

The South Coast Orchid Club of SA Inc.

# Gazette

October  
2016

**PRESIDENT: Michael Willoughby**  
**PATRON: Sydney Monkhouse**

## AT A GLANCE

This next meeting of the South Coast Orchid Club will be held at 8.00 pm. on Wednesday 5th October 2016 at St Bernadette's Church Hall, corner of Walsh Avenue and South Road, St. Marys. Our Guest Speaker will be Ron Parish. Ron will share his knowledge of Pleurothallidinae as well as the night time Singapore Gardens. Ron is an accomplished photographer and presenter. Don't miss this presentation as the photography is fantastic.

- **JUDGING:** Please have plants benched by 7.40 pm so judging can commence at 7.50pm. If you are running late because of work commitments please phone Phil on 0438 891 612
- **BEGINNERS' GROUP:** Next meeting 5th October at 7.20 pm before the main meeting with Geoff Spear.

**DAYTIME CHAPTER:** The next meeting will be held at Lou Kesting Hall, off Broadway, South Brighton on Thursday, 13th October 2016 at 2.00 pm. Our Guest Speaker is George Abell speaking on Sarcophilus. Beginners' Group at 1.30pm.

**SOUTHERN REGION GROUP:** The next meeting will be held at 2 pm. on Sunday 16th October 2016 in Carrickalinga House, 17-19 Torrens Street, Victor Harbor. Our Guest Speaker will be George Abell speaking on Sarcophilus. Beginners Group will be conducted by John Gay.

**NEW MEMBER:** We welcome Barbara Ardill.

**LUCKY NAME BADGE:** Make sure you wear your Name Badge to meetings, you may win a prize.

**PUBLIC LIABILITY:** Under Insurance Guidelines all members and Committee attending any function or meeting held by the Club must sign and print your name on an Attendance Sheet,

### **CHRISTMAS RAFFLE**

To be drawn at the Christmas Meeting.

\$1.00 per ticket.

**Prize:** (Displayed at Treasurer's Desk)

Travelling Bag donated by Bunnings

**Website:** <http://www.scocsa.net>

**E-Mail:** [lucys18@bigpond.com](mailto:lucys18@bigpond.com)

**Phone:** Lucy (08) 8381 4420

**Address:** 6 David Street Happy Valley 5159

ABN 83 245 384 076

08 Daytime Chapter - Noel Oliver Christmas  
18 Southern Region Group - Graham Zerbe

**Is your name in the Birthday Book ?? Please see - Heather Wright**

### **LIFE MEMBERS**

\* denotes Member who has passed away.

1978 Dulcie Grave	1986 Harry Viney *	2009 Don Biebrick
1978 Leora Harvey	1986 John Nichols	2009 Henk Van Leuveran
1978 L. & H. Poole*	1989 Helen Edwards	2010 Dorothy Carassai
1978 Ellie Shaw*	2003 Norman Gitcham	2011 John and Bev Gay
1979 Syd Monkhouse	2005 Merve Steele*	2012 Noel Oliver
1979 Bernie Hanson*	2005 Shirley Steele	2015 Lesley Fenton
1981 Lois Hanson*	Circa Tony and Toshy Deonno*	2015 Rod McRedmond
1981 John Leader*	2007 Ron and Irene Parish	
1985 Brenda Lynch	2007 Murray Baulderstone *	This list is still being
1985 Bubs Gready *	2008 Geoff and Lucy Spear	compiled.

## **PRESIDENT'S MESSAGE**

By the time this reaches you the Spring Show will be in full swing showing off our best to an admiring public at the Seaford Central Shopping Centre, a new location for the club. More on the Spring show in the next Gazette.

I'm not going to mention the weather!

Have you ever wondered how those tables turned up at Hamilton Secondary College and at the various locations of our shows? Being involved with club activities is a fun way to come to know the members of your club. The main activities outside of the meetings are, of course, our shows. To be able to continue with the current format of our shows we will need membership help in the near future as some are not able to physically do what they would like or could in the past. To offer help for two days per show (6 per year) is a small, however great help in being able to put on successful shows. Your club needs you!

Last month we had a very interesting presentation by Nicky Zurcher of Nicky's Slippers, who is a world renowned grower and hybridiser of Paphiopedilums. It was beneficial to see the different classes of Paphiopedilums that are included in our show schedule.

