snails, scale etc.
6. Remove all dry ends on the leaves and shape to a point.
7. Wipe leaves over with a mixture of milk and water (1 part milk to 10 parts water). Do not overdo the milk by adding extra as the fat in the milk will clog the pores in the leaves which will then yellow off and die.
8. Water all plants 2-3 days before, not on the morning that you are bringing them in. This water really makes a mess on our clothes, tablecloths and the floor.
9. The **SALES SHEET** is a carbonless duplicated sheet, so both sheets are to be used together. Press down firmly on a hard surface to imprint on the second page. The original and duplicated sheets must be lodged with plants.
 - Print your name in the top left hand corner of the page
 - Print your club member number in the top right hand corner
 - Rule a narrow column down the left side of the page. This column is for the plant number 1-30. Please use consecutive numbering for additional sheets i.e. 31-60 for page 2, etc.
 - On the right hand side you need a column a bit wider for the selling price of the plant. Be reasonable with the pricing, not greedy. Either you want to sell it or you don't. Take into account the number of spikes and condition of the plant. If you are not sure of pricing, ask someone.
 - The centre section is for the description e.g. Cym, *Den*, Cat, etc. and the name and colour of your plant e.g. Cym. Without Peer 'Soft Touch' (pink).
10. Next write your **PRICE TAGS**. It's a good idea to do both sides of the tag.
 - Your member number goes on the left hand side
 - The plant number on the right hand side. Circle the plant number.
 - Write your price under these numbers.

Make sure that the tag on the plant matches the information on your sales sheet . These plant price tags need to be checked off on your sheet by another person when you bring you plants in. You can help by reading out the numbers and price on the tag with the other person checking off the list. If there is a discrepancy, it needs to be attended to. Give both copies of the sheet to the person checking the plants off. If you need a copy for yourself, take a third copy. However in most cases you will be given one sheet back with your cheque.

We hope these notes help you. Lucy is always around to assist you further if needed, so just ask for help should you need it.

EXHIBITORS' RULES FOR SHOWS

1. All exhibitors must be financial members of the South Coast Orchid Club of South Australia Incorporated.
2. Entries are free.
3. Exhibitors are bound by the Constitution, Rules, By-Laws and Special Show Rules of the Club.
4. The opinion of the judges is final and binding and no objections or discussions regarding results will be considered, with one exception, which is an infringement by an Exhibitor of any of the Club's Rules, By-Laws or Show Rules. Any objection in this case must be lodged with the Club Show Marshall/Secretary.
5. The Club accepts no responsibility for any loss, damage or infection suffered by any plant or blooms exhibited.
6. The Club reserves the right to photograph any of the exhibits if it should so wish.
7. In all matters regarding the arrangement and conduct of the show (with the exception of judging) the Show Marshall/Secretary is the ruling authority.
8. No plants suspected by the Club Virus adjudicators of being infected with virus will be eligible for competition and such plants will be completely isolated from all other plants.
9. The exhibition areas will be closed during the judging. No exhibitors, the public or members other than the Show Marshall/Secretary, Judges of the Club, Associate Judges and other persons appointed to assist in judging will be allowed to remain in the exhibition area during this period.
10. Non-exhibitors are requested not to congregate in the exhibition area prior to judging so that officials can arrange plants and perform other necessary duties.
11. Plants must be labelled with the coloured labels provided by the Club with the exhibitor's number and name of plant. These are available from the Show Marshall/Secretary or his/her nominee.
12. Exhibitors are to ensure that all labelling be neatly and correctly performed in accordance with the procedure laid down on orchid Nomenclature and Registration.
13. All plants benched for judging at the show must be made available to be in the Club display for the show week.
14. All exhibits must be benched by the nominated time on the nominated day for Judging. The nominated day and time will be published in the Club Gazette in the month prior to the Show.
15. Exhibits must not be removed before nominated time on the nominated day at the end of the Display week. The nominated day and time will be published in the Club Gazette in the month prior to the Show.
16. Exhibitors unable to remove their own plants from the show should provide the person so doing with a letter of authorization.
17. Damage caused in transit to the show should be reported to the Show Marshall/Secretary or Registrar of Judges prior to judging.
18. If, in the opinion of the judges, a plant is not worthy of an award or prize in any specified section, then none shall be given.

PLANT OF MONTH - *Paphiopedilum sukhakulii*

Paphiopedilum sukhakulii has been seen on the show benches of the Club recently. It was the Grand Champion of the Club's Winter Show. *Paphiopedilum sukhakulii* is a native of north east Thailand at elevations of 240-1000 metres on Mt Phu Luang. It grows as a semi terrestrial in sandy loam and leaf mould usually along mountain streams in partial and moderate shade of large trees.

There are no pseudobulbs. There are 4-8 leaves per growth with rough tessellated top with reddish and purple spots near underside base. The leaves are shortly 3 toothed at the apex. The inflorescence spike is densely covered with white hairs. One or rarely two flowers up to 14cm across. Broadly oval dorsal sepal is white with pink flush at the base has parallel purple veins of unequal length. Basal synsepal is similar but considerably smaller. The oblongate petals are almost always horizontal, glossy bright green with darker longitudinal veins and dense covering of brownish red spots. The 3 lobed lip is moderately pointed and looks triangular when viewed from front. It is yellowish green at the apex becoming brownish or red brown to the opening. The outside is covered with miniscule hairs and the inside is glossy and wine red. The horseshoe shaped staminoidal shield is whitish green with deep green pattern, A distinct column point over each anther.

It has an extensive history of hybridization with 238 primary offspring and 2332 Offspring in total. 111 of the primary offspring have been awarded. It has been awarded worldwide 327 times, with quality awards. In Australia there have been 30 awards - 1FCC, 6AM, and 23 HCC.

PLANT COMMENTARY FOR AUGUST

Special note:

The plant commentary for the August meeting for each division was given by the Associate Judges: Beth Stronach, Helen McIntosh & Oui Ju. This was their first time and as part of the training program all Associates need to be able to give a commentary. I must commend all three of our associates on a very polished and professional commentary. I look forward to hearing from you again. Congratulations Beth, Helen & Oui.

Orchid of the Night and Orchid of Second Division

The plant chosen by the Judges was an outstanding specimen of *Den. Anne's Rainbow Surprise*. This plant was benched by Van & Charles Ortlipp, who have only been members of the club for approximately 12 months. This plant really took the Judges' eyes and was a very worthy winner.

The plant was growing in a pot of bark and clay balls and was grown in a shade house protected from the extremes of our weather. The flowers were a really good size, shape and colour and presented themselves well. It is somewhat unusual to see so many flowers open on *Den. Anne's Rainbow Surprise* at the same time, often the spikes flower one at a time. The Judges commented that this was one of the best that they have seen for some time.

Congratulations Van & Charles and we look forward to seeing lots more of your lovely plants!

PLANT COMMENTARY FOR AUGUST cont...

Orchid of First Division

The plant of First Division was a very clean well grown plant of *Den.* Graceful Gold, grown by Phil & Anne Steer. This is a crossing of the species *Den. gracilicaule* and the hybrid *Den.* Star of Gold.

The plant was growing in an 8" pot with approx. 22 inflorescences carrying approx. 10 flowers on each, making it a nice specimen. The strong influence of *Den. gracilicaule* is apparent as the flowers are small and tend to look down. The flowers however had a good shape and colour. This plant is grown under 50% shade cloth and hangs with a northerly aspect.

Well done Phil & Anne.

Orchid of First Division
Den. Graceful Gold
 Grown by Phil & Anne Steer
 Photos Neil Cooper

Orchid of Open Division

The plant of Open Division was an Oncidium Dorothy Wisnom 'Golden Gate' grown by Michael Willoughby & Oui Ju. This was a well grown plant growing in small bark & perlite and grown under 70% shade cloth under a solid laserlite roof.

The plant is a complex hybrid with some 5 species in the background with the shape coming from *Onc. alexandrae* and the colour, dots and lip coming from *Onc. leucochilum* and *Onc. tigrinum*. The geographical region for these species is the Southern Americas. The flowers had a really nice upright stem arrangement with a good flat, filled in shape and a vibrant colour contrast.

Members note: I understand that this was a raffle prize that Michael & Oui won a couple of years back. Well done Michael & Oui.