This month's presentation by Ron Parish is something to look forward to; the subjects will be the Pleurothallis genera, one that we do not often see on the show bench and lights at Singapore's Gardens by the Bay.

As always we look forward to Steve Howard's cultural notes for the coming month. I looked at the corresponding gazette for October 1986 on our website [www.scocsa.net](http://www.scocsa.net) and there are growing tips for Australian Epiphytes and the Cattleya alliance. It is always interesting to revisit the older gazettes.

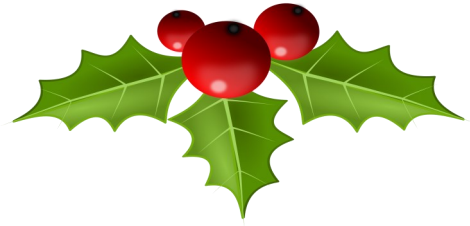

Good growing and showing

*Michael*

## **FATHERS DAY RAFFLE**

Michael Willoughby presenting the Coffee Machine to Vera Bastian, the winner of the Fathers Day Raffle

## **CHRISTMAS DINNER – DECEMBER MEETING**

**Wednesday 7th December 2016**

Christmas Dinner will commence at 6.30p.m. Sharp, with Main Meeting at 8p.m.

The Club will provide nibbles and cans of drink.

You may BYO wine, spirits and beer.

Members who would like to attend should let Barbara know as soon as possible  
so we can organize the catering.

Cost \$27.00 per head.

The main course will be catered for by **TEXAS BULL MACHINE.**

### **DELUXE SMORGASBORD MEAL**

**WHOLE BAKED SNAPPER**

**S.A. PRAWNS**

**CHAMPAGNE LEG HAM**

**ROAST TURKEY**

**SALAMI, CABANA AND METTWURST**

**SAUCES, ROLLS AND BUTTER**

**DESSERT WILL BE PROVIDED BY THE CLUB**

**Disposable plates, real cutlery, Christmas serviettes**

**Please bring a gift to receive a gift.**

**Something you would like to receive yourself.**

**Father Christmas has been invited.**

## SEPTEMBER PLANT COMMENTARY

### Plant of the Night and Plant of Open Division:

Den. (Zip x falcorostrum) 'Ian'

Grown by Michel Willoughby & Oui Ju.

A very well grown large specimen with a very high flower count. The white flowers were very clean and crisp with a thick heavy substance/texture from Den. falcorostrum. In addition to this plant winning Plant of Open Division and Plant of the Night, this plant received both Quality & Cultural AOC awards. Congratulations to Michael & Oui on receiving the awards. There were 33 plans benched in Open Division all well grown and also a good number of different genera. (Photographs to be included in next Gazette.)

### **Plant of First Division:**

Cym. Kimberley Splash 'Tee Pee'  
Grown by Bill Jayne.

Kimberley Splash 'Tee Pee' is a cross between Cym. Valley Splash 'Awesome' & Cym. Khan Flame 'Raquel' made by Bryants Orchids.

This plant is growing in a 200mm pot and has 4 spikes with 10,10, 9 and 7 flowers on each spike. It has contrasting splash markings on the flower and is judged in the other colour class. This cross has received two OSCOV awards, an AM & AD in 2007. A very well flowered plant, congratulations Bill.

In First Division there were 14 plants benched, with a good number of different genera. (Photographs to be included in next Gazette.)

### **Plant of Second Division:**

Dendrobium speciosum  
Grown by Beth Stronach.

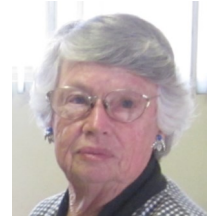

Dendrobium speciosum is an Australian native that can be found growing on trees and rocks. It can be found in Victoria, New South Wales and Queensland as well as New Caledonia and New Guinea.

The flowers are of a very good colour, yellow to golden. This plant has 4 long cascading spikes, falling like a wall of gold with large well shaped flowers. Congratulations Beth on a well flowered plant. (Photographs to be included in next Gazette.)