A **BIG** Thank you to our Judges, Associates, Typists and helpers for their support and efforts!
 Good Growing and keep looking for that potential winner!

Phil Steer Registrar

DAYTIME CHAPTER Thursday 8th August 2019

Hi Everybody

What a wet and horrible day to hold a meeting, we would like to thank the brave members who attended the Daytime Meeting to hear Kevin Western give an extremely interesting talk on Australian Dendrobiums. Kevin gave us many hints on how to look after our Dendrobiums and also informed us of the history. Thankyou Kevin, hopefully we can entice you to give another talk next year.

Lesley and Bob Gunn gave their apologies as well as Brian Osborn and Bill Trevaskis. Coral Tillmanns won Plant of the Day with an unknown green cymbidium "cloned at Urbrae" 20 -25 years ago. Much to everyone's delight Geoff was able to tell the members about the person who probably did the cloning.

There will be no speaker at the next meeting but members will be asked to tell of how they became interested and involved in orchids. Could you please give some thought as to what form you would like our Christmas Meeting to take. September meeting will be held on Thursday 12th.

The meeting closed with afternoon tea.

Barb and Patty

2019 SOUTHERN REGION SHOW

This year was the first time that the Southern Region Group staged its Show in the Victor Central Shopping Centre. The members were very busy putting in a terrific display in time for the Judges to start their difficult task at 9.00 am. The enthusiastic members did not disappoint with an outstanding display of 61 plants. The display was a real team effort to assemble with the end result being WOW.

The results of the judging perhaps surprised a few with a stunning little *Phalaenopsis*, *Phal.* Unknown 'Minnimoora White' grown by Chris & Lyn Heysen taking the coveted Grand Champion Ribbon. This small plant had 2 beautiful cascading inflorescences of sparkling white flowers that presented themselves beautifully. This was also the Champion of First Division.

RESERVE CHAMPION

Cym. One Tree Hill
'Solstice Gold'
Grown By
Helen Humphrys
Photo Phil Steer

The Reserve Champion was a beautiful *Cymbidium*, *Cym.* One Tree Hill 'Solstice Gold' grown by Helen Humphrys. This was also Champion of Second Division. This was a standout with a tall upright spike of yellow/gold flowers displaying themselves beautifully.

The other results included Champion Australian Native, *Den.* Elegant Glow grown by Helen Humphrys, Champion Laeliinae was *Ctt.* Adelaide Ablaze 'Fiery Gold' grown by Eileen Pinnock. Champion Oncidiinae was a beautiful *Mps.* Unknown 'Meaghan's Delight' grown by Meghan Clayton. A very impressive specimen of *Den.* Pinterry 'Tegan's Delight' grown by Ruth Tugwell was Champion Specimen.

Congratulations to the all winners and in fact all of the members who have made this an outstanding show.

SOUTHERN REGION MEETING

Sunday 18th August 2019

Life Member Geoff Spear opened the meeting with 42 members present and 54 Orchid plants for judging. What a wonderful surprise on one of the coldest days we have had. Geoff welcomed all members, two visitors Anne and Helen Odea, and our Guest Speaker, Kevin Western.

Geoff spoke of the passing of Grace Noll, an emotional time for members. Grace was well respected and joined our club at the opening of the Southern Region Group. Grace was always there to help new members and show them how she grew her orchids. Grace won several prizes with her orchids, Once she won Best of Second Division with her wonderful Samurai, a few members were lucky to be given a division. Rest in Peace Grace, you were well loved.

Christmas Dinner: Please ring Lucy 8381 4420 or 0409 642 352 or when at the meeting put your name in the Christmas Book that Elsie has for your dinner booking. Hotel Victor Sunday 8th December. I will let you now the price of the Carvery as soon as they notify me.

Apologies: Bev Gay **Door Prize :** Peter Davidge

Lucky Name Badge: Genny & Dudley Huxtable

Guest Speaker: Our guest speaker for the day was Kevin Western who spoke on Terrestrial Orchids. Another great talk again Kevin with some lovely photographs. Thank You Kevin.

Judging: was carried out by Graham Zerbe, John Gay, and Associate Judge, Christine Robertson, with Margaret Yelland and Sue Zerbe undertaking the data entry and printing of certificates.