## **DAYTIME CHAPTER**

**Hi Everyone,**

Another great meeting today. Numbers were down a bit but regardless of this those who attended all had a great afternoon. Lesley Gunn and her husband Robert were our guest speakers and computer whizzes both doing an excellent job. The power point presentation was an overview of their trek into the Thailand Forest looking for orchids in situ. Vicky and Neil Cooper were also present on this particular trip. The terrain in the video looked a bit challenging, certainly not a gentle stroll in the park. The humidity was a bit tough, but to see these orchids and to be able to find them was a real treat making it all worthwhile. The shapes and colours of the flowers were amazing as were the shrines and temples (they have orchids everywhere) in this remarkable place. Thank you both for sharing this with us all. Well done.

Lesley Gunn receiving her thank you gift from Dorothy Carassai

Judges Vicky Cooper and Rowan Crowhurst presenting the Plant Commentary on the Display plants.

Apologies today from Andrew Deed who is now holidaying overseas, as are Reg and Helen Foster. Take care, see you all again soon. Vicky Cooper did the Plant Commentary today, doing a great job, and also sharing hints and tips on culture of these great plants. Vicky is now a fully qualified judge, so congratulations Vicky and thank you for helping out today, much appreciated.

The display table looked great today with many different genera to admire. Thanks to all who brought in their plants. Well done to you all. Coral Tillman's plant was voted Best in Display. It was a lovely green *Cym. lowianum* with the very attractive red vee shape on the labellum. It was nicely grown and presented with a very long single arching spike with many flowers all looking perfect. Congratulations Coral, well done, aren't you the clever one.

Geoff Spear congratulates Coral Tillman on her winning Plant of Display:

*Cym. lowianum*

The meeting was closed, thanking all in attendance. Take care all, hope to see you again next month. It was very nice to have Lucy and Geoff back with us again today.

Bye

*Dorothy* 8277 1793

### **SOUTHERN REGION GROUP MEETING** **SUNDAY 18th SEPTEMBER**

Geoff Spear, Senior Vice President, opened the meeting at 2 pm. welcoming 34 members, and Paul Dipuglia, our Guest Speaker representing Neutrog Australia. Geoff also welcomed a visitor, Margaret Lovell.

**Apologies:** John Gay, Graham, Sue and Lorna Zerbe.

**Birthday Draw:** Steven Davey

**Lucky Name Badge:** Eileen Pinnock

**Door Prize:** Steven Davey

**Guest Speaker:** Paul Dipuglia gave one of the most interesting presentations I have heard. I am sure members went home with a lot of new information. Thank you Paul.

Paul Dipuglia and  
Geoff Spear

**Judging:** Noel Oliver judged the plants presented. Thank you to President Michael Willoughby for assisting Noel with pencilling etc. Michael is a trainee judge.

**Plant of the day &  
Plant of First  
Division:**

Maxillaria porphyrostele  
'Pinny'  
Grown By  
Eileen Pinnock

**Popular Vote**  
Wilsonara Pacific  
Perspective 'Pacific Heat'  
Grown By  
Ruth Tugwell

**Plant of Second Division:**  
Pterostylis pendunculata  
Grown by  
Reg & Elsie Clifford

**Next meeting:** Sunday 16th October 2016, at 2.00p.m. The guest speaker will be George Abell speaking on Sarcophilus.

# September Results List

Ref. No.

Points Awarded

## First Division

### Australian Native Epiphyte - Hybrid

699	Den. Australian Artist '3'	Eileen Pinnock (519)	3
700	Den. (Berry x Ellen)	Shirley & Don Greig (1128)	2
701	Den. x delicatum 'Apple Blossom'	Shirley & Don Greig (1128)	1

### Australian Native Terrestrial - Species

702	Cal. tentaculata	Ruth Tugwell (613)	3
-----	------------------	--------------------	---

### Cymbidium under 60 Red Pink Brown

696	Cym. Ruby Brook	Eileen Pinnock (519)	3
-----	-----------------	----------------------	---

### Laeliinae - Cluster

695	Ctt. Adelaide Ablaze 'Sunburst'	Eileen Pinnock (519)	3
-----	---------------------------------	----------------------	---

### Oncidiinae - Hybrid > 60mm

697	Bsdm. Pagan Lovesong 'Cupid's Bow'	Ruth Tugwell (613)	3
698	Wils. Pacific Perspective 'Pacific Heat'	Ruth Tugwell (613)	2

### Orchid Genera not listed elsewhere - Species

703	Max. porphyrostele 'Pinny'	Eileen Pinnock (519)	3
-----	----------------------------	----------------------	---

## Second Division

### Australian Native Epiphyte - Hybrid

675	Den. Victorian Flare 'Solid Violet Lip'	Reg & Elsie Clifford (567)	3
676	Den. unknown	Reg & Elsie Clifford (567)	2
677	Den. unknown	Marilyn Jelfs (590)	1

### Australian Native Epiphyte - Species

672	Den. kingianum	Marilyn Jelfs (590)	3
673	Sarco. aequalis	Marilyn Jelfs (590)	2
674	Den. striolatum, 'Tassie Butftercup'	Reg & Elsie Clifford (567)	1

### Australian Native Terrestrial - Species

678	Ptst. pedunculata	Reg & Elsie Clifford (567)	3
-----	-------------------	----------------------------	---

### Cymbidium 60 - 90mm - any other colour

687	Cym. Pumisan 'Orange'	Steven Davey (903)	3
-----	-----------------------	--------------------	---

### Cymbidium 60 - 90mm Red Pink Brown

685	Cym. Strathan 'Enfield'	Steven Davey (903)	3
-----	-------------------------	--------------------	---

### Cymbidium 60 - 90mm White Cream Yellow Green

686	Cym. unknown	Sid James (170)	3
-----	--------------	-----------------	---

### Cymbidium over 90mm Red Pink Brown

680	Cym. (Valley Regent x White Valley)	Sid James (170)	3
681	Cym. unknown	Grace Noll (578)	2
682	Cym. Yowie Pepper 'Genghis'	Steven Davey (903)	1

### Cymbidium over 90mm White Cream Yellow Green

683	Cym. (Trinity Gold x Viva Las Vegas)	Sid James (170)	3
-----	--------------------------------------	-----------------	---

### Cymbidium under 60- any other colour

689	Cym. Vogel Magic 'Waikanae'	Sid James (170)	3
-----	-----------------------------	-----------------	---

### Cymbidium under 60 Red Pink Brown

688	Cym. unknown	Sid James (170)	2
-----	--------------	-----------------	---

### Laeliinae - Standard over 100mm

679	Rth. Twenty Four Carat 'Lea'	Marilyn Jelfs (590)	3
-----	------------------------------	---------------------	---

### Oncidiinae - Hybrid < 60mm

690	Onc. Twinkle 'Red Fantasy'	Steven Davey (903)	3
-----	----------------------------	--------------------	---

### Orchid Genera not listed elsewhere - Hybrid

693	Den. unknown	Sid James (170)	3
-----	--------------	-----------------	---

### Orchid Genera not listed elsewhere - Species

694	Max. porphyrostele 'Pinny'	Reg & Elsie Clifford (567)	3
-----	----------------------------	----------------------------	---

### Zygopetalinae - Hybrid

691	Z. Kiwi Auckland	Marilyn Jelfs (590)	3
692	Zga. Susan	Reg & Elsie Clifford (567)	2

Champion and Certificate winners from the SRG Winter Show.

Michael Willoughby with  
Reg & Elsie Clifford  
Champion Second Division  
SRG Winter Show

Michael Willoughby with  
Ruth Tugwell  
Grand Champion  
Champion First Division  
SRG Winter Show

## **SOUTHERN REGION GROUP WORKSHOP**

Come along for a fun day - 14th October 2016  
Venue: Elsie and Reg Clifford's home, 46 Lamont Road McCracken,  
phone 8552 4408 Please bring salad or cake.

### **Programme:**

10.00 am	Morning Tea
10.30 am	Creating Conditions in Your Shade House
11.30 am	Questions
12.00 noon	BBQ provided by the Club
1.15 pm	Steve Howard - Mounts, followed by questions
2.30 pm	Kevin Western - Australian Natives
3.45 pm	Afternoon Tea

The South Coast Orchid Club  
of South Australia Inc.