- **Plant of the Day, Plant of Second Division and Popular Vote :**
Mps. Unknown Grown by Meghan Clayton
- **Plant of First Division :**
Cym. (Red Coral x Pure Treasure) Grown by Sid James

Next Meeting: Sunday 15th September 2019 at 2.00 pm
 Learners' Group 1.15 pm with John Gay.
 Our Guest Speaker will be Kevin Western talking about Cymbidiums.

SITUATION VACANT

Wanted a Member to man the Trading Table.
Before meeting and a half hour after the meeting.
See Shirley or Lucy.

Orchid Culture Notes for September

Spring at last! This Winter gone was a cold one. It was great for the fruit trees but not that flash for humans and orchids alike. The extra warmth in the sun and the ever increasing fine days remind us that the busiest time of the year is now upon us. We have the Spring shows, we have lots of flowers and of course it will soon be time for the important maintenance of our collection. Question, where to start! Whilst it is nice to view the Spring flush it is also the time of year that we need to plan for the year ahead. What plants will we cull, pot on or divide? Pest problems also build up as do fungal problems. I still sit back and wonder why subject myself to all of this. When I sit down in the shade house after a hard week of work surrounded by a heap of flowers and all the wonderful fragrances it is not a hard question to answer.

September weather is quite changeable, and this gets worse over the next two months as the seasons change. It can range from freezing cold to stinking hot in a short space of time, even this early in the season.

There will be many plants that did not flower so questions must be asked. Where did I go wrong? What made this plant flower well yet the other one did not. Was it the season? Here I was early in the year suggesting that this year would be a great one for the natives, how wrong I was, but good to know I was not alone. I suppose the relentless heatwaves of Summer past had something to do with it.

September will see more and more plants emerge out of dormancy. There will be new growth starting to show and new green tips emerging from white roots that sealed off some time ago. Don't be in a big rush to hit them with gallons of water and fertiliser. Changes of seasons happen gradually and not overnight. This is so easy to do when you hit that first warm day. Gradually increase the water and feeding as they grow and the seasons change. Try and water late morning or early afternoon at the warmest part of the day so plants are dry by nightfall. Tap water is still very cold and you can still get frosts for at least another month yet.

Damping off new growths is common this time of year and water is usually the culprit. If you can, try and water the pot not the plant. This is easy with a small collection and very hard with a large collection. If you do get water into a new growth, try to dry it. Blowing through a straw or using tissue paper whilst fiddly, may save a growth. By month's end the sun will be on the south side of the equator and with the closeness comes the intensity of heat. Plants in full sunlight over Winter will be moved under 50% shade, those hung high in the shade house are lowered and those that prefer shade are moved accordingly. The sun will rise in a more easterly aspect and set in the west and soon rise in the SE and set in the SW. The change in aspect will also mean plants in Winter shade can be exposed to Spring and Summer sun and this will burn them.

Pests will abound overnight. New crops of caterpillars and aphids are lining up for the new seasons growth. Slugs and snails continue to feast so they can fatten up before Summer dormancy. This year botrytis has been bad, a week of cloud and drizzle in July setting up a bad infestation. Soon rust will be on the increase, whilst not a huge problem with orchids, it can cause problems. Scale will start their breeding season. The juvenile nymphs are quite mobile and are looking for new growths. They suck out the goodness from the plants leaves and leave marks. Any marks on the new growths will be exaggerated as they grow larger.

Orchid Culture Notes for September cont..

Summer weeds will soon increase, its oxalis time! Pull these out when small and when repotting or dividing make sure all weeds are removed.

Start dividing your plants soon after flowering. I would wait until later in the month when the warmer weather has arrived, but if potting on, you can do this anytime as the plants root system suffers little from the disturbance. Remove flower spikes from weak plants or those you intend to bust up. Weak plants need all the help they can get and maintaining a flower produced in a stress related situation will not help them recover. With plants you will divide, I work on the theory of the longer growing season they have the better they will be, so why leave a spike on for ages when that extra time may give them a good chance to establish to flowering size next year.