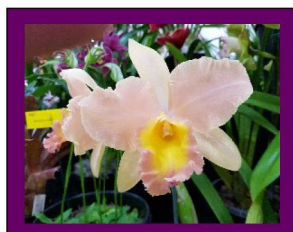

2016

# Southern Region Group WINTER SHOW

Thursday 27th August - Sunday 30th August

## **Orchid Culture Notes for October**

With the shows almost over we return back to our orchid enclosures and commence one of the most important periods in the orchid calendar. It is called maintenance and whether we like it or not, it is an important factor in the upkeep of our collections. Repotting, potting on, dividing and feeding marks what I call the busiest time of the year.

After flowering many of our plants commence a new season growth. This growth can be retarded somewhat if the flowers are left on too long, especially with orchids that hold their flowers for a long time. So the decision is do we cut them off after displays etc? This is a personal choice. Some will say in nature they don't get cut off. True. But how many grow here and how many are so far removed from their original parentage that they don't know what they are anymore. My preference is that short lived flowers such as the natives stay on until they drop but those that stay on longer such as the Cymbidiums get about four weeks before I cut them and bring them inside. Other even longer lasting orchids like the Paphiopedilums seem to do okay regardless of how long they stay in flower. Only experience with your orchid in your environment will answer this question correctly.

Other factors to take into account are the size of your plants. A large and well grown plant can support large or multiple racemes but what of a small first flowering seedling or a plant stressed from the previous year division, flowering in a last effort to reproduce and survive. It is best to remove these flower spikes early rather than subject the plant to too much added stress. Some Oncidium seedlings come to mind here, literally flowering themselves to death as a first flowering plant. What about those plants stressed after being in a shopping centre or the show for days on end. I find it best to give these plants a rest and remove the inflorescences. Again I stress, this is my personal choice and it is up to the individual to do what they wish with their plants.

Native Dendrobiums should have flowers cut once they start to droop and lose substance. Spent flowers that drop onto leaves and new growths etc soon go mouldy and attract fungal problems. One little insect bite or a damaged leaf will provide the perfect entry point for fungus and in the warmth and moisture of October this spreads rapidly. Now is also a good time to pot on and divide native dendrobiums as they commence new growth and re-establish quickly. Look for the commencement of new root growth with the new canes. Don't over pot natives and allow enough for two years growth. This is a good rule of thumb.

Always inspect the roots to see how your culture has been. The pots should have roots growing round and round the inside edge of the pot. They should be white and firm with many growing tips. The centre of the plant has fewer roots and most of these will be previous roots, brown and dead looking. If your roots are sparse all through the mix or rotted then you have a cultural problem. There could be many reasons for this. Too much water, the mix has broken down and become acidic, over fertilising or feeding when the plant is dormant or the plant being cold and wet when it should be cold and dry. This applies especially to the hot/colds. For the newer growers a hot/cold Dendrobium is a hybrid where a cool grower such as Den. speciosum is crossed with a warmer grower such as Den. bigibbum. It gives you a plant that often flowers earlier or later than most natives. The flowers last longer are usually larger and more colourful than the cooler growers. These are rapidly gaining in popularity. Treat them the same as the normal cool growers during the growing season but keep a little drier in winter and provide them with more light by hanging them above the collection.

Zygopetalums should just about be finished flowering now and large plants can be split. As with most orchids it pays to keep your divisions to a good size of three or four growths as a minimum to ensure flowering next season. Keep an eye out for the Spring looper caterpillars under the leaves from now. They are fond of the soft new leaves of your Zygoes and one or two loopers will make a mess of new growths overnight. Spray with Mancozeb every two months to keep fungal problems to a minimum. Keep water and fertiliser out of the new growths. With fungal problems rife in October your Zygopetalum will be the first to lose growths through rot. At worst it will keep 2 or 3 leaves and will be severely set back, so much so, it may not even produce a worthwhile back bulb, let alone anything strong enough to support a strong growth next year with a flower spike.

Native terrestrials start to look a little sick from now as they begin to yellow and enter summer dormancy. Reduce the watering as they enter dormancy.

New growths on the Cattleyas and Oncidiums start to move now and many will show new roots starting to appear. This tells you they are becoming more receptive to feeding and watering. Aquasol, Thrive and any feed with a high nitrogen component will suffice at this time. With the new roots forming tells you it is also a good time to divide and repot these two genera. The new roots continue to grow to support the division, often with very little set back. Do this at the wrong time and watch your plant wither and struggle.