Native Epiphytes have had another strange year with many plants in active growth all year. They are now in flowering mode and those of you who grow *Sarcochilus* should have spikes lengthening. At the same time I have single growth plants that have lost the main growth throwing out numerous side shoots. Some of these plants can be quite shy at doing this and removing a primary growing tip is a practice recommended for the experienced or the brave but when nature dishes this treatment out you take your chances. I'll get a few specimens out of this! Watering is when they need it and generally subject to the weather for plants in the open and those under cover are watered and fed weekly. If it remains dry then give them a drink, but if the weather remains wet, then they won't need any additional water.

Natives respond well to a drink of limewater this month at the rate of 1 gram per litre for those grown in bark. Fungicides sprayed on the new growths help stop spotting and damping off due to botrytis. Watering for plants that were dormant should be gradual over this month. Look for signs of movement such as new growths and roots. A few pellets of rapid raiser or blood and bone on the surface of the natives works well. Don't overdo as they will break down and form sludge in the mix that accelerates breakdown.

Keep feeding Zygopetalums with high nitrogen feed until the new growths bulb up and observe for any papery marks on the leaves that will have a looper caterpillar chewing away happily underneath! Cut off old flower spikes and try and finish any division this month. Oncidiums and Cattleyas will show new root growth and growth nodes. Gradually increase watering and start feeding when the roots show growth tips. At the moment I am just misting the roots. These two species will sprout roots from the tips of the old roots, the sides of the old roots as well as the old and new growths. Try and hang all Oncidiums above the Cymbidiums as they love stronger light and air movement. It is still a bit early to attempt any division of these two genera.

For those who grow terrestrials September and October are peak months. Keep moist and give them a weak feed with an organic feed. Two spotted mites have been bad this year so if your flowers are slightly distorted or the leaves looking a bit brown on the edges, there is a good chance that the mites have found them. Once they have finished flowering you can slowly dry off the plants. Keep an eye out for rot in the leaves caused by being too wet. Remove them and spray with a fungicide. If the rot gets into the tubers it usually spells the end of that plant.

Next month is October and is a very busy month as we strive to finish repotting and division so as to give our plants time to settle down before the heat of Summer. We will spend some time next month with some use-
ful tips on how to repot, divide and how to look after them.

Steve Howard

ORCHID CLUBS IN SOUTH AUSTRALIA **General Meeting Times**

THE SOUTH COAST ORCHID CLUB OF SOUTH AUSTRALIA: Meets on the first Wednesday of the month at St. Bernadette's Church Hall corner of Walsh Avenue and South Road, St. Mary's. Beginners Class starts at 7.15p.m., meeting at 8.00p.m.

THE DAYTIME CHAPTER: meets at the Lou Kesting Hall, off Broadway, South Brighton on the second Thursday of the month at 2.00p.m.

THE SOUTHERN REGION: meets at Carrickalinga House, 17-19 Torrens Street, Victor Harbor at 2.00p.m. on the 3rd Sunday of the month.

THE ORCHID CLUB OF SOUTH AUSTRALIA: meets at 8pm in The Enfield Community Centre, 540 Regency Road, Enfield on the 1st Thursday of the month.

Daytime Group: meets from 2.00p.m. to 4.00p.m. in the Enfield Community Centre, 540 Regency Road, Enfield on the 2nd Friday of the month.

THE MURRAY BRIDGE AND DISTRICT ORCHID CLUB: meets at 1.45pm in the Seventh Day Adventist Hall, corner Myall Avenue and Standen Street, Murray Bridge on the 4th Sunday of the month.

NORTHERN AND EASTERN DISTRICTS ORCHID SOCIETY: meets in St. Philip's Church Hall, Galway Avenue, Broadview from 7.30p.m. on the 3rd Thursday of the month.

THE SOUTH AUSTRALIAN ORCHIDACEOUS SOCIETY: Meets at the Adelaide West Uniting Church Hall, 312 Sir Donald Bradman Drive, Brooklyn Park from 7.30p.m. on the 3rd Wednesday of the month.

THE NATIVE ORCHID SOCIETY OF SOUTH AUSTRALIA: meets at 7.30p.m. at St. Matthew's Church Hall, Bridge Street, Kensington on the 4th Tuesday of the month.

THE CYMBIDIUM CLUB OF SOUTH AUSTRALIA: Meets at 7.30p.m. at Burnside Community Centre, 401 Greenhill Road, Tasmore on the 4th Wednesday of the month.