If you decide to break up an Oncidium or Cattleya/Laeliinae do this before the roots get too long and are easily broken. Secondly if they grow long they become accustomed to an aerial existence and will rot off when placed into the damp confines of a potting mix. Make sure your division is securely positioned in the pot until it establishes.

Sarcochilus will rapidly be showing their flower spikes now as well and it won't be long before we see plenty of flowers. These are one orchid that likes a very weak fertiliser as the roots are highly sensitive. If you see them lose their green tips shortly after a feed then that's the sign that says oops...too strong or I have some micro slugs in the mix. Don't worry, they'll find your flowers sooner or later if you don't bait them now! Keep them moist also as they do not have any pseudobulbs to fall back upon in times of dryness. Rainwater is best if you can provide it and look at increasing the shade levels as well as the sun's intensity rapidly increases this month.

For those that fancy growing orchids on mounts, spring is a good time to start them off as they readily establish when new roots become evident. A good lesson here is to observe the roots. If they touch the mount and die or brown off then they are saying that host is unsuitable. Orchids are wonderful plants. They tell you when something is not to their liking. Learn to observe these signs and you are well on your way to mastering them. Overlook them and your plant will struggle and even die.

Other chores this month involve moving your plants around as the seasons change. I love moving my plants around as I strive to find the sweet spots in my shade house. I provide high light for those that like it, cool shady spots for those that hate the heat and the harsh Adelaide sun. I observe the changing microclimates and most of all make sure I don't grow the orchid that didn't flower this year in the same spot with the same treatment. Plants hung high should be lowered a little as the sun's intensity increases dramatically this month and temperatures rise. Remember these exposed plants will need water more often.

With November nearly on our doorstep we need little reminding that a hot and stressful summer is just around the corner.

*Steve Howard*

## **ORCHID CLUBS IN SOUTH AUSTRALIA** **General Meeting Times**

**THE SOUTH COAST ORCHID CLUB OF SOUTH AUSTRALIA:** Meets on the first Wednesday of the month at St. Bernadette's Church Hall corner of Walsh Avenue and South Road, St. Mary's. Beginners Class starts at 7.15p.m., meeting at 8.00p.m.

**THE DAYTIME CHAPTER:** meets at the Lou Kesting Hall, off Broadway, South Brighton on the second Thursday of the month at 2.00p.m.

**THE SOUTHERN REGIONAL GROUP:** meets at Carrickalinga House, 17-19 Torrens Street, Victor Harbor at 2.00p.m. on the 3<sup>rd</sup> Sunday of the month.

**THE ORCHID CLUB OF SOUTH AUSTRALIA:** meets at 8pm in The Enfield Community Centre, 540 Regency Road, Enfield on the 1<sup>st</sup> Thursday of the month.

**Daytime Group:** meets from 2.00p.m. to 4.00p.m. in the Enfield Community Centre, 540 Regency Road, Enfield on the 2<sup>nd</sup> Friday of the month.

**THE MURRAY BRIDGE AND DISTRICT ORCHID CLUB:** meets at 1.45pm in the Seventh Day Adventist Hall, corner Myall Avenue and Standen Street, Murray Bridge on the 4<sup>th</sup> Sunday of the month.

**NORTHERN AND EASTERN DISTRICTS ORCHID SOCIETY:** meets in St. Philip's Church Hall, Galway Avenue, Broadview from 7.30p.m. on the 3<sup>rd</sup> Thursday of the month.

**THE SOUTH AUSTRALIAN ORCHIDACEOUS SOCIETY:** Meets at the Adelaide West Uniting Church Hall, 312, Sir Donald Bradman Drive, Brooklyn Park from 7.30p.m. on the 3<sup>rd</sup> Wednesday of the month.

**THE NATIVE ORCHID SOCIETY OF SOUTH AUSTRALIA:** meets at 7.30p.m. at St. Matthew's Church Hall, Bridge Street, Kensington on the 4<sup>th</sup> Tuesday of the month.

**THE CYMBIDIUM CLUB OF SOUTH AUSTRALIA:** Meets at 7.30p.m. at Burnside Community Centre, 401, Greenhill Road, Tasmore on the 4<sup>th</sup> Wednesday of the month.
